Plans and Specifications for inspection by distant bidders may be filed at any of the Engineering News-Record offices without charge.

THESE ADVERTISEMENTS ARE OFFICIAL NOTICES THAT BIDS ARE WANTED FROM BIDDERS EVERYWHERE.

OFFICIAL PROPOSALS

Bids: June 4.

Concrete Pavement

Red Bank, N. J.

Notice is hereby given that alternate sealed bids will be received by the Council of Borough of Red Bank for the Construction of a Concrete Pavement and a Sheet Asphalt Pavement on a concrete base on Peters Place and for the Construction of a Concrete Pavement on Drummond Place and Oakland Street, in the Borough of Red Bank, N. J., and opened and read in public at the rooms of said Council, Borough Hall, Red Bank, New Jersey, on June 4, 1923, 8 p.m., daylight saving time.

Drawings and specifications for the proposed work prepared by George K. Allen, Jr., Borough Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Council of Borough of Red Bank and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the Borough Collector and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Council of Borough of Red Bank reserves the right to reject any or all bids if deemed to the best interests of the Borough so to do.

By order of the Council Borough of Red Bank.

A. L. MILLER, Mayor.

Attest:
A. E. OLSEN, Clerk.
Red Bank, N. J., May 9th, 1923.

Bids: May 31.

Sewerage System Extensions

Easton, Md.

Sealed Proposals for the construction of certain extensions to the Sewerage System of Easton, Md., will be received and opened by the Mayor of Easton at the Council Chamber in Easton, Maryland, at 12.30 o'clock p.m., on the thirty-first day of May, 1923.

The work to be done comprises the complete construction of about one mile of 8" to 12" pipe sewer, 1,000 feet of House Connections, small pumping station and 4" force main.

Contract, Proposal Forms and Plans may be seen at the office of the Town Clerk or of the Town Engineer, Easton, Md. Plans will be furnished upon payment of $5.00 for each set.

Each Proposal for the work must be accompanied by a certified check drawn to the order of the Mayor & Council of Easton in the sum of $500.00.

JOHN C. NORTH,
Town Clerk.

E. G. KASTENHUBER, JR.,
Town Engineer.

OFFICIAL PROPOSALS

Bids: May 29.

State Highway Work

Baltimore, Md.

Sealed proposals for building six sections of State Highway, as follows:

Washington Co. Cont. W-27. One section of State Highway from Hagerstown to Sharpsburg, a distance of 11.6 miles. (Macadam Recon.).

Garrett Co. Contract G-23. One section of State Highway along Oak and Third Sts. in Oakland, for a distance of 0.67 mile. (Concrete).

Montgomery Co. Cont. M-44. One section of State Highway between Darnestown and Seneca for a distance of 1.0 mile. (Concrete).

Montgomery Co. Contract 141-A. One section of State Highway along the Brookville Pike between the District Line and Woodside, a distance of 2.0 miles. (Concrete Shoulders).

Baltimore Co. Cont. 46-A. One section of State Highway along Seminary Ave. between the Falls Road and York Road a distance of 3.0 miles. (Concrete Shoulders).

Worcester Co. Cont. Wo-30. One section of State Highway from Snow Hill toward Salisbury, for a distance of 1.5 miles. (Concrete).

will be received by the State Roads Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M. on the 29th day of May 1923, at which time and place they will be publicly opened and read.

Bids must be made upon the blank proposal form which, with specifications and plans will be furnished by the Commission upon application and cash payment of $1.00, as hereafter no charges will be permitted.

No bids will be received unless accompanied by a certified check for the sum of Five Hundred ($500) Dollars, payable to the State Roads Commission.

The successful bidded will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By order of the State Roads Commission this 14th day of May 1923.

L. H. STEUART, Secretary,
JOHN N. MACKALL, Chairman.

Bids: June 4.

Water Main and Sewer Construction

Washington, D. C.

Sealed proposals for Contract 36-W&S will be received at the office of the Washington Suburban Sanitary Commission, Evans Bldg., New York Ave., Washington, D. C., until 3 p.m., Eastern Standard Time, Monday, June 4, 1923, for constructing 7,400 feet of 6-in. to 12-in. cast iron water mains and 16,500 feet of 6-in. and 8-in. sewers and appurtenances. Water and sewer pipe to be furnished by Commission.

Plans obtainable after May 21, from Robert B. Morse, Chief Engineer of District, Hyattsville, Md., on returnable deposit of $5.00.

T. HOWARD DUCKETT,
EMORY H. BOGLEY,
J. BOND SMITH,
Commissioners.

OFFICIAL PROPOSALS

Bids: May 31.

Pavement Construction

Pittsfield, Mass.

Sealed bids or proposals for constructing pavements and appurtenances, addressed to the Clerk of the Board of Public Works, will be received at the office of the Board of Public Works, City Hall, Pittsfield, Massachusetts, until 7:30 o'clock p.m. of the thirty-first day of May, 1923. At the above place and time the bids will be publicly opened and read.

Pavement on North Street; the principal items of work are about 5,000 square yards of cement concrete pavement, about 2,000 cubic yards of excavation and other miscellaneous work. The bid must be accompanied by a certified check for five hundred dollars, drawn upon a national bank or trust company established in Pittsfield, Boston or New York and calls for a bond of ten thousand dollars.

Pavement on Center Street; the principal items or work are about 3,800 square yards of asphaltic macadam, about 1,600 linear feet of cement curbs, re-setting about 350 linear feet of stone curbs and other miscellaneous work. The bid must be accompanied by a certified check for five hundred dollars drawn upon a national bank or trust company established in Pittsfield, Boston or New York and calls for a bond of ten thousand dollars.

Pavement on Fenn Street; the principal items of work are about 4,300 square yards of cement concrete pavement, about 1,400 square yards of brick pavement and other miscellaneous work. The bid must be accompanied by a certified check for five hundred dollars drawn upon a national bank or trust company established in Pittsfield, Boston or New York and calls for a bond of ten thousand dollars.

Pamphlets containing information for bidders, form of proposal, contract specifications and plans will be mailed to contractors who apply to the Engineer of the Board of Public Works, or may be obtained at his office.

Bidders may bid on one or all contracts and the right is reserved to reject any or all bids, or to accept any bid.

CHARLES W. POWER,
Mayor and Chairman Paving Committee.
A. B. FARNHAM,
Engineer Board of Public Works.

Bids: June 4.

Street Improvement

Newburgh, N. Y.

Sealed proposals will be received by the City Manager at his office in the City Hall, Newburgh, N. Y., until 2 p.m. Monday, June 4, 1923, for paving and otherwise improving Renwick Street, between the West Shore R.R. and Liberty Street, and South Street between Water and Grand Streets with either vitrified hillside brick or reinforced concrete pavement.

The approximate quantities of pavement to be laid are as follows:

South Street about 4,050 sq.yds.
Renwick Street about 3,900 sq.yds.

Bids will be received on each street separately and cash or a certified check for $1,500 must accompany the bid on each street.

Plans and specifications are on file in the office of the City Engineer, City Hall, Newburgh, N. Y.

The City reserves the right to reject any or all bids received.

W. J. McKAY,
City Manager.

CONSTRUCTION NEWS

The Construction Barometer

Cost Stationary—Demand Less—Financial Interests Force Buyers' Strike

CONTRACT volume for May is about 17 per cent less than in April. Value of large contracts let during the week ending May 24 was $5,000,000 under the preceding week. Thus far, deliberate curtailment of new construction appears to be concentrated around New York, and certainly does not extend beyond the large cities. The publicity being given this idea, however, will probably result in a further falling off in demand. The danger is that the curtailment will come all at once, as has been the rule in depressions.

The charts show that up until May 1 contract-letting has been increasing in New England, the South and the Middle Atlantic States, and falling off elsewhere. Also that except for New England and the Middle Atlantic region the lettings have been far heavier than a year ago. Lettings in the U. S. are 49 per cent above year ago.

VALUE OF LARGE CONTRACTS LET IN THE UNITED STATES

Week Ending	Public Works	Private Work	Total Contracts
May 10	$14,414,000	$24,211,000	$38,625,000
May 17	21,510,000	17,893,000	39,403,000
May 24	15,598,000	18,816,000	34,414,000
3 weeks	$51,522,000	$60,920,000	$112,442,000

NUMBER OF LARGE JOBS NOW OUT FOR BID

May 10	45	205	65	48	45
May 17	43	213	82	49	44
May 24	32	230	90	44	48

BASE PRICES REMAIN FIRM

	Quoted on May 31, at	Price Was	On
Structurals, Pittsburgh, 100 lb.	$2.50 @2.60	$2.50 @2.65	May 17
Cement, Chi., net bbl.	2.20	2.05	Feb. 1
Pine, N. Y., M. ft.	60.00	58.00	Apr. 5
Fir, San Fran., M. ft.	41.00	39.00	Apr. 5
Common labor, hr.	0.51	0.50	Apr. 5

PRODUCTION—More steel than iron produced in U. S. during last thirteen years. Present output of steel ingots at annual rate of about 5,000,000 tons in excess of iron. Lumber cut during week of May 19, over 255,000,000 ft. Nat. Lumber Trade Barometer shows output 5 per cent above normal; shipments at 100 per cent and orders, 90 per cent of normal production. Brick shortage continues in New York, Chicago and Philadelphia districts.

Transmission Line — Stouffville, Ont. — Will build 11 mi. transmission line to Yonge St., by day labor, under supervision Hydro Electric Power Comn. of Ontario. $30,000.

CONSTRUCTION NEWS

The Construction Barometer

Labor Higher—Contracts Down Except in South and Far West

THE 4-point advance in construction cost since May 1 is chargeable to labor, as explained in the Business Side of Construction. The major materials remain steady, but the common-labor rate for the country now averages 53c. per hr., against 51c. a month ago. Demand, as reflected by contracts, has fallen 14 per cent. In 1922 the May contracts were 20 per cent heavier than the April. The decline is greatest in the Middle Atlantic states and West of the Mississippi. There are gains in the South and in the Far West. The chief drop is in industrial building; streets and roads are heavier than a month ago.

E. N.-R. Statistics

VALUE OF LARGE CONTRACTS LET IN THE UNITED STATES

Week Ending	Public Work	Private Work	Total Contracts
May 17	$21,510,000	$17,893,000	$39,403,000

CONTRACTS AWARDED

Park Improvements—Boston, Mass.—Park Dept. will construct bleachers, baseball diamonds, bath houses, etc., in Wood Island Park, East Boston, by day labor. $100,000. A. A. Shurtleff, 89 State St., landscape archt. Bids soon on sand, gravel, lumber, cement, etc.

Grand Stand, etc. — Hartford, Conn. — Connecticut Fair Assn., c/o G. A. Long, pres., 32 Loraine St., combined grandstand and hall, steel and concrete, to Porteus-Walker Co., 13 Forrest St. Archts. est. $60,000.

Grandstand, etc. — South Manchester, Conn., — Cheney Bros., grandstand and bleachers, to Manchester Constr. Co., 953 Main St. Archts. est. $30,000. Noted May 24.

Gas Holder—Geneva, N. Y.—Empire Gas & Electric Co., 103 Castle St., 500,000 cu.ft. gas holder, to Stacey Bros. Gas Constr. Co., 5535 Carthage Pike, Elmwood, Cincinnati. $58,000. Noted May 10.

Subway — New York, N. Y. — Transit Comn., 49 Lafayette St., Sect. 2, Route 45, part of Bway.-4th Ave. Rapid Transit R.R., to Patrick McGovern, Inc., 50 East 42nd St., $5,976,086. Noted May 31.

Coaling Station—East Thomas (Birmingham, P. O.), **Ala.**—St. Louis and San Francisco R.R. Co., Frisco Bldg., St. Louis, Mo., automatic 300 ton rein.-con. coaling station, here, to Howlett Constr. Co., 1605 5th Ave., Moline, Ill., $30,000.

Dock—Superior, Wis.—Great Northern Ry., Railway Bldg., St. Paul, Minn., rebuilding ore dock No. 2, here, to Pepard & Fulton, 217 Bd. Trade Bldg. $1,000,000. Noted Mar. 15.

Wharves, etc. — Beaumont, Tex. — To Houston Constr. Co., 3102 McKinney Ave., Houston, 75,000 cu.yd. dredging and fill, $16,500, 4,500 sq.yd. porous backing $2,700, 45 cu.yd. Mass concrete $810, 1,400 lin.ft. wharf platform $119,000, 1,500 lin.ft. bulkhead $127,500, 300 tons stone rip rap $900, total $267,410. Noted May 24.

Retaining Wall, etc.—Astoria, Ore.—City building retaining walls, etc., (1) standard walls (2) stepdown walls, from J. Slotte & Co., 525 Exchange St., along Bond, 11th, 12th and 14th Sts., Dist. 1, 3,400 lin.ft. concrete retaining wall, 26,000 lin.ft. piling, 1,100 lin.ft. concrete tunnel, 3,000 lin.ft. 6-10 in. sewer, etc., (1) $99,209 (2) $97,04?. Commercial, 15th and 16th Sts., Dist. 2, 4,600 lin.ft. concrete retaining wall, 34,000 lin.ft. piling, 1,100 lin. ft. concrete tunnel, 4,800 lin.ft. 6-16 in. sewer, etc., (1) $130,356 (2) $123,491; Duane, 11th and 12th Sts., Dist. 3, 2,000 lin.ft. concrete retaining wall, 15,000 lin.ft. piling, 1,000 lin.ft. concrete tunnel, 2,500 lin.ft. 6-12 in. sewer, etc., (1) $65,427 (2) $62,262. Former bids rejected.

Steel Penstocks and Accessories—San Francisco, Calif.—City and San Francisco Co., steel penstocks and accessories for Moccasin Creek Power Plant, Hetch Hetchy Project, Sect. 1, under Prop. A, for riveted steel pipe to Western Pipe & Steel Co., 444 Market St., $213,017; Sect. 2, lower portion, Prop. G, welded steel pipe to M. W. Kellogg, 117 Westside Ave., Jersey City, N. J., $1,016,525. Noted Apr. 19.

Transmission Line—Paisley, Ont.—Hydro Electric Power Comn., of Ontario, 190 University Ave., Toronto, will build 15 mi. transmission line from Paisley to Chesley, by day labor. $50,000. F. A. Gaby, ch. engr.

CONSTRUCTION NEWS

The Construction Barometer

Few Price Changes—Drop in Industrial Building—Bridges Heavy

WITH the Cost Index at 220.7, the contract rate has fallen from $49,750,000 per week in April to $43,742,000 in May. The total for May, as reported in the five issues of *Engineering News-Record*, is $218,712,000, against $198,665,000 in the four issues of April. The most marked drop is in industrial building, while the principal rise was in bridges, as shown by the chart.

Prices throughout the country have been changed very little since the middle of May. Labor increases, however, have raised general cost nearly 4 per cent since then.

Number of large jobs out for bids in the last eight weeks (Apr. 19 to June 7) averaged 260; this week's number is 237. Next week the contract volume for the various sections of the country will be shown.

Waterworks

PROPOSED WORK

N. Y., Albany—See "Miscellaneous."

N. Y., Ontario—Plans new water supply system. $85,000.

Ky., Danville—City plans new waterworks plant. $50,000. A. E. Harga, city engr. Architect not selected.

Wis., Fort Atkinson—Making plans brick, rein.-con. and steel pumping station, and rein.-con. reservoir, 60 ft. diameter, 15 ft. deep, etc., $25,000. J. R. and E. J. Law, First Central Bldg., Madison, archts., for pumping station. W. G. Kirchoffer, Dean Bldg., Madison, engr.

Wis., Genoa Junction — Making plans pumping station, rein.-con. storage reservoir, deep well and pump. $15,000. W. A. Pierce, 227 Clifford St., Madison, engr.

Idaho—Lewistown—Voted $380,000 bonds waterworks, incl. 6 m.g. filtration plant, new rein.-con. reservoir, mains, etc. Burns & McDonnell, 401 Interstate Bldg., Kansas City, Mo., engrs. Noted Apr. 19.

Mo., Burlington Junction — June 19, to vote on $39,000 bonds waterworks and sewer extensions. E. T. Archer & Co., 609 New England Bldg., Kansas City, engrs.

Mo., Cameron—June 22 to vote on $51,000 bonds waterworks. E. E. Harper, 3031 Park Ave., Kansas City, engr.

Mo., Chamois—See "Sewers."

Tex., Dallas—Koch & Fowler, engrs., Central State Bank, soon takes bids 300,000 ft. 2-6 in. pipe, 25,000 gal. tank and tower, on Bachman Creek at Cochran Chapel, for J. M. Stephenson, c/o Engineers.

Tex., Dallas—See "Streets and Roads."

Tex., Ft. Worth—Takes bids about June 26, new mains, etc., for Polytechnic Heights. $250,000. J. B. Hawley, Cotton Exch., consult. engr., D. L. Lewis, city engr.

Tex., Lufkin — City Comn. takes bids early in July concrete pump house and pipe lay out. $15,000. H. N. Roberts, 4227 Irving Pl., Dallas, engr.

Tex., Royse—Soon takes bids improving waterworks. $45,000. Mackintosh Co., 1st Natl. Bank Bldg., Oklahoma City, Okla., engrs.

Okla., Holdenville—Election June 20, to vote on $35,000 bonds new filtration plant and settling basins. C. Edge, city engr.

Okla., Okmulgee—City retained Burns & McDonnell, engrs., 402 Interstate Bldg., Kansas City, Mo., to make surveys and investigations for storage reservoir and dam on Deep Fork Creek, creating lake approximately 7 mi. long, covering 25,000 acres, etc. $2,000,000. Bond election in September.

Okla., Sayre—See "Sewers."

Neb., Crawford—Election June 18, to vote on $45,000 bonds for waterworks system and extensions. Engineer not selected.

Calif., Banning—Plans rebuilding portions of distributing system. $35,000.

Calif., Sacramento—State Reclamation Bd., Forum Bldg., takes bids in about 2 months drainage pumping plant, incl. centrifugal type pumps, with combined capacity of 120,000 gal. per minute with electric motors, priming equipment, pump house, etc., for Reclamation Dist. 1660. To exceed $90,000.

Calif., San Diego—City retained J. R. Freeman, engr., 815 Grosvenor Bldg., Providence, R. I., to investigate and make recommendations relative to construction of dam on San Diego River for municipal water impounding system. Noted Apr. 19.

Ont., Hamilton—Plans laying mains on Rose Ave., Dromore, Dalewood and Haddon Crescents, Whitton Rd., Benson, McKinstry

Waterworks (Continued)

and Cline Sts. $55,000. Prices wanted on all materials. W. L. McFaul, City Hall, engr.

Ont., Kingston—Pub. Utilities Comn. plans chlorination plant in waterworks station, probably liquid chlorine type. $25,000. H. S. Dick, City Hall, engr.

Ont., Lansing—North York Twp. plans laying 30,000 ft. c.i. mains as follows, 8 in. in Drury and Brooke Sts.; 10 in. in Donlands Ave., Yonge St. from Humberstone to Old Yonge Sts., Old Yonge and Donino Sts., and Yonge St. from Huberstone to Drury Sts.; 12 in. in Humberstone St. $114,732. James, Proctor & Redfern, 36 Toronto St., Toronto, engrs.

BIDS DESIRED

N. J., Pennington—June 25, 550 lin.ft. 2 in. w. i. and 3,250 lin.ft. 4-10 c. i. mains, water pumping station, etc. Remington & Vosbury, 601 Market St., Camden, engrs.

Pa., Du Bois—June 28, rein.-con. reservoir. J. C. Weaver, clk. Morris Knowles, Inc., 507 Westinghouse Bldg., Pittsburgh, engrs.; adv. this issue.

Md., Baltimore—June 20, by Bd. Awards, furnishing and delivering valves to Water Dept. $40,000. W. A. Megraw, City Hall, engr.

O., Cleveland—June 20, by Cuyahoga Co., 4,250 ft. 6 in. c.i. mains in Impvt. 29 of Co. Sewer Dist. 1. To exceed $25,000. R. F. MacDowell, Court House, engr.

O., Columbus—See "Streets and Roads."

Ill., Gridley — June 26, by Bd. Local Impvts., furnishing and laying c.i. mains, valves, etc. Taylor & Woltmann, Unity Bldg., Bloomington, engrs.; adv. this issue.

Minn., Clarkfield — June 22, by village, waterworks extension and improvements, 1,520 ft. 6 in. and 3,222 ft. 4 in. c.i. pipe, 10 hydrants, 4,000 lb. special castings, pump house and pumping equipment. $15,000. J. A. Rowat, Willmar, engr.

Minn., Emmons—June 29, waterworks system, incl. mains, well motor, pump house, tank and tower. $15,000. Toltz, King & Day, 1410 Pioneer Bldg., St. Paul, engrs.

OFFICIAL PROPOSALS

Bids: June 30.

Building Alterations

Saratoga Springs, N. Y.

Sealed proposals for the furnishing of all materials and performing the necessary labor for the proposed alterations and repairs to the kitchen, pantry and dining-room of the Casino in Congress Park at Saratoga Springs, N. Y., will be received by the Commissioner of Public Works of the City of Saratoga Springs, N. Y., at his office in the City Hall, on or before noon of the 30th day of June, 1923.

All proposals must be on forms annexed to the specifications to which they must be attached. All proposals must be accompanied by a certified check for 5% of the contract price.

The major portion of the work consists of the removal of a brick stack from the north side of the kitchen and the removal and rebuilding of a portion of the north wall of the kitchen; removal and rebuilding of the east wall of the dining-room and a portion of the north wall; the construction of a reinforced concrete foundation under the east, west and north walls of the dining-room; the construction of reinforced concrete foundations under the main bearing piers carrying the roof of the dining-room and the construction of a reinforced concrete foundation under the piers carrying the floor of the dining-room; repairing the outer and inner walls of the building where necessary, painting and kalsomining the interior of the dining-room and painting the exterior wood work; detaching and leveling and replacing the six circular windows; leveling and repairing the floor of the dining-room. Placing a Barrett Specification felt, pitch and slag roof on the three buildings together with the proper flashings, etc. Removing a switchboard panel from the basement to the pantry, rebuilding transformer house, etc.

Plans, Specifications and forms of contract and proposals can be obtained at the office of the Commissioner of Public Works between the hours of 9 a.m. and 5 p.m. except on Saturdays on which days the office will be open from 9 a.m. to 12 m.

Contractors must visit the site of the work and ascertain for themselves the exact character of the work required.

The City Council reserves the right to reject any and all bids if they deem it to the interest of the City so to do.

GEORGE W. AINSWORTH,
Commissioner of Public Works.

Bids: June 26.

Bridges

Baltimore, Md.

SEALED PROPOSALS for building the following bridges:

Frederick Co.—Cont. F-58. Reinforced concrete arch bridge over Catoctin Creek near Middletown on the Hagerstown Pike, consisting of a single span 85' 0" clear and a 24' 0" clear Roadway.

Montgomery Co.—Cont. M-18. Reinforced concrete arch bridge over Seneca Creek near Dawsonville on the road from Darnstown to Dawsonville, consisting of a double span each 46' 0" clear and a 24' 0" clear Roadway.

Hartford Co.—Cont. H-35. Reinforced concrete arch bridge over Bynum Run near Belair on the Belair-Aberdeen Road, consisting of a single span 40' 0" clear and a 24' 0" clear Roadway.

will be received by the State Roads Commission, at its offices, 601 Barrett Building, Baltimore, Maryland, until 12 M. on the 26th day of June, 1923, at which time and place they will be publicly opened and read.

Bids must be made upon the blank proposal form which, with specifications and plans will be furnished by the Commission upon application and cash payment of $1.00, as hereafter no charges will be permitted.

No bids will be received unless accompanied by a certified check for the sum of Five Hundred ($500) Dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

BY ORDER of the State Roads Commission this 12th day of June, 1923.

JOHN N. MACKALL,
Chairman.

L. H. STEUART,
Secretary.

CONSTRUCTION NEWS

The Construction Barometer

Decrease in Contract Volume—Gain in Public Work Now Out For Bids—Lumber Declines

CONTRACT volume fell off 14 per cent in May and was 23 per cent less than for May, 1922. The only gains were in the South and Far West. The charts show the trends.

Value of large contracts fell off nearly 14 per cent during the week ending June 14, but gained 26 per cent over the lettings for the week of May 31.

Public building awards, however, increased 166 per cent during the week ending June 14, while private commercial buildings dropped 9 per cent.

A slight increase in large public jobs now out for bid, developed during the week of June 14, compared with a falling off in buildings and private work.

The only change in basic materials prices occurred in pine lumber, which dropped $1 per M ft. in New York, during the current week.

20 service boxes on relocated duct lines	3.00	3.00	10.00
10 junction boxes on relocated duct lines	100.00	150.00	250.00
10 additional junction boxes on relocated duct lines	500.00	250.00	350.00
	500.00	300.00	400.00
Extended totals	$5,976,086	$6,221,544	$8,844,025

Streets and Roads (Continued)

Colo., Denver—Grading, concrete curbing and surfacing 5 mi. North Denver Impvt. Dist. 31, 30 ft. roadway, from Western Constr. Corp., 33rd and Blake Sts., $86,436. Engrs. est. $107,346.

Nevada—State Hy. Dept., Carson City, grading surfacing, etc. Halleck-Deeth Rd., Elko 1-C, from W. Hoops, Hollister, Idaho, $72,750.

Wash., Seattle—Paving Ave. N., et al., from D. H. Traphagen, Walker Bldg., 6,250 sq.yd. 7 in. rein.-con. $1.85, 850 lin.ft. curb $0.65, 6,400 lin.ft. concrete curb $0.35, 8,800 cu.yd. excav. $0.60 and 7,500 cu.yd. subgrade $0.70, total $66,035.

Calif., Long Beach—Paving streets in Belmont Heights Addition, 5 in. concrete from California Constr. Co. 58 2nd St., San Francisco, $572,586. Noted June 14.

Calif., Los Angeles—Los Angeles Co., improving Slauson Ave. between Central and Compton Sts., shaping 10,983 sq.yd. roadway, removing 1,150 cu.yd. old macadam, replacing 10,983 sq.yd. old macadam, 1,400 cu.yd. disintegrated granite base, 9,086 sq.yd. 3 in. willite top, etc., from G. R. Curtis, 2440 East 26th St., $32,165.

Calif., Oakland—Supervs. Alameda Co. grading, concrete curbing, guttering, sidewalks and paving roads in vicinity of county hospital grounds, 65,000 sq.ft. 5 in. concrete, etc., from J. H. Fitzmaurice, 698 Walla Vista Ave., $22,352. Noted June 7.

Calif., Turlock—Improving West Main St., from A. Teichert & Sons, Ochsner Bldg., Sacramento, 90,000 sq.ft. grading at $0.03, 83,000 sq.ft. 1½ in. warrenite on 3 in. asphaltic base $0.206, 6,900 sq.ft. concrete gutter $0.24. Noted May 31.

CONTRACTS AWARDED

Massachusetts—State Hy. Dept., Boston, paving 1.399 mi. Project 103, and 16,910 sq.yd. rein.-con., to C. B. Lindholm, Pittsfield, $96,712. Noted May 24.

Mass., Boston—Paving 0.5 mi. East Concord St. from Albany to Washington Sts., 30 ft. wide, sheet asphalt, to Central Constr. Co., 228 Southampton St., $34,645; 0.5 mi. Massachusetts Ave. from Albany to Southampton St., 40 ft., granite block, to M. F. Gaddis, 5 Paulding St., $24,984.

Rhode Island—State Bd. Pub. Roads, State House, Providence, 3.13 mi. rein.-con. paving Federal Aid Project 17, Div. A, in North Providence and Lincoln, Highway Contr. 2304, to Lane Constr. Corp., 37 Colony St., Meriden, Conn., $153,986. Noted May 24.

N. Y., Cohoes—Paving 17,000 sq.yd. Vliet St., recut granite block, to T. F. Gratton, Remsen St., $29,710.

N. Y., Elmira—Chemung Co. will construct ½ mi. highway in town of Ashland, 12 ft., bituminous top, limestone asphalt or tarvia binder, $3,000, 2 mi. in Baldwin, 12 ft. bituminous top local stone, tarvia binder, $12,000, ¾ mi. in Big Flats, 16 ft., bituminous macadam local stone base, limestone top, tarvia binder, $10,000 ¾ mi. in Catlin, 12 ft., bituminous macadam, local stone base and top, tarvia binder, $9,000, ¾ mi. in Chemung, 14 ft., bituminous macadam local stone base and top, tarvia binder, $14,000, 1 mi. in Elmira, 16 ft., bituminous top, limestone, tarvia binder, $10,000, 1 mi. in Erin, 12 ft., bituminous macadam, local stone base, limestone top, tarvia binder, $12,000, 1 mi. in Horseheads, 16 ft., bituminous macadam, local stone base, limestone top, asphalt binder, $18,000, 1 mi. in Van Etten, 12 ft., bituminous macadam, local stone base, limestone top, tarvia binder, $14,000, 1 mi. in Veteran, 16 ft., bituminous top, local stone base, tarvia binder, $10,000; grading 2 mi. in Southport, 12 ft., $15,000, by day labor under supervision of H. T. Gage, co. supt. highways.

N. Y., Fulton—Improving and asphaltic concrete paving several streets, to Lane Constr. Corp., 37 Colony St., Meriden, Conn., $110,675. Noted May 31.

N. J., East Orange — Mayor and Boro Council, to Franklin Contg. Co., 20 Washington Pl., Newark, furnishing and applying 60,000 gal. bituminous road binder on streets, $0.11 per gal., national paving on concrete Greenwood Ave. $12,164, Oak St. $11,492, Tremont Ave. $3,878, Freeman Ave. $10,241, North 19th St. $29,787; to Standard Bitulithic Co., 50 Church St., New York City, warrenite bitulithic paving on concrete Grand Ave. $10,994, Eaton Pl. $14,676. Noted May 24.

N. J., Newark—T. L. Raymond, dir. Dept. Streets & Pub. Impvts., to Newark Paving Co., 398 Adams St., sheet asphalt paving 18,000 sq.yd. Lafayette St. $66,607, 2,100 sq.yd. 4th St. $7,606, 2,870 sq.yd. Peck Ave. between 2nd and 3rd Aves., $11,485, 3,433 sq.yd. Richlieu Pl. $17,940, 5,500 sq.yd. South 15th St. $22,233; to J. W. Costello, City Hall, (representing city) sheet asphalt (Burner method) paving 1,200 sq.yd. Belmont Ave. $1,097, 500 sq.yd. Madison St. $460, 2,800 sq.yd. Park St. $2,782, 3,200 sq.yd. Pennington St. $3,044, 8,800 sq.yd. Somerset St. $8,450; to Standard Bitulithic Co., 50 Church St., New York City, 1,900 sq.yd. Clinton St. $1,901, 13,000 sq.yd. North 7th St. $13,263, 1,900 sq.yd. OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Bids: July 10.

Street Paving

Nashville, Tenn.

Office of the Board of Public Works, Nashville, Tenn., June 15th, 1923.

Notice is hereby given that sealed proposals will be received at the office of the City Clerk until 10 o'clock a.m., Tuesday, July 10th, 1923, for constructing street paving on the following streets, to wit:

GRANITE BLOCK PAVEMENT
(RESURFACE)

Jefferson St., from 12th Ave. to 18th Ave.
Cedar St., from 4th Ave. to 10th Ave.

ASPHALTIC PAVEMENT
(RESURFACE)

Second Ave. South, from Hills Alley to Chestnut St.
Seventeenth Ave. South, from Division St. to Belcourt St.
Belcourt St., from 18th Ave. to 21st Ave.
Main St., from 1st St. to 11th St.
Forrest Ave., from Main St. to 11th St.
Gartland Ave., from 11th St. to 14th St.

ASPHALTIC PAVEMENT
(NEW GRADING AND PAVING)

Capers Ave., from 21st Ave. to 24th Ave.
Fifteenth Ave. North, from Buchanan St. to North Clay St.
North 15th St., from Ordway Place to Eastland Ave.

Approximately 17,000 square yards of Granite Block Paving, and 64,000 square yards of Asphaltic Paving (Resurface) and 11,000 square yards of Asphaltic Paving (New Grading and Paving) will be required. Separate proposals must be submitted for each street on blank forms accompanying specifications, which will be furnished by William W. Southgate, City Engineer, upon application. A charge of one dollar ($1.00) per copy will be made for each specification and proposal furnished. Proposals must be accompanied by a certified check payable to the order of the City of Nashville in an amount equivalent to ten per cent of the aggregate bid, or an approved bond in a penal sum of like amount with a solvent surety indemnity insurance company authorized to do business in the State of Tennessee. The said checks and bonds will be returned to unsuccessful bidders upon award of contract, and to successful bidders when they shall have entered into contract and made approved bond for the faithful performance of said contract as required by law. The right is reserved to reject any and all bids. By order of the Board of Public Works.

Attest: HILARY E. HOWSE, Mayor.
S. H. McKAY, City Clerk.

OFFICIAL PROPOSALS

Bids: June 30.

Building Alterations

Saratoga Springs, N. Y

Sealed proposals for the furnishing of all materials and performing the necessary labor for the proposed alterations and repairs to the kitchen, pantry and dining-room of the Casino in Congress Park at Saratoga Springs, N. Y., will be received by the Commissioner of Public Works of the City of Saratoga Springs, N. Y., at his office in the City Hall, on or before noon of the 30th day of June, 1923.

All proposals must be on forms annexed to the specifications to which they must be attached. All proposals must be accompanied by a certified check for 5% of the contract price.

The major portion of the work consists of the removal of a brick stack from the north side of the kitchen and the removal and rebuilding of a portion of the north wall of the kitchen; removal and rebuilding of the east wall of the dining-room and a portion of the north wall; the construction of a reinforced concrete foundation under the east, west and north walls of the dining-room; the construction of reinforced concrete foundations under the main bearing piers carrying the roof of the dining-room and the construction of a reinforced concrete foundation under the piers carrying the floor of the dining-room; repairing the outer and inner walls of the building where necessary, painting and kalsomining the interior of the dining-room and painting the exterior wood work; detaching and leveling and replacing the six circular windows; leveling and repairing the floor of the dining-room. Placing a Barrett Specification felt, pitch and slag roof on the three buildings together with the proper flashings, etc. Removing a switchboard panel from the basement to the pantry, rebuilding transformer house, etc.

Plans, Specifications and forms of contract and proposals can be obtained at the office of the Commissioner of Public Works between the hours of 9 a.m. and 5 p.m. except on Saturdays on which days the office will be open from 9 a.m. to 12 m.

Contractors must visit the site of the work and ascertain for themselves the exact character of the work required.

The City Council reserves the right to reject any and all bids if they deem it to the interest of the City so to do.

GEORGE W. AINSWORTH,
Commissioner of Public Works.

OFFICIAL PROPOSALS

Bids: July 17 (date extended).

Paving

Pottsville, Pa.

Sealed proposals will be received by the City Council of Pottsville, Pa., up to 7:30 o'clock p.m. Standard Time of Tuesday, July 17, 1923, for paving and improving portions of several streets of the City.

The work proposed consists of laying approximately thirty-five thousand (35,000) square yards of street paving on a concrete base with necessary grading, adjustment of curbs, etc.

Bidders may examine the plans and obtain a printed copy of the Specifications on application to the City Engineer and depositing five dollars ($5.00). The deposit will be returned on the return of the specifications in good condition with a bona fide proposal for the work contemplated.

The City Council reserves the right to reject any or all bids or parts of bids or to accept any bid considered the best for the City interests.

JOHN H. STRAUCH,
City Engineer.

CONSTRUCTION NEWS

The Construction Barometer

Decline In Price of Pig Iron — Little Change In Other Materials During Week

COST remains flat, the only important price development being the disappearance of the premium on steel. Shapes sell for $2.50 per 100 lb. at the mill. Indicative of lessening demand is the drop of nearly 308,000 tons of unfilled orders on the books of the U. S. Steel Corporation. Price of pig iron continues to decline.

Production is going forward at full speed to fill orders already placed. The volume of June contracts is 13 per cent lower than May. Next week special attention will be given to demand as in icated by tne latest figures of production and contracts awarded.

N. C., Rocky Mount—Rocky Mount Mfg. Co., having plans prepared by Lockwood, Greene & Co., Piedmont Bldg., Charlotte, 3 story 76 x 81 ft. yarn mill, mill construction, steel beams. $50,000.

Ala., Flint—Southern Rock Asphalt Co. plans development and erection of plant for mining rock asphalt, 150 tons daily capacity, near here. $150,000.

O., Canton—Canton Metal Products Co., Renkert Bldg., plans 1 story plant. $60,000. Address F. A. Zink, Renkert Bldg.

O., Dayton—Duro Pump & Mfg. Co., 537 East Monument St., having plans prepared by Schenk & Williams, Mutual Home Bldg., 5 story, 100 x 100 ft., rein.-con. and steel factory, plain foundation. $175,000. Noted Jan. 18.

O., East Liverpool—Amer. Vitrified Products Co. having plans prepared 4 story, brick, concrete and steel factory. $125,000. Private plans.

O., Massillon—Central Steel Corp. plans blast furnaces and several auxiliary steel plant units, on 185 acre site, Columbia Heights. $7,000,000-$10,000,000. Address C. G. Herbruck, G. D. Harter Bank Bldg., Canton, atty.

O., Toledo—Libby Owens Sheet Glass Co. takes bids about Sept. 21, 1st unit industrial plant, rein.-con., brick and steel buildings, along tracks of New York Central & Hocking Valley R.R., to produce 15,000,000 ft. glass per year. $1,500,000. Devore Co., 508 Nicholas Bldg., archts. and engrs.

Industrial Works (Continued)

Ind., Kendallville—McCray Refrigerating Co. having plans prepared by A. M. Strauss, 701 Schoaff Bldg., Ft. Wayne, 1 story, 75 x 220 ft. addition, brick and steel. $50,000.

Mich., Menominee—Marinette & Menominee Paper Co., 2311 Riverside Ave., Marinette, Wis., plans 2 story paper mill, brick and concrete, plain foundation, here. Engineer and architect not selected.

Ill., National City (Venice P. O.)—Armour & Co., National Stock Yards, will rebuild 6 story smoke-house, rein.-con. and brick, recently destroyed by fire. $500,000. Private plans.

Wis., Appleton—Valley Automobile Co., 726 College Ave., plans 4 story and basement, brick and concrete garage, plain foundation, Morrison St. $60,000.

Wis., Madison—University of Wisconsin, Administration Bldg., plans 1 story, 50 x 90 ft., coal storage plant, brick, rein.-con. and steel, plain foundation. $40,000. M. E. McCaffery, secy. Engineer and architect not selected.

Wis., Milwaukee—Milwaukee Lumber Co., 1271 Midland Ave., having plans prepared by Gurda & Gurda, 448 Mitchell St., 2 story, 30 x 100 ft., brick and timber garage, plain foundation, Midland Ave. $40,000.

Wis., New London—M. J. Heinz plans 2 story, 30 x 80 ft. vulcanizing shop, brick, concrete and steel, plain foundation. $40,000. Engineer and architect not selected.

Wis., Oshkosh—J. Danke, c/o Winnebago Dairy Products Co., 332 Main St., having plans prepared by Auler & Jensen, F. R. A. Bldg., 2 story, 48 x 84 ft., creamery and 1 story, 30 x 58 ft., stable, brick and concrete, plain foundations, Main St. $40,000.

Wis., Racine—F. Applegate, 1043 Washington Ave., having plans prepared 1 story, 60 x 105 ft., garage and repair shop, brick, rein.-con. and steel, plain foundation, Washington St. $55,000. Private plans.

Ia., Shenandoah—Election soon to vote on $175,000 bonds for electric light and power plant. R. L. Keltner, Shenandoah, engr.

Kan., Kansas City—Darley Boiler Wks. Co., 923 North 3rd St., had plans prepared 1 story and part basement, 400 x 600 ft. factory. $100,000. Private plans.

Kan., Kansas City—Kansas City Refining Co., 2nd St. and Troup Ave., plans to improve present plant, build larger storage tank and miscellaneous improvements. $100,000. Private plans.

N. D., Minot—K. Kulaas, rejected bids June 4, 2 story and basement, 80 x 150 ft., brick and rein.-con. garage, $45,000. I. L. Rush, Minot, archt. Noted June 7.

Mo., St. Louis—Famous Barr Co., 6th and Olive Sts., plans 2 story and basement, 300 x 500 ft., rein.-con. warehouse and garage, plain foundation, Spring Ave. $200,000. Engineer and architect not announced.

Mo., Stockton—G. B. Steward, Stockton, soon takes bids hydro-electric plant southeast of here, on Sac River, 130 ft. spillway, 10 ft. high, 2 turbines, 18 mi. transmission line from here to Fairfax, etc. $50,000. Russell & Axon, 404 McDaniels Bldg., Springfield, engrs.

Tex., Dallas—C. E. Barglebaugh & Co., archts. and engrs., Medical Art Bldg., soon takes bids 7 story and basement, 140 x 150 ft. factory and 2 story warehouse, brick, stone and concrete, plain foundations, Jefferson, McKinney and Caruth Sts., for Brown Cracker & Candy Co., Jefferson and McKinney Sts. $1,000,000. Noted Apr. 19.

Tex., Ft. Worth—South West Portland Cement Co., Two Republics Bldg., El Paso, takes bids about Sept. 14, cement mill, rein.-con., along tracks Houston & Texas Central R.R., here. $1,500,000. O. J. Binford, Two Republics Bldg., El Paso, engr. Noted May 24.

Tex., Ft. Worth—Texas Steel Co., South Hemphill St., making plans converting old plant into modern steel rolling mill. $100,000-$200,000. R. J. F. Foster, mgr. and engr.

Tex., Gordon—Lone Star Gas Co., Amer. Exch. Bank Bldg., Dallas, having plans prepared and soon takes bids casinghead gasoline plant. $150,000. J. C. Brokaw, c/o owner, ch. engr.

Wash., Seattle—Rainier Corp., headed by G. I. C. Barton, 5648 Alke St., recently organized with $3,000,000 capital stock will lease old plant of Seattle Brewing and Malting Co., Georgetown, here, and convert same into packing plant and cannery, will expend $300,000 for remodeling.

Calif., Los Angeles—Los Angeles Herald, 136 South Bway., having plans prepared by Morgan, Walls & Morgan, Van Nuys Bldg., 2 story and part basement, 153x270x325 ft., publishing plant and store building, rein.-con. and brick, Pico and Figueroa Sts.

Calif., Petaluma—J. A. Kenney, 3rd and J Sts., plans 95x100 ft. warehouse and load-

SEWER—NEW JERSEY

Bids were opened by Dept. Sts. & Pub. Impvts., Jersey City, May 1, for Sect. 3 of trunk sewer from Dover to Boonton, for Rockaway Valley Watershed. (A) C. F. Goeringer Constr. Co., 51 South Washington St., Wilkesbarre, Pa., (awarded contract); (B) J. L. Sigretto, Bernardsville. The unit bids were as follows:

	A	B
290 ft. 10-in. vitrified tile pipe, 0-6 ft.	$3.85	$3.00
1,710 ft. 10-in. vitrified tile pipe, 6-8 ft.	4.60	3.15
60 ft. 10-in. vitrified tile pipe, 8-10 ft.	5.50	3.35
10 ft. 10-in. vitrified tile pipe, 10-12 ft.	6.30	4.50
320 ft. 12-in. vitrified tile pipe, 0-6 ft.	4.20	3.50
1,500-ft. 12-in. vitrified tile pipe, 6-8 ft.	5.00	3.80
300 ft. 12-in. vitrified tile pipe, 8-10 ft.	5.80	4.50
40 ft. 12-in. vitrified tile pipe, 10-12 ft.	7.00	4.50
10 ft. 15-in. vitrified tile pipe, 6-8 ft.	5.55	4.00
820 ft. 15-in. vitrified tile pipe, 8-10 ft.	6.60	5.00
400 ft. 15-in. vitrified tile pipe, 10-12 ft.	7.50	5.50
20 ft. 15-in. vitrified tile pipe, 12-14 ft.	8.80	6.00
10-ft. 18-in. vitrified tile pipe, 6-8 ft.	6.30	6.00
300 ft. 18-in. vitrified tile pipe, 8-10 ft.	7.40	6.50
210 ft. 18-in. vitrified tile pipe, 10-12 ft.	8.60	7.00
10 ft. 18-in. vitrified tile pipe, 12-14 ft.	10.00	8.00
70 ft. 20-in. vitrified tile pipe, 0-6 ft.	7.60	6.50
20 ft. 20-in. vitrified tile pipe, 6-8 ft.	8.80	7.00
2,240 ft. 20-in. vitrified tile pipe, 8-10 ft.	10.20	7.50
540 ft. 20-in. vitrified tile pipe, 10-12 ft.	11.50	8.00
10 ft. 20-in. vitrified tile pipe, 12-14 ft.	12.75	8.00
280 ft. 22-in. vitrified tile pipe 0-6 ft.	8.00	7.00
270 ft. 22-in. vitrified tile pipe, 6-8 ft.	9.30	7.50
670 ft. 22-in. vitrified tile pipe, 8-10 ft.	10.25	8.00
810 ft. 22-in. vitrified tile pipe, 10-12 ft.	12.00	8.00
160 ft. 22-in. vitrified tile pipe, 12-14 ft.	13.25	8.00
260 ft. 22-in. vitrified tile pipe, 14-16 ft.	14.75	8.00
70 ft. 22-in. vitrified tile pipe, 16-18 ft.	17.00	18.00
10 ft. 22-in. vitrified tile pipe, 18-20 ft.	20.00	18.00
10-ft. 33-in. segment block 0-6 ft.	13.20	14.50
170 ft. 33-in. segment block, 6-8 ft.	15.00	14.90
2,120 ft. 33-in. segment block, 8-10 ft.	17.00	17.50
1,080 ft. 33-in. segment block, 10-12 ft.	19.00	18.90
10 ft. 33-in. segment block, 12-14 ft.	21.00	19.00
10 ft. 33-in. monolithic sewer, 0-6 ft.	14.00	18.85
170 ft. 3.3-in. monolithic sewer, 6-8 ft.	17.00	19.37
2,120 ft. 33-in. monolithic sewer, 8-10 ft.	20.00	22.75
1,080 ft 33-in. monolithic sewer, 10-12 ft.	23.00	24.57
10 ft. 33-in. monolithic sewer, 12-14 ft.	24.00	24.70
25 ton cast iron pipe	125.00	150.00
50 type A manholes, 0-8 ft.	175.00	125.00
14 ype B manholes, 0-8 ft.	175.00	125.00
100 ft. manhole extra depth, 8 ft.+	18.00	10.00
175 M.ft.B.M. sheeting lumber	85.00	90.00
25 M.ft.B.M. foundation lumber	85.00	90.00
1 M.ft.B.M. timber piles	200.00	100.00
20 cu.yd. 1-2-4 concrete (class A)	24.00	25.00
100 cu.yd. 1-3-5 concrete (class B)	20.00	25.00
5,000 cu.yd. rock excavation	4.50	10.00
20 cu.yd. extra excavation	3.50	5.00
1—12-in. gate valve	300.00	75.00
1—12-in. flap valve	100.00	75.00
100—5-in. deep house connection	8.00	6.00
500 ft.—5-in. house connection	2.00	3.00
Extended totals using segment block	$211,676	$213,833
Extended totals using monolithic pipe	$222,734	$231,987

SEWER AND SEWAGE DISPOSAL WORKS—NEW JERSEY

Following are lowest three bids opened by Dept. Sts. & Pub. Impvts., Jersey City, May 1, for Sect. 1 of trunk sewer from Dover to Boonton, and sewage disposal works, for Rockaway Valley Watershed. (A) J. L. Sigretto, Bernardsville, (awarded contract); (B) A. A. Johnson Corp., Queens Blvd. & Van Brunt St., Long Island City, N. Y.; (C) C. F. MacEvoy Co., 141 Commerce St., Newark. The unit bids were as follows:

	A	B	C
22,500 cu.yd. earth excavation and backfilling trunk and pipes	$2.40	$2.40	$2.90
8,700 cu.yd. rock excavation	2.40	10.00	6.00
1,700 cu.yd. earth embankment—trunk only	.90	1.62	1.00
47,000 ft. 4-in. tile pipe	.36	.24	.25
100 ft. 5-in. tile pipe	.48	.32	.31
800 ft. 8-in. tile pipe	.72	.55	.75
6,500 ft. 10-in. tile pipe	1.80	.70	.90
2,000 ft. 12-in. tile pipe	2.10	1.20	1.04
5,800 ft. 15-in. tile pipe	2.70	1.90	1.50
150 ft. 18-in. tile pipe	3.60	2.80	2.09
150 ft. 20-in. tile pipe	3.60	3.00	2.49
50 ft. 22-in. tile pipe	4.80	3.90	3.10
2,800 ft. 24-in. tile pipe	6.00	5.00	5.00
2,100 ft. 27-in. tile pipe	8.40	7.50	7.50
2,100 ft. 27-in. monolithic sewer	10.92	13.00	10.00
50 ft. 33-in. segment block	8.40	7.85	12.00
50 ft. 33-in. monolithic sewer	10.92	16.90	11.75
5,200 ft. 36-in. segment sewer	9.60	9.35	12.80
5,200 ft. 36-in. monolithic sewer	12.48	19.00	12.50
5,600 ft. 39-in. segment sewer	11.04	10.30	13.60
5,600 ft. 39-in. monolithic sewer	14.35	21.00	13.30
560 ton c.i. pipe-bell and spigot	120.00	150.00	130.00
70 ton c.i. pipe-flanged	180.00	150.00	198.00
20 acres clearing and grubbing	.01	1,400.00	115.00
54,000 cu.yd. earth excavation plant structure	2.70	2.00	1.25
52,000 cu.yd. fill and embankment at plant	.01	.50	.60
10 acre soil and seed	120.00	470.00	891.00
12,000 sq.yd. sodding	1.20	.40	1.00
5,500 sq.yd. macadam roadway	1.50	1.30	2.00
10,500 ft. concrete curb and gutter	2.40	.80	2.00
1,000 sq.yd. macadam walk	.48	.90	2.00
10,500 cu.yd. 1-2-4 concrete (class A)	13.68	21.86	18.14
640 cu.yd. 1-3-5 concrete (class B)	13.68	21.36	16.10
450,000 lb. reinforcing steel	.078	.06	.06
220 cu.yd. brick masonry	36.00	65.00	40.00
500 cu.yd. rubble masonry	12.00	9.45	25.00
1,000 sq.yd. stone paving	4.80	1.75	4.02
180,000 lb. iron castings	.084	.10	.17
24,000 lb. machined iron castings	.204	.175	.25
35,000 lb. miscellaneous w.i. and steel	.204	.20	.15
4,000 lb. galvanized w.i. pipe	.12	.50	.24
6—1-in. gate valves	3.60	1.50	3.06
6—1½-in. gate valves	4.80	2.46	4.31
26—2-in. gate valves	7.38	3.86	5.76
6—3-in. gate valves	15.00	9.45	9.98

	A	B	C
15—4-in. gate valves	18.00	18.50	13.13
9—6-in. gate valves	30.00	31.10	32.41
5—8-in. gate valves	42.00	48.31	46.52
5—10-in. gate valves	60.00	72.40	69.93
30—12-in. gate valves	78.00	91.00	93.09
2—16-in. gate valves	138.00	174.00	181.13
2—4-in. sluice gates	36.00	36.00	68.94
23—12-in. sluice gates	150.00	160.00	120.65
1—18-in. sluice gate	216.00	210.00	170.63
1—12-in. flap valve	90.00	80.00	70.14
8—16-in. flap valves	120.00	106.50	85.89
5—6-in. shear gates	32.40	29.70	32.41
5—10-in. shear gates	62.40	52.80	53.15
12—4-in. hydrants	78.00	65.36	66.70
28 valve stands	18.06	40.00	19.64
48 special valve stand heads	18.00	11.00	53.76
21 valve boxes	14.40	12.00	13.10
60 M.ft.b.m. lumber in trench	90.00	90.00	103.50
10 M.ft.b.m. plank or timber piles	90.00	100.00	121.00
4 M.ft.b.m. finished woodwork	.09	.20	.1265
1 V-notch weir and recorder	1,200.00	1,000.00	1,000.00
1 floating outlet pipe	240.00	500.00	350.00
2 control for contact bed	4,200.00	3,287.00	3,615.00
20,000 cu.yd. crushed stone for contact	4.20	5.00	5.66
126,000 ft. half tile drains for contact	.18	.18	.25
25,000 lb. asphalt joint filler	.045	.14	.18
27,500 cu.yd. filter sand	1.80	1.60	4.00
18,000 cu.yd. gravel	3.60	4.00	4.60
8 appurtenances for sand filters	1,200.00	1,911.00	2,703.00
1 industrial track switch and dump cars	960.00	785.00	730.00
630 ft. industrial railroad track—straight	1.08	1.07	2.02
1 gas collector and appurtenances	480.00	450.00	400.00
1 gas holder	960.00	1,000.00	825.00
1 chlorinator	1,800.00	1,500.00	1,415.00
1 appurtenance for sterilizing plant	720.00	4,500.00	2,524.00
3 superstructures—siph. ch. and contact bed	2,820.00	7,700.00	3,036.00
Superstructure—sterilizing plant	8,400.00	8,200.00	10,570.00
1 electric line and outlet light	...	14,000.00	9,760.00
Extended totals using tile and segment block sewer	$1,065,471	$1,254,971	$1,291,804
Extended totals using monolithic concrete sewer	$1,104,401	$1,377,073	$1,292,122

Industrial Works (Continued)

ing wharves, steel and stucco. To exceed $40,000. Engineer and architect not selected. Bay Transport Co., Pier 38, San Francisco, lessee.

Ont., Cornwall—Howard Smith Paper Co. Ltd., plans 1 and 2 story, 180 x 200 ft. and 52 x 100 ft. additions to paper mill, rein.-con. and brick. Private plans.

Ont., St. Catharines—See "Buildings."

BIDS DESIRED

N. J., Verona—July 6, by Essex Mountain Sanitorium, brick, steel and concrete boiler house, plain foundation. $150,000. Guilbert & Bettelle, 2 Lombardy St., Newark, archts. and engrs.

Pa., Glassmere — Cruikshank Eng. Co., engrs., 5th Ave. Arcade, Pittsburgh, receiving bids 3 story and basement, 105 x 123 ft. factory, for Allegheny Plate Glass Co., here. $150,000.

Ill., Chicago — L. G. Hallberg & Co., archts., 116 South Michigan Ave., receiving bids 6 story, 217 x 241 ft. factory addition, fireproof, Lincoln and George Sts., for Stewart-Warner Speedometer Co., 1312 South Michigan Ave. $750,000.

Wis., Fond du Lac—Stepnoski & Mehner, archts., Forest Ave., taking bids 1 story, 56 x 106 ft., brick and concrete garage, plain foundation, for J. Grebe, 22 Rees St. $40,000.

Wis., Madison — W. Brueski, 2805 East Washington Ave., taking bids 2 story, 50 x 90 ft., garage and repair shop, brick, rein.-con. and steel, plain foundation. $40,000. Private plans.

Wis., Madison—Schmidt Bros. Co., c/o A. J. Schmidt, 2611 Monroe St., taking bids 1 story, 60 x 125 ft. garage and repair shop, brick, rein.-con. and steel, plain foundation. $40,000. Private plans.

Wis., Milwaukee—July 2, by H. T. Schramek, archt., 808 South Pierce St., 1 story, 110 x 125 ft., brick and concrete addition to garage, plain foundation, for Modern Auto Repair Co., 2431 State St. $50,000.

Calif., San Francisco.— Francisco & Jacobus, archts., 511 5th Ave., New York City, receiving bids 1½ story, rein.-con. factory, on block bounded by Mariposa, 18th, Bryant and Florida Sts., for Nucoa Butter Co., 1964 Bryant St. To exceed $40,000.

CONTRACTS AWARDED

R. I., North Providence (Providence P. O.)—Mackie Worsted Yarn Co., Allendale, factory, here, to Famigliette Constr. Co., Charles St., Providence, $65,000.

Conn., Hartford — Connecticut Beef Co., 53 Hoadley Pl., 3 story, 50 x 100 ft. and 50 x 150 ft. brick and timber warehouse, plain foundation, Huntley Pl., to C. P. Waterman, 43 Farmington Ave. Archts. est. $75,000. Noted June 7.

N. Y., Olean—Vacuum Oil Co., 926 Exchange St., Rochester, boiler and steam plant, here, to Havens Constr. Co., Olean, $93,000.

Pa., Pittsburgh—Baltimore & Ohio R.R., Baltimore and Charles Sts., Baltimore, Md., 2 story and basement, 30 x 100 ft. freight house, brick, concrete and steel, 33rd and Liberty Sts., here, to France Bros. & Haigley, 19 West Franklin St., Baltimore, Md.

Md., Hagerstown—See "Buildings."

Ky., Louisville—Standard Sanitary Mfg. Co., 6th and A Sts., 1 story, 56 x 75 ft. and 102 x 150 ft., foundry buildings, concrete and steel, 6th and Shipp Sts., to Platoff & Bush, 122 West Liberty St., $70,000. Noted Apr. 19.

O., Cleveland—Benesch, Federman & Co., 5432 Bway., 2 story, 50 x 60 ft., brick, steel and concrete garage and warehouse, 5316 Barkwill Ave., to Super-Built Constr. Co., Union Bldg. Archts. est. $40,000.

O., Cleveland—Standard Oil Co. of Ohio, East Ohio Gas Bldg., two 1 story steam power plants, 1 at 2800 Bway. and other at East 65th St. along tracks of Erie R.R., both brick, steel and concrete, to James Stewart Co., 30 Church St., New York City.

O., Cleveland—Standard Oil Co. of Ohio, East Ohio Gas Bldg., 2 story, 92 x 165 ft. cooperage factory, brick and rein.-con., East 65th St. along tracks of Erie R.R., to James Stewart Co., 30 Church St., New York City. Archts. est. $150,000.

O., Cleveland—A. N. Jeavons, 806 Champlain Ave., N.W., 2 story and basement, 70 x 142 ft., brick and rein.-con. factory, 1633 East 40th St., to D. Lindhorst Constr. Co., 1602 Holmden Ave. Archts. est. $100,000.

O., Cleveland—B. J. Russell, 10539 Euclid Ave., 1 story, 90 x 115 ft., brick and steel factory, 22nd St. and Marion Ave., to S. W. Emerson Co., 1900 Euclid Ave. Archts. est. $40,000. Klein & Paterson Body Co., c/o owner, lessee. Noted May 24.

Mich., Detroit — Detroit Motorbus Co., Terminal and Edlie Aves., 1 story, brick, steel and concrete garage, plain foundation, Tireman Ave., to Bryant & Detwiler Co., 2336 Dime Bank Bldg., $75,000.

Mich., Detroit—Pub. Lighting Comn., Atwater St., E., four 20,000 kw. turbo units for new power plant, to Westinghouse Electric & Mfg. Co., East Pittsburgh, Pa., $1,254,000. Noted May 24.

Mich., Menominee—Lloyd Mfg. Co., North State St., 3 story, 100 x 400 ft., rein.-con. factory, plain foundation, to H. J. Selmer Co., Cartney Bank Bldg., Green Bay, Wis. Archts. est. $75,000.

Ill., Chicago—E. J. Brach & Sons, 401 North Kilpatrick Ave., second unit 3 story, 102 x 129 ft. factory addition, fireproof, 401-53 North Kilpatrick Ave., to R. F. Wilson & Co., 1851 Elston Ave. Archts. est. $90,000. Noted Aug. 31.

OFFICIAL PROPOSALS

Bids: July 9.

State Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the construction of the following:

Route No. 1, Section No. 12, Rahway Avenue, Elizabeth, in the County of Union. Estimated 3,360 cu.yds. of excavation, and 24,550 sq.yds. of sheet asphalt pavement on a 6-in. concrete base.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, July 9th, 1923, at 11:00 a.m., Standard Time, and opened and read immediately thereafter.

Route No. 10, Section No. 1C, Bluff Road-Anderson Avenue, in the County of Bergen. Estimated 1,865 cu.yds. of earth excavation, 3,500 cu.yds. of rock excavation, and 6,870 sq.yds. of double line eight-inch (8-in.) reinforced concrete pavement.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, July 9th, 1923, at 11:15 a.m., Standard Time, and opened and read immediately thereafter.

Route No. 10, Section No. 2, Broad Avenue-Glenn Road, in the County of Bergen. Estimated 7,476 cu.yds. of excavation, and 17,825 sq.yds. of double line eight-inch (8-in.) reinforced concrete pavement.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, July 9th, 1923, at 11:30 a.m., Standard Time, and opened and read immediately thereafter.

Drawing, specifications and form of bid, contract and bond for the proposed work are on file in the office of the State Highway Department, Trenton, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on deposit of Ten Dollars ($10.00) upon application to the State Highway Department, 9th floor, Broad St. Bank Building, Trenton, New Jersey. Bids must be made on the standard proposal forms in the manner designated therein, and as required by the 1922 specifications, same to be enclosed in sealed special addressed envelopes bearing the name and address of bidder and the name and section of the route on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certificate check shall not be less than $500.00 nor more than $20,000.00 and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelopes will be furnished on application. Bids not enclosed in special envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Each bidder must also accompany his bid with a Statement of Equipment properly filled out.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: July 17 (date extended).

Paving

Pottsville, Pa.

Sealed proposals will be received by the City Council of Pottsville, Pa., up to 7:30 o'clock p.m. Standard Time of Tuesday, July 17, 1923, for paving and improving portions of several streets of the City.

The work proposed consists of laying approximately thirty-five thousand (35,000) square yards of street paving on a concrete base with necessary grading, adjustment of curbs, etc.

Bidders may examine the plans and obtain a printed copy of the Specifications on application to the City Engineer and depositing five dollars ($5.00). The deposit will be returned on the return of the specifications in good condition with a bona fide proposal for the work contemplated.

The City Council reserves the right to reject any or all bids or parts of bids or to accept any bid considered the best for the City interests.

JOHN H. STRAUCH,
City Engineer.

Bids: August. 7.

Neches River Bridge

Beaumont, Tex.

Sealed proposals addressed to B. B. Johnson, County Judge, Jefferson County for the construction of the proposed Neches River Bridge at Beaumont, Texas, will be received at the office of the County Judge, at Beaumont, until 11 o'clock, A.M., Tuesday, August 7, 1923, and then publicly opened and read.

DESCRIPTION OF WORK TO BE DONE

Furnishing of materials for and construction of a 122 ft. single leaf bascule span with necessary electrical operation devices and gasoline auxiliary; two 150 ft. steel approach trusses; nine 33 ft. concrete girder spans; fivve 35 ft. concrete girder spans and approximately 2,000 ft. of 19 foot span creosoted timber trestle. Foundation of bascule and approach trusses to be concrete piers on timber piling; concrete piles for 33 ft. concrete spans; concrete bents on timber piles for 35 ft. concrete spans, and creosoted timber piles for timber spans.

Bids will be considered as follows: (1) For the entire project if accompanied by a certified or cashiers check for twenty-four thousand dollars ($24,000.00); (2) For steel superstructure if accompanied by certified or cashiers check for eight thousand ($8,000.00) dollars; (3) Concrete substructure for steel superstructure if accompanied by certified or cashiers check for eight thousand ($8,000.00) dollars; (4) For combined concrete and timber spans if accompanied by certified or cashiers check for eight thousand ($8,000.00) dollars. These certified or cashiers checks must be made payable without recourse to the order of B. B. Johnson, County Judge of Jefferson County, as a guarantee that the bidder, if successful will enter into contract and make bond in accordance with requirements of the specifications. The right is reserved by the party of the first part to reject any and all proposals or to waive all technicalities.

Detailed plans and specifications may be seen at the office of A. C. Love, County Engineer, Beaumont, Texas, and at the office of the State Highway Department, Austin, Texas. Copies may be obtained from the County Engineer by payment of $7.50.

Proposals shall be submitted in sealed envelopes and marked "Bids for the construction of the Neches River Bridge at Beaumont, Texas."

All bids receieved will be retained by the County.

Bids: July 20.

Purchase of Merchantable Timber

Albany, N. Y.

Sealed bids for the purchase of the merchantable timber and salable wood upon the lands of the State of New York to be flowed by the enlargement of the Stillwater Reservoir on the Beaver River in the Town of Webb, Herkimer County, N. Y., will be received by the Water Control Comission at its office in the office of the State Engineer, 158 State St., Albany, N. Y., until one o'clock p.m., Standard Time, on the twentieth day of July, 1923; all bids and proposals will be publicly opened and read at the time and place aforesaid.

This contract will include the purchase and removal of the merchantable timber and salable wood upon the State land around the shores of the existing Stillwater Reservoir lying below a contour line approximately 19 feet higher than the crest of the spillway of the existing Stillwater Dam and above the flow line of the existing reservoir. The area to be lumbered includes about 3160 acres of state land.

The land will be divided into two sections, designated as Section I and II.

Section I will comprise all the State land to be flowed lying west of the east line of the middle one-third of Township 5, John Brown's Tract, and will contain approximately 1000 acres.

Section II will comprise all the State land to be flowed lying east of the east line of the middle one-third of Township 5, John Brown's Tract and will contain approximately 2160 acres.

Separate bids must be made for each section, but a bidder may bid on either or both sections.

Maps of the reservoir, regulations for lumbering and contract forms may be seen at the office of the Water Control Commission and the Conservation Commission at Albany, N. Y., and at the office of the Board of the Black River Regulating District, Watertown, N. Y. Copies of the maps, forms and regulations may be obtained from the Water Control Commission upon request.

Every bid must be accompanied by a certified check upon a National or New York State Bank payable to the Water Control Commission for five per centum (5%) of the amount of the bid.

The Commission reserves the right to reject any or all bids and to again advertise for further bids.

STATE OF NEW YORK
WATER CONTROL COMMISSION

Bids: August 1st.

Concrete Arch Bridge

Binghamton, N. Y.

Sealed proposals for the construction of a five-span reinforced concrete arch bridge will be received by the Board of Contract and Supply (Orrin J. Pickering, Secretary), Municipal Building, Binghamton, New York, until three o'clock in the afternoon of Wednesday, August 1st, 1923.

The work covers the bridge, its approaches and all appurtenances such as paving, curbing and lighting. The work includes among its items approximately 11,600 cu.yds. of concrete (not including pavement base), 9500 sq.yds. of paving and 310 tons of metal reinforcement. This list of items is not complete but is merely given to indicate the size of the job.

Proposals must be on forms furnished by the City. Plans, specifications and proposal sheets may be secured from the City Engineer until July 25th. Applications for such plans and specifications must be accompanied by $25. in cash or by a certified check for like amount. This deposit will be returned to all who bid on the work and also to all who do not bid but who return the plans and specifications in good order not later than July 30th.

Bidders must examine the site either personally or by an authorized representative at least seven days before the receipt of bids.

Each proposal must be accompanied by a deposit equal in amount to five per cent of the bid in cash or by a certified check for a like amount. The successful bidder will be required to give a surety company bond and to enter into a contract with the City of Binghamton for the performance of the work.

Board of Contract and Supply of the
City of Binghamton, N. Y.
By W. EARL WELLER,
City Engineer.

Bids: July 26.

Hydraulic Dredging

New Orleans, La.

Sealed proposals will be received by the Board of Commissioners of the Port of New Orleans at their office, Suite 200 New Court Building, until 3:00 P.M., Thursday, July 26, 1923, and then publicly opened for hydraulic dredging from 750,000 to 1,500,000 cubic yards in the Inner Harbor Navigation Canal between the Lock and Louisville and Nashville R.R. Bridge.

A deposit of $1,000.00 in cash or certified check is required with each proposal.

A bond to the amount of fifty per cent (50%) of the sum bid is required with notarial contract.

Specifications and proposal forms are on file in the office of the Supervisor of Purchases, at No. 1 Canal Street, New Orleans, Louisiana. Complete sets will be furnished to prospective bidders on deposit of $10 which will be refunded to depositors who submit proposals or return sets in good condition.

The right is reserved to reject any or all bids and to waive informalities.

J. H. WALSH,
General Manager.

Bids: July 10.

Sewer System and Appurtenances

Essex Junction, Vt.

Sealed proposals, properly endorsed, for building a sewer system and appurtenances in the Village of Essex Junction, Vermont will be received by the Trustees of the Village of Essex Junction at the office of Allen Martin, Village Clerk until two p.m. July 10, 1923. at which time they will be publicly opened and read.

All proposals must be made on the blanks furnished by the Trustees and enclosed in a plain sealed envelope addressed to Village Trustees, Essex Junction, Vt. and endorsed "Proposal for Sewer System."

Each proposal must be accompanied by a certified check for one thousand (1000) dollars, made payable to the Treasurer of the Village of Essex Junction, Vt. The certified checks of the unsuccessful bidders will be promptly returned to them and that of the successful bidder when he has signed the contract and executed the bond.

A bond acceptable to the Trustees for fifty (50) per cent of the lump sum bid will be required of the successful bidder when the contract is signed.

The proposed system calls for approximately six miles of sewers from 6" to 27" in diameter.

Plans and Specifications may be obtained at the office of Allen Martin, Village Clerk, Essex Jct., Vt.

A deposit of ten (10) dollars will be required for each set of plans and specifications, which will be returned if the plans and specifications are returned to the Village Clerk by July 20, 1923.

The Trustees reserve the right to reject any or all bids.

L. A. EVANS,
President.

Bids: July 12.

Bridge

Fort Wayne, Ind.

Notice is hereby given that the Board of County Commissioners of Allen County, Indiana, will receive sealed proposals or bids at the Auditor's office in Allen County, Indiana, until 10 o'clock A. M. on the 12th day of July, 1923, for the erection and construction of a bridge over the Maumee River at Columbia Street, Fort Wayne, Indiana.

Plans and specifications and profiles have been adopted by the Board of Commissioners and are now on file in the office of the County Auditor for the inspection of bidders.

Plans and specifications can be had on application to Orin M. Darling, County Engineer, Fort Wayne, Indiana.

Bids must be accompanied by a good and sufficient bond equal to double the amount of the bid, as required by law and the necessary affidavits required by law in the State of Indiana, in such cases made and provided.

Bonds signed by two or more freeholders and residents of the county, or by a properly authorized and qualified bonding or surety company, will be accepted by the board.

Bidders must submit their proposals, bids and affidavits on blank forms to be furnished by the County Auditor on application.

The Board of Commissioners reserves the right to reject any and all bids.

By order of the County Commissioners of Allen County, Indiana.

A. J. BAKER,
GUST F. HILGEMAN,
T. J. SHEEHAN,
Board of County Commissioners,
Allen County, Indiana.

Attest:
JOHN H. JOHNSON, Auditor,
Allen County, Indiana

OFFICIAL PROPOSALS

Bids: Jan. 11.

(S. S. D. 3-4) (Lifting Plant and Discharge Mains)

Muscatine, Ia.

Sealed bids will be received by the City Recorder of the City of Muscatine, Iowa, until 7:30 o'clock p.m., of January 11, 1923, for the furnishing of all labor, materials and appliances and do all the work of constructing a sanitary sewer and storm water sewer lifting plant in Sub Sewerage District as follows:

Improvements in Sub Sewerage District Number Three (3) of Main Sewerage District Number Four (4) in the City of Muscatine, Iowa, as laid out and ordered by the City Council of said City; consisting of the construction of a lifting plant as follows:

In the Sub Sewerage District Number Three (3) of Main Sewerage District Number Four (4), a sewerage and storm water lifting plant to be located on Lot Ten (10) Block Twenty Five (25) of A. Smalleys Addition to South Muscatine which lifting plant consists of a concrete and brick building in which is installed the necessary ejectors, pumps, motors, air compressors, etc., to lift the sewerage and storm water into the discharge mains.

That, the said sewerage improvement also include an 18 inch cement, concrete or vitrified clay pipe for storm water discharge extending from the pumping plant northerly a distance of 595 feet to the southerly end of Division Street and thence north on Division Street a distance of Sixteen Hundred five (1605) feet to Muscatine Slough. Also, an 8 or 10 inch cast iron sewerage discharge main extending from the disposal plant on Lot 10, Block 25 A. Smalleys Addition to South Muscatine easterly a distance of 1,400 feet to the Mississippi River.

Payment for said improvement will be made as follows:

Once each month The Central States Engineering Company of Muscatine, Iowa, the engineer in charge of the work for said City, will estimate the value of the materials used and the labor performed during the previous month, and there shall be paid to the contractor, 80 per cent of each of such estimates in cash out of the sewer fund of said City of Muscatine, until a sum not in excess of $15,000 shall have been so paid. Thirty days after the completion and acceptance of the improvement, the unpaid balance due thereon shall be paid in cash out of the sewer fund of said City up to the amount of $15,000 including the amount paid on monthly estimates. The remainder of the total cost of said improvement if in excess of $15,000 shall be paid by the delivery to the contractor, thirty days after completion and acceptance of said improvement, of sewer certificates of indebtedness of a face value equal to such remainder, of denominations of $500.00 or less multiple of $100.00, bearing interest at 6 per cent per annum thirty days from the date of such acceptance and payable one eighteenth May 1st, 1924, one eighteenth November 1st, 1924, one eighteenth May 1st, 1925, one eighteenth November 1st, 1925, one eighteenth May 1st, 1926, one eighteenth November 1st, 1926, one eighteenth May 1st, 1927, one eighteenth November 1st, 1927, one eighteenth May 1st, 1928, one eighteenth November 1st, 1928, one eighteenth May 1st, 1929, one eighteenth November 1st, 1929, one eighteenth May 1st, 1930, one eighteenth November 1st, 1930, one eighteenth May 1st, 1931, one eighteenth November 1st, 1931, one eighteenth May 1st, 1932, and one eigheenth November 1st, 1932. Said certificates are payable only out of a tax upon all of the taxable property of the City of Muscatine for the sewer fund of said City, levied and to be levied for the years 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930 and 1931.

The Contractor in doing the work shall conform to the plans and specifications for the work now on file in the office of the City Recorder. A certified check of 5 per cent of the price bid on some Muscatine bank, payable to the City of Muscatine, Iowa, must accompany each and every bid and be enclosed in a separate envelope.

In case the lowest responsible bidder to whom the work is awarded fails to enter into contract and furnish bond for seventy-five per cent (75%) of his bid with the approved sureties within five days after notification to that effect, said check shall be forfeited to said City as liquidated damages.

OFFICIAL PROPOSALS

Bids will be acted upon by the City Council of the City of Muscatine, Iowa, at 7:30 o'clock p.m., January 11, 1923. All proposals must be made on blanks furnished by the Central States Engineering Company. The City Council reserves the right to reject any and all bids.

Dated December 15, 1922.

G. C. PARKS,
City Recorder.

Central States Engineering Co.
By C. H. YOUNG.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

Bids: Jan. 1.1

(S. S. D. 3-4) (South Muscatine and Musserville Sewer)

Muscatine, Ia.

Sealed bids will be received by the City Recorder of the City of Muscatine, Iowa, until 7:30 o'clock p.m. of January 11, 1923, for the furnishing of all labor, materials and appliances and do all the work of constructing cement, concrete or vitrified clay pipe sewers in Sub Sewerage District as follows: Improvements in Sub Sewerage District Number Three (3) of Main Sewerage District Number Four (4) in the City of Muscatine, Iowa, as laid out and ordered by the City Council of said City; consisting of the construction of a sanitary sewer and storm water sewer as follows:

In Sub Sewerage District Number Three (3) of Main Sewerage District Number Four (4).

3,684 lineal feet of 12 inch cement, concrete or vitrified clay pipe sewer with 12 inch cement, concrete or vitrified clay drain tile.

4,522 lineal feet of 10 inch cement, concrete or vitrified clay pipe sewer with 10 inch cement, concrete or vitrified clay drain tile.

35,463 lineal feet of 8 inch cement, concrete or vitrified clay pipe sewer with 8 inch cement, concrete or vitrified clay drain tile.

125 brick or cement concrete manholes.

10 brick or cement concrete drop manholes.

270 brick or cement concrete catchbasins.

OFFICIAL PROPOSALS

7,380 lineal feet of 10 inch cement, concrete or vitrified clay pipe storm water connections.

The work of making said improvements shall be commenced on or before the 25th day of January, 1923, and completed on or before the 1st day of January, 1924.

Payment for said improvement will be made as follows:

By issuing to the contractor upon completion of the work, bonds in anticipation of the collection of a special tax to be levied against the abutting and adjacent property to pay the cost of said improvement. The amount to be assessed to be limited to and not to exceed the special benefits to the said property resulting from said improvement, and in no case to exceed 25 per cent of the actual value of the property at the time of the levy, nor shall the amount assessed against the abutting or adjacent property exceed 80 per cent of the cost of the sewer. The difference between the cost of said improvement and the amount thereof assessable against private property as above provided shall be paid by delivering to the contractor certificates of indebtedness payable only out of the taxes to be levied for the City Sewer Fund for the years 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930 and 1931, one eighteenth of which certificates of indebtedness shall become due and payable May 1st, 1924, one eighteenth of which certificates of indebtedness shall become due and payable November 1st, 1924, one eighteenth of which certificates of indebtedness shall become due and payable May 1st, 1925, one eighteenth of which certificates of indebtedness shall become due and payable November 1st, 1925, one eighteenth of which certificates of indebtedness shall become due and payable May 1st, 1926, one eighteenth of which certificates of indebtedness shall become due and payable November 1st, 1926, one eighteenth of which certificates of indebtedness shall become due and payable May 1st, 1927, one eighteenth of which certificates of indebtedness shall become due and payable November 1st, 1927, one eighteenth of which certificates of indebtedness shall become due and payable May 1st, 1928, one eighteenth of which certificates of indebtedness shall become due and payable November 1st, 1928, one eighteenth of which certificates of indebtedness shall become due and payable May 1st, 1929, one eighteenth of which certificates of indebtedness shall become due and payable November 1st, 1929, one eighteenth of which certificates of indebtedness shall become due and payable May 1st, 1930, one eighteenth of which certificates of indebtedness shall become due and payable November 1st, 1930, one eighteenth of which certificates of indebtedness shall become due and payable May 1st, 1931, one eighteenth of which certificates of indebedness shall become due and payable November 1st, 1931, one eighteenth of which certificates of indebtedness shall become due and payable May 1st, 1932, and one eighteenth of which certificates of indebtedness shall become due and payable November 1st, 1932. Said certificates of indebtedness shall be called "Sewer Certificates of indebtedness of the City of Muscatine, Iowa"; shall be issued in sums of $500.00 each or some less multiple of $100.00, shall bear interest from thirty days after acceptance of said improvement at the rate of six per cent per annum, payable semi-annually; shall be numbered serially; and shall be signed by the Mayor and countersigned by the City Recorder.

The Contractor in doing the work shall conform to the plans and specifications for the work now on file in the office of the City Recorder. A certified check of five per cent (5%) of the price bid on some Muscatine bank, payable to the City of Muscatine, Iowa, must accompany each and every bid and be enclosed in a separate envelope.

In the case the lowest responsible bidder to whom the work is awarded fails to enter into contract, and furnish bond for seventy five per cent (75%) of his bid with the approved sureties within five days after notification to that effect, said check shall be forfeited to said City as liquidated damages.

Bids will be acted upon by the City Council of the City of Muscatine, Iowa, at 7:30 o'clock p.m., January 11, 1923. All proposals must be made on blanks furnished by the Central States Engineering Company. The City Council reserves the right to reject any and all bids.

OFFICIAL PROPOSALS

Bids: Feb. 7.

Highway Bridge

Baton Rouge, La.

Notice is hereby given that sealed bids will be received by the Louisiana Highway Commission at its offices in the Reymond Bldg., Baton Rouge, La. up to 12 o'clock Noon, Wednesday, February 7th, 1923, at which time and place they will be publicly opened, for the Construction of a Highway Bridge over the Mermentau River at Mermentau, Louisiana, to be known as the Mermentau River Bridge, Federal Aid Project No. 122.

The plans have been prepared for two alternate layouts as follows:

Alternate "A"—Vertical Lift Layout.

Beginning at the East end to consist of 1 30 ft. reinforced Concrete deck girder span, 1 100 ft. thru riveted fixed span, 1 100 ft. thru riveted Vertical Lift Span, 1 140 ft. thru riveted fixed span, and 3 30 ft. reinforced Concrete deck girder spans.

Alternate "B"—Center Bearing Swing Layout.

Beginning at the East end to consist of 1 30 ft. reinforced Concrete deck girder span, 1 216 ft. thru riveted Center Bearing swing span, 1 140 ft. thru riveted fixed span and 3 30 ft. reinforced concrete deck girder spans.

For each layout the clear Roadway width will be 18 ft., the floor will be timber on movable spans and concrete on fixed spans. The movable spans will be operated by machinery driven by gasoline engines housed over movable spans.

The foundations are similar for the two layouts and consist of Concrete Piers resting on timber piles, the channel piers will be constructed by sinking cribs but the use of cofferdams will be permitted. Cofferdams will be used for the other piers.

Plans and specifications for the proposed work prepared by J. A. L. Waddell and approved by Louisiana Highway Commission and Bureau of Public Roads are on file, and may be inspected by prospective bidders during business hours, at the office of the Louisiana Highway Commission, Reymond Bldg., Baton Rouge, and at the office of J. A. L. Waddell, 35 Nassau Street, New York City. Bidders will be furnished with a copy of the specifications and blue prints of the plans by the Louisiana Highway Commission upon receipt of Five Dollars ($5.00) which will not be returned.

Bids may be submitted on either or both of the alternate layouts and must be made on standard proposal forms in the manner designated therein and required by the specifications. Bids must be enclosed in sealed envelopes bearing the name and address of bidder and name and type of bridge on which bid is submitted on the outside and addressed to Louisiana Highway Commission. Each bid must be accompanied by a certified check in an amount equal to (5%) five per cent of the total bid, payable to Louisiana Highway Commission as a guaranty that if the bid is accepted a contract will be entered into and performance thereof properly secured within (10) ten days notice of the acceptance of bid, otherwise the deposit will be forfeited.

The Louisiana Highway Commission reserves the right to reject any or all bids.

J. M. FOURMY,
State Highway Engineer.
W. T. PETERMAN, Chairman,
Louisiana Highway Commission.

Bulkhead

Jersey City, N. J.

Sealed proposals will be received by the Hudson County Park Commission at its office, 1 Exchange Place, Jersey City, N. J., on Monday, January 15th, 1923, at 11 o'clock a.m., for the construction of a Bulkhead at West Side Park, Jersey City, N. J., and work connected therewith in accordance with plans and specifications on file at the office of the Hudson County Park Commission.

Blank form of bid showing estimate of quantities must be obtained at the office of the Hudson County Park Commission.

Each bidder must accompany his bid with a certified check drawn to the order of the Hudson County Park Commission to the amount of 5% of his bid.

The successful bidder will be required to furnish a surety company's bond to be approved by the Hudson County Park Commission in the full amount of his bid with satisfactory security conditioned for the faithful performance of his contract.

There shall be two contracts ,the original and copy which shall first be signed and executed by the successful bidder and presented to the Hudson County Park Commission for signature.

Bids must be enclosed in sealed envelopes indorsed "Proposals for Bulkhead and Reclamation, West Side Park, Jersey City, N. J.," directed to the Hudson County Park Commission and delivered to the Secretary of the Commission at or before the hour above specified. The Commission reserves the right to reject any or all bids.

Dated: December 18, 1922.

Secretary.

Bids: Jan. 23.

Road Repair

Trenton, N. J.

Proposals for Bituminous Patching Material.

The Board of Freeholders of Mercer County will receive separate bids on Tuesday, January 23rd, 1923, at 2:30 o'clock in the afternoon, at their regular place of meeting, Court House, Trenton, New Jersey, for

1. Furnishing and delivering approximately 40,000 gallons of tar patching material for cold application, grade K. P. or U. C. (New Jersey).
2. Furnishing and delivering approximately 20,000 gallons of asphalt "cut back" grade "H. K." (New Jersey).

Prospective bidders are referred to specifications covering the above work prepared by Harry F. Harris, Mercer County Engineer, which specifications are on file in his office at the Court House, Trenton, New Jersey.

Each bid must be accompanied by a certified check in the amount of two hundred dollars ($200.00), payable to Edgar G. Weart, County Treasurer, also by a proposition from a surety company fulfilling the requirements of Section 507, Chapter 185, P. L., 1918.

The right is reserved to reject any or all bids and to waive any immaterial defect or informality in any bid should it be in the interest of the County to do so.

ARTHUR BRAY, JR.,
Director of Department of Road Repair.

Highway Bridge

Baton Rouge, La.

Notice is hereby given that sealed bids will be received by the Louisiana Highway Commission at its offices in the Reymond Bldg., Baton Rouge, La. up to 12 o'clock Noon, Wednesday, February 7th, 1923, at which time and place they will be publicly opened, for the Construction of a Highway Bridge over the Mermentau River at Mermentau, Louisiana, to be known as the Mermentau River Bridge, Federal Aid Project No. 122.

The plans have been prepared for two alternate layouts as follows:

Alternate "A"—Vertical Lift Layout.

Beginning at the East end to consist of 1 30 ft. reinforced Concrete deck girder span, 1 100 ft. thru riveted fixed span, 1 100 ft. thru riveted Vertical Lift Span, 1 140 ft. thru riveted fixed span, and 3 30 ft. reinforced Concrete deck girder spans.

Alternate "B"—Center Bearing Swing Layout.

Beginning at the East end to consist of 1 30 ft. reinforced Concrete deck girder span, 1 216 ft. thru riveted Center Bearing swing span, 1 140 ft. thru riveted fixed span and 3 30 ft. reinforced concrete deck girder spans.

For each layout the clear Roadway width will be 18 ft., the floor will be timber on movable spans and concrete on fixed spans. The movable spans will be operated by machinery driven by gasoline engines housed over movable spans.

The foundations are similar for the two layouts and consist of Concrete Piers resting on timber piles, the channel piers will be constructed by sinking cribs but the use of cofferdams will be permitted. Cofferdams will be used for the other piers.

Plans and specifications for the proposed work prepared by J. A. L. Waddell and approved by Louisiana Highway Commission and Bureau of Public Roads are on file, and may be inspected by prospective bidders during business hours, at the office of the Louisiana Highway Commission, Reymond Bldg., Baton Rouge, and at the office of J. A. L. Waddell, 35 Nassau Street, New York City. Bidders will be furnished with a copy of the specifications and blue prints of the plans by the Louisiana Highway Commission upon receipt of Five Dollars ($5.00) which will not be returned.

Bids may be submitted on either or both of the alternate layouts and must be made on standard proposal forms in the manner designated therein and required by the specifications. Bids must be enclosed in sealed envelopes bearing the name and address of bidder and name and type of bridge on which bid is submitted on the outside and addressed to Louisiana Highway Commission. Each bid must be accompanied by a certified check in an amount equal to (5%) five per cent of the total bid, payable to Louisiana Highway Commission as a guaranty that if the bid is accepted a contract will be entered into and performance thereof properly secured within (10) ten days notice of the acceptance of bid, otherwise the deposit will be forfeited.

The Louisiana Highway Commission reserves the right to reject any or all bids.

Project 3148—Hardy County—8.5 miles of the Moorefield Petersburg Road for grading and draining. Certified check for $3,500.00.

OFFICIAL PROPOSALS

Proposals will be received only upon State Standard form in accordance with plans, specifications and estimates of quantities therefor, which standard forms, plans, specifications and estimates of quantities may be obtained from the office of the Division Engineer in whose territory the proposed construction is located or from the office of the State Road Commission at Charleston, W. Va.

Each proposal must be accompanied by a certified check for the amount noted.

The right is reserved to reject any and all proposals.

THE STATE ROAD COMMISSION OF WEST VIRGINIA.
E. B. CARSKADON, Secretary.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

Bids: Jan. 23.

Sewers and Drains

Charlotte, N. C.

Sealed proposals for the construction of certain sewers on certain streets consisting of approximately eight miles of sewers and drains with appurtenances to be laid for the City of Charlotte, N. C., will be received by the City of Charlotte, up to Eleven o'clock a.m., of the twenty-third day of January, 1923. Proposals to be addressed to the Board of Commissioners and endorsed: Proposals for Constructing Sewers.

A certified check equal to five per centum of the amount of the bid, and made payable to the Treasurer of the City of Charlotte, will be required to accompany each bid.

Plans and specifications and blank forms of proposal may be obtained at the office of the City Engineer.

W. S. STANCILL,
Commissioner of Public Works.
JOSEPH FIRTH,
City Engineer.

Sluice Gates

Buffalo, N. Y.

Sealed proposals will be received by the Commissioner of Public Works at the Municipal Bldg., Buffalo, N. Y., for 56 rectangular sluice gates varying in size from 16-in. square to 48-in equare, and appurtenances to be furnished f.o.b. cars, Buffalo, N. Y.

Forms of proposal, drawings and specifications may be obtained on application to the above address.

ARTHUR W. KREINHEDER,
Commissioner of Public Works,
Buffalo, N. Y.

Bids: Jan. 30.

Gate-Valves and Hydrants

CONTRACT 213

New York, N. Y.

Sealed bids will be received by the Board of Water Supply at its offices, twenty-second floor, Municipal Building, Park Row, Centre and Chambers Streets, New York City, until 11 a.m., Eastern Standard Time, on Tuesday, January 30, 1923, for Contract 213, for furnishing and delivering gate-valves and hydrants for the Mt. Prospect, Park Slope, Fort Hamilton and Clove conduits and Narrows Siphon No. 2 of the Catskill Aqueduct, all as set forth in the specifications. All deliveries shall be made, with all transportation charges prepaid, at designated storage yards within the limits of the City of New York.

At the above place and time the bids will be publicly opened and read. Pamphlets containing information for bidders, forms of bid and contract, specifications, contract drawings, etc., can be obtained at the office of the secretary at the above address, by depositing the sum of ten dollars ($10) in cash or its equivalent for each pamphlet. For further particulars apply to the office of the Chief Engineer at the above address.

GEORGE J. GILLESPIE,
President.
JAMES F. SINNOTT,
PHILIP F. DONOHUE,
Commissioners, Board of Water Supply.
BENJ. F. EINBIGLER, Secretary.

Bids: Jan. 23.

Intercepting Sewer

Toledo, Ohio.

Sealed proposals will be received by the Director of Public Service, Toledo, Ohio, until twelve o'clock noon, eastern standard time, on the 23rd day of January, 1923, and then publicly opened and read for the construction of Contract No. 5 of the Intercepting Sewer System, consisting of

18,955 feet of 87 in. Circular Sewer
2,255 feet of 84 in. Circular Sewer
2,640 feet of 78 in. Circular Sewer

OFFICIAL PROPOSALS

all of which will be built in tunnel, together with manholes and appurtenances.

Bidders are invited to submit prices on monolithic concrete, vitrified segment block and brick.

Plans, specifications, contract and bond forms can be secured at the office of the Director of Public Service upon deposit of twenty dollars ($20.00) for each set, which will be refunded provided they are returned in good order on or before February 20, 1923.

Information regarding the work can be obtained through the following offices of our consulting engineers, Fuller & McClintock: 170 Broadway, New York, 319 Summit-Cherry Building, Toledo, 421 Produce Exchange Building, Kansas City Mo., 879 N. Parkway, Memphis, Tenn., and 1001 Chestnut Street, Philadelphia, Pa.

Each proposal must be accompanied by a bond executed by the bidder and a surety company satisfactory to the Director of Public Service in the sum of Ten Per Cent (10%) of the amount of the bid, or in lieu of a bond the bidder may deposit with the Director of Public Service, a certified check on a solvent bank, payable to the order of the Director of Public Service, in amount equal to such bond, said bond or certified check being required as a guarantee that if the bid be accepted, a contract will be entered into and its performance properly secured.

The contract bond will be Fifty Per Cent (50%) of the amount of the contract. Labor and material bids must be separately stated with the price therefor.

The Director of Public Service reserves the right to reject any or all bids or to accept any bid which he may deem advantageous to the City of Toledo.

W. T. JACKSON,
Director of Public Service.
GORGE E. LASKA,
Secretary.

Bids: Feb. 5.

Electric Power Plant Construction

Shelbyville, Ill.

Sealed proposals will be received by the City Council of Shelbyville, Illinois, until one o'clock p.m., February 5th, 1923, for the installation of a complete electric light and power plant. The specifications provide fourteen separate sections, and bids will be received for the plant complete or for any one or more of the divisions.

Bids will be opened by the City Council on the above date. Plans and specifications and form for bids may be obtained from W. A. Fuller Company, Railway Exchange Building, St. Louis, Missouri, Consulting Engineers, on payment of Three ($3.00) Dollars for plans and Five ($5.00) Dollars for copy of specifications.

Dated January 2nd, 1923.

WM. C. RAETZ, City Clerk.

PUT YOURSELF "ON THE CARPET"

¶If you ever caught an employee buying inferior machinery, material or service chances are you'd put him on the carpet and give him a lecture on just how expensive such mistakes are. ¶Are you one of the many Contractors who are paying standard rates for Contract Bonds and putting up with an inferior service when the same standard rate will buy SWART SERVICE? ¶—and remember this—when there is a better service SWART will be rendering it. ¶So just put yourself on the carpet and say to yourself, "maybe SWART is right. At least it will do no harm to find out. I'll make an appointment with him right now while I am thinking about it."

SWART SERVICE REALLY SERVES

HARMON V. SWART

Contract Bonds—Compensation Insurance

92 William Street

New York

Why You Should Advertise for Bids NATIONALLY

Nation-wide publicity reaches the greatest number of responsible bidders best fitted to do work in the most up-to-the-minute manner at lowest cost.

It makes local bidders figure closer and adopt the most efficient methods of doing work.

It is evidence of good business administration—an honest effort to furnish efficient service.

Buyers of bonds are naturally influenced by the efforts made to let contracts to reliable bidders at favorable prices.

Why You Should Advertise in ENGINEERING NEWS-RECORD—

Engineering News-Record is a consolidation of the three leading publications in the engineering and construction field—Engineering News, Engineering Record and The Contractor. It has a circulation of over 30,000 copies weekly—several times that of any other paper in the field—and includes among its readers almost every worthwhile contractor, engineer, manufacturer and dealer in the country interested in bidding on work outside his own vicinity.

Engineering News-Record is the one nationally recognized medium through which prospective bidders on work outside of their immediate localities keep regularly informed of the newest work on which bids are desired. Many rely entirely upon the announcements in this paper and, therefore, do not see those advertised elsewhere.

Over 3,000 Official Proposals Appear Annually—

Perhaps the best indication of what other cities and towns think of the results obtainable through the official proposals columns of *Engineering News-Record* is the fact that more than 3,000 of their announcements appear each year. Many of their letters telling of the savings realized as a result of their advertising in this great medium are further proof of the worthwhileness of national publicity through *Engineering News-Record.*

OFFICIAL PROPOSALS

Bids: Feb. 9 and Feb. 23.

Two Junior High School Buildings

Jamestown, N. Y.

Notice is hereby given that sealed proposals for furnishing labor and materials to construct two Junior High School Buildings, in the city of Jamestown, N. Y., will be received by the Board of Education, as follows:

1. For a Junior High School Building, located on Front Street, bids will be received up to 2 o'clock P.M., February 9th, 1923, at the offices of the Board of Education in the High School Building on East Second Street, Jamestown, N. Y., at which time they will be opened and publicly read.

2. For a Junior High School Building located on Buffalo Street, bids will be received up to 2 o'clock P. M. February 23rd, 1923, at the offices of the Board of Education in the High School Building on East Second Street, Jamestown, N. Y., at which time they will be opened and publicly read.

Bids will be received for the work on each school under four separate contracts, as follows:

(a) For the General Construction, which includes all Masonry, Carpentry, Sheet and Iron, Roofing, Painting and all work kindred thereto.

(b) For Plumbing and Gas Fitting, and all work kindred thereto.

(c) For heating and ventilating, and all work kindred thereto.

(d) For Electrical Work and all work kindred thereto.

The Board of Education reserves the right to accept or reject any or all proposals and at its discretion to waive informalities.

All bids must be made in the form provided by the specifications and presented in sealed envelopes addressed to the Board of Education, endorsed, *"Proposal for Front Street Junior High School, Jamestown, N. Y.," or "Proposal for Buffalo Street Junior High School, Jamestown, N. Y.,"* and stating the branch of the work covered. All bids to hold good for at least twenty days after opening same.

No bid will be considered unless accompanied by certified check to the order of the Board of Education of Jamestown, N. Y., in an amount equal to 5% of the amount of the bid or a bid bond of like amount, binding the bidder to execute the contract if awarded to him. The terms of the proposal with surety required are fixed by the specifications.

Copies of the Plans and Specifications will be on file in the offices of the Board of Education in the present High School Building, on East Second Street, Jamestown, N. Y., and at the offices of the Architects for the purpose of examination or estimating.

A limited number of copies of the plans and specifications have been provided by Messrs. Guilbert & Betelle and Johnson & Ford, associated Architects, and will be loaned to prospective bidders on deposit of a certified check in the sum of $25.00 for each set of plans loaned. If the plans and specifications are returned, the check will be returned, otherwise the deposit may become forfeited. All applications for plans should be made to Johnson & Ford, Architects, Fenton Building, Jamestown, N. Y., and check drawn to their order.

The Board of Education, of Jamestown, N. Y.

E. SNELL HALL,
President.
MILDRED R. FALCONER,
Clerk.

January 4th, 1923.

U. S. GOVERNMENT

OFFICE OF CONSTRUCTING QUARTERMASTER, FORT BLISS, TEXAS.—Sealed proposals, in triplicate, will be received at this office until 10:00 a.m., February 1st, 1923, then publicly opened for drilling, casing and equipping complete, ready for operation, one eight inch well at Doña Ana Target Range, New Mexico. Plans and specifications furnished upon receipt of certified check for $10.00 to guarantee return.

OFFICIAL PROPOSALS

Bids: Jan. 16.

Sewer

Summit, N. J.

Sealed proposals will be received by the Common Council of the City of Summit, N. J., at 8 P. M. Tuesday, January 16, 1923, for the construction of a Concrete or Vitrified Pipe Storm Water Sewer with appurtenances in Essex and Whittredge Roads.

The approximate quantities are as follows:

2,950 cu.yd. earth excavation 0 ft. to 8 ft. deep.
805 cu.yd. earth excavation 8 ft. to 14 ft. deep.
60 cu.yd. earth excavation 14 ft. to 16 ft. deep.
835 lin. ft. of 27 in. Vit. Tile or Concrete pipe.
1,613 lin. ft. of 24 in. Vit. Tile or Concrete pipe.
280 lin. ft. of 15 in. Vit. Tile or Concrete pipe.
60 lin. ft. of 12 in. Vit. Tile or Concrete pipe.
11 manholes.
3 catch basins.

Each proposal must be accompanied by a certified check or cash for five per cent. of the total amount of bid. A Surety Bond for the full amount of the contract will be required of the successful bidder. The Common Council reserves the right to reject any or all bids, or to accept any bid.

Plans, specifications and proposal blanks may be obtained at the office of the City Engineer, in the City Hall, Summit.

FREDERICK C. KENTZ,
City Clerk.

JOHN C. BRIGHAM,
City Engineer.

Bids: Jan. 23.

Sidewalks

Charlotte, N. C.

Sealed proposals will be received by the Board of Commissioners of Charlotte, N. C., up to 11 o'clock a.m., of the 23rd day of January, 1923, for the grading and paving of the sidewalks on various streets consisting of approximately 45,000 sq.yds. of concrete walk.

A certified check equal to 5 per cent of the amount of the bids and drawn payable to the Treasurer of the City of Charlotte, will be required to accompany each proposal. Specificaltons can be obtained at the office of the City Engineer.

The right is reserved to reject any or all bids.

JOSEPH FIRTH,
City Engineer.
W. S. STANCILL,
Commissioner of Public Works.

U. S. GOVERNMENT

U. S. ENGINEER OFFICE, CINCINNATI, O. Sealed proposals will be received here until 2 p. m. Feb. 8, 1923, and then opened for furnishing and delivering horses and props for Ohio River Dams Nos. 34, 36, and 38. Further information on application.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., January 6, 1923.—SEALED PROPOSALS will be opened in this office at 3 p.m., January 30, 1923, for construction of an extension to delivery platform at U. S. Appraisers Warehouse, New York, N. Y. Drawing and specifications may be obtained from the Office of Supervising Chief Engineer, 731 Custom House, New York, N. Y., or at this office, in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

U. S. ENGINEER OFFICE, HUNTINGTON, W. VA., Dec. 23, 1922.—Sealed proposals will be received here until 11 a.m. (Eastern Time), January 23, 1923, and then opened, for furnishing and delivering lock-operating machinery, etc., for Dam No. 30, Ohio River. Further information on application.

U. S. GOVERNMENT

U. S. ENGINEER OFFICE, NASHVILLE, TENN. Sealed proposals will be received here until 11 A.M., January 18, 1923, and then opened, for steel hull for dipper dredge Watauga. Further information on application.

U. S. ENGINEER OFFICE, WILMINGTON, DEL.—Sealed proposals will be received here until 12 o'clock noon, January 15, 1923, and then opened, for constructing and delivering two wooden dump scows. Further information on application.

U. S. ENGINEER OFFICE, FLORENCE, ALA.—Sealed proposals will be received here until 11 A.M. January 27, 1923, and then opened, for the construction and delivery of four steel barges. Further information on application.

U. S. ENGINEER OFFICE, PITTSBURGH, PA.—Sealed proposals for building two two-story, seven-room lockkeepers' houses at Lock No. 6, Monongahela River, will be received at this office until 12 Noon, January 31, 1923, and then publicly opened. Information on application.

U. S. ENGINEER OFFICE, NASHVILLE, TENN.—Sealed proposals will be received here until 11 a.m., January 30, 1923, and then opened, for fourteen steel barges. Further information on application.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., Jan. 24, 1923, for constructing about 900,000 cubic yards of earthwork by the hydraulic method in the Sny Island Levee Drainage District, Ill. Further information on application.

U. S. ENGINEER OFFICE, CINCINNATI, O. Sealed proposals will be received here until 2 p.m., Jan. 30, 1923, and then opened, for constructing, assembling, testing and delivering one dredging ladder for 24-inch pipe line dredge. Further information on application.

U. S. ENGINEER OFFICE, GALVESTON, TEX. Sealed proposals will be received here until 12 m., Feb. 1, 1923, and then opened, for dredging the Houston Ship Channel, Texas. Further information on application.

U. S. ENGINEER OFFICE, ROOM 608, ARMY BUILDING, NEW YORK CITY. Sealed proposals will be received here until 12 o'clock noon, January 26, 1923, and then opened, for furnishing and erecting complete, on concrete foundations already constructed, one 100-foot Range Finding Tower. Further information on application here and at Office of Chief of Engineers, Construction Section, Washington, D. C.

DEPARTMENT OF THE INTERIOR, UNITED STATES RECLAMATION SERVICE, Washington, D. C., January 3, 1923.—Sealed proposals will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 o'clock p.m., February 13, 1923, for the inspection of engineering materials and machinery for the Reclamation Service for a period of one year. For further particulars address the United States Reclamation Service, Washington, D. C., or Denver, Colo. A. P. Davis, Director.

BIDS INVITED.—Sealed bids will be received by the Constructing Quartermaster, Fort Benning, Georgia, for construction of twenty-three sets of two family houses. Bids will be opened at Fort Benning, Georgia, at 12 o'clock noon, central time, January 30th, 1923. Twenty five dollars deposit required to insure return of plans.

U. S. ENGINEER OFFICE, GALVESTON, TEX., Sealed proposals will be received here until 11 a.m. Feb. 21 1923, and then opened, for dredging channels at Brazos Island Harbor, Texas. Further information on application.

ENGINEERS—CONTRACTORS

A great reservoir of brains and experience is available, practically without cost.

Several years ago, hap-hazardly reading the various technical periodicals and reports, the writer became amazed at the vast amount of detailed information as to design, methods, costs, etc., included in obscure paragraphs or drawings of general articles whose titles could in no way indicate the presence of such information. He began to card-index such semi-hidden information, and it is remarkable how much, in the course of a year, is printed regarding some one minor detail—matter usually lost completely for any future use the minute the article has been laid aside.

For instance:—an article covering a certain river improvement may contain the detail plans of the pontoons used in dredging—an article on a railroad terminal may show the exact design of a timber trestle supporting the running rail of an overhead crane—an article on a stadium may show dimension drawings of bins and hoppers or concrete materials—an article on a dam may give detail methods of grouting the foundation.

Whatever the problem usually it will be found that, over a period of years, several other parties have encountered the same thing and recorded their methods of handling—often in that obscure paragraph—practically unavailable to others in after years.

In considering your own problem will it not be of advantage, will it not be time saved, will it not be money in pocket, to know and compare what others have done in similar cases?

It is now proposed to carry forward this indexing and cross-indexing and by monthly publication make instantly available many references on any one subject. Your support and subscription is solicited for this service. A refund for unexpired time will be made to any one at any time dissatisfied with the value.

Please send your check for $1.00 for twelve months

The Index of Details (of Design and Construction)

P. O. Box 1033

Detroit, Michigan

POSITIONS WANTED

SANITARY engineer, 25 years of age, Massachusetts Institute of Technology graduate, B. S. degree, desires position, preferably with consulting, engineering or construction firm, in sanitary or civil engineering work; wants to learn work from A to Z; like hard work and plenty of it; location immaterial; first salary, secondary consideration; if temporary position would start work at $175 per month. Bids: Feb. 1.

Heating, Sanitary and Electrical Work

Theills, N. Y.

Sealed proposals for Construction, Heating, Sanitary and Electric Work—Attendants' Home—Assembly Hall and Industrial Building (Girls' Group) at Letchworth Village, Thiells, N. Y., will be received by Mr. Mortimer B. Patterson, President of the Board of Managers of Letchworth Village, at No. 7 Wall Street, New York City, until 12 o'clock Noon on Thursday, February 1, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3928, 3929, 3930, 3931, 3932, 3933 and Addenda dated December 12, 1922, 4040 and 4041. The right is reserved to reject any or all bids. Drawings and specifications may be examined at No. 7 Wall St., New York City; at Letchworth Village, Thiells, N. Y.; at the New York Office of the Department of Architecture, Room 1058, 25 Broadway, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

Dated: December 29, 1922.

Bids: Jan. 30.

Gate-Valves and Hydrants

CONTRACT 213

New York, N. Y.

Sealed bids will be received by the Board of Water Supply at its offices, twenty-second floor, Municipal Building, Park Row, Centre and Chambers Streets, New York City, until 11 a.m., Eastern Standard Time, on Tuesday, January 30, 1923, for Contract 213, for furnishing and delivering gate-valves and hydrants for the Mt. Prospect, Park Slope, Fort Hamilton and Clove conduits and Narrows Siphon No. 2 of the Catskill Aqueduct, all as set forth in the specifications. All deliveries shall be made, with all transportation charges prepaid, at designated storage yards within the limits of the City of New York.

At the above place and time the bids will be publicly opened and read. Pamphlets containing information for bidders, forms of bid and contract, specifications, contract drawings, etc., can be obtained at the office of the secretary at the above address, by depositing the sum of ten dollars ($10) in cash or its equivalent for each pamphlet. For further particulars apply to the office of the Chief Engineer at the above address.

GEORGE J. GILLESPIE,
President.
JAMES P. SINNOTT,
PHILIP F. DONOHUE,
Commissioners, Board of Water Supply.
BENJ. F. EINBIGLER, Secretary.

OFFICIAL PROPOSALS

Bids: Feb. 9 and Feb. 23.

Two Junior High School Buildings

Jamestown, N. Y.

Notice is hereby given that sealed proposals for furnishing labor and materials to construct two Junior High School Buildings, in the city of Jamestown, N. Y., will be received by the Board of Education, as follows:

1. For a Junior High School Building, located on Front Street, bids will be received up to 2 o'clock P.M., February 9th, 1923, at the offices of the Board of Education in the High School Building on East Second Street, Jamestown, N. Y., at which time they will be opened and publicly read.

2. For a Junior High School Building located on Buffalo Street, bids will be received up to 2 o'clock P. M. February 23rd, 1923, at the offices of the Board of Education in the High School Building on East Second Street, Jamestown, N. Y., at which time they will be opened and publicly read.

Bids will be received for the work on each school under four separate contracts, as follows:

(a) For the General Construction, which includes all Masonry, Carpentry, Sheet and Iron, Roofing, Painting and all work kindred thereto.

(b) For Plumbing and Gas Fitting, and all work kindred thereto.

(c) For heating and ventilating, and all work kindred thereto.

(d) For Electrical Work and all work kindred thereto.

The Board of Education reserves the right to accept or reject any or all proposals and at its discretion to waive informalities.

All bids must be made in the form provided by the specifications and presented in sealed envelopes addressed to the Board of Education, endorsed, *"Proposal for Front Street Junior High School, Jamestown, N. Y.," or "Proposal for Buffalo Street Junior High School, Jamestown, N. Y."* and stating the branch of the work covered. All bids to hold good for at least twenty days after opening same.

No bid will be considered unless accompanied by certified check to the order of the Board of Education of Jamestown, N. Y., in an amount equal to 5% of the amount of the bid or a bid bond of like amount, binding the bidder to execute the contract if awarded to him. The terms of the proposal with surety required are fixed by the specifications.

Copies of the Plans and Specifications will be on file in the offices of the Board of Education in the present High School Building, on East Second Street, Jamestown, N. Y., and at the offices of the Architects for the purpose of examination or estimating.

A limited number of copies of the plans and specifications have been provided by Messrs. Guilbert & Betelle and Johnson & Ford, associated Architects, and will be loaned to prospective bidders on deposit of a certified check in the sum of $25.00 for each set of plans loaned. If the plans and specifications are returned, the check will be returned, otherwise the deposit may become forfeited. All applications for plans should be made to Johnson & Ford, Architects, Fenton Building, Jamestown, N. Y., and check drawn to their order.

The Board of Education, of Jamestown, N. Y.

E. SNELL HALL,
President.
MILDRED R. FALCONER,
Clerk.

January 4th, 1923.

OFFICIAL PROPOSALS

Bids: Feb. 7.

Highway Bridge

Baton Rouge, La.

Notice is hereby given that sealed bids will be received by the Louisiana Highway Commission at its offices in the Reymond Bldg., Baton Rouge, La. up to 12 o'clock Noon, Wednesday, February 7th, 1923, at which time and place they will be publicly opened, for the Construction of a Highway Bridge over the Mermentau River at Mermentau, Louisiana, to be known as the Mermentau River Bridge, Federal Aid Project No. 122.

The plans have been prepared for two alternate layouts as follows:

Alternate "A"—Vertical Lift Layout.

Beginning at the East end to consist of 1 30 ft. reinforced Concrete deck girder span, 1 100 ft. thru riveted fixed span, 1 100 ft. thru riveted Vertical Lift Span, 1 140 ft. thru riveted fixed span, and 3 30 ft. reinforced Concrete deck girder spans.

Alternate "B"—Center Bearing Swing Layout.

Beginning at the East end to consist of 1 30 ft. reinforced Concrete deck girder span, 1 216 ft. thru riveted Center Bearing swing span, 1 140 ft. thru riveted fixed span and 3 30 ft. reinforced concrete deck girder spans.

For each layout the clear Roadway width will be 18 ft., the floor will be timber on movable spans and concrete on fixed spans. The movable spans will be operated by machinery driven by gasoline engines housed over movable spans.

The foundations are similar for the two layouts and consist of Concrete Piers resting on timber piles, the channel piers will be constructed by sinking cribs but the use of cofferdams will be permitted. Cofferdams will be used for the other piers.

Plans and specifications for the proposed work prepared by J. A. L. Waddell and approved by Louisiana Highway Commission and Bureau of Public Roads are on file, and may be inspected by prospective bidders during business hours, at the office of the Louisiana Highway Commission, Reymond Bldg., Baton Rouge, and at the office of J. A. L. Waddell, 35 Nassau Street, New York City. Bidders will be furnished with a copy of the specifications and blue prints of the plans by the Louisiana Highway Commission upon receipt of Five Dollars ($5.00) which will not be returned.

Bids may be submitted on either or both of the alternate layouts and must be made on standard proposal forms in the manner designated therein and required by the specifications. Bids must be enclosed in sealed envelopes bearing the name and address of bidder and name and type of bridge on which bid is submitted on the outside and addressed to Louisiana Highway Commission. Each bid must be accompanied by a certified check in an amount equal to (5%) five per cent of the total bid, payable to Louisiana Highway Commission as a guaranty that if the bid is accepted a contract will be entered into and performance thereof properly secured within (10) ten days notice of the acceptance of bid, otherwise the deposit will be forfeited.

The Louisiana Highway Commission reserves the right to reject any or all bids.

J. M. FOURMY,
State Highway Engineer.

W. T. PETERMAN, Chairman,
Louisiana Highway Commission.

Commissioner of Public Works.

OFFICIAL PROPOSALS

Bids: Feb. 5.

Junior High School Building

Trenton, N. J.

Sealed proposals for the complete construction of a new Junior High School Building will be received by the committee on Buildings and Grounds of the Board of Education of Trenton, in the County of Mercer, at the meeting room of the Board in the Administration Building No. 9 South Stockton Street, Trenton, New Jersey, at 8:30 o'clock p.m., eastern standard time, on Monday the 5th day of February, 1923, at which place and time all bids received will be unsealed and contents publicly announced. No bids will be received previous to the time designated, and none will be received thereafter.

All bids shall be presented to the committee at the place and time mentioned by the parties bidding, or their agents, when called for by the chairman of the committee.

Bids for the general construction, for the heating and ventilating, for the plumbing, and for the electrical work, will be taken separately.

A certified check for not less than five (5%) per cent of the amount of the bid must accompany each proposal, made payable to the Board of Education of the City of Trenton, to be treated as liquidated damages in case the bidder receiving the award shall fail to execute a contract and furnish the required bond, within ten days after notification of the acceptance of their bid.

The Board of Education reserves the right to reject any or all bids, or to waive defects or informalities in any bid if it be deemed to the interest of the city so to do.

Copies of the plans and specifications will be on file at the office of the Secretary of the Board of Education, in the Administration Building, for the purpose of estimating.

A limited number of copies of the plans and specifications will be loaned to the prospective bidders on deposit of a certified check drawn to the order of the Board of Education, Trenton, New Jersey, in the sum of $25.00.

These plans and specifications may be obtained by application to the Architect Ernest Sibley, Edgewood Lane and Bluff Road, Palisade, New Jersey, or from J. Osborne Hunt, Associate Architect Hunt Building, 219 East Hanover Street, Trenton, New Jersey. Deposits will be forfeited unless plans and specifications are returned to the Architects within ten days after bids are opened.

(Signed) ROBERT C. BELLVILLE,
Secretary.

For the Board of Education, City of Trenton, New Jersey.

Bids: Feb. 5.

Sewer Arms

Springwells, Mich.

Sealed bids will be received up to 8 p.m., Feb. 5, 1923, by the Village Clerk at the Village Hall, Springwells, Michigan, for the construction Sewer Arms Sections No. 25 to Section No. 35.

The work is divided into eleven sections containing approximately 33,000 ft. of 20" to 120" sewer. Sewers may be built in open cut or tunnel with brick, concrete, reinforced concrete pipe for sizes over 24". Sizes 24" and under may be built of Double Strength Vitrified Pipe.

Plans and specifications are on file at the office of the Village Clerk and copies may be secured from the office of Clarence W. Hubbell, Consulting Engineer, 2348 Penobscot Bldg., Detroit. A deposit of $10.00 will be required for the plans and specifications which will be refunded upon their return in good order on or before Feb. 16, 1923.

A certified check made payable to the Village of Springwells for the sum of $2,500.00 must accompany each bid on each Section. Contractors may bid on any or all Sections. In case of failure or neglect to enter into contract and furnish the required bonds within the time specified the certified check shall be forfeited to the Village of Springwells as liquidated damages.

No proposals will be received unless made on the blanks furnished and delivered to the Village Clerk on or before 8 p.m., Feb. 6, 1923.

The Village reserves the right to reject any or all bids.

By order of the Village Council.
B. P. ESPER,
Village Clerk.

OFFICIAL PROPOSALS

Bids: Feb. 14.

Scherzer Rolling Lift Bridge

New Orleans, La.

Proposal No. 202. City of New Orleans, Louisiana, Department of Public Finances, Purchasing Division, Room 24, City Hall. Sealed proposals will be received at this office until the hour of 11 o'clock a.m., Wednesday, February 14th, 1923, for furnishing and erecting a Scherzer Rolling Lift Bridge over the New Orleans Navigation Canal on the axis of Broad street, in the City of New Orleans, in accordance with plans and specifications on file in this office, complete set of which will be furnished on receipt of a deposit of $5.00, which deposit will be returned when the plans and specifications are returned in good order to this office.

Deposit ten per cent of amount of bid. Cash, Bid Bond or Certified check enclosed with bid.

Bond fifty per cent of contract price.

Contract before the City Notary at bidders expense.

Bidders must have paid their City License in order that their bid may be accepted.

The City reserves the right to reject any and all bids.

R. M. MURPHY,
Commissioner of Public Finances.
January 15th, 1923.

Bids: Feb. 9.

Paving

New Castle, Pa.

Sealed proposals will be received at the office of the City Clerk, City Building, New Castle, Pa., up until 10:00 o'clock, Friday morning, February 9, 1923, for the paving of Montgomery Street (formerly Moravia Road), in the Seventh Ward, beginning at a point following the center line 643.9 feet eastwardly and northwardly from the east end of the County Bridge over the Mahoning River, thence to a point at the end of the present pavement in Montgomery Street near the County Bridge over the Mahoning River and near to the Pittsburgh, Youngstown & Ashtabula Railway tracks, the said paving to be of concrete and of the width of eighteen (18) feet, said paving to be done in accordance with plans and specifications approved by Council and on file in the office of the City Engineer, New Castle, Pa. Each proposal to be accompanied by a certified check for $1,000.00 payable to the order of C. Ed Brown, City Clerk, as a guarantee that the bidder whose proposal is accepted will sign the contract and furnish the required bond, which check is to be returned to the successful bidder upon signing the contract and the approval of the bond, and to the unsuccessful bidders upon award of the contract. Rights reserved to reject any or all bids.

C. ED BROWN,
City Clerk,
New Castle, Pa.

Bids: Jan. 30.

Bridges and Roads

Charleston, W. Va.

Sealed proposals will be received by the State Road Commission of West Virginia until ten o'clock A. M. on the 30th day of January, 1923, and said proposals will be opened and read immediately thereafter at the Kanawha County Court House, Charleston, W. Va., for the construction of the following bridges and sections of State Road:—

Project 3052—Raleigh County—6 miles of the Shady Springs-Summers County Line Road for grading and draining. Certified check for $3,000.00.

Project 3133—Amigo Bridge No. 833—Raleigh County—over Devil's Fork, concrete arch 75 ft. span. Certified check for $500.00.

Project 3182-B—Pocahontas County—8.3 miles of the Sunset to Greenbank District Line Road for grading and draining. Certified check for $4,000.00.

OFFICIAL PROPOSALS

Project 3171—Pocahontas County—2 miles of the Marlinton towards Buckeye Road for grading and draining. Certified check for $1,800.00.

Project 127—Greenbrier County—8 miles of the Lewisburg-Camp Ground Road for grading, draining and paving with Bituminous Macadam. Certified check for $11,000.00.

Project 3045-B—Monroe County—5.3 miles of the Union-Rock Camp Road for grading and draining. Certified check $2,500.00.

Project 3037—Hartland Bridge No. 805—Clay County over Elk River, steel superstructure, 565 ft. long. Certified check for $2,000.00.

Project 3091—Boone County—2.25 miles of the Seng. Creek—toward Seth Road for grading and draining. Certified check for $1,800.00.

Project 3155—Heath Bridge No. 873—Cabell County, over Heath Creek. Concrete deck girder, 37.5 span, concrete substructure. Certified check for $500.00.

Project 3074-D—Jackson County—5 miles of the Cottageville-Mason County Line Road for grading and draining. Certified check for $3,000.00.

Project 47-S—Wetzel County—1 mile New Martinsville-Willeyville Road, for grading, draining and paving with concrete sections only. Certified check for $1,000.00.

Project 3167-A—Marshall County—3 miles of the Cameron-Littleton Road for grading and draining. Certified check for $1,800.00.

Project 3163—Tyler County—5 miles of the New Martinsville-West Union Road, for grading and draining. Certified check for $3,000.00.

Project 3203-A — Preston County—3.5 miles of the Northwestern Turnpike from Aurora to Dayton for grading and draining. Certified check for $2,500.00.

Project 3187—Marion County—2.8 miles of the Flat Run-Metz Road for grading, draining and paving with concrete. Certified check for $5,000.00.

Project 3184—Barbour County—7.2 miles of the Philippi-Taylor County Line Road for grading and draining. Certified check for $5,000.00.

Project 3026—Jefferson County—7 miles of the Charlestown-Kearneysville Road for grading, draining and waterbound macadam surface course. Certified check for $5,000.00.

Project 3147—Hampshire County—5 miles of the Frenchburg-Virginia State Line Road for grading and draining. Certified check for $2,000.00.

Project 3010—Burlington Bridge No. 735—Mineral County over Patterson Creek—150 ft. steel thru truss, concrete substructure. Separate proposals will be received on substructure. Certified check for $500.00 and superstructure. Certified check for $500.00.

Project 3198—Morgan County—5 miles of the Berkeley Springs-Great Cacapon Road for grading and draining. Certified check for $4,000.00.

Project 122—B & C—Grant County—12.5 miles of the Northwestern Turnpike for grading and draining. Certified check for $6,000.00.

Project 3175—Pendleton County—5 miles of the Franklin-Elkins Road for grading and draining. Certified check for $2,400.00.

Project 3148—Hardy County—8.5 miles of the Moorefield Petersburg Road for grading and draining. Certified check for $3,500.00.

Proposals will be received only upon State Standard form in accordance with plans, specifications and estimates of quantities therefor, which standard forms, plans, specifications and estimates of quantities may be obtained from the office of the Division Engineer in whose territory the proposed construction is located or from the office of the State Road Commission at Charleston, W. Va.

Each proposal must be accompanied by a certified check for the amount noted.

The right is reserved to reject any and all proposals.

THE STATE ROAD COMMISSION OF WEST VIRGINIA.
E. B. CARSKADON, Secretary.

OFFICIAL PROPOSALS

Bids: Jan. 25.

Sluice Gates

Buffalo, N. Y.

Sealed proposals will be received by the Commissioner of Public Works at the Municipal Bldg., Buffalo, N. Y., for 56 rectangular sluice gates varying in size from 16-in. square to 48-in equare, and appurtenances to be furnished f.o.b. cars, Buffalo, N. Y.

Forms of proposal, drawings and specifications may be obtained on application to the above address.

ARTHUR W. KREINHEDER,
Commissioner of Public Works,
Buffalo, N. Y.

U. S. GOVERNMENT

SEALED PROPOSALS, indorsed "Proposals for Natatorium, Annapolis, Md., Specification No. 4754," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a.m., Jan. 24, 1923, and then and there publicly opened, for a natatorium at the Naval Academy, Annapolis, Md. The work includes timber piles; plain and reinforced concrete; brickwork; plain and molded granite work; membraneous waterproofing and built-up roofing; copper roofing, wall covering and sheet metal work; skylights; wood roof sheathing, frames, and sash and doors; steel framing; metal stairwork, pipe railings and other accessories; interior marble and tile; plastering; hardware; painting and glazing; plumbing; heating; ventilating; electric lighting; mechanical equipment and piping for swimming pool, including pressure filters, motor-driven centrifugal pump, coagulant devices, heater, ultra-violet ray sterilizers, and a portable pool cleaner. Drawings and Specification No. 4754 may be obtained on application to the Bureau or to the Superintendent, Naval Academy, Annapolis, Md. Deposit of a check or postal money order for $25, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawings and specification. L. E. GREGORY, Chief of Bureau. December 13, 1922.

SEALED PROPOSALS will be received and opened by the Director, U. S. Veterans Bureau, in the office of the Quartermaster General, 2306 Munitions Building, Washington, D. C., at 11 a.m., February 16, 1923, for construction of a 500 bed Neuro-Psychiatric Hospital to be erected for the U. S. Veterans Bureau at Camp Custer, Battle Creek, Michigan. The work will include the construction of about thirty buildings of reinforced concrete and brick, complete with sewer, water, heating and lighting systems, roads and walks. Plans and specifications may be obtained after January 16, 1923, from the Quartermaster General, Room 2306 Munitions Building, Washington, D. C., upon deposit of $100. One set of plans and specifications will be on exhibition at each of the following stations: Constructing Quartermasters at 39 Whitehall Street, New York, N. Y., Army Supply Base, Boston 9, Mass., and Quartermaster Supply Officers at 1819 West Pershing Road, Chicago, Ill., and Second and Arsenal Streets, St. Louis, Mo.

SEALED PROPOSALS will be opened by the Supt. of Lighthouses, Philadelphia, Pa., 2 p.m., Feb. 13, 1923, for building stone and reinforced concrete breakwater at Harbor of Refuge Light Station, Delaware Bay, Del. Information on application.

U. S. ENGINEER OFFICE, ROOM 608, ARMY BUILDING, NEW YORK CITY. Sealed proposals will be received here until 12 o'clock noon, January 26, 1923, and then opened, for furnishing and erecting complete, on concrete foundations already constructed, one 100-foot Range Finding Tower. Further information on application here and at Office of Chief of Engineers, Construction Section, Washington, D. C.

BIDS INVITED.—Sealed bids will be received by the Constructing Quartermaster, Fort Benning, Georgia, for construction of twenty-three sets of two family houses. Bids will be opened at Fort Benning, Georgia, at 12 o'clock noon, central time, January 30th, 1923. Twenty five dollars deposit required to insure return of plans.

U. S. ENGINEER OFFICE, GALVESTON, TEX., Sealed proposals will be received here until 11 a.m. Feb. 21 1923, and then opened, for dredging channels at Brazos Island Harbor, Texas. Further information on application.

U. S. GOVERNMENT

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., Jan. 24, 1923, for constructing about 900,000 cubic yards of earthwork by the hydraulic method in the Sny Island Levee Drainage District, Ill. Further information on application.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., January 6, 1923.—SEALED PROPOSALS will be opened in this office at 3 p.m., January 30, 1923, for construction of an extension to delivery platform at U. S. Appraisers Warehouse, New York, N. Y. Drawing and specifications may be obtained from the Office of Supervising Chief Engineer, 731 Custom House, New York, N. Y., or at this office, in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

U. S. ENGINEER OFFICE, HUNTINGTON, W. VA., Dec. 23, 1922.—Sealed proposals will be received here until 11 a.m. (Eastern Time), January 23, 1923, and then opened, for furnishing and delivering lock-operating machinery, etc., for Dam No. 30, Ohio River. Further information on application.

COMMISSIONERS, D. C., Washington, January 15, 1923. Sealed proposals for constructing the Smothers School, will be received in Room 509, District Building, until 2 o'clock p.m., January 29, 1923. For detailed information apply to Room 427, District Building. A deposit of $10.00 required to insure return of plans and specifications. Cuno H. Rudolph, James F. Oyster, Charles Keller, Commissioners, D. C.

OFFICE OF CONSTRUCTING QUARTERMASTER, FORT BLISS, TEXAS.—Sealed proposals, in triplicate, will be received at this office until 10:00 a.m., February 1st, 1923, then publicly opened for drilling, casing and equipping complete, ready for operation, one eight inch well at Dona Ana Target Range, New Mexico. Plans and specifications furnished upon receipt of certified check for $10.00 to guarantee return.

U. S. GOVERNMENT

U. S. ENGINEER OFFICE, CINCINNATI, O. Sealed proposals will be received here until 2 p. m. Feb. 8, 1923, and then opened for furnishing and delivering horses and props for Ohio River Dams Nos 34, 36 and 38. Further information on application.

U. S. ENGINEER OFFICE, FLORENCE, ALA.—Sealed proposals will be received here until 11 A.M. January 27, 1923, and then opened, for the construction and delivery of four steel barges. Further information on application.

U. S. ENGINEER OFFICE, PITTSBURGH, PA.—Sealed proposals for building two two-story, seven-room lockkeepers' houses at Lock No. 6, Monongahela River, will be received at this office until 12 Noon, January 31, 1923, and then publicly opened. Information on application.

U. S. ENGINEER OFFICE, NASHVILLE, TENN.—Sealed proposals will be received here until 11 a.m., January 30, 1923, and then opened, for fourteen steel barges. Further information on application.

U. S. ENGINEER OFFICE, CINCINNATI, O. Sealed proposals will be received here until 2 p.m., Jan. 30, 1923, and then opened, for constructing, assembling, testing and delivering one dredging ladder for 24-inch pipe line dredge. Further information on application.

U. S. ENGINEER OFFICE, GALVESTON, TEX. Sealed proposals will be received here until 12 m., Feb. 1, 1923, and then opened, for dredging the Houston Ship Channel, Texas. Further information on application.

U. S. ENGINEER OFFICE, CINCINNATI, O. Sealed proposals will be received here until 2 p.m., Feb. 12, 1923, and then opened, for furnishing and delivering structural steel, forgings, etc., for Ohio River Dams Nos. 36 and 38. Further information on application.

U. S. ENGINEER OFFICE, ROOM 608, ARMY BUILDING, NEW YORK CITY. Sealed proposals will be received here until 12 o'clock noon, February 10, 1923, and then opened, for constructing one concrete plotting room and switchboard room at Fort Tilden, Long Island, N. Y. Further information on application.

OFFICIAL PROPOSALS

Bids—Feb. 6

Filtration Plant

Zelienople Borough, Pa.

The Council of Zelienople Borough, Pennsylvania, will receive bids for the furnishing of materials, labor and equipment and the construction of a water filtration plant, on the evening of Tuesday, February 6th, 1923, up until 7 o'clock p.m., Eastern Standard Time, at the Municipal offices in the Borough of Zelienople.

The work consists of 2-300,000 gallon-per-day mechanical filter units, with the accompanying auxiliary works, 1-350 gallon-per-minute motor driven centrifugal low-lift pump, and other equipment as per Plans and Specifications.

Any intending Bidder will be required to indicate to the satisfaction of the Engineers, or upon appeal to the satisfaction of the Municipal Council, that they have had experience in building work of this class, and to show their financial ability and give references as to past experience. Any Contractors inexperienced in the building of mechanical filtration plants or the structural work incidental thereto need not apply.

The work will be advertised in three parts, Part No. 1 being the structural work, Part No. 2 being the mechanical equipment, and Part No. 3 being a Venturi water meter, but the contract may be let as one contract depending upon the bids received.

Each Bidder will be required to furnish a Banker's Certificate or a satisfactory Bidder's Bond in the amount of ten per cent (10%) of the total amount of the bid, guaranteeing that he will enter into the contract precisely as originally prepared, provided said contract is awarded him.

The Contractor to whom the contract will be awarded will be required to furnish a satisfactory Bond on a satisfactory Bonding Company, in the amount of one hundred per cent (100%) of his total bid, said Bond to guarantee the faithful performance of the contract in all respects and the completion of said contract within the time specified or any extensions which might be granted thereto.

Plans, Specifications and Bidding Blanks may be received from the Engineers, Hudson & Myron, 808 Wabash Building, Pittsburgh, Pa., upon proper application, and a deposit of $10.00 may be required of any Bidder, subject to the presentation and return of said Plans, Specifications, etc. In case a Contractor receiving Plans does not offer a bid and returns the Plans in good condition, then $5.00 of the $10.00 will be refunded to him, the other $5.00 being retained to cover the cost of excessive sets of Plans. In case any Contractor, however, receiving Plans and data and submitting a bid, and in case all data, with Plans, is returned to the office in good condition, then said Contractor will be refunded the entire amount of $10.00. In case any Contractor receiving Plans and data and not returning the same within two (2) weeks' time after the opening of bids, then said Contractor will forfeit the entire amount of the deposit of $10.00

The Borough Council reserves the right to reject any part or the total parts of all bids received.

WM. M. SEATON, President of Council,
EDWIN MEEDER, Secretry of Council,
Zelienople Borough, Pennsylvania.
HUDSON & MYRON, Engineers,
808 Wabash Building,
Pittsburgh, Pa.

Bids: March 5.

Paving

Hillsdale, Mich.

Bids will be received up to and including March 5th, 1923, at the office of the City Clerk, Hillsdale, Michigan, for the paving of parts of Railroad and Union Streets, approximately 5,496 square yards, brick, sheet asphalt or asphaltic-concrete.

Plans and specifications are on file in the office of the City Clerk, and the City reserves the right to reject any or all bids.

W. J. LA BARRE,
City Clerk.

Roads and Bridges

Richmond, Va.

Sealed bids will be received at the Office of the Virginia State Highway Commission, corner 10th and Marshall Streets, Richmond, Va., until 10:30 A.M., Wednesday, February 14th, 1923, for the construction of:

1.—(a) PROJECT 48-C, ROUTE 14—From Big Island to Snowden in Bedford and Amherst Counties, 5.2 Miles of 16 ft. Bit. Macadam roadway, involving approximately 16 Acres Clearing and Grubbing, 91,000 Cu. Yds. Excavation, 600 Lin. Ft. Vitrified Clay Pipe, 1250 Lin. Ft. Cast Iron Pipe, 560 Cu. Yds. Concrete Class "A" 84 Cu. Yds. Class "B" Concrete, 40,500 Lbs. Reinforcing Steel, 3900 Cu. Yds. Dry Rubble Masonry Retaining Wall, 8,160 Lin. Ft. Wooden Guard Rail, 952 Lin. Ft. Wooden Guard Rail with Steel Posts.

1.—(b) THREE BRIDGES OVER: Hunting, Battery and Peters Creeks, having total length of 190 ft. width of roadway 19 ft., involving approximately 346 Cu. Yds. Class "A" Concrete, 90 Cu. Yds. Class "B" Concrete, 66,330 Lbs. Reinforcing Steel.

2.—PROJECT 107 ROUTE 23—From Pearisburg toward Ripplemead in Giles County, 2.8 miles of 12 ft. Surface Treated Macadam Roadway, involving approximately 23,138 Cu. Yds. Excavation, 190 Lin. Ft. Vitrified Clay Pipe, 236 Lin. Ft. Cast Iron Pipe, 18 Cu. Yds. Class "B" Concrete, 28 Cu. Yds. Class "B" Concrete, 2269 Lbs. Reinforcing Steel, 700 Lin. Ft. Wooden Guard Rail.

3.—PROJECT 136-A, ROUTE 17—From Orange County Line 2.75 miles west in Greene County, approximately 2.75 miles of Bituminous Macadam roadway involving approximately 1 acre of Clearing and Grubbing, 10,647 Cu. Yds. Excavation, 290 Lin. Ft. Cast Iron Pipe, 114 Lin. Ft. Vitrified Clay Pipe, 19 Cu. Yds. Class "B" Concrete, 400 Lin. Ft. Wooden Guard Rail.

4.—PROJECT 135-C, ROUTE 17—From Barboursville to Green County Line in Orange County, 0.8 miles of 12 Bituminous Macadam road, involving approximately 5633 Sq. Yds. Bituminous Macadam.

5.—PROJECT F-178, ROUTE 1—From Clarksville to the North Carolina Line, in Mecklenburg County, 6.13 miles of 18 ft. Concrete Road, involving approximately 16 Acres Clearing and Grubbing, 43,400 Cu. Yds. Excavation, 782 Lin. Ft. Cast Iron Pipe, 654 Lin. Ft. Vit. Clay Pipe encased in concrete, 110 Cu. Yds. Class "A" Concrete, 100 Cu. Yds. Class "B" concrete, 9100 Lbs. Reinforcing Steel 2169 Lin. Ft. Wooden Guard Rail.

6.—(a) PROJECT 141-B, ROUTE 18—From 1.12 Miles South of Brookneal to Volens, 7.52 miles of Soil Roadway, involving approximately 19 Acres Clearing and Grubbing, 47,900 Cu. Yds. Excavation, 1057 Lin. Ft. Vitrified Clay Pipe, 53.6 Lin. Ft. Cast Iron Pipe, 2 55 Cu. Yds. Class "A" Concrete, 533 Cu. Yds. Class "B" Concrete, 20,823 Lbs. Reinforcing Steel, 2368 Lin. Ft. Wooden Guard Rail.

7.—(a) PROJECT S-158, ROUTE 1—The Streets of Clarksville in Mecklenburg County, 0.93 miles of 50 and 18 ft. Concrete Pavement, involving approximately 4000 Cu. Yds. Excavation, 282 Lin. Ft. Cast Iron Pipe, 850 Lin. Ft. Wooden Guard Rail, 2 Catch Basins, complete with Cover, 2 Drop Inlets, 5000 Lin. Ft. Combination Curb and Gutter.

8.—PROJECT 186-B, ROUTE 12 — The Bridge over Sandy River near Danville in Pittsylvania County, involving approximately 146.5 Cu. Yds. Class "A" Concrete, 39.3 Cu. Yds. Class "B" Concrete, 22,610 Lbs. Reinforcing Steel.

9.—PROJECT 192-C, ROUTE 3—From Station 43700 to Fairfield in Rockbridge and Augusta Counties, 11.07 miles of Bituminous Macadam roadway, involving approximately 2 Acres Clearing and Grubbing, 57,000 Cu. Yds. Excavation, 1,100 Lin. Ft. Cast Iron Pipe, 268 Lin. Ft. Vitrified Clay Pipe, 267 Cu. Yds. Class "B" Concrete, 17,500 Lbs. Reinforcing Steel.

9.—(b) BRIDGES over Marl and Christian Creeks, and the South River in Rockbridge and Augusta Counties, involving approximately 124 Cu. Yds. Class "A" Concrete, 347 Cu. Yds. Class "B" Concrete 25,515 Lbs. Reinforcing Steel.

10.—PROJECT F-221, ROUTE 4—From Tasley to a point 6 miles south in Accomac County, 6 miles of 18 ft. Concrete Roadway involving approximately 4 Acres Clearing and Grubbing, 13,119 Cu. Yds. Excavation, 23,800 Cu. Yds. Borrow Excavation, 633 Lin. Ft. Cast Iron Pipe.

11.—PROJECT F246-A, ROUTE 12Y—From Franklin to the North Carolina State Line, 7.86 miles of 18 ft. Concrete Roadway, involving approximately 10 Acres Clearing and Grubbing, 51,346 Cu. Yds. Excavation, 1078 Lin. Ft. Cast Iron Pipe, 440 Lin. Ft. Vitrified Clay Pipe encased in concrete, 75 Cu. Yds. Class "B" Concrete, 70 Cu. Yds. Class "B" Concrete, 4071 Lbs. Reinforcing Steel.

12.—PROJECT S268-A & B, ROUTE 4X—From Tasley to Onancock in Accomac County, 3.02 Miles 18 ft. Concrete Roadway, involving approximately 10,540 Cu. Yds. Excavation, 272 Lin. Ft. Cast Iron Pipe, 18 Cu. Yds. Class "A" Concrete, 57 Cu. Yds. Class "B" Concrete, 3388 Lbs. Reinforcing Steel.

13.—(a) PROJECT F225B, ROUTE 1—From Rappahannock River to Fredericksburg in Spotsylvania County—0.65 Miles of Concrete roadway, involving approximately 4791 Cu. Yds. excavation, 54 Lin. Ft., Cast Iron Pipe, 4 Cu. Yds. Class "B" Concrete, 1083 Lin. Ft. Wooden Guard Rail.

14.—PROJECT S225B, ROUTE 1—BRIDGE over Spotsylvania Power Company's Canal at Falmouth, Va., having total length of 77 ft. 6 in. Roadway 22 ft., involving approximately 184 Cu. Yds. Class "B" Concrete, 24,700 Lbs. Reinforcing.

15.—PROJECT S256, ROUTE 11—From Burke's Garden Siding to Tazewell in Tazewell County, 1.98 Miles of Bituminous Macadam roadway, involving approximately 13,508 Cu. Yds. of Excavation, 56 Lin. Ft. pipe, 234 Cu. Yds. Class "B" Concrete, 2296 Lin. Ft. Wooden Guard Rail.

(B) ALTERNATE BIDS ARE REQUESTED FOR SURFACE TREATED MACADAM.

A certified check or bidder's bond must accompany each bid. Amount of certified checks, as follows: Project F-48C—$5,000.00 (b) Bridges—$750.00. Project F.107—$3,500.00. Project F-136A—$3,250.00. Project F-135-C—$550.00.. Project F-178—$5,000.00. Project F-141B—$3,000.00. Project S-158—$3,500.00. Project F-186B—$500.00. Project F-192C—$5,000.00 (b) Bridges—$750.00. Project F.221A—$5,000.00. Project F-246A — $5,000.00. Project S-268A & B—$5,000.00. Project F-225B Road $3,500.00. Bridge $350.00. Project S-256—$2,200.00. Amount of bidders bond 20% in excess of certified checks.

Plans and specifications are on file at the Office of the Virginia State Highway Commission, Corner 10th & Marshall Sts., Richmond, Va., and at the Offices of the following District Engineers: Project 48C, 141B and 186 at Lynchburg, Va., Project F-107 at Roanoke, Projects F-136A and F-135C at Culpeper, Va., Projects F-178 and S-158 at Richmond, Va., Projects F-192C at Staunton, Va., Projects F-221A, F-246A and S-268 at Suffolk, Va. Project F-225B and Bridge, Fredericksburg, Va., Project S-256 at Bristol.

Additional plans for bidders for the above projects can be obtained upon application to the State Highway Commissioner, upon receipt of $5.00 made payable to Mr. H. G. Shirley, Chairman, $2.50 of which will be refunded if plans are returned in good condition within two weeks after bids are opened, and bridge plans from W. F. Hobart, 805½ E. Franklin Street, Richmond, Va., to cost as follows: Project F-48C—$1.52, Project F-192C Bridges — $1.52, Project F-186B—$0.54.

Engineers will be at the following places to show prospective bidders over the projects: Projects F-48C at Big Island, Va., 11:00 A.M. Tuesday, January 30th, Project F-107, Friday, January 26th at the Pearisburg Hotel, Pearisburg, Va., at 9:30 A.M. Project F-135C and F-136A at Southern Railroad Station, Barboursville, Va., 10:00 A.M. Thursday, February 1st. Project F-141B, Brookneal Hotel, Brookneal, Va., 9:30 A.M. Friday, February 9th. Projects S-158 and F-178 at Clarksville Hotel, Clarksville, Va., at 9:30 A.M. Thursday, February 8th. Project F-186B, Burton Hotel, Danville, Va., 10:00 A.M. Thursday, January 25th. Project F-192C at Fairfield, 10:30 A.M. Wednesday, January 31. Project F-221, and S-268 at Railroad Station, Tasley, Va., 10:00 A.M. Tuesday February 6th. Project F-246 at Franklin Hotel, Franklin, Va., 10:00 A.M. Wednesday, February 7th. Project F-225B and Bridge, at the District En gineer's Office, Fredericksburg, Va., 10:30 A.M. Friday, February 2nd. Project S-256, County Engineers Office, Tazewell C. H., 12 noon, Thursday, January 25th.

The State Highway Commission reserves the right to reject any or all bids.

H. G. SHIRLEY, Chairman.
State Highway Commission

C. S. MULLEN,
Asst. Engr. Construction.
January 19, 1923.

OFFICIAL PROPOSALS

Bids: Feb. 6.

Ditch Improvements

Muscatine, Ia.

Notice is hereby given that sealed bids will be received by the undersigned for the Board of Supervisors of Muscatine County, Iowa, up to 2 o'clock P.M. on the 6th day of February, 1923, for the construction of ditch improvements in Sub-Districts Number 1 and 3 of Drainage District Number 2 of Muscatine County, Iowa, in accordance with the approved plans and specifications therefor on file in my office.

The proposed improvement in Sub-District Number 1 consists of excavating a ditch of the following dimensions:

Length	Bottom Width	Side Slopes	Approximate Cu. Yds.
3400	6	2 to 1	28,745
1000	6	1 to 1	2,433
5800	4	1 to 1	11,490
10200			42,668

The proposed improvement in Sub-District Number 3 consists of excavating ditches of the following dimensions:

	Length	Bottom Width	Side Slopes	Approximate Cu. Yds.
Main Ditch	5000	6	1 to 1	11,509
	6112	4	1 to 1	9,841
Wing Ditches	1800	3	1 to 1	1,200
	12912			22,550

Work in Sub-District Number 1 shall be commenced not later than April 1, 1923, and be completed not later than May 25, 1923.

Work in Sub-District Number 3 shall be commenced not later than June 1, 1923, and be completed not later than July 31, 1923.

Monthly estimates will be rendered for eighty per cent (80%) of the value of the work completed and paid in drainage warrants, bonds, or cash, and the total upon completion and acceptance of the work.

Cash or certified check equal to ten per cent (10%) must accompany bid.

Instruction and specifications are on file and open to inspection. Copies may be obtained from the undersigned or from C. H. Young, Chief Engineer, Central States Engineering Company, Muscatine, Iowa, upon a deposit of $5.00 to insure their return.

F. W. JOHNSTON,
County Auditor,
Muscatine County,
Muscatine, Iowa.

Bids: Feb. 14.

Hospital Construction Work

Marcy, N. Y.

Sealed proposals for Construction, Heating, Sanitary and Electric Work, Farm Colony Building for 125 patients, at the Utica State Hospital, Marcy Division, Marcy, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 3 o'clock P.M., on Wednesday, February 14, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 4028, 4029, 4031 and 4033. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the Utica State Hospital, Utica, N. Y., at the New York Office of the Department of Architecture, Room 1058, 25 Broadway, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

L. M. FARRINGTON,
Secretary, State Hospital Commission.
Dated: January 16, 1923.

OFFICIAL PROPOSALS

Bids: March 12.

Sewers

New Castle, Pa.

Sealed proposals will be received at the office of the City Clerk, City Building, New Castle, Pa., up until 10:00 o'clock Monday morning, March 12, 1923, for the construction of the extension of the City of New Castle Main Sewer in the Seventh Ward from its present southern terminus to the site of the proposed Sewage Disposal Plant in Taylor Township. The work will consist of the construction of approximately 4840 feet of 48 in. circular sewer in open cut of which approximately 320 feet will be Class A Cast Iron Pipe, and the balance reinforced monolithic concrete, reinforced concrete pipe, or brick, as determined by the bids. In addition there will be approximately 720 feet of 10 in. vitrified pipe sewer, 880 feet of 8 in. pipe sewer of which 850 feet will be vitrified pipe and 30 feet Class A Cast Iron Pipe, a sewage ejector station complete with air compressors and 50 feet of 4 in. Class B Cast Iron force main, manholes, frames and covers and other miscellaneous work. The said work to be done in accordance with plans and specifications on file in the office of the City Engineer, New Castle, Pa., and in the offices of Fuller & McClintock, Consulting Engineers, 170 Broadway, New York City, copies of which may be had for a deposit of $10.00.

Each proposal to be accompanied by a certified check, or cash, in the sum of at least five per cent (5%) of the total of the bid submitted, which shall become the property of the City as liquidated damages in case the successful bidder fails to furnish bond and enter into a contract. Checks to be returned upon approval of the contract and bond by the City. Checks will be returned to unsuccessful bidders. A bond with approved security will be required of the successful bidder.

The City reserves the right to reject any or all bids.

C. ED. BROWN, City Clerk.

Bids: Feb. 14.

Reservoir and Pipe Lines

Wellsville, Ohio.

Sealed proposals will be received at the office of the Director of Public Service, Wellsville, Ohio, until 12 o'clock noon of Wednesday, February 14th, 1923, for constructing an earthen reservoir, capacity 140,000,000 gallons, and 3½ miles of gravity pipe lines connecting with the City Water Works distribution system. Copies of specifications may be obtained from the Director of Public Service and copies of plans will be furnished by The W. J. Sherman Co., Engineers, 302 Produce Exchange Bldg., Toledo, Ohio, upon deposit with them of $10.00, of which sum one-half will be refunded if plans are returned to the Toledo office before March 1st, 1923.

T. R. SNOWDEN,
Director of Public Service.
Wellsville, Ohio,
January 15th, 1923.

Bids: Feb. 14.

State Hospital Work

Kings Park, N. Y.

Sealed proposals for Construction, Heating, Sanitary and Electric Work, Additions to Employees' Home, and also Fire Escapes, Buildings A, B, C and D, at the Kings Park State Hospital, Kings Park, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until three o'clock P.M., on Wednesday, February 14, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3974, 3975, 3976, 3977 and 4036. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the Kings Park State Hospital, Kings Park, N. Y.; at the New York Office of the Department of Architecture, Room 1058, 25 Broadway, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

L. M. FARRINGTON,
Secretary, State Hospital Commission.
Dated: January 16, 1923.

Subcontractor

I want to sublet about 14,000 lineal feet of 8-in. reinforced concrete road, together with drains, curbs, headwalls, etc., to responsible outfit. Necessary plant is on job, and arrangements made for material supplies.

Excellent opportunity for a live man to make a quick clean up and have large part of his season to take other work.

CL-558, Engineering News-Record
10th Ave. at 36th St., New York City.

Comparing or "Knocking" There's a Difference

¶If you judge Swart Service side by side with any other Contract Bond and Compensation Insurance Service the result will be a contrast rather than a comparison—¶There are many reasons for this, each reason being a part of the intimate, painstaking care with which the whole case is handled. This begins with the mere filling in of the application through the complete investigation, after which the case is prepared and presented to the underwriters much the same as a lawyer prepares and presents a case to a judge. ¶It is simply a matter of making each one of the component parts so perfect that the result as a whole could not be other than a contrast rather than a comparison. ¶With the price the same as for the ordinary sort the advantage to you is the greater.

Bids—Jan. 29

State Road Work

Hartford, Conn.

SEALED PROPOSALS will be received by the State Highway Commissioner, 12 Washington Street, Hartford, Conn., until 2 p.m., Monday, January 29, 1923 for the following sections of State work, in accordance with plans and specifications on file in the office of the State Highway Commissioner and at the following places:

TOWNS OF BETHANY-NAUGATUCK: About 24,880 linear feet of 3 inches bituminous macadam over 6 inch base on the Naugatuck-New Haven Road. NOTE: Bituminous material shall be either tar or asphalt. Local stone will be admitted for the base course only. The top course shall consist of trap rock. Specifications may be seen at the office of E. C. Welden, Division Engineer, 106 Elm Street, New Haven, Conn.

TOWNS OF CLINTON-KILLINGWORTH: About 36,650 linear feet of 4 inch trap rock macadam (waterbound) on the Clinton Killingworth Road. Specifications may be seen at the office of E. C. Welden, Division Engineer, 106 Elm Street, New Haven, Conn.

TOWN OF CROMWELL-MIDDLETOWN: The substructure and approaches for the new steel truss bridge over Little River on the River Road. NOTE: Cement and piles required for this work will be furnished by the State.

TOWNS OF CROMWELL-MIDDLETOWN: One through truss steel superstructure of about 154 foot span complete in place including concrete roadway. Plans and specifications for both of the above jobs at the office of R. W. Stevens, Division Engineer, 12 Washington Street, Hartford, Conn.

TOWN OF EAST HADDAM: About 20,600 linear feet of 7 inch waterbound macadam on Town Street. NOTE: Local stone of suitable quality will be admitted for this work. Plans and specifications at the office of R. W. Stevens, Division Engineer, 12 Washington Street, Hartford, Conn.

TOWN OF GUILFORD: The substructure and retaining walls for a new steel truss bridge over West River on the Shore Road. NOTE: The cement required for this work will be furnished by the State.

TOWN OF GUILFORD: One steel truss superstructure, of about 80 foot span complete in place including concrete road.

TOWN OF GUILFORD: About 11,470 linear feet of plain and reinforced cement concrete pavement on the Shore Road. NOTE: Cement for the above work will be furnished by the State. Plans and specifications for the above work at the office of E. C. Welden, Division Engineer, 106 Elm St., New Haven, Conn.

TOWN OF MANCHESTER: About 4,000 linear feet of 3 inch Sheet Asphalt over 6 inch concrete base on South Main Street. NOTE: Cement for the above work will be furnished by the State. Plans and specifications at the office of R. W. Stevens, Division Engineer, 12 Washington St., Hartford, Conn.

TOWN OF ROCKY HILL: About 17,870 linear feet of plain cement concrete pavement on the River Road. NOTE: Cement for the above work will be furnished by the State. Specifications for the above work at the office of R. W. Stevens, Division Engineer, 12 Washington St., Hartford, Conn.

TOWN OF THOMASTON: About 14,400 linear feet of plain cement concrete pavement on the Thomaston-Waterbury Road. NOTE: Cement for the above work will be furnished by the State. Plans and specifications at the office of D. C. Loewe, Division Engineer, Winsted, Conn.

All bids must be accompanied by a surety company bond or a certified check not less than one-third of the cost of the work. The State Highway Commissioner reserves the right to reject any and all bids.

Dated at Hartford, Connecticut, January 15, 1923.

C. J. BENNETT,
State Highway Commissioner,
12 Washington St., Hartford, Conn.

Bids: Feb. 1.

HIGHER ENGINEERING *(By Mail)*

Get into the higher strata in your own line. Engineering has its highs and its lows. A *high*-grade engineer will lift you to his own level when he teaches you what he knows. An expert who knows his business and can also impart his knowledge and experience is a rarity, and Wilson Courses are in a class by themselves because there is the brain of genius behind them. Get into line for some good practical evening work; look into our proposition; literature is free.

We offer courses in *Reinforced Concrete Designing* and *Estimating; Structural Steel Design. Bridges, Steel* and *Concrete. Drafting.*
Easy terms of payment. Required for enrolment: technical education, high school mathematics, or their equivalent.

WILSON ENGINEERING CORPORATION
10 Broadway, Hanover, Mass.

THESE ADVERTISEMENTS ARE OFFICIAL NOTICES THAT BIDS ARE WANTED FROM BIDDERS EVERYWHERE.

OFFICIAL PROPOSALS

Bids: Feb. 28.

Lock and Dam Construction of the Illinois Waterway Contract No. 2

Springfield, Ill.

1. Sealed proposals for the construction of STARVED ROCK LOCK AND DAM, located in the Illinois River, two miles above Utica, and seven miles below Ottawa, La Salle County, Illinois, will be received at the office of the Director of the Department of Public Works and Buildings, Division of Waterways, Room 122, State House, Springfield, Illinois, until Ten (10) o'clock A.M., Central Standard Time of the 28th day of February, 1923, and then publicly opened and read.

2. Copies of the plans, specifications, proposal blank, form of bond, and contract may be obtained by prospective bidders at the office of the Department, Room 1404, 25 East Jackson Boulevard, Chicago, Illinois, upon depositing a check for Ten Dollars ($10.00), made payable to the Director of the Department of Public Works and Buildings, which sum will be returned within ten (10) days after the contract has been awarded, if the plans are returned in good condition within that time.

3. Each proposal shall be accompanied by a certified check or draft drawn on some responsible bank doing business in the City of Chicago, and made payable to the order of the Director of the Department of Public Works and Buildings, for five (5) per cent of the amount of the proposal. In lieu of a certified check or draft, the proposal may be accompanied by a bond executed in the form prescribed by the Department of Public Works and Buildings and with a surety company approved by the Department in the penal sum of ten (10) per cent of the amount of the proposal.

4. The Department of Public Works and Buildings reserves the right to reject any or all bids. The contract, if let, will be awarded to the lowest responsible bidder.

C. R. MILLER,
Director, Department of Public Works and Buildings.
WILLIAM L. SACKETT,
Superintendent of Waterways.
M. G. BARNES,
Chief Engineer,
Division of Waterways.

Bids: Feb. 16.

Filtration Plant

Gloucester, N. J.

Sealed proposals will be received by the Council of the City of Gloucester, N. J., at the City Hall, on the 16th day of February, 1923, until 8:00 p.m., for the construction of a 3,000,000 gallon rapid sand filtration plant, with alterations and improvements to the present building.

Each proposal must be accompanied by a certified check, made out in proper form, for the sum of 5% of the amount bid.

Plans and specifications are on file and may be seen at the City Hall, Gloucester, N. J., and at the office of the Engineers, Remington & Vosbury, 601 Market Street, Camden, where prospective bidders will be given an opportunity for their examination. Complete sets of plans and specifications will be issued upon a deposit of $15.00. This deposit will be refunded only to those submitting a bona fide bid upon the work and returning the plans in good condition.

The right is reserved to reject any or all bids.

ALLEN W. REDFIELD,
City Clerk.

Bids: Feb. 12.

Brass Corporations, Sidewalk Cocks, Etc.

Springfield, Mass.

Notice is hereby given that sealed proposals will be received by the Board of Water Commissioners of the Springfield Municipal Water Works, at its office in the Municipal Building, Springfield, Mass., at 11:30 o'clock a.m., Feb. 12, 1923, for the following brass corporations, inverted key sidewalk cocks, tee handle M. & F. cocks, inverted key stop and waste cocks, and compression bibbs with hose spouts.

700—¾-in. corporations with tail pieces.
150—1-in. corporations with tail pieces.
50—1¼-in. corporations bodies only.
75—1½-in. corporations bodies only.
40—2-in. corporations with tail pieces.
25—¾-in. inverted key sidewalk cocks.
800—1-in. inverted key sidewalk cocks.
200—1¼-in. inverted key sidewalk cocks.
50—1½-in. inverted key sidewalk cocks.
100—1-in. tee handle M. & F. cocks.
50—¾-in. inverted key stop and waste cocks with special handles.
1,000—1-in. inverted key stop and waste cocks with special handles.
200—1¼-in. inverted key stop and waste cocks with special handles.
600—½-in. compression bibbs with hose spouts.

The proposal shall be placed in a sealed envelope addressed to the Board of Water Commissioners, Springfield, Mass., and plainly marked on the outside "Sealed Proposal for Brass Goods." The proposal shall contain a schedule giving dates of the earliest shipment of at least 20 per cent of each item of the proposal and of the shipment of the completed order.

The Board of Water Commissioners reserves the right to increase or decrease the number of any of the items designated above according to its needs during the year 1923. The number specified is given as a basis of estimate only.

The Board of Water Commissioners reserves the right to reject any or all bids, or to accept any bid or any portion of any bid which it may be to the best interests of the city so to do.

Price shall include freight prepaid to Armory, Mass.

For further information and specifications, apply to the Superintendent at the above address.

BOARD OF WATER COMMISSIONERS,
SPRINGFIELD, MASS.
H. M. KING, Superintendent.

Bids: Feb. 14.

Reservoir and Pipe Lines

Wellsville, Ohio.

Sealed proposals will be received at the office of the Director of Public Service, Wellsville, Ohio, until 12 o'clock noon of Wednesday, February 14th, 1923, for constructing an earthen reservoir, capacity 140,000,000 gallons, and 3½ miles of gravity pipe lines connecting with the City Water Works distribution system. Copies of specifications may be obtained from the Director of Public Service and copies of plans will be furnished by The W. J. Sherman Co., Engineers, 302 Produce Exchange Bldg., Toledo, Ohio, upon deposit with them of $10.00, of which sum one-half will be refunded if plans are returned to the Toledo office before March 1st, 1923.

T. R. SNOWDEN,
Director of Public Service.
Wellsville, Ohio,
January 15th, 1923.

OFFICIAL PROPOSALS

Bids: Feb. 16.

Highway Bridge

Pikeville, Ky.

Sealed proposals will be received by the Fiscal Court of Pike County, Kentucky, at the office of the County Judge at Pikeville, Kentucky, on Friday February 16th, 12 a.m. for the construction and erection of a highway bridge across the Tug Fork of Big Sandy River near Edgarton, West Virginia, and Freeburn, Ky. This bridge to be constucted jointly by Pike County, Kentucky and Mingo County, West Virginia. The required length is approximately 300 feet and two 150 spans are proposed. Clear width of roadway 16 feet and either three of four inch wood floor. This bridge to be designed by the contractor in accordance with situation plan and profile and other information to be furnished by the County Road Engineer of Pike County and to comply with specifications furnished by him.

Plans for this bridge are to be submitted at the above mentioned time and place together with bids and are to be subject to the approval of the County Road Engineer. To insure an economical design, as cuch latitude as possible will be given to the bidders as to type of bridge, span length etc., so long as requirements as to river channel etc., are complied with. The loading, stresses, quality, of materials etc., must conform to the requirements of the Kentucky State Highway Department standards for specification for bridges. This will be a ten ton capacity bridge. Prospective bidders are asked to submit bids on both concrete and steel structures.

Situation plans, profiles, specifications etc. will be sent to any one interested upon request by J. S. Bentley, County Road Engineer, room 208 Hughes Building, Pikeville, Kentucky. A change of $3.00 for each set of blue prints and specifications to cover cost of blue printing, typing, etc. will be made. All bids must be accompanied by a certified check for $2,500.00 payable to the Treasurer of Pike County, Kentucky, to insure that bidder will enter into proper contract. Checks of unsuccessful bidders will be returned as soon as contract is awarded.

The Fiscal Court reserves the right to reject any and all bids.

By order of the Fiscal Court of Pike County, Ky.

J. S. BENTLEY,
County Road Engineer.
W. E. FLANNARY, County Judge.

Bids: Feb. 12.

Road Work

Salem, N. J.

Notice is hereby given that sealed bids will be received by the Road Committee of the Board of Chosen Freeholders of the County of Salem for the construction of the Pennsville-Salem Road, 2nd and 3rd sections, in the township of Lower Penn's Neck, in the County of Salem, with a Bituminous Macadam surface upon broken stone foundation, estimated amount of Bituminous Macadam surfaced pavement required is 33,356 square yards; and opened and read in public at the Court House in the City of Salem, N. J., on Monday, February 12, 1923, at 2 P.M., standard time.

Drawings, specifications and form of bid, contract and bond for the proposed work will be furnished by the County Engineer, H. B. Keasbey, Salem, N. J.

E. G. OCHS, Clerk.

Bids: Feb. 14.

Water System

Voorheesville, N. Y

Notice is hereby given that sealed proposals will be received by the Board of Trustees of the Village of Voorheesville, N. Y., at their office in the "Hose House" in the Village of Voorheesville, N. Y., until two (2:00) o'clock p.m. on the fourteenth (14th) day of February, 1923, for the construction of about 3½ miles of cast iron water pipe and appurtenances and a concrete reservoir.

All proposals must be made upon printed forms to be obtained from the engineer; and the unit prices written in words and figures, and accompanied by cash or a certified check, made payable to the Village of Voorheesville, N. Y., for one thousand dollars ($1,000.00).

All proposals must be enclosed in a sealed envelope, directed to the Board of Trustees, Village of Voorheesville, N. Y., and endorsed upon the outside of the envelope "Proposal for Water System."

Plans and specifications may be obtained of the engineer. A deposit of five dollars will be required for the plans and specifications, which will be refunded upon their return in good order on or before February 20, 1923.

The Board of Trustees reserve the right to reject any or all proposals.

By order of the Board of Trustees of the Village of Voorheesville, N. Y.

GILBERT H. DARING,
Village Clerk,
Voorheesville, N. Y.

W. W. CHADSEY,
Engineer,
434 State Street,
Schenectady, N. Y.

Bids: Feb. 6.

Building Construction and Remodelling

Toms River, N. J.

Sealed bids will be received at the Court House on or before 12 o'clock noon on Tuesday, February 6th, 1923, by the Board of Chosen Freeholders of Ocean County, State of New Jersey, for the Erection and Completion of a New Brick and Concrete Detention Building for Witnesses and the complete remodeling of Wardens Dwelling, at Toms River, N. J., including all labor and material required for the following work.

Item No. 1. General Construction and Completion of Building.
Item No. 2. Steel Work in Detention Quarters.
Item No. 3. Plumbing and Drainage.
Item No. 4. Heating System.
Item No. 5. Electrical Wiring.
Item No. 6. Lighting Fixtures.

The work to be done according to plans, specifications of P. P. Elkinton, Architect and Engineer and under his personal supervision.

Bids will be opened publicly on Tuesday, February 6th, 1923, at the Freeholders Room, Court House, Toms River, N. J.

All bids must be sealed and addressed to the Board of Chosen Freeholders of the County of Ocean, State of New Jersey, marked on envelope "Proposal for work on Detention Rooms and Warden Dwelling" Item No.

Each bidder must enclose with estimate a certified check in sum of 10% of the amount of his bid as a guarantee that he will accept and carry out his proposal if contract is awarded to him.

Certified checks will be returned to the unsuccessful bidders after contracts are awarded.

Plans and specifications can be obtained at the office of the Architect, P. P. Elkinton, Toms River, N. J.

A deposit of $15.00 will be required on all plans and specifications taken out of the Office to be refunded when plans and specifications are returned to the Architect.

The right is reserved to reject any or all bids.

By order of the Board of Chosen Freeholders of the County of Ocean.

D. O. PARKER, Clerk.

Compensation Insurance

The intelligent handling of Workmen's Compensation Insurance is most essential to contractors. I have specialized in this business for twenty years and know how to handle insurance for the best interests of the contractors.

Alfred S. Hamilton
110 William St., New York

OFFICIAL PROPOSALS

Bids: Feb. 6.

Ditch Improvements

Muscatine, Ia.

Notice is hereby given that sealed bids will be received by the undersigned for the Board of Supervisors of Muscatine County, Iowa, up to 2 o'clock P.M. on the 6th day of February, 1923, for the construction of ditch improvements in Sub-Districts Number 1 and 3 of Drainage District Number 2 of Muscatine County, Iowa, in accordance with the approved plans and specifications therefor on file in my office.

The proposed improvement in Sub-District Number 1 consists of excavating a ditch of the following dimensions:

Length	Bottom Width	Side Slopes	Approximate Cu. Yds.
3400	6	2 to 1	28,745
1000	6	1 to 1	2,433
5800	4	1 to 1	11,490
10200			42,668

The proposed improvement in Sub-District Number 3 consists of excavating ditches of the following dimensions:

	Length	Bottom Width	Side Slopes	Approximate Cu. Yds.
Main Ditch	5000	6	1 to 1	11,509
	6112	4	1 to 1	9,841
Wing Ditches	1800	3	1 to 1	1,200
	12912			22,550

Work in Sub-District Number 1 shall be commenced not later than April 1, 1923, and be completed not later than May 25, 1923.

Work in Sub-District Number 3 shall be commenced not later than June 1, 1923, and be completed not later than July 31, 1923.

Monthly estimates will be rendered for eighty per cent (80%) of the value of the work completed and paid in drainage warrants, bonds, or cash, and the total upon completion and acceptance of the work.

Cash or certified check equal to ten per cent (10%) must accompany bid.

Instruction and specifications are on file and open to inspection. Copies may be obtained from the undersigned or from C. H. Young, Chief Engineer, Central States Engineering Company, Muscatine, Iowa, upon a deposit of $5.00 to insure their return.

F. W. JOHNSTON,
County Auditor,
Muscatine County,
Muscatine, Iowa.

Bids: March 12.

Sewers

New Castle, Pa.

Sealed proposals will be received at the office of the City Clerk, City Building, New Castle, Pa., up until 10:00 o'clock Monday morning, March 12, 1923, for the construction of the extension of the City of New Castle Main Sewer in the Seventh Ward from its present southern terminus to the site of the proposed Sewage Disposal Plant in Taylor Township. The work will consist of the construction of approximately 4840 feet of 48 in. circular sewer in open cut of which approximately 320 feet will be Class A Cast Iron Pipe, and the balance reinforced monolithic concrete, reinforced concrete pipe, or brick, as determined by the bids. In addition there will be approximately 720 feet of 10 in. vitrified pipe sewer, 880 feet of 8 in. pipe sewer of which 850 feet will be vitrified pipe and 30 feet Class A Cast Iron Pipe, a sewage ejector station complete with air compressors and 50 feet of 4 in. Class B Cast Iron force main, manholes, frames and covers and other miscellaneous work. The said work to be done in accordance with plans and specifications on file in the office of the City Engineer, New Castle, Pa., and in the offices of Fuller & McClintock, Consulting Engineers, 170 Broadway, New York City, copies of which may be had for a deposit of $10.00.

Each proposal to be accompanied by a certified check, or cash, in the sum of at least five per cent (5%) of the total of the bid submitted, which shall become the property of the City as liquidated damages in case the successful bidder fails to furnish bond and enter into a contract. Checks to be returned upon approval of the contract and bond by the City. Checks will be returned to unsuccessful bidders. A bond with approved security will be required of the successful bidder.

The City reserves the right to reject any or all bids.

C. ED. BROWN, City Clerk.

OFFICIAL PROPOSALS

Bids: Feb. 24.

Sewerage System and Disposal Works

Cuba, N. Y.

Sealed proposals will be received by the Board of Trustees of the Village of Cuba, N. Y., until 2 o'clock P.M., on the 24th day of February, 1923, for the construction of a sewerage system and sewage disposal works.

Plans may be seen and specifications obtained at the office of the Board at Cuba, N. Y., or at the office of Hopkins and Field, Engineers, 349 Cutler Building, Rochester, N. Y.

The Board hereby reserves and has the right to reject any or all bids or to accept the one that in its judgment will be for the best interests of the Village.

A surety bond satisfactory to the Board and in amount of $25,000 will be required of the one to whom the contract may be awarded.

A certified check, made payable to the order of the Board of Trustees, Cuba, N. Y., to the amount of $2,000 must be deposited by each bidder and accompany his bid as a guarantee that in case the contract is awarded to him, he will, within ten days thereafter, execute such contract and furnish his bond.

Bids must be sealed and addressed to the Board of Trustees, Cuba, N. Y., and marked on the outside of the envelopes "Proposal for Sewerage System and Disposal Works."

H. W. EVANS, President.
A. O. RENWICK, Trustee.
H. J. DEMCEY, Trustee.

H. M. SETCHEL,
Village Clerk.

Dated: Cuba, N. Y.,
Jan. 27th, 1923.

Bids: Feb. 27.

Drilling Well

Canton, Ill.

Notice is hereby given by the Fire and Water Committee of the City Council of the City of Canton, Illinois, that they will at three (3) o'clock on the 27th day of February, 1923, receive bids for the drilling of a well sixteen hundred and fifty (1,650) feet in depth and also for the purchase of the necessary casing and fittings for said well. Detailed information may be secured from Mr. E. F. Motsinger, City Engineer, Canton, Illinois.

Bids: Feb. 14.

Street Improvements

Camden, Arkansas.

Sealed proposals will be received by the Board of Commissioners, of Camden Paving District No. 2, care of D. V. Snow, Secretary, Camden, Arkansas, until 10 a.m. February 14, 1923, immediately after which hour, said proposals will be publicly opened and read at the City Hall.

The approximate quantities of the principal items of work to be done in the District are as follows:

1,700 lin.ft. of vitrified clay pipe storm sewers 10" to 27" in diameter.
5,500 cu.yd. of grading.
9,400 lin.ft. of concrete curb.
17,600 sq.yd. of pavement.

Alternate bids will be received on reinforced concrete pavement and asphaltic concrete (Topeka Mix), wearing surface on concrete base.

All work will be paid for in cash on periodic estimates of work done and materials furnished.

Certified check or bidders bond for at least 3% of amount of total bid will be required.

Plans and specifications are on file at the office of the Engineer, State Nat. Bk. Bldg., Texarkana, Ark.-Tex., and with the Chairman of the Board of Commissioners at Camden, Arkansas.

Specifications may be secured from the Engineer upon deposit of $2.00, of which amount $1.00 will be refunded upon the return to him of the said specifications.

The right is reserved to reject any or all bids.

E. W. COPELAND,
Chairman.
D. V. SNOW,
S. T. TYSON,
Board of Commissioners
Camden Paving District No. 2.

E. F. PETERSEN, Engineer,
Texarkana, Ark.-Tex.

OFFICIAL PROPOSALS

Bids: Feb. 19.

Filtration Plant

Carlyle, Ill.

Sealed proposals will be received at the office of the City Clerk, Carlyle, Illinois, up to two o'clock P.M., of the 19th day of February, 1923, for furnishing material and labor and constructing a complete city filtration plant.

LOCATION OF WORK.

The location of the proposed work is on the South Side of the present City Water Works at Carlyle, Illinois, and the west bank of the Kaskaskia River. A stub switch from the B. & O. Railroad extends along the west side of the building.

LIST OF QUANTITIES.

Bidders will base their prices upon the quantities shown on the plans, and the following table of quantities is submitted in explanation of portions of the plans that may be difficult to calculate. These quantities shall take precedence over the plans for the particular items mentioned herein, in case there be any discrepancy between the two:

Item 1. 1,600 cubic yards excavation.
Item 2. 313 cubic yards Portland cement concrete.
Item 3. 25,350 pounds reinforcing steel.
Item 4. Brick filter building, including doors, windows, roof, stairs, hand railing, walls, stove and chimney, also roof on clear water well.
Item 5. Baffles in mixing chamber and sedimentation basin.
Item 6. Two new centrifugal pumps with motors, transformer, valves and connections as shown on plans, including the foot-valve.
Item 7. Filter appurtenances, piping, valves, connections as shown on plans.
Item 8. Two orifice boxes, and piping necessary for proper operation.
Item 9. One Wallace & Tiernan type M S A solution feed chlorinator with calibrated scale and 25 ft. rubber tubing, and 500 lb. capacity weighing scale.
Item 10. Ten (10) inch vitrified sewer pipe as shown on plans.
Item 11. Filter sand and gravel and chemicals.
Item 12. Mixing chamber and sedimentation basin valves, valve stems, and stands, overflow drains, connections, etc.
Item 13. Connection of pump and filters, piping to present city water suction and supply mains.

INFORMATION FOR BIDDERS.

All of the above material to be furnished and work done in accordance with the plans and specifications on file at the office of the City Clerk, and at the office of the Engineers, Dawson and Walraven, Springfield, Illinois, where bidders will have ample opportunity to consult the plans, but anyone desiring a copy of the plans for personal use may obtain the same upon application to the Engineers and payment of three ($3.00) dollars to cover the cost of the prints.

The City reserves the right to reject any and all bids, and no bids will be considered which are not in conformity with the specifications.

H. J. C. BOCKEMEYER,
Mayor.
J. ARCH MEANS,
City Clerk.

DAWSON & WALRAVEN,
Engineers.
Springfield, Ill.

Bids: Feb. 20.

Drain Construction

Charleston, S. C.

Sealed Proposals will be received by the Street Department, Charleston, S. C., until 6 P.M., Tuesday, February 20th, 1923, for the construction of 35,000 feet, more or less, of terra cotta pipe drains with appurtenances, and 3,000 feet, more or less, of reinforced concrete drains and appurtenances.

The right is reserved to reject any or all bids. For specifications, etc., apply to

J. H. DINGLE,
City Engineer.

January 20th, 1923.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

Bids: Mar. 7.

Water Works System

Rawlins, Wyo.

Sealed proposals will be received until eight o'clock p.m. on the 7th day of March, 1923, for the construction of the waterworks system for the City of Rawlins, Wyoming, according to the plans and specifications on file with the City Clerk of said city. Copies of said plans and specifications may be obtained on request from the undersigned City Clerk or from The Weiland Engineering Company, 721 Thatcher Building, Pueblo, Colorado. This proposal must be accompanied by a certified check upon some solvent bank in the sum of 5% of the amount of the bid, payable to the City Treasurer of the City of Rawlins, Wyoming, with the understanding that if the proposal is accepted, the bidder will, within ten days after being notified of such acceptance, enter into a contract and give good and sufficient bond, signed by such surety or sureties as may be approved by the Mayor and Board of Trustees of said City for the full amount bid for said work. In case of failure to enter into a satisfactory contract and give an acceptable bond, said check will be forfeited to the City of Rawlins, Wyoming, as liquidated damages. Otherwise it will be returned to the bidder. The Board of Trustees of the City of Rawlins, Wyoming, reserves the right to reject any and all bids tendered. $5.00 deposit for plans and specifications to be refunded on return of same. All bids must be sealed, addressed to the Board of Trustees, and marked "Proposal for Water Works System."

OFFICIAL PROPOSALS

Bids may be accepted by the Board of Trustees on any item in the "Proposal" unless the bidder specifically states on the blank form provided at the end of the "Proposal" that he will not enter into a contract unless awarded all of the work or material as set forth in his "Proposal," or else states in the blank form just what portion of the work or material he will enter into a contract for.

LABOR AND MATERIAL.—The following approximate bill of labor and material is here submitted:

24—Reinforced concrete collection boxes and appurtenances.
1000—Lineal feet of 6-inch vitrified tile collection pipe line.
14331—Lineal feet of 4-inch Redwood or Creosoted Fir machine banded wood stave pipe.
1891—Lineal feet of 5-inch Redwood or Creosoted Fir machine banded wood stave pipe.
6491—Lineal feet of 8-inch Redwood or Creosoted Fir machine banded wood stave pipe
5918—Lineal feet of 10-inch Redwood or Creosoted Fir machine banded wood stave pipe
9373—Lineal feet of 12-inch Redwood or Creosoted Fir machine banded wood stave pipe

Water Works and Sewerage Systems

Scottsville, N. Y.

Notice is hereby given that the Board of Trustees of the Village of Scottsville, N. Y., will receive bids for the construction of a sewerage system and disposal works; and also for the construction of a water works system, the latter consisting of about five and one-half miles of cast iron pipe, hydrants, valves, special castings, pump house, rapid sand filter, stand pipe and accessories.

Plans and specifications may be seen at the office of the Village Clerk, Scottsville, and plans seen and specifications obtained at the office of Hopkins and Field, Engineers, 349 Cutler Building, Rochester, N. Y.

Each bid on each system shall be accompanied by a certified check for one thousand dollars ($1,000), payable to the order of Eugene T. Swain, Village Clerk, to be returned in case the bid is rejected, or to be forfeited in case the bidder should refuse to enter into a contract satisfactory to said Village and in accordance with his proposal. Each bidder whose bid is accepted shall be required to furnish a surety bond satisfactory to the Village Board in the amount of sixty per cent of the bid, to assure the faithful performance of the contract. The Village reserves the right to examine any bidder as to his ability and his equipment with reference to the carrying out of the contract, and said Board reserves the right to reject any or all bids.

Bids shall be enclosed in sealed envelopes addressed to the Village Board, Scottsville, N. Y., and delivered to the said Board at the Village Hall in Scottsville, on or before the 23d day of February, 1923, at 11 o'clock a.m., at which time and place the bids will be opened.

Dated January 27, 1923.
The Village of Scottsville,
By WILLIAM S. DUNN,
President.
EUGENE T. SWAIN,
Village Clerk.

Sheet Asphalt Paving

Charleston, S. C.

Sealed Proposals will be received by the Street Department, Charleston, S. C., until 6 P.M., Tuesday, February 20th, 1923, for the construction of from 200,000 to 300,000 square yards of Sheet Asphalt Pavement. The right is reserved to reject any or all bids. For specifications, etc., apply to

J. H. DINGLE,
City Engineer.

OFFICIAL PROPOSALS

Bids: Feb. 19.

Reconstruction of Streets

Spring Lake, N. J.

Sealed bids will be received by the Mayor and Council of the Borough of Spring Lake, N. J., for the reconstruction of certain streets in the said Borough of Spring Lake, the work to consist of grading and paving with Sheet Asphalt on concrete base and including such incidental items as resetting curbs, building underdrains, manholes, etc.

The estimated quantities are approximately as follows:

Excavation ..... 7,[illegible] cu. yds.
Concrete Base ..... 4,7[illegible] cu. yds.
Sheet Asphalt Surface ..... 28,5[illegible] sq. yds.

Said bids will be opened and publicly read at the rooms of the Borough Council in the Borough Hall in said Borough of Spring Lake, N. J., February 19th, 1923, at 2 o'clock P.M.

Plans and specifications, prepared by John M. Braly, Engineer, are on file in the office of the Engineer where they may be seen by prospective bidders during business hours. The standard proposal form is attached to the specifications.

Copies of the plans and specifications may be obtained from the Engineer by making a deposit of $10.00. The deposit will be refunded after the opening of the bids upon the return of the copy of plans and specifications in good condition.

Bids must be made on the standard proposal forms in the manner designated and required by the specifications; must be enclosed in sealed envelopes bearing the name and address of the bidder; marked "Proposal for Paving East Lake Ave., etc." and addressed to Hon. O. H. Brown, Mayor, Borough of Spring Lake, N. J.

Each proposal must be accompanied by a certified check in a sum not less than ten (10%) per cent of the total amount bid on the work, payable to the Collector of the Borough of Spring Lake, and also an undertaking form from a Surety Company, authorized to do business in New Jersey, agreeing to provide the bidder, if successful, with the required bond.

Proposals, checks and agreements of surety must be delivered at the office and on the hour above named.

The Borough Council reserves the right to reject any or all bids, should it, upon consideration, deem it to the best interest of the Borough so to do.

By order of the Mayor and Council of the Borough of Spring Lake.

P. S. BROWN,
Borough Clerk.

JOHN M. BRALY,
Borough Engineer.

Bids: Feb. 9.

Paving

New Castle, Pa.

Sealed proposals will be received at the office of the City Clerk, City Building, New Castle, Pa., up until 10:00 o'clock, Friday morning, February 9, 1923, for the paving of Montgomery Street (formerly Moravia Road), in the Seventh Ward, beginning at a point following the center line 643.9 feet eastwardly and northwardly from the east end of the County Bridge over the Mahoning River, thence to a point at the end of the present pavement in Montgomery Street near the County Bridge over the Mahoning River and near to the Pittsburgh, Youngstown & Ashtabula Railway tracks, the said paving to be of concrete and of the width of eighteen (18) feet, said paving to be done in accordance with plans and specifications approved by Council and on file in the office of the City Engineer, New Castle, Pa. Each proposal to be accompanied by a certified check for $1,000.00 payable to the order of C. Ed Brown, City Clerk, as a guarantee that the bidder whose proposal is accepted will sign the contract and furnish the required bond, which check is to be returned to the successful bidder upon signing the contract and the approval of the bond, and to the unsuccessful bidders upon award of the contract. Rights reserved to reject any or all bids.

C. ED BROWN,
City Clerk,
New Castle, Pa.

Highway Bridge

Pikeville, Ky.

Sealed proposals will be received by the Fiscal Court of Pike County, Kentucky, at the office of the County Judge at Pikeville, Kentucky, on Friday February 16th, 12 a.m. for the construction and erection of a highway bridge across the Tug Fork of Big Sandy River near Edgarton, West Virginia, and Freeburn, Ky. This bridge to be constucted jointly by Pike County, Kentucky and Mingo County, West Virginia. The required length is approximately 300 feet and two 150 spans are proposed. Clear width of roadway 16 feet and either three of four inch wood floor. This bridge to be designed by the contractor in accordance with situation plan and profile and other information to be furnished by the County Road Engineer of Pike County and to comply with specifications furnished by him.

Plans for this bridge are to be submitted at the above mentioned time and place together with bids and are to be subject to the approval of the County Road Engineer. To insure an economical design, as euch latitude as possible will be given to the bidders as tc type of bridge, span length etc., so long as requirements as to river channel etc., are complied with. The loading, stresses, quality, of materials etc., must conform to the requirements of the Kentucky State Highway Department standards for specification for bridges. This will be a ten ton capacity bridge. Prospective bidders are asked to submit bids on both concrete and steel structures.

Situation plans, profiles, specifications etc, will be sent to any one interested upon request by J. S. Bentley. County Road Engineer, room 208 Hughes Building, Pikeville, Kentucky. A change of $3.00 for each set of blue prints and specifications to cover cost of blue printing, typing, etc. will be made. All bids must be accompanied by a certified check for $2,500.00 payable to the Treasurer of Pike County, Kentucky, to insure that bidder will enter into proper contract. Checks of unsuccessful bidders will be returned as soon as contract is awarded.

The Fiscal Court reserves the right to reject any and all bids.

By order of the Fiscal Court of Pike County, Ky.

J. S. BENTLEY,
County Road Engineer.
W. E. FLANNARY, County Judge.

Bids: Feb. 10.

Cast Iron Pipe, Hydrants and Valves

Buffalo, N. Y.

Sewers

New Castle, Pa.

Sealed proposals will be received at the office of the City Clerk, City Building, New Castle, Pa., up until 10:00 o'clock Monday morning, March 12, 1923, for the construction of the extension of the City of New Castle Main Sewer in the Seventh Ward from its present southern terminus to the site of the proposed Sewage Disposal Plant in Taylor Township. The work will consist of the construction of approximately 4840 feet of 48 in. circular sewer in open cut of which approximately 320 feet will be Class A Cast Iron Pipe, and the balance reinforced monolithic concrete, reinforced concrete pipe, or brick, as determined by the bids. In addition there will be approximately 720 feet of 10 in. vitrified pipe sewer, 880 feet of 8 in. pipe sewer of which 850 feet will be vitrified pipe and 30 feet Class A Cast Iron Pipe, a sewage ejector station complete with air compressors and 50 feet of 4 in. Class B Cast Iron force main, manholes, frames and covers and other miscellaneous work. The said work to be done in accordance with plans and specifications on file in the office of the City Engineer, New Castle, Pa., and in the offices of Fuller & McClintock, Consulting Engineers, 170 Broadway, New York City, copies of which may be had for a deposit of $10.00.

Each proposal to be accompanied by a certified check, or cash, in the sum of at least five per cent (5%) of the total of the bid submitted, which shall become the property of the City as liquidated damages in case the successful bidder fails to furnish bond and enter into a contract. Checks to be returned upon approval of the contract and bond by the City. Checks will be returned to unsuccessful bidders. A bond with approved security will be required of the successful bidder.

The City reserves the right to reject any or all bids.

C. ED. BROWN, City Clerk.

Bids: Feb. 24.

Sewerage System and Disposal Works

Cuba, N. Y.

Sealed proposals will be received by the Board of Trustees of the Village of Cuba, N. Y., until 2 o'clock P.M., on the 24th day of February, 1923, for the construction of a sewerage system and sewage disposal works.

Plans may be seen and specifications obtained at the office of the Board at Cuba, N. Y., or at the office of Hopkins and Field, Engineers, 349 Cutler Building, Rochester, N. Y.

The Board hereby reserves and has the right to reject any or all bids or to accept the one that in its judgment will be for the best interests of the Village.

A surety bond satisfactory to the Board and in amount of $25,000 will be required of the one to whom the contract may be awarded.

A certified check, made payable to the order of the Board of Trustees, Cuba, N. Y., to the amount of $2,000 must be deposited by each bidder and accompany his bid as a guarantee that in case the contract is awarded to him, he will, within ten days thereafter, execute such contract and furnish his bond.

Bids must be sealed and addressed to the Board of Trustees, Cuba, N. Y., and marked on the outside of the envelopes "Proposal for Sewerage System and Disposal Works."

Highway Bridge

Massena, N. Y.

Sealed proposals will be received at the office of the Town Clerk of the Town of Massena, New York until 2:00 P. M., on February 26th, 1923, and at that time publicly opened and read, for furnishing of all materials, equipment and labor necessary to construct a highway bridge over the Grasse River in the Town of Massena, New York.

The bridge will consist of a riveted steel cantilever superstructure with a concrete substructure. The superstructure will be seven hundred and sixty-five (765) feet long, consisting of two anchor arms, each one hundred and fifty-seven and one half (157.5) feet long; two cantilever arms, each one hundred and twelve and one half (112.5) feet long and a suspended span, two hundred and twenty-five (225) feet long.

The bridge will have one roadway, eighteen feet wide, and two sidewalks, each six feet wide.

The work will also require the grading of the approaches.

Proposals will be received separately for the substructure and for the superstructure.

Plans and specifications may be had at the office of the Town Board or of the Consulting Engineers, the Jarrett-Chambers Company, Inc., No. 30 East 42nd Street, New York City, upon deposit of ten dollars for superstructure plans or five dollars for substructure plans, which will be refunded when the plans are returned.

A certified check, payable to the Town Board of Massena, New York, shall be enclosed with each proposal. Checks accompanying proposals for the superstructure shall be for the sum of ten thousand dollars. Checks accompanying proposals for the substructure shall be for three thousand dollars.

The right is reserved to reject any or all proposals or to waive any informality in the proposals received.

The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4037, Proposals Nos. 1 and 2. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the Middletown State Homeopathic Hospital, Middletown, N. Y., at the New York Office of the Department of Architecture, Room 1058, 25 Broadway; and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

L. M. FARRINGTON,
Secretary, State Hospital Commission.
Dated: February 2, 1923.

U. S. GOVERNMENT

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C., February 1, 1923—Sealed proposals will be opened in this office at 3 p.m., March 5, 1923 for protection of site and building and approach work at the United States Immigrant Station, Boston, Mass. Drawings and specifications may be obtained from the Supervising Chief Engineer, Room 437, U. S. Post Office Building, Boston, Mass., or at this office in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

U. S. ENGINEER OFFICE, Nashville, Tenn. Sealed proposals will be received here until 11 a.m., March 6, 1923, and then opened, for one electric towboat. Further information on application.

Ever Hear About John Webster's Crab?

¶The great John Webster in writing his classic, "The Duchess of Malfi," makes the following comparison of the habit-set man who would not change his ways and methods:

"Like the irregular crab,
Which, though 't goes backward, thinks
It goes right
Because it goes its own way."

¶Perhaps if we could just step one side and watch ourselves go by some of us would supplant our present methods with others that would be more in step with our wishes for success and progress. ¶The most sincere wishes in the world backed by equally sincere efforts do not produce results commensurate with those efforts if the method is wrong. ¶If you look over the efforts that are being made in your behalf on Contract Bonds and Compensation Insurance and compare them to Swart Service you may see a similarity to "the irregular crab." ¶If no difference, don't change. That's fair, isn't it?

Swart Service Really Serves

U. S. GOVERNMENT

U. S. ENGINEER OFFICE, CINCINNATI, O. Sealed proposals will be received here until 2 p.m., Feb. 12, 1923, and then opened, for furnishing and delivering structural steel, forgings, etc., for Ohio River Dams Nos. 36 and 38. Further information on application.

SEALED PROPOSALS will be received and opened by the Director, U. S. Veterans Bureau, in the office of the Quartermaster General, 2306 Munitions Building, Washington, D. C., at 11 a.m., February 16, 1923, for construction of a 500 bed Neuro-Psychiatric Hospital to be erected for the U. S. Veterans Bureau at Camp Custer, Battle Creek, Michigan. The work will include the construction of about thirty buildings of reinforced concrete and brick, complete with sewer, water, heating and lighting systems, roads and walks. Plans and specifications may be obtained after January 16, 1923, from the Quartermaster General, Room 2306 Munitions Building, Washington, D. C., upon deposit of $100. One set of plans and specifications will be on exhibition at each of the following stations: Constructing Quartermasters at 39 Whitehall Street, New York, N. Y., Army Supply Base, Boston 9, Mass., and Quartermaster Supply Officers at 1819 West Pershing Road, Chicago, Ill., and Second and Arsenal Streets, St. Louis, Mo.

U. S. ENGINEER OFFICE, WILMINGTON, DEL.—Sealed proposals will be received here until 11 A.M., Feb. 24, 1923, and then opened, for constructing and delivering one steel quarter boat and two steel barges. Further information on application.

UNITED STATES ENGINEER OFFICE, Room 616, Army Building, New York City—Sealed proposals will be received here until 12 o'clock Noon, March 2, 1923, and then opened, for dredging in Shrewsbury River, N. J. Further information on application.

U. S. GOVERNMENT

SEALED PROPOSALS, indorsed "Proposals for Refrigerating Equipment, Gulfport, Miss. Specification No. 4780," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a.m., Feb. 21, 1923, and then and there publicly opened, for refrigerating and ice-making equipment, using as refrigerant any satisfactory substance except ammonia, and consisting of motor-driven compressors, condensers, liquid receiver, motor-driven brine pumps, combination freezing and brine-cooling tank with expansion coils, water-precooler tank with coils, charcoal filters, brine agitator, water-agitating system by compressed air, automatic can filler, hand-operated can hoist, automatic can dump and ice chute, ice cans, oil and scale traps, piping and other accessories; and for coldstorage rooms with insulation for compartments including doors, floors, and equipment for the storage and handling of goods at the U. S. Veterans' Hospital, Gulfport, Miss. Drawings and Specification No. 4780 may be obtained on application to the Bureau of Yards and Docks. Deposit of a check or postal money order for $10, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawings and specification. L. E. GREGORY, Chief of Bureau, January 5, 1923.

SEALED PROPOSALS, indorsed "Proposals for Stack, Gulfport, Miss., Specification No. 4781," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a.m., Feb. 21, 1923, and then and there publicly opened, for a radial brick stack on a concrete foundation, at the U. S. Veterans' Hospital, Gulfport, Miss. Specification No. 4781 may be obtained on application to the Bureau of Yards and Docks. Deposit of a check or postal money order for $10, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the specification. L. E. GREGORY, Chief of Bureau, January 5, 1923.

U. S. GOVERNMENT

SEALED PROPOSALS, indorsed "Proposals for Hospital Construction, Gulfport, Miss., Specification No. 4774," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a.m., Feb. 26, 1923, and then and there publicly opened, for the following work at the U. S. Veterans' Hospital, Gulfport, Miss.

Part I. New buildings, roads and walks; and removing existing building, roads and walks. The work includes plain and reinforced concrete; cast concrete; hollow tile work; structural steel; interior marble work; wood framing, sash, doors and finish; stucco; plaster and metal lath; tile, prepared and built-up roofing; sheet metal work; steel sash; steel covered sash and doors; miscellaneous steel and iron work; hardware; painting and glazing; and dumbwaiters.

Part II. Plumbing work inside the buildings, and outside sewers and drains, including soil, vent and drain piping; hot and cold water lines; interior stand pipe system; all valves, fittings, plumbing fixtures, and floor drains.

Part III. Complete heating and steam distributing systems for each building and an outside steam distributing system including high pressure and vacuum return lines; hot water heaters; underground concrete trenches, manholes; and cast iron manhole frames and covers.

Part IV. Lighting systems for each building; power systems and telephone conduits in certain buildings; and outside electric distributing systems including transformers, panel boards, fixtures, conduits, fibre ducts, and wiring.

Part V. Boiler plant equipment and piping, including brick settings for return tubular boilers, smoke flue, feed water heater, steel storage tanks, feed water and vacuum pumps, combined twin pump and receiver, fuel oil pumps and heater, motor-driven sludge pump, drip traps, incinerator with hot water heating and sterilizing equipment, complete piping systems for all apparatus, and the installation of horizontal return tubular boilers furnished by the Government.

Drawings and specification No. 4774 may be obtained on application to the Bureau of Yards and Docks, Navy Department, Washington, D. C. Deposits of checks or postal money orders, payable to the Chief of the Bureau of Yards and Docks, are required as security for the safe return of the drawings and specifications. Deposits shall be in the following amounts: Part I—$50, Part II—$50, Part III—$25, Part IV—$25, Part V—$15; and complete (all parts) $100. L. E. Gregory, Chief of Bureau, January 5, 1923.

U. S. ENGINEER OFFICE, GALVESTON, TEX., Sealed proposals will be received here until 11 a.m., Feb. 21, 1923, and then opened, for dredging channels at Brazos Island Harbor, Texas. Further information on application.

U. S. ENGINEER OFFICE, PROVIDENCE, R. I. Sealed proposals will be received here until 12 o'clock, noon, March 7, 1923, and then opened, for dredging in Connecticut River, Conn. Further information on application.

U. S. ENGINEER OFFICE, FLORENCE, ALABAMA.—Sealed proposals will be received here until 11 A.M., February 12, 1923, and then opened, for furnishing and delivering one electric generator of 937.5 kva. capacity with direct connected excited. Further information on application.

U. S. ENGINEER OFFICE, FLORENCE, ALA.—Sealed proposals will be received here until 11 A.M., February 17, 1923, and then opened, for furnishing displacement tanks for the regulating gates of Wilson Dam. Further information on application.

U. S. ENGINEER OFFICE, FLORENCE, ALA.—Sealed proposals will be received here until 11 A. M., February 21, 1923, and then opened, for furnishing castings and other parts for the regulating gates of Wilson Dam. Further information on application.

E. N. R.

POSITIONS VACANT

ASSISTANT engineer for State Bureau of Public Health, Santa Fe, New Mexico. University graduate in sanitary engineering, with not less than three years' experience in waterworks and sewage disposal. Beginning salary $2,400 and travel expenses. Give full particulars, training, experience, references, in letter of application, to Director of Public Health, Santa Fe, New Mexico.

CARPENTER foreman for concrete bridge forms, this is complicated work and only capable men will be considered. No others need apply. P-649, Eng. News-Record, Leader-News Bldg., Cleveland, Ohio.

CHIEF draftsman wanted to take complete charge drafting room, Middle West structural plant. Principally industrial mining and bridge structures. Capacity 1,000 tons per month. Position permanent and excellent opportunity for man with executive ability. Apply giving experience, age, married or single and salary expected to P-670, Eng. News-Record, Old Colony Bldg., Chicago, Ill.

CIVIL engineer, with instrument, for one or two years, experienced in accurate subdivision work, excavation surveys, etc. Address Box 232, Asheville, N. C.

COMPRESSED air; experienced inspectors wanted on masonry tunnel construction under high air pressure. Apply in person. Passaic Valley Sewerage Commissioners, 128 Market Street, Newark, N. J.

DESIGNERS and estimators wanted by large reinforcing bar company. Must have experience with organization handling reinforcing steel. Give references, experience, and salary desired. P-651, Eng. News-Record, 10th Ave. at 36th St., New York City.

DETAILERS for reinforced concrete structures. Designing, estimating and selling opportunities for capable men. Give references, age, experience, education. The Building Products Co., Toledo, Ohio.

POSITIONS VACANT

DRAFTSMEN, experienced (only) detailers and checkers on structural steel. State salary, experience, and when available first letter. Pittsburgh-Des Moines Steel Co., Des Moines, Iowa.

DRAFTSMEN, first class detailers and checkers for structural steel. Philadelphia vicinity. Only experienced men need apply. P-582, Eng. News-Record, Real Estate Trust Bldg., Phila., Pa.

DRAFTSMEN experienced in detailing and checking structural steel for buildings, permanent position for efficient men. Give age, experience, references. We operate throughout entire United States. International Steel & Iron Co., Evansville, Indiana.

DRAFTSMEN, experienced detailers and checkers wanted for buildings and bridges. State age, salary, experience and earliest date available. Permanent position for good men. The Mt. Vernon Bridge Co., Mt. Vernon, Ohio.

DRAFTSMEN: On structural steelwork for bridges and buildings. Apply giving experience, etc., to the Berlin Construction Co., Inc., Berlin, Conn.

DRAFTSMAN, with some engineering experience. Knowledge of mill construction and structural work in steel, wood and concrete necessary. Should be able to estimate. Temporary engagement. Reply stating age, if married, details of experience, references and salary desired. Security Cement & Lime Company, Hagerstown, Maryland.

DRAFTSMEN calculators wanted on special track work. With or without experience but must have thorough working knowledge of mathematics. P-658, Eng. News-Record, Real Estate Trust Bldg., Phila., Pa.

DRAFTSMEN, structural detailers and checkers wanted for heavy bridge work and buildings. State qualifications and salary expected. Bethlehem Steel Company, Bridge and Fabrication Department, Steelton, Penna.

POSITIONS VACANT

DRAFTSMEN—Mechanical, experienced in mechanical and chemical layout work, power house layout work, and machine design. Give age, experience and salary expected. Apply to the Engineering Department. E. I. Du Pont de Nemours & Company, Inc., Wilmington, Delaware.

ELECTRICAL draftsman, technical graduate preferred, experienced in substation and transmission line design, motor application and control. Some knowledge of mining desirable but not necessary. State age, experience in detail, education, salary expected and when available. Location, Eastern Pennsylvania. P-565, Eng. News-Record, Real Estate Trust Bldg., Phila., Pa.

ESTIMATOR wanted. Must prove his ability, beyond doubt, to accurately estimate costs on high class bank and office buildings, apartments, hotels and industrial plants. Not over forty years old. Must show a successful record covering several years and including connection as estimator with at least one of the larger construction companies. For the services of such a man we will pay liberal salary and commission on contracts awarded through his solicitation. State salary and send full record in first letter. P-653, Eng. News-Record, 10th Ave. at 36th St., New York City.

EXPERIENCED structural detailers and checkers; state age, experience, nationality, education and salary expected, in first letter. Indiana Bridge Company, Muncie, Indiana.

EXPERIENCED detailer and checker on shop drawings for structural shop. Give age, experience, etc. Stupp Bros. B. & I. Co., St. Louis, Mo.

EXPERIENCED structural detailers and checkers wanted on mill and office buildings. In reply state experience, salary and earliest date you can report. Riverside Bridge Co., Martins Ferry, Ohio.

HIGHER ENGINEERING
(HOME STUDY)

Wilson Courses will help you solve your problems.
More and more the kind of training supplied by our courses is being required of men who seek positions. Engineers in charge of important work have no time to waste on untrained men, and in most cases when work has been assigned to a man, if he cannot make good without help, he loses the job. Others are being turned away because they lack *experience*.

We duplicate actual **Experience** with our courses. When through this work, you are an experienced man, and have the work to show for it.

Two or three evenings per week for eight months should get a man through any one of our single courses:

Structural Steel Designing; Reinforced Concrete Engineering (Estimating included). Bridges, Steel and Concrete.

Splendid practical work for older men who need to "brush up," new grads. are taking this up as post graduate work. Anyone who knows elementary mathematics is eligible. Free literature; easy terms.

WILSON ENGINEERING CORPORATION
10 Broadway, Hanover, Mass.

Miscellaneous (Continued)

sawed creosoted yellow pine and 11,200 ft. corrugated culvert metal. R. W. Gearhart, Marion, co. engr.

Bridge Material—Onawa, Ia.—Feb. 20, by Auditor Monona Co., furnishing 5 cars fir bridge plank and 1 car cypress piling. M. T. Kneale, Onawa, co. engr.

Culverts, etc.—Osceola, Ia.—Feb. 23, by Auditor Clarke Co., 38 box culverts and 8 extensions, 1,136.5 cu.yd. rein.-con. V. J. Brown, Osceola, co. engr.

Road Maintenance Machine—Stillwater, Minn.—March 6, by J. F. Kilty, aud. Washington Co., one power road-maintenance machine.

Grand Stand, etc.—Kansas City, Mo.—Osborn Eng. Co., 2848 Prospect Ave., S. E., Cleveland, O., taking bids 1 deck rein.-con. and steel grandstand, 18,000 capacity, 2 story, 30 x 65 ft., brick and stone office building, also grading work, 20th and Brooklyn Sts., here, for Kansas City Baseball Club, c/o G. Muehlebach, 18th and Walnut Sts. Noted Jan. 4.

Levee—Whitham, Mo.—See "Excavation, Drainage, Irrigation."

Electrical Distribution System — Venice, Calif. — Feb. 20, to vote on $100,000 bonds for electrical distributing system.

Supplies—Ottawa, Ont.—Feb. 20, by Bd. Control, furnishing asphalt, asphalt filler, brasswork, broken stone, castings, c.i. pipe, cement, draughting supplies, lead pipe, pig lead, plank and cedar, sand, service posts, special pipe castings, valves, vitr. clay or cement sewer pipe, road oils, fuel oil, refined tar and meters. $200,000. A. F. Macallum, city engr.

Supplies—Toronto, Ont.—Taking bids treated wood blocks, sand, portland cement, gravel, mineral dust or filter, rubble stone, iron, steel, etc. $150,000. R. C. Harris, city engr.

BIDS RECEIVED

Park—Astoria, N. Y.—Park Bd. at office Dept. Parks, Municipal Bldg., New York, opened bids Feb. 8, improving Astoria Park, here, from T. Di Roma, 33 Evelyn Pl., New York, $111,903; G. Williamson, 46 West Bway., New York, $116,580; Benedetto & Sanssez, $116,647. Noted Feb. 1.

CONTRACTS AWARDED

Motor Trucks—Long Island City, N. Y.—M. E. Connolly, pres. Queens Boro, Queens Subway Bldg., furnishing and delivering twenty-one 3 to 3½ ton motor trucks, to White Co., Thompson Ave., $95,865. Noted Feb. 1.

Structural Steel — New York, N. Y. — Transit Comn., 49 Lafayette St., furnishing and erecting 1,360 ton structural steel incl. 1,920 ton sheet steel piling, for 3rd addition to shops at Lenox Ave. and 148th St., to McClintic Marshall Co., 50 Church St., $293,888. Engrs. est. $294,000. Noted Feb. 8.

Tar Road Oil, etc.—New York, N. Y.—H. Bruckner, pres. Bronx Boro, 3rd and Tremont Aves., furnishing and delivering 200,000 gal. tar road oil and 50,000 gal. bituminous surfacing material, to Barrett Co., 17 Battery Pl., $20,900 and $8,250 respectively; 6,000 cu.yd. broken trap rock stone, to New York Trap Rock Corp., 101 Park Ave., $29,640; 4,000 cu.yd. binder stone, to Calvin Tompkins Co., 30 Church St., $7,720; 1,000 ton limestone dust, to E. Meyer Co., 25 Church St., $5,800; 4,000 bags Portland cement, to T. J. Mallette, Inc., $29,000; 6,000 cu.yd. sand grits and 3,000 cu.yd. hard ashes, to Ames Building Material Co., 3437 Kingsbridge Rd., $14,880 and $2,220 respectively; 1,000 cu.yd. fine sand, to Gallagher-Shand, Inc., 420 East 105th St., $1,750. Noted Feb. 8.

Street Sweeper — Watertown, N. Y. — Street sweeper, to Austin Western Road Mchy. Co., 400 North Michigan Ave., Chicago, $7,000. Noted Jan. 11.

Pipe Line—Curtis Bay (Baltimore P. O.) **Md.**—Amer. Oil Co., American Bldg., Baltimore, vitr. pipe line to oil tanks, here, to Whiting-Turner Constr. Co., Stewart Bldg., Baltimore, $15,000.

Road Oil—Monticello, Ill—Piatt Co., furnishing 630,000 gal. E-3 road oil, to Standard Oil Co., 400 East Cerro Gordo St., Decatur, $5.46 per hundred gal.

Pile Driving, Crane, etc. — Aberdeen, Wash.—Port of Grays Harbor Comrs., pile driving and timber construction for 96 x 280 ft. dock, to Grays Harbor Constr. Co., Hoquiam, $40,000; (90 days); 5 ton, 95 ft. radius, Hammerhead type crane, to Colby Steel & Eng. Co., 446 Central Bldg., Seattle, $26,400; 40 ton steel rail and fittings, to Western Railway Supply Co., Northwestern Bank Bldg., $2,700.

Heating and Ventilating—Montreal, Que.—McGill University, Sherbrooke St. W., contract for plumbing, heating and ventilating for pathological building, to Garth & Co., Craig St. W., $78,500.

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Bids: March 12.

Sewers

New Castle, Pa.

Sealed proposals will be received at the office of the City Clerk, City Building, New Castle, Pa., up until 10:00 o'clock Monday morning, March 12, 1923, for the construction of the extension of the City of New Castle Main Sewer in the Seventh Ward from its present southern terminus to the site of the proposed Sewage Disposal Plant in Taylor Township. The work will consist of the construction of approximately 4840 feet of 48 in. circular sewer in open cut of which approximately 320 feet will be Class A Cast Iron Pipe, and the balance reinforced monolithic concrete, reinforced concrete pipe, or brick, as determined by the bids. In addition there will be approximately 720 feet of 10 in. vitrified pipe sewer, 880 feet of 8 in. pipe sewer of which 850 feet will be vitrified pipe and 30 feet Class A Cast Iron Pipe, a sewage ejector station complete with air compressors and 50 feet of 4 in. Class B Cast Iron force main, manholes, frames and covers and other miscellaneous work. The said work to be done in accordance with plans and specifications on file in the office of the City Engineer, New Castle, Pa., and in the offices of Fuller & McClintock, Consulting Engineers, 170 Broadway, New York City, copies of which may be had for a deposit of $10.00.

Each proposal to be accompanied by a certified check, or cash, in the sum of at least five per cent (5%) of the total of the bid submitted, which shall become the property of the City as liquidated damages in case the successful bidder fails to furnish bond and enter into a contract. Checks to be returned upon approval of the contract and bond by the City. Checks will be returned to unsuccessful bidders. A bond with approved security will be required of the successful bidder.

The City reserves the right to reject any or all bids.

C. ED. BROWN, City Clerk.

Bids: Feb. 24.

Sewerage System and Disposal Works

Cuba, N. Y.

Sealed proposals will be received by the Board of Trustees of the Village of Cuba, N. Y., until 2 o'clock P.M., on the 24th day of February, 1923, for the construction of a sewerage system and sewage disposal works.

Plans may be seen and specifications obtained at the office of the Board at Cuba, N. Y., or at the office of Hopkins and Field, Engineers, 349 Cutler Building, Rochester, N. Y.

The Board hereby reserves and has the right to reject any or all bids or to accept the one that in its judgment will be for the best interests of the Village.

A surety bond satisfactory to the Board and in amount of $25,000 will be required of the one to whom the contract may be awarded.

A certified check, made payable to the order of the Board of Trustees, Cuba, N. Y., to the amount of $2,000 must be deposited by each bidder and accompany his bid as a guarantee that in case the contract is awarded to him, he will, within ten days thereafter, execute such contract and furnish his bond.

Bids must be sealed and addressed to the Board of Trustees, Cuba, N. Y., and marked on the outside of the envelopes "Proposal for Sewerage System and Disposal Works."

H. W. EVANS, President.
A. O. RENWICK, Trustee.
H. J. DEMCEY, Trustee.
H. M. SETCHEL,
Village Clerk.
Dated: Cuba, N. Y.,
Jan. 27th, 1923.

OFFICIAL PROPOSALS

Bids: Mar. 7.

Additions to Montebello Filters

Baltimore, Md.

Sealed proposals, in duplicate, endorsed, "Bids for Additions to Montebello Filters, Contract No. 63, Water Department," addressed to the Board of Awards of Baltimore City, will be received at the office of the City Register, City Hall, Baltimore, Md., until 11 A.M., Wednesday, March 7th, 1823, at which time they will be publicly opened and read.

Plans and specifications may be obtained at the office of the Water Engineer, Room 204, City Hall, Baltimore, Md., on or after February 17th, 1923. A charge of twenty-five (25) dollars will be made for each set of plans and specifications; this amount will be refunded upon the return of these plans and specifications before March 14th, 1923, in good condition. Specifications used in making a bid will be considered as returned. Blueprints will be furnished to prospective bidders only upon written request, at 25 cents each, which amount will not be refunded.

A certified check of the bidder on a clearing house bank, made payable to the Mayor and City Council of Baltimore, for the sum of thirty-five (35) thousand dollars, will be required with each bid.

The principal items are approximately as follows:

Excavation, 365,000 cu.yds.
Rolled embankment, 74,000 cu.yds.
Concrete, 45,400 cu.yds.
Steel reinforcement, 3,760,000 pounds.
Setting cast iron pipe, valves and sluice gate, 800 tons.

The successful bidder will be required to give bond equal in amount to the value of the contract to comply with the city charter respecting contracts.

The Board of Awards reserves the right to reject any or all bids.

Approved: WM. A. MEGRAW,
Water Engineer.

Bids: Mar. 2.

Sewer
No. 100

Milwaukee, Wis.

Sealed proposals for the construction of extensions to the intercepting sewer system of the City of Milwaukee, Wis., will be received by the Sewerage Commission of the said City at its office, 508 Market Street, Milwaukee, Wisconsin, until 1:30 p.m., the 2nd day of March, 1923, at which time and place during the session of the said Commission, the proposals will be publicly opened and read.

The work to be done embraces the building of the following work:

4,220 lineal feet of 42" concrete sewer.

Together with all manholes and other appurtenances.

The time allowed for the completion of this contract shall be six (6) months from the date of the Engineer's notice to begin work.

The liquidated damages for not completing the work within the time above stated shall, for each day in excess thereof, be Twenty-five ($25.00) Dollars.

Each proposal submitted must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a National or State Bank or Trust Company, and to the order of the "Sewerage Commission of the City of Milwaukee" to the amount of Two Thousand ($2,000.00) Dollars.

Specifications and blank forms of proposals can be obtained and detailed plans examined at the office of the Sewerage Commission, 508 Market Street, and a full set of plans will be sent to any contractor upon receipt of five (5) dollars. This sum will be returned upon surrender of the plans in good condition within thirty (30) days after award of the contract.

The Sewerage Commission of the City of Milwaukee reserves the right to reject any and all bids submitted.

Published by authority of the Sewerage Commission of the City of Milwaukee.

JOHN H. FOWLES,
Secretary.

Countersigned:
LOUIS M. KOTECKI,
Comptroller.

State Hospital Work

Middletown, N. Y.

Sealed proposals for Sanitary Work—Additional Fire Protection and Water Supply, at the Middletown State Homeopathic Hospital, Middletown, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 3 o'clock P. M. on Wednesday, February 28, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of each proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4037, Proposals Nos. 1 and 2. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the Middletown State Homeopathic Hospital, Middletown, N. Y., at the New York Office of the Department of Architecture, Room 1058, 25 Broadway; and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

L. M. FARRINGTON,
Secretary, State Hospital Commission.
Dated: February 2, 1923.

Bids: Feb. 21.

Main Sanitary Sewer—East Side

Ashtabula, Ohio.

Sealed proposals will be received at the office of the City Manager in the City Hall, Ashtabula, Ohio, until 12 o'clock noon, Eastern Standard Time, February 21st, 1923, and then publicly opened and read, for the construction of an East Side Main Sanitary Sewer.

The following quantities give a general idea of the amount and character of the work to be done:

7,800 lin.ft. 15" to 27" Vit. Pipe Sewer.
2,100 lin.ft. 42" Sewer.
2,000 lin.ft. Sewer in tunnel.

Copies of plans and specifications and blank proposals may be obtained at the office of the City Engineer, City Hall, Ashtabula, Ohio, or at the office of George B. Gascoigne, 648 Leader News Building, Cleveland Ohio, after February 10th, 1923. A charge of $10.00 will be made for each set of plans and specifications. All checks for said plans and specifications shall be made payable to the City Treasurer of Ashtabula, Ohio.

The City of Ashtabula, Ohio.
W. M. COTTON,
City Manager.

Bids upon approximately two miles of storm drains averaging about 54" in diameter will be received about the middle of March, 1923.

Silver Tongued oratory may cloak an excuse, but results delivered leave no room for argument. Swart service really serves.

OFFICIAL PROPOSALS

Bids: Feb. 26.

Sanitary Sewer System and Sewage Disposal Plant

Blasdell, N. Y.

Sealed proposals will be received by the Board of Trustees of the Village of Blasdell, Erie County, N. Y., until 8 p. m., Feb. 26th., 1923, at the office of the Village Clerk in said Village, for the construction of sanitary sewers and for the construction of a sewage disposal plant.

Plans and specifications and forms of contract may be seen at the office of the Village Clerk or at the office of Frederick K. Wing Company, Engineers, 1314 Prudential Building, Buffalo, N. Y.

The Board of Trustees reserves the right to reject any and all bids, or to accept the bid for sewers or for sewage disposal plant separately—whichever way in its best judgment, it deems best for the interests of the village.

A bond amounting to 50% of the contract, will be required of the successful contractor or contractors.

Each proposal must be accompanied by a certified check in the sum of at least 3% of the amount of the bid. Checks are to be made payable to the order of W. F. Salisbury, Village Treasurer, and said checks become the property of the Village, as liquidated damages, in case the successful bidder fails to furnish the bond and enter into a contract within five days after notice from the Board of Trustees so to do.

Bids must be addressed to the Village Clerk, Blasdell, N. Y., and must be marked on the outside, "Proposal for Sewers" or "Proposal for Disposal Plant" or "Proposal for Sewers and Disposal Plant."

IRA DUNMIRE,
President.
FOREST F. GLEZEN,
Village Clerk.

Blasdell, N. Y.,
Feb. 6th, 1923.

Bids: March 13.

Sewerage

Matewan, N. J.

Sealed bids or proposals for the construction of Sewers and Sewage Disposal Works will be received by the Mayor and Council at the Truck House Building, Jackson Street, Matewan, New Jersey, on the thirteenth day of March, 1923, at eight o'clock in the evening.

The work mainly consists of about 6½ miles of 6 inch to 12 inch vitrified pipe sewers and an Imhoff Tank.

For any information, or explanation that may be desired regarding drawings and specifications, bidders shall apply to George A. Johnson Company, Inc., Consulting Engineers, 150 Nassau Street, New York. Drawings and specifications, may be obtained from George A. Johnson Company at the price of $15, which will not be refunded.

Each bid must be accompanied in a separate envelope by a certified check in the amount of seven thousand dollars ($7,000) for schedule number one, three thousand dollars ($3,000) for schedule number two, and a bond guaranteeing that if the proposal of the bidder is accepted and the contract awarded to him or them, the said bidder will enter into the said contract and execute the necessary instruments therefor, and upon the execution of said contract the said Surety Company will become surety on said bond guaranteeing the performance of the same.

The Borough reserves the right to accept any bids or to reject any or all bids.

WILLIAM H. SUTPHIN,
Mayor.

Bids: Feb. 26.

Highway Bridge

Massena, N. Y.

Sealed proposals will be received at the office of the Town Clerk of the Town of Massena, New York until 2:00 P. M., on February 26th, 1923, and at that time publicly opened and read, for furnishing of all materials, equipment and labor necessary to construct a highway bridge over the Grasse River in the Town of Massena, New York.

The bridge will consist of a riveted steel cantilever superstructure with a concrete substructure. The superstructure will be seven hundred and sixty-five (765) feet long, consisting of two anchor arms, each one hundred and fifty-seven and one half (157.5) feet long; two cantilever arms, each one hundred and twelve and one half (112.5) feet long and a suspended span, two hundred and twenty-five (225) feet long.

The bridge will have one roadway eighteen feet wide, and two sidewalks, each six feet wide.

The work will also require the grading of the approaches.

Proposals will be received separately for the substructure and for the superstructure.

Plans and specifications may be had at the office of the Town Board or of the Consulting Engineers, the Jarrett-Chambers Company, Inc., No. 30 East 42nd Street, New York City, upon deposit of ten dollars for superstructure plans or five dollars for substructure plans, which will be refunded when the plans are returned.

A certified check, payable to the Town Board of Massena, New York, shall be enclosed with each proposal. Checks accompanying proposals for the superstructure shall be for the sum of ten thousand dollars. Checks accompanying proposals for the substructure shall be for three thousand dollars.

The right is reserved to reject any or all proposals or to waive any informality in the proposals received.

ANDREW J. HANMER,
Supervisor,
FRANK A. HOUGH,
Town Clerk.
Massena, N. Y.
JARRETT-CHAMBERS COMPANY, INC.

Bids: Feb. 28.

Lock and Dam Construction of the Illinois Waterway Contract No. 2

Chicago, Ill.

1. Sealed proposals for the construction of STARVED ROCK LOCK AND DAM, located in the Illinois River, two miles above Utica, and seven miles below Ottawa, La Salle County, Illinois, will be received at the office of the Director of the Department of Public Works and Buildings, Division of Waterways, Room 122, State House, Springfield, Illinois, until Ten (10) o'clock A.M., Central Standard Time of the 28th day of February, 1923, and then publicly opened and read.

2. Copies of the plans, specifications, proposal blank, form of bond, and contract may be obtained by prospective bidders at the Office of the Department, Room 1404, 25 East Jackson Boulevard, Chicago, Illinois, upon depositing a check for Ten Dollars ($10.00), made payable to the Director of the Department of Public Works and Buildings, which sum will be returned within ten (10) days after the contract has been awarded, if the plans are returned in good condition within that time.

3. Each proposal shall be accompanied by a certified check or draft drawn on some responsible bank doing business in the City of Chicago, and made payable to the order of the Director of the Department of Public Works and Buildings, for five (5) per cent of the amount of the proposal. In lieu of a certified check or draft, the proposal may be accompanied by a bond executed in the form prescribed by the Department of Public Works and Buildings and with a surety company approved by the Department in the penal sum of ten (10) per cent of the amount of the proposal.

4. The Department of Public Works and Buildings reserves the right to reject any or all bids. The contract, if let, will be awarded to the lowest responsible bidder.

C. R. MILLER,
Director, Department of Public Works and Buildings.
WILLIAM L. SACKETT,
Superintendent of Waterways.
M. G. BARNES,
Chief Engineer,
Division of Waterways.

Bids: Feb. 22.

Levee Work

Beardstown, Ill.

1. Sealed bids will be received by the Commissioners of the South Beardstown Drainage and Levee District, of Cass County, Illinois, at the First State Bank, at Beardstown, Cass County, Illinois, up to the hour of two o'clock in the afternoon of the 22nd day of February, A. D., 1923, at which time and place said bids will be publicly opened.

2. The work for which bids are asked is the furnishing and erecting of the following:

(a) Raising and widening the levee from Station 0 to 18 by hauling in sand, approximately 14,000 cubic yards.

(b) Raising and widening the levee from Station 18 to 67 by dredge or dry land machinery, approximately 32,000 cubic yards.

(c) Raising and widening the levee from Station 67 to 329 by dredge boat work, approximately 120,500 cubic yards.

(d) Emmerson slough improvement. Filling the upper end of Emmerson slough.

(e) Borrow pit improvement, by closing the channel at certain points with earth embankments.

L. B. KINSEY,
Civil Engineer.
Pekin, Ill.

Proposal Ads for the Feb. 22 issue should be in our hands not later than 11 A. M., Monday, February 19th. Earlier closing for press due to holiday, Feb. 22.

OFFICIAL PROPOSALS

Bids: Feb. 27.

Drilling Well

Canton, Ill.

Notice is hereby given by the Fire and Water Committee of the City Council of the City of Canton, Illinois, that they will at three (3) o'clock on the 27th day of February, 1923, receive bids for the drilling of a well sixteen hundred and fifty (1,650) feet in depth and also for the purchase of the necessary casing and fittings for said well. Detailed information may be secured from Mr. E. F. Motsinger, City Engineer, Canton, Illinois.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

Bids: Feb. 21.

Sewers

Sturgis, Mich.

The City Commission of the City of Sturgis, Mich., will receive sealed proposals until 2:00 p.m. Wednesday, February, 21st, 1923, for the construction of the following sewers: 700 ft. of 54 in.; 530 ft. of 36 in.; 30 ft. of 27 in.; 50 ft. of 18 in.; 5,080 ft. of 12 in.; 3,650 ft. of 10 in.; 4,715 ft. of 8 in.; 2,000 ft. of 6 in. house connections laid from sewer to curb line; 315 lineal ft. of manholes; plans and specifications are on file in office of City Engineer. Copies of same may be secured by a deposit of $5.00. A certified check for $1,000.00 must accompany bid. Right is reserved to rejeet any or all bids. Further information on application. By order of City Commission, City of Sturgis, Michigan.

ARTHUR H. NILES,
City Engineer.

Hauling Contracts Wanted

Road work, Material Handling, etc. Have several fleets of trucks ready for service anywhere. No job too large. Special equipment for any kind of dump truck hauling or unloading. Unlimited references. Glad to estimate.

Sewer

NO. 99

Milwaukee, Wis.

Sealed proposals for the construction of extensions to the intercepting sewer system of the City of Milwaukee, Wisconsin, will be received by the Sewerage Commission of the said City at its offices, 508 Market Street, Milwaukee, Wisconsin, until 1:30 p.m., the 23rd day of February, 1923, at which time and place during the session of the said Commission, the proposals will be publicly opened and read.

The work to be done embraces the building of the following work:

1,130 lineal feet of 48" Concrete Sewer.
1,550 lineal feet of 48" Cast Iron Pipe Sewer.

Together with other appurtenances.

The time allowed for the completion of this contract shall be six (6) months from the date of the Engineer's notice to begin the work.

The liquidated damages for not completing the work within the time above stated, shall, for each day in excess thereof, be Twenty-five ($25.00) Dollars.

Each proposal submitted must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a National or State Bank or Trust Company, and to the order of the "Sewerage Commission of the City of Milwaukee" to the amount of Twenty-five Hundred ($2,500.00) Dollars.

Specifications and blank forms of proposals can be obtained and detailed plans examined at the office of the Sewerage Commission, 508 Market Street, and a full set of plans will be sent to any contractor upon receipt of five (5) Dollars. This sum will be returned upon surrender of the plans in good condition within thirty (30) days after award of the contract.

The Sewerage Commission of the City of Milwaukee reserves the right to reject any and all bids submitted.

Published by authority of the Sewerage Commission of the City of Milwaukee.

JOHN H. FOWLES,
Secretary.

Countersigned:
LOUIS M. KOTECKI,
Comptroller.

Bids: Feb. 27.

Bridge

Trenton, N. J.

Proposals for Bridge 216.6, Washington's Crossing-Pennington Road. The Board of Freeholders of Mercer County will receive bids on Tuesday, Feb. 27, 1923, at 2:30 o'clock in the afternoon, at their regular place of meeting, Court House, Trenton, New Jersey, for constructing a steel I beam bridge encased in concrete with a clear span of 35 feet over Woolseys branch of Jacobs creek on the road leading from Washington's Crossing to Pennington.

Prospective bidders are referred to plans and specifications covering the above work prepared by Harry F. Harris, Mercer County Engineer, which plans and specifications are on file in his office at the Court House, Trenton, New Jersey. Copies of said plans and specifications may be obtained upon deposit of the sum of ten dollars, which will be refunded if the plans are and specifications are returned in good condition within 48 hours after the bids are opened.

Each bid must be accompanied by a certified check in the amount of one thousand dollars ($1,000.00) payable to Edgar G. Weart, County Treasurer, also by a proposition from a surety company fulfilling the requirements of Section 507, Chapter 185, P. L., 1918.

The right is reserved to reject any or all bids and to waive any immaterial defect or informality in any bid should it be in the interest of the County to do so.

CHARLES H. REICHERT,
Director of Department of Bridges.

ATTENTION CONTRACTORS

(See note below.)

Project 3084-B—4.0 miles Wood County and Project 66—4.5 miles Wirt County—Mineral Wells to Elizabeth Road for grading, draining and paving with concrete. Certified check $8,500.

(See note below.)

Project 3038—2.1 miles and Project 3009-A—1.2 miles—Wirt County—Mineral Wells to Elizabeth Road, for grading, draining and paving with concrete. Certified check $3,500.

(Note: Bids will also be received for Projects 3227 and 3084-A; 3084-B and 66; 3038 and 3009-A combined, aggregating 15.4 miles for grading, draining and paving with concrete. Certified check $15,500.)

Project 3240—Roane County—3 miles of the Walton-Kanawha County Line Road, for paving with concrete. Certified check for $3,000.

Project 3081—Wetzel County—3 miles of the New Martinsville-Wileyville Road for gravel surfacing. Certified check for $1,200.

Projects 58-A and B—3092-3080—103-A and B—Tyler-Pleasants County—11.8 miles of the Sistersville-Grape Island Road for grading, draining and gravel surfacing. Certified check for $6,000.

Project 3100 — Gilmer County — Linn Bridge No. 848 over Leading Creek, 100 ft. steel through truss Ashlar Masonry substructure. Separate proposals will be received on substructure. Certified check for $500, and superstructure certified check for $500.

Project 125—Taylor County—Northwestern Turnpike, between Pruntytown-Harrison County Line 4.53 miles, grading, draining and paving with concrete. Certified check $9,000.

Project 3204—Harrison County—Northwestern Turnpike, Salem-Doddridge County Line, 1.54 miles for grading, draining and paving with concrete. Certified check $2,000.

Project 3199—Webster County—McGuire Gap to Webster Springs, 2.23 miles for grading and draining. Certified check $1,500.

OFFICIAL PROPOSALS

Project 126—Preston County—Northwestern Turnpike, from Aurora to the Maryland State Line, 4 miles for grading and draining. Certified check $2,500.

Project 3159—Lewis County—6.56 miles of the Staunton and Parkersburg Pike between Weston and the Upshur County Line for grading, draining and paving with concrete. Certified check for $10,000.

Project 3146—Grant County—9 miles Petersburg toward Maysville Road for grading and draining. Certified check $3,500.

Project 3149—Tannery Bridge No. 831—Grant County over Lunice Creek 130 ft. steel through truss concrete substructure. Separate proposals will be received for substructure. Certified check $500 and superstructure certified check for $500.

Project 3010—Mineral County—10.5 miles Northwestern Turnpike from New Creek to Hampshire County Line for paving with waterbound macadam. Certified check $6,000.

Project 3011-B—Hampshire County—5 miles of the Mineral County Line—Mechanicsburg Gap Road for paving with waterbound macadam. Certified check for $3,000.

Projects 2039, 2040, 2041, 2042, 2043, 2044 and 3060—Mercer County—32 miles cleaning and tar cold surface application, including furnishing and applying stone chips. Certified check $500.

Project 87—Mason County—4 5 miles cleaning and tar cold surface application, including furnishing and applying stone chips. Certified check $500.

Proposals will be received only upon State Standard forms, in accordance with plans, specifications and estimates of quantities therefor, which standard forms, plans, specifications and estimates of quantities may be obtained from the Division Engineer in whose territory the proposed construction work is located or from the office of the State Road Commission at Charleston, W. Va.

Each proposal must be accompanied by a certified check in the amount above specified.

The right is reserved to reject any and all proposals.

THE STATE ROAD COMMISSION OF WEST VIRGINIA.

E. B. CARSKADON, Secretary.

U. S. GOVERNMENT

COMMISSIONERS, D. C., WASHINGTON, February 9, 1923. Sealed proposals will be received at Room 509, District Building, until 2 o'clock p.m., March 1st, 1923, for paving streets with concrete aggregating about 140,000 square yards. For detailed information apply to Room 427, District Building.

SEALED PROPOSALS, indorsed "Proposals for Stack, Gulfport, Miss., Specification No. 4781," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a.m., Feb. 21, 1923, and then and there publicly opened, for a radial brick stack on a concrete foundation, at the U. S. Veterans' Hospital, Gulfport, Miss. Specification No. 4781 may be obtained on application to the Bureau of Yards and Docks. Deposit of a check or postal money order for $10, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the specification. L. E. GREGORY, Chief of Bureau, January 5, 1923.

UNITED STATES ENGINEER OFFICE, Room 616, Army Building, New York City—Sealed proposals will be received here until 12 o'clock Noon, March 2, 1923, and then opened, for dredging in Shrewsbury River, N. J. Further information on application.

Compensation Insurance

Some contractors "give" this insurance to a friend, either personal or political. How many, we wonder, "engage" the services of a specialist to advise them right in the intricate problems that arise in this business.

Alfred S. Hamilton
110 William St., New York

U. S. GOVERNMENT

U. S. ENGINEER OFFICE, Room 716, Army Building, 39 Whitehall Street, New York, N. Y. Sealed proposals will be received here until 12 m., March 13, 1923, and then opened, for dredging in Newtown Creek, New York, N. Y. Further information on application.

SEALED PROPOSALS, indorsed "Proposals for Hospital Construction, Gulfport, Miss., Specification No. 4774," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a.m., Feb. 26, 1923, and then and there publicly opened, for the following work at the U. S. Veterans' Hospital, Gulfport, Miss.

Part I. New buildings, roads and walks; and removing existing building, roads and walks. The work includes plain and reinforced concrete; cast concrete; hollow tile work; structural steel; interior marble work; wood framing, sash, doors and finish; stucco; plaster and metal lath; tile, prepared and built-up roofing; sheet metal work; steel sash; steel covered sash and doors; miscellaneous steel and iron work; hardware; painting and glazing; and dumbwaiters.

Part II. Plumbing work inside the buildings, and outside sewers and drains, including soil, vent and drain piping; hot and cold water lines; interior stand pipe system; all valves, fittings, plumbing fixtures, and floor drains.

Part III. Complete heating and steam distributing systems for each building and an outside steam distributing system including high pressure and vacuum return lines; hot water heaters; underground concrete trenches; manholes; and cast iron manhole frames and covers.

Part IV. Lighting systems for each building; power systems and telephone conduits in certain buildings; and outside electric distributing systems including transformers, panel boards, fixtures, conduits, fibre ducts, and wiring.

Part V. Boiler plant equipment and piping, including brick settings for return tubular boilers, smoke flue, feed water heater, steel storage tanks, feed water and vacuum pumps, combined twin pump and receiver, fuel oil pumps and heater, motor-driven sludge pump, drip traps, incinerator with hot water heating and sterilizing equipment, complete piping systems for all apparatus, and the installation of horizontal return tubular boilers furnished by the Government.

Drawings and specification No. 4774 may be obtained on application to the Bureau of Yards and Docks, Navy Department, Washington, D. C. Deposits of checks or postal money orders, payable to the Chief of the Bureau of Yards and Docks, are required as security for the safe return of the drawings and specifications. Deposits shall be in the following amounts: Part I—$50, Part II—$50, Part III—$25, Part IV—$25, Part V—$15; and complete (all parts) $100. L. E. Gregory, Chief of Bureau. January 5, 1923.

For particulars, address the United States Reclamation Service, Denver, Colorado, or Washington, D. C. A. P. Davis, Director.

U. S. GOVERNMENT

U. S. ENGINEER OFFICE, WILMINGTON, DEL.—Sealed proposals will be received here until 11 A.M., Feb. 24, 1923, and then opened, for constructing and delivering one steel quarter boat and two steel barges. Further information on application.

Contractors Everywhere Read These Advertisements

to see where bids are desired on contracts suited to their available plant and organization. The suggestion is therefore made to advertisers that they word their advertisements so that the contractor will get a good idea of the size and kind of work to be let, and perhaps the plant needed. This should result in an increased number of desirable bidders.

DEPARTMENT OF THE INTERIOR, UNITED STATES RECLAMATION SERVICE, Washington, D. C., February 3, 1923. Sealed proposals will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 o'clock p.m., March 13, 1923, for furnishing one 1,000 kva. generator, transformers, and switching apparatus for the Pilot Butte power plant, Riverton project, Wyoming. For particulars, address the United States Reclamation Service, Denver, Colorado, or Washington, D. C. A. P. Davis, Director.

U. S. GOVERNMENT

U. S. ENGINEER OFFICE, Nashville, Tenn. Sealed proposals will be received here until 11 a.m., March 6, 1923, and then opened, for one electric towboat. Further information on application.

U. S. ENGINEER OFFICE, Florence, Ala.—Sealed proposals will be received here until 11 a.m., March 12, 1923, and then opened, for the construction and delivery of one steel barge 60 ft. by 22 ft. by 4 ft. Further information on application.

U. S. ENGINEER OFFICE, HUNTINGTON, W. VA.—Sealed proposals will be received here until 11 a.m., March 17, 1923 and then opened for constructing two two-story, twelve-room, lockkeepers' double houses at each of Dams Nos. 14 and 26, Ohio River. Further information on application.

SEALED PROPOSALS, indorsed "Proposals for Distilling Apparatus and Heater, Guantanamo, Cuba, Specification No. 4769," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C. until 11 o'clock a.m., Feb. 28, 1923, and then and there publicly opened, for furnishing and installing sea-water distilling apparatus having a capacity of 25,000 gallons per 24 hours when operating as a quadruple effect at the Naval Station, Guantanamo, Cuba; also the furnishing and delivery of a closed feed water heater which will be installed by the Government. The Government will furnish all labor except skilled erector who shall supervise the installation of the distilling apparatus. Drawings and Specification No. 4769 may be obtained on application to the bureau. Deposit of a check or postal money order for $10, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawings and specification. L. E. GREGORY, Chief of Bureau, January 30, 1923.

POSITIONS VACANT

EMPLOYMENT

POSITIONS WANTED

POSITIONS VACANT

ASSISTANT engineer for State Bureau of Public Health, Santa Fe, New Mexico. University graduate in sanitary engineering, with not less than three years' experience in waterworks and sewage disposal. Beginning salary $2,400 and travel expenses. Give full particulars, training, experience, references, in letter of application, to Director of Public Health, Santa Fe, New Mexico.

A-1 FOREMAN wanted for reinforced concrete and brick buildings; state age, salary and references. P-699, Eng. News-Record, 10th Ave. at 36th St., New York.

A WELL KNOWN manufacturer of gypsum roofs desires to make a permanent connection with a progressive sales engineer, now calling on the engineers, contractors and architects in the New England states. Give present connections, headquarters, experience, etc., when writing. P-703, Engineering News-Record, Leader-News Bldg., Cleveland, Ohio.

COMPRESSED air; experienced inspectors wanted on masonry tunnel construction under high air pressure. Apply in person. Passaic Valley Sewerage Commissioners, 128 Market Street, Newark, N. J.

WORKS MANAGER

Wanted by old established and progressive Company fabricating and erecting STRUCTURAL STEEL, plate work, concrete bars, etc. Man preferred with engineering experience. Advise age, present and past employment, salary expected and reference, and when could report.

P-700, Engineering News-Record,
1570 Old Colony Bldg., Chicago, Ill.

POSITIONS VACANT

CHIEF draftsman wanted to take complete charge drafting room, Middle West structural plant. Principally industrial mining and bridge structures. Capacity 1,000 tons per month. Position permanent and excellent opportunity for man with executive ability. Apply giving experience, age, married or single and salary expected to P-670, Eng. News-Record, Old Colony Bldg., Chicago, Ill.

DETAILER for structural steel and ornamental iron; state age, experience and salary; permanent position for righ man; location, Connecticut. P-478, Eng. News-Record, 10th Ave. at 36th St., New York City.

DRAFTSMEN

First class men with experience on conveying machinery, structural and mechanical work. Reply must give experience fully, salary expected and when available.

Pittsburgh Plate Glass Company
Columbia Chemical Division, Barberton, O.

POSITIONS VACANT

DRAFTSMAN, with some engineering experience. Knowledge of mill construction and structural work in steel, wood and concrete necessary. Should be able to estimate. Temporary engagement. Reply stating age, if married, details of experience, references and salary desired. Security Cement & Lime Company, Hagerstown, Maryland.

DRAFTSMEN calculators wanted on special track work. With or without experience but must have thorough working knowledge of mathematics. P-658, Eng. News-Record, Real Estate Trust Bldg., Phila., Pa.

DRAFTSMEN, structural detailers and checkers wanted for heavy bridge work and buildings. State qualifications and salary expected. Bethlehem Steel Company, Bridge and Fabrication Department, Steelton, Penna.

DRAFTSMEN—Mechanical, experienced in mechanical and chemical layout work, power house layout work, and machine design. Give age, experience and salary expected. Apply to the Engineering Department. E. I. Du Pont de Nemours & Company, Inc., Wilmington, Delaware.

DRAFTSMAN—experienced in structural steel reinforced concrete and general building construction; hydro-electric work; position probably temporary; give full particulars of experience, age, references, date available and salary expected in first letter. Drawer A, Potsdam, New York.

Bids: March 13.

Sewerage

Matewan, N. J.

Sealed bids or proposals for the construction of Sewers and Sewage Disposal Works will be received by the Mayor and Council at the Truck House Building, Jackson Street, Matewan, New Jersey, on the thirteenth day of March, 1923, at eight o'clock in the evening.

The work mainly consists of about 6½ miles of 6 inch to 12 inch vitrified pipe sewers and an Imhoff Tank.

For any information, or explanation that may be desired regarding drawings and specifications, bidders shall apply to George A. Johnson Company, Inc., Consulting Engineers, 150 Nassau Street, New York. Drawings and specifications may be obtained from George A. Johnson Company at the price of $15, which will not be refunded.

Each bid must be accompanied in a separate envelope by a certified check in the amount of seven thousand dollars ($7,000) for schedule number one, three thousand dollars ($3,000) for schedule number two, and a bond guaranteeing that if the proposal of the bidder is accepted and the contract awarded to him or them, the said bidder will enter into the said contract and execute the necessary instruments therefor, and upon the execution of said contract the said Surety Company will become surety on said bond guaranteeing the performance of the same.

The Borough reserves the right to accept any bids or to reject any or all bids.

WILLIAM H. SUTPHIN,
Mayor.

Bids: March 20.

Park Slope and Fort Hamilton Conduits

CONTRACT 197

New York, N. Y.

SEALED BIDS will be received by the Board of Water Supply, at its offices, twenty-second floor, Municipal Building, Park Row, Center and Chambers Streets, New York City, until 11 A.M., Eastern Standard time, on Tuesday, March 20, 1923, for Contract 197, for the construction of the Park Slope and Fort Hamilton conduits, portions of the City conduits of the Catskill aqueduct, extending from Shaft 23 of the City tunnel at Schermerhorn street and Third avenue along Third avenue, Dean street, Fourth avenue, Douglass street, St. Johns place, Eighth, Prospect, Tenth and Gravesend Avenue, Fort Hamilton parkway and 86th street to Shore road and along Shore road to 79th street, in the Borough of Brooklyn, New York City.

The conduits will consist of about 39,290 linear feet of 72-inch and 2,140 linear feet of 66-inch steel pipe, about 310 tons of cast-iron pipe and special castings of various sizes, a Venturi meter, valves and other appurtenances, all of which will have to be maintained for one year.

At the above place and time the bids will be publicly opened and read. Pamphlets containing information for bidders, forms of bid and contract, specifications, contract drawings, etc., can be obtained at the office of the Secretary at the above address, by depositing the sum of ten dollars ($10) in cash or its equivalent for each pamphlet. For further particulars apply to the office of the Chief Engineer at the above address.

GEORGE J. GILIESPIE,
President,
JAMES P. SINNOTT,
PHILIP F. DONOHUE,
Commissioners, Board of Water Supply.
BENJ. F. EINBIGLER,
Secretary.

Bids: Mar. 6.

State Road Work

Charleston, W. Va.

Sealed proposals will be received by the State Road Commission of West Virginia at its offices in Charleston, W. Va., until 10 o'clock a.m., on the 6th day of March, 1923, and opened and read immediately thereafter, at the Kanawha County Court House, Charleston, W. Va., for the construction of the following bridges, sections of state road and surface treatment:

Project 116—Kanawha County—Witcher Overhead Crossing No. 835—over New York Central Lines. Concrete structure, including encased steel girder over tracks. Total length 440 ft. Certified check $2,000.

Project 3039-3177—Fayette County—3.9 miles of the Gauley Bridge toward Ansted Road for grading, draining and paving with bituminous macadam. Certified check $4,000.

Project 3151-B—Boone County—4.1 miles of the Low Gap-Madison Road for grading and draining. Certified check $2,500.

Project 3041—Greenbrier County—3.1 miles of the Crawley-Clintonville Road for paving with bituminous macadam. Certified check $3,000.

Project 3180—Nicholas County—3.8 miles of the Drennen to Project 96 Road for grading and draining. Certified check $2,000.

Project 3170-B—Clay County—4 miles of the Head of Dulls Creek to Kanawha County line road for grading and draining. Certified check $2,500.

Project 121—Mercer County—16 miles of the Spanishburg-Flat Top Road for grading and draining. Certified check $11,000.

Project 3201—Lincoln County—7 miles of the Hamlin-Griffithsville Road for grading, draining and paving with bituminous macadam. Certified check for $6,000.

Project 3068—Ritchie County—9 miles of the Cairo-Harrisville Road for grading, draining and paving with cement concrete, rock asphalt, bituminous concrete or warrenite bitulithic. Certified check $10,000.

Project 3241—Ohio County—1.0 mile of the National Pike from Glenwood to Altenheim Hill. Reconstruction for paving with brick, sheet asphalt or warrenite bitulithic on concrete base. Certified check for $3,500.

Project 3132-A—Jackson County—2.5 miles of the Ravenswood-Sandyville Road for grading, draining and gravel surfacing. Certified check $2,000.

(Adjoining section 2.25 miles to be let by the Jackson County Court.)

Project 3227—0.6 miles and 3084-A—3.0 miles Wood County—Mineral Wells to Elizabeth Road for grading, draining and paving with concrete. Certified check $3,500.

(See note below.)

Project 3084-B—4.0 miles Wood County and Project 66—4.5 miles Wirt County—Mineral Wells to Elizabeth Road for grading, draining and paving with concrete. Certified check $8,500.

(See note below.)

Project 3038—2.1 miles and Project 3009-A—1.2 miles—Wirt County—Mineral Wells to Elizabeth Road, for grading, draining and paving with concrete. Certified check $3,500.

(Note: Bids will also be received for Projects 3227 and 3084-A; 3084-B and 66; 3038 and 3009-A combined, aggregating 15.4 miles for grading, draining and paving with concrete. Certified check $15,500.)

Project 3240—Roane County—3 miles of the Walton-Kanawha County Line Road, for paving with concrete. Certified check for $3,000.

Project 3081—Wetzel County—3 miles of the New Martinsville-Wileyville Road for gravel surfacing. Certified check for $1,200.

OFFICIAL PROPOSALS

Projects 58-A and B—3092-3080—103-A and B—Tyler-Pleasants County—11.8 miles of the Sistersville-Grape Island Road for grading, draining and gravel surfacing. Certified check for $6,000.

Project 3100 — Gilmer County — Linn Bridge No. 848 over Leading Creek, 100 ft. steel through truss Ashlar Masonry substructure. Separate proposals will be received on substructure. Certified check for $500, and superstructure certified check for $500.

Project 125—Taylor County—Northwestern Turnpike, between Pruntytown-Harrison County Line 4.53 miles, grading, draining and paving with concrete. Certified check $9,000.

Project 3204—Harrison County—Northwestern Turnpike, Salem-Doddridge County Line, 1.54 miles for grading, draining and paving with concrete. Certified check $2,000.

Project 3199—Webster County—McGuire Gap to Webster Springs, 2.23 miles for grading and draining. Certified check $1,500.

Project 126—Preston County—Northwestern Turnpike, from Aurora to the Maryland State Line, 4 miles for grading and draining. Certified check $2,500.

Project 3159—Lewis County—6.56 miles of the Staunton and Parkersburg Pike between Weston and the Upshur County Line for grading, draining and paving with concrete. Certified check for $10,000.

Project 3146—Grant County—9 miles Petersburg toward Maysville Road for grading and draining. Certified check $3,500.

Project 3149—Tannery Bridge No. 831—Grant County over Lunice Creek 130 ft. steel through truss concrete substructure. Separate proposals will be received for substructure. Certified check $500 and superstructure certified check for $500.

Project 3010—Mineral County—10.5 miles Northwestern Turnpike from New Creek to Hampshire County Line for paving with waterbound macadam. Certified check $6,000.

Project 3011-B—Hampshire County—5 miles of the Mineral County Line—Mechanicsburg Gap Road for paving with waterbound macadam. Certified check for $3,000.

Projects 2039, 2040, 2041, 2042, 2043, 2044 and 3060—Mercer County—32 miles cleaning and tar cold surface application, including furnishing and applying stone chips. Certified check $500.

Project 87—Mason County—4.5 miles cleaning and tar cold surface application, including furnishing and applying stone chips. Certified check $500.

Proposals will be received only upon State Standard forms, in accordance with plans, specifications and estimates of quantities therefor, which standard forms, plans, specifications and estimates of quantities may be obtained from the Division Engineer in whose territory the proposed construction work is located or from the office of the State Road Commission at Charleston, W. Va.

Each proposal must be accompanied by a certified check in the amount above specified.

The right is reserved to reject any and all proposals.

THE STATE ROAD COMMISSION OF
WEST VIRGINIA.

Compensation Insurance

Some contractors "give" this insurance to a friend, either personal or political. How many, we wonder, "engage" the services of a specialist to advise them right in the intricate problems that arise in this business.

OFFICIAL PROPOSALS

Bids: Mar. 2.

Sewer
No. 100

Milwaukee, Wis.

Sealed proposals for the construction of extensions to the intercepting sewer system of the City of Milwaukee, Wis., will be received by the Sewerage Commission of the said City at its office, 508 Market Street, Milwaukee, Wisconsin, until 1:30 p.m., the 2nd day of March, 1923, at which time and place during the session of the said Commission, the proposals will be publicly opened and read.

The work to be done embraces the building of the following work:

4,220 lineal feet of 42" concrete sewer.

Together with all manholes and other appurtenances.

The time allowed for the completion of this contract shall be six (6) months from the date of the Engineer's notice to begin work.

The liquidated damages for not completing the work within the time above stated shall, for each day in excess thereof, be Twenty-five ($25.00) Dollars.

Each proposal submitted must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a National or State Bank or Trust Company, and to the order of the "Sewerage Commission of the City of Milwaukee" to the amount of Two Thousand ($2,000.00) Dollars.

Specifications and blank forms of proposals can be obtained and detailed plans examined at the office of the Sewerage Commission, 508 Market Street, and a full set of plans will be sent to any contractor upon receipt of five (5) dollars. This sum will be returned upon surrender of the plans in good condition within thirty (30) days after award of the contract.

The Sewerage Commission of the City of Milwaukee reserves the right to reject any and all bids submitted.

Published by authority of the Sewerage Commission of the City of Milwaukee.

JOHN H. FOWLES,
Secretary.

Countersigned:
LOUIS M. KOTECKI,
Comptroller.

Bids: Mar. 14.

High School Building

Buffalo, N. Y.

Pursuant to Subdivision 8 of Section 875 of the Education Law, sealed proposals for furnishing the labor and material required in the construction of the Lewis J. Bennett High School, 2885 Main Street, City of Buffalo, New York, are invited and will be received by the Board of Education at its office, No. 1401 Telephone Building, Buffalo, New York, until 2.00 p.m., on March 14, 1923, at which time said proposals will be publicly opened and read.

Instructions to bidders and other information, together with plans and specifications of the building, may be procured from the office of the Associated Buffalo Architects, Inc., Room No. 40 Delaware Court Building, No. 232 Delaware Avenue, Buffalo, New York, on and after February 14, 1923.

A deposit of fifty dollars ($50.00) will be required on each set of plans taken from the office of the Architects, which sum will be paid upon return of said documents intact and in good condition to the Architects not later than April 15, 1923.

To be entitled to consideration, the proposals must be made upon the forms provided by the Architects, which must be fully completed and must be delivered to the Board of Education not later than 2:00 p.m. of the date prescribed for the opening of proposals on the building.

All bids must be without conditions inserted by the bidder or limitations by letter or otherwise.

Security to accompany bid must be furnished by all bidders as provided in instruction to bidders and in bid form.

The Board of Education reserves the right to reject any or all bids.

Dated February 14, 1923.

BOARD OF EDUCATION.
JAMES STORER,
Secretary.

OFFICIAL PROPOSALS

Bids: March 20.

Steel and Concrete Bridge Work
SOUTH END BRIDGE

Manchester, N. H.

Sealed bids for the construction of the South End Bridge over the Merrimac River and the Boston and Maine Railroad in the City of Manchester, N. H., including the approaches, will be received by the Surveyor of the Department of Highways of said City at his office in City Hall until 2 o'clock p.m. on Tuesday, March 20, 1923, at which time and place the bids will be publicly opened and read aloud.

The work will extend from Second Street on the west to the junction of Byron and McElwain Streets on the east, a distance of about 2,100 feet, and consists of the following:

An approach about 400 feet long on the west.

A viaduct on the west about 350 feet long with seven reinforced concrete spans.

A river bridge over the Merrimac River about 460 feet long with three steel deck truss spans carrying a reinforced concrete deck.

A viaduct on the east about 370 feet long with six reinforced concrete spans and one steel span encased in concrete.

An approach about 500 feet long on the east.

The roadway pavement will be of bituminous macadam.

Each bid must be accompanied by a properly certified check for Fifty Thousand (50,000) Dollars. A bond in the sum of Five Hundred Thousand (500,000) Dollars of an approved surety company will be required for the faithful performance of the contract.

A more complete description of the work to be done is given in Notice to Bidders, Forms of Bid, Contract, Bond, the Specifications and the Contract Drawings accompanying the same.

Copies of the foregoing may be inspected at the office of the Commissioners, Department of Highways, Manchester, N. H., and may be obtained from the engineers, Fay, Spofford & Thorndike, 200 Devonshire Street, Boston, Mass., by payment of a twenty-five (25) dollar deposit.

Receipt of bids will be subject to the conditions stated in said Notice to Bidders.

The right is reserved to reject any or all bids.

E. R. CONANT,
Surveyor of the Department of Highways.
JOHN H. GLEASON,
JOSEPH QUIRIN,
L. J. FARRELL,
Commissioners, Department of Highways for the City of Manchester, N. H.
Fay, Spofford & Thorndike, Engineers,

Bids: March 6th.

Road Work

Norwalk, Conn.

Sealed bids will be received by the Mayor and City Council of Norwalk, Conn., at the Mayor's Office, City Hall, South Norwalk, Conn., at 7 p.m., March 6th, 1923, for constructing a road leading to the new park, now known as Calf Pasture Beach.

This work consists of about 23,000 yards of earth and gravel excavation and 200 yards of rock excavation from the roadway site, and about 4,000 yards of excavation from gravel barrow pit, all to be used for fill in the new road. The road is to be a boulevard 100 ft. wide and a crossroad of 75 ft. wide. There are about 13,000 sq.yds. of gravel road surface.

Plans and specifications may be secured from the City Engineer, South Norwalk, Conn., upon the payment of Ten ($10.00) Dollars, which sum will be refunded when the plans are returned in good condition to the City Engineer.

CALVIN L. BARTON,
Mayor.

OFFICIAL PROPOSALS

Bids: March 9.

Sewerage System Extensions

Milwaukee, Wis.

Sealed proposals for the construction of extensions to the intercepting sewer system of the City of Milwaukee, Wisconsin, will be received by the Sewerage Commission of the said City at its offices, 508 Market Street, Milwaukee, Wisconsin, until 1:30 p.m., the 9th day of March, 1923, at which time and place during the session of the said Commission, the proposals will be publicly opened and read.

The work to be done embraces the building of the following work:

8,475 Lineal feet 84" concrete sewer.
400 Lineal feet 72" concrete sewer.
687 Lineal feet 54" concrete sewer.
653 Lineal feet 18" concrete sewer.

Together with all manholes and other appurtenances.

The time allowed for the completion of this contract shall be twelve (12) months from the date of the Engineer's notice to begin work.

The liquidated damages for not completing the work within the time above stated shall, for each day in excess thereof, be Twenty-five ($25.00) Dollars.

Each proposal submitted must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a National or State Bank or Trust Company, and to the order of the "Sewerage Commission of the City of Milwaukee" to the amount of Five Thousand ($5,000.00) Dollars.

All cash deposits or certified checks deposited by bidders to whom the contract is not awarded will be returned upon application to the Secretary of the Sewerage Commission after the contract has been awarded, or after the rejection of all bids. The cash deposit or certified check which has been deposited by the successful bidder will be returned to him as soon as the contract is properly executed and approved by the City Attorney and by the Sewerage Commission.

Specifications and blank forms of proposals can be obtained and detailed plans examined at the office of the Sewerage Commission, 508 Market Street, and a full set of plans will be sent to any contractor upon receipt of five dollars ($5.00). This sum shall be returned upon surrender of the plans in good condition within thirty (30) days after award of the contract.

The Sewerage Commission of the City of Milwaukee reserves the right to reject any and all bids submitted.

Published by authority of the Sewerage Commission of the City of Milwaukee.

JOHN H. FOWLES,
Secretary.

Bids: Mar. 7.

Additions to Montebello Filters

Baltimore, Md.

Sealed proposals, in duplicate, endorsed, "Bids for Additions to Montebello Filters, Contract No. 63, Water Department," addressed to the Board of Awards of Baltimore City, will be received at the office of the City Register, City Hall, Baltimore, Md., until 11 A.M., Wednesday, March 7th, 1823, at which time they will be publicly opened and read.

Plans and specifications may be obtained at the office of the Water Engineer, Room 204, City Hall, Baltimore, Md., on or after February 17th, 1923. A charge of twenty-five (25) dollars will be made for each set of plans and specifications; this amount will be refunded upon the return of these plans and specifications before March 14th, 1923, in good condition. Specifications used in making a bid will be considered as returned. Blueprints will be furnished to prospective bidders only upon written request, at 25 cents each, which amount will not be refunded.

A certified check of the bidder on a clearing house bank, made payable to the Mayor and City Council of Baltimore, for the sum of thirty-five (35) thousand dollars, will be required with each bid.

The principal items are approximately as follows:

Excavation, 365,000 cu.yds.
Rolled embankment, 74,000 cu.yds.
Concrete, 45,400 cu.yds.
Steel reinforcement, 3,760,000 pounds.
Setting cast iron pipe, valves and sluice gate, 800 tons.

The successful bidder will be required to give bond equal in amount to the value of the contract to comply with the city charter respecting contracts.

The Board of Awards reserves the right to reject any or all bids.

Approved: WM. A. MEGRAW,
Water Engineer.

Bids: March 5.

Annual Supplies

Hamilton, Ont.

Sealed tenders will be received by the undersigned addressed to Thos. W. Jutten, Esq., Mayor, Chairman Board of Control, City Hall, Hamilton, Ont., up to 12 o'clock noon, Monday, March 5th, 1923, for supplying the Corporation of the City of Hamilton with the following:

Broken Stone and Screenings, Asphalt Cement, Limestone Dust, Asphalt Sand, Sand and Gravel, Creosoted Wooden Blocks, Sewer Pipe, Iron Castings (ordinary), Cast Iron Pipe and Special Castings, Valves, Extension Boxes, Fuel Oil, Road Oil, Concrete and Garbage Duck Covers, Waterproof Clothing, Bass Brooms, Sectional Sweepers, Brass Work, including ordinary and special brass and bronze castings for water department, special Iron Hydrant Castings and Bronze and Manganese Castings for same.

Tenders to be on forms supplied and plainly marked on the outside—"Tender for Asphalt Sand" or as the case may be.

Specifications and forms of tender for the above can be obtained at the office of the Purchasing Agent, City Hall, Hamilton, Ont.

The lowest or any tender not necessarily accepted.

S. H. KENT,
City Clerk.

Bids: Feb. 28.

Lock and Dam Construction of the Illinois Waterway Contract No. 2

Chicago, Ill.

1. Sealed proposals for the construction of STARVED ROCK LOCK AND DAM, located in the Illinois River, two miles above Utica, and seven miles below Ottawa, La Salle County, Illinois, will be received at the office of the Director of the Department of Public Works and Buildings, Division of Waterways, Room 122, State House, Springfield, Illinois, until Ten (10) o'clock A.M., Central Standard Time of the 28th day of February, 1923, and then publicly opened and read.

2. Copies of the plans, specifications, proposal blank, form of bond, and contract may be obtained by prospective bidders at the Office of the Department, Room 1404, 25 East Jackson Boulevard, Chicago, Illinois, upon depositing a check for Ten Dollars ($10.00), made payable to the Director of the Department of Public Works and Buildings, which sum will be returned within ten (10) days after the contract has been awarded, if the plans are returned in good condition within that time.

3. Each proposal shall be accompanied by a certified check or draft drawn on some responsible bank doing business in the City of Chicago, and made payable to the order of the Director of the Department of Public Works and Buildings, for five (5) per cent of the amount of the proposal. In lieu of a certified check or draft, the proposal may be accompanied by a bond executed in the form prescribed by the Department of Public Works and Buildings and with a surety company approved by the Department in the penal sum of ten (10) per cent of the amount of the proposal.

4. The Department of Public Works and Buildings reserves the right to reject any or all bids. The contract, if let, will be awarded to the lowest responsible bidder.

C. R. MILLER,
Director, Department of Public Works and Buildings.

WILLIAM L. SACKETT,
Superintendent of Waterways.

M. G. BARNES,
Chief Engineer,
Division of Waterways.

Bids: March 6.

Bituminous Road Materials and Calcium Chloride

Lansing, Mich.

$160,000 Street Improvement Bonds

Lincolnton, N. C.

Sealed proposals will be received by the Board of Aldermen of the Town of Lincolnton, North Carolina, until 2nd day of March, 1923, at 8 o'clock p.m., when they will be publicly opened for the purchase of one-hundred and sixty thousand dollars street and sidewalk improvement bonds; said bonds will mature, serially. Eight bonds on March 1st, in each of the years 1925 to 1939, inclusive; Ten bonds on March 1st in each of the years 1940 to 1943, inclusive.

All bonds dated March 1st, 1923; denominations $1,000.00; principal and semi-annual interest payable in New York or such other place as may be agreed upon by the purchaser and the Board of Aldermen; coupon bonds with privilege of registration as to principal alone; bidder will name rate of interest not exceeding six per cent. Interest payable semi-annually on September 1st and March 1st in each year.

These bonds are direct and general obligations of the Town of Lincolnton, issued under and pursuant to the Municipal Finance Act, and and unlimited tax for the payment of principal and interest has been authorized by law and ordinance.

All bids must be on blank forms which will be furnished by the undersigned and must be enclosed in sealed envelope marked "Proposal for Bonds" and addressed to Dr. J. R. Gamble, Mayor, and must be accompanied by certified check or cash drawn to the order of J. O. Allen, Town Treasurer, upon an incorporated Bank or Trust company for two per centum of the face amount of bonds bid for to secure the Town against any loss resulting from the failure of the bidder to comply with the terms of his bid. Purchaser must pay accrued interest from the date of the bonds to the date of the delivery. The bonds cannot be sold at less than par and accrued interest. Purchaser to pay for lithographing and printing of bonds, likewise to furnish legal opinion at his own expense. Bonds will be delivered to the purchaser, at such place as the purchaser may designate, at purchaser's expense, including New York exchange, and must then be paid for in New York funds.

The right is reserved to reject any and all bids.

By order of the Board of Aldermen, Town of Lincolnton, North Carolina, this the 6th day of February, 1923.

Signed R. H. DELLINGER,
Clerk Board of Aldermen,
Town of Lincolnton, N. C.

P-711, Engineering News-Record,
10th Ave. at 36th St., New York City

HIGHER ENGINEERING
(HOME STUDY)

An enthusiastic student has suggested that we set forth in our advertising the class of men who are studying the Wilson Courses, and we are complying with this request. The majority of our students are Technical Graduates with from no experience to 10 years: others have picked up what they know in a haphazard manner and lack confidence in their methods and are afraid to go ahead with important work. In this class are some City Engineers, County Engineers, and men who see a good job ahead and realize that they cannot fill it without further training. Bright High School men who have no technical training, but have years of practical experience on Construction Work; Draftsmen who are ambitious; Older men use this work for "brush-up" purposes. Our courses go right to the heart of your problems; we finish off grads. of all other schools who have weak spots in their training.

Reinforced Concrete Engineering Estimating. Structural Steel Designing & Drafting. Bridges: Steel & Concrete.

Guaranteed to give satisfaction; you cannot fail to be benefited by a Wilson course. Easy terms of payment; free literature.

WILSON ENGINEERING CORPORATION
10 Broadway, Hanover, Mass.

Bids: Mar. 20.

Narrows Siphon No. 2 Contract 198

New York, N. Y.

Sealed bids will be received by the Board of Water Supply, at its offices, twenty-second floor, Municipal Building, Park Row, Centre and Chambers Streets, New York City, until 11 a.m., Eastern Standard time, on Tuesday, March 20, 1923, for Contract 198, for the construction of Narrows Siphon No. 2, a 42-inch, flexible-jointed, cast-iron submarine pipe-line about 8,800 feet long, with shore connections of 42-inch and 48-inch bell-and-spigot cast-iron pipes about 560 feet in length. This siphon is a portion of the Catskill aqueduct and will extend across the Narrows of New York harbor from 86th Street and Shore Road, Bay Ridge, Brooklyn, to Vanderbilt Avenue and Bay Street, Clifton, Staten Island.

The work consists principally of furnishing approximately 4,650 tons of submarine pipes, dredging a trench in which the pipe-line will be laid across the Narrows, including the shore ends, and refilling over the pipe-line. The land work is to include furnishing and laying about 330 tons of cast-iron pipe and special castings of various sizes, furnishing and setting two large meters, building chambers and manholes and doing other incidental work.

At the above place and time the bids will be publicly opened and read. Pamphlets containing information for bidders, forms of bid and contract, specifications, contract drawings, etc., can be obtained at the office of the Secretary at the above address, by depositing the sum of ten dollars ($10) in cash or its equivalent for each pamphlet. For further particulars apply to the office of the Chief Engineer at the above address.

GEORGE J. GILLESPIE,
President.
JAMES P. SINNOTT,
PHILIP F. DONOHUE,
Commissioners, Board of Water Supply.
BENJ. F. EINBIGLER, Secretary.

Bids: March 5.

Annual Supplies

Hamilton, Ont.

Sealed tenders will be received by the undersigned addressed to Thos. W. Jutten, Esq., Mayor, Chairman Board of Control, City Hall, Hamilton, Ont., up to 12 o'clock noon, Monday, March 5th, 1923, for supplying the Corporation of the City of Hamilton with the following:

Broken Stone and Screenings, Asphalt Cement, Limestone Dust, Asphalt Sand, Sand and Gravel, Creosoted Wooden Blocks, Sewer Pipe, Iron Castings (ordinary), Cast Iron Pipe and Special Castings, Valves, Extension Boxes, Fuel Oil, Road Oil, Concrete and Garbage Duck Covers, Waterproof Clothing, Bass Brooms, Sectional Sweepers, Brass Work, including ordinary and special brass and bronze castings for water department, special Iron Hydrant Castings and Bronze and Manganese Castings for same.

Tenders to be on forms supplied and plainly marked on the outside—"Tender for Asphalt Sand" or as the case may be.

Specifications and forms of tender for the above can be obtained at the office of the Purchasing Agent, City Hall, Hamilton, Ont.

The lowest or any tender not necessarily accepted.

S. H. KENT,
City Clerk.

Hamilton, February 15th, 1923.

OFFICIAL PROPOSALS

Bids: March 20.

Steel and Concrete Bridge Work

SOUTH END BRIDGE

Manchester, N. H.

Sealed bids for the construction of the South End Bridge over the Merrimac River and the Boston and Maine Railroad in the City of Manchester, N. H., including the approaches, will be received by the Surveyor of the Department of Highways of said City at his office in City Hall until 2 o'clock p.m. on Tuesday, March 20, 1923, at which time and place the bids will be publicly opened and read aloud.

The work will extend from Second Street on the west to the junction of Byron and McElwain Streets on the east, a distance of about 2,100 feet, and consists of the following:

An approach about 400 feet long on the west.

A viaduct on the west about 350 feet long with seven reinforced concrete spans.

A river bridge over the Merrimac River about 460 feet long with three steel deck truss spans carrying a reinforced concrete deck.

A viaduct on the east about 370 feet long with six reinforced concrete spans and one steel span encased in concrete.

An approach about 500 feet long on the east.

The roadway pavement will be of bituminous macadam.

Each bid must be accompanied by a properly certified check for Fifty Thousand (50,000) Dollars. A bond in the sum of Five Hundred Thousand (500,000) Dollars of an approved surety company will be required for the faithful performance of the contract.

A more complete description of the work to be done is given in Notice to Bidders, Forms of Bid, Contract, Bond, the Specifications and the Contract Drawings accompanying the same.

Copies of the foregoing may be inspected at the office of the Commissioners, Department of Highways, Manchester, N. H., and may be obtained from the engineers, Fay, Spofford & Thorndike, 200 Devonshire Street, Boston, Mass., by payment of a twenty-five (25) dollar deposit.

Receipt of bids will be subject to the conditions stated in said Notice to Bidders.

The right is reserved to reject any or all bids.

E. R. CONANT,
Surveyor of the Department of Highways.
JOHN H. GLEASON,
JOSEPH QUIRIN,
L. J. FARRELL,
Commissioners, Department of Highways for the City of Manchester, N. H.
Fay, Spofford & Thorndike, Engineers,

Bids: March 19.

Sewer

Plainfield, N. J.

Proposals will be received by the Common Council of the City of Plainfield, N. J., on Monday, March 19, 1923, at 8:30 p.m., for constructing about 1,000 lin.ft. of 20-inch sanitary sewer from 8 to 14 feet deep.

For plans, specifications and further information apply to City Engineer, City Hall, Plainfield, N. J.

ALEXANDER W. VARS,
City Engineer.

OFFICIAL PROPOSALS

Bids: March 9.

Sewerage System Extensions

Milwaukee, Wis.

Sealed proposals for the construction of extensions to the intercepting sewer system of the City of Milwaukee, Wisconsin, will be received by the Sewerage Commission of the said City at its offices, 508 Market Street, Milwaukee, Wisconsin, until 1:30 p.m., the 9th day of March, 1923, at which time and place during the session of the said Commission, the proposals will be publicly opened and read.

The work to be done embraces the building of the following work:

8,475 Lineal feet 84" concrete sewer.
400 Lineal feet 72" concrete sewer.
687 Lineal feet 54" concrete sewer.
653 Lineal feet 18" concrete sewer.

Together with all manholes and other appurtenances.

The time allowed for the completion of this contract shall be twelve (12) months from the date of the Engineer's notice to begin work.

The liquidated damages for not completing the work within the time above stated, shall, for each day in excess thereof, be Twenty-five ($25.00) Dollars.

Each proposal submitted must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a National or State Bank or Trust Company, and to the order of the "Sewerage Commission of the City of Milwaukee" to the amount of Five Thousand ($5,000.00) Dollars.

All cash deposits or certified checks deposited by bidders to whom the contract is not awarded will be returned upon application to the Secretary of the Sewerage Commission after the contract has been awarded, or after the rejection of all bids. The cash deposit or certified check which has been deposited by the successful bidder will be returned to him as soon as the contract is properly executed and approved by the City Attorney and by the Sewerage Commission.

Specifications and blank forms of proposals can be obtained and detailed plans examined at the office of the Sewerage Commission, 508 Market Street, and a full set of plans will be sent to any contractor upon receipt of five dollars ($5.00). This sum shall be returned upon surrender of the plans in good condition within thirty (30) days after award of the contract.

The Sewerage Commission of the City of Milwaukee reserves the right to reject any and all bids submitted.

Published by authority of the Sewerage Commission of the City of Milwaukee.

JOHN H. FOWLES,
Secretary.

Countersigned:
LOUIS M. KOTECKI,
Comptroller.

Tank Trailers

Hackensack, N. J.

Sealed proposals will be received by the Road Committee of the Board of Chosen Freeholders of the County of Bergen at the office of the Clerk of the Board in the Court House, Hackensack, N. J., on March 14th, 1923, at 2 p.m., for the furnishing of two (2) one thousand (1,000) gallons capacity tank trailers for transporting asphaltum.

For specifications and other detailed information, communicate with the Supervisor of Roads, Court House, Hackensack, N. J.

JOHN A. W. DONALDSON,
Chairman of Road Committee.

OFFICIAL PROPOSALS

Bids: Mar. 27.

Barge Canal Terminal

Albany, N. Y.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, March 27th, 1923, at which place and hour they will be publicly opened and read, for the construction of Barge Canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and amendatory laws, as follows:

TERMINAL CONTRACT NO. 237.

For constructing a terminal freighthouse at Oswego. Contract plans, sheets 1 to 9, inclusive.

Plans may be seen and detailed specifications, engineer's estimates of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y.; at the office of the Assistant Superintendent of Public Works for the Western Division, at Rochester, N. Y.; at the offices of the Superintendent of Public Works, Erie Basin Terminal, Buffalo, N. Y., and Terminal Warehouse, Pier 6, East River, New York City.

Blueprint copies of plans will be furnished by the State Engineer and Surveyor upon the receipt at his office in the Telephone Building, Albany, N. Y., of payment at the rate of fifteen cents (15c.) per sheet. Refund will not be made for any blueprints which may be returned.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent) of the estimated cost of the work, according to the contract price, and an additional bond known as the labor bond, in the sum of ten per centum (10 per cent) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y.; and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

EDWARD S. WALSH.
Superintendent of Public Works.

February 21st, 1923.

OFFICIAL PROPOSALS

Bids: March 15.

Engine, Generator and Switchboard

Oxford, Miss.

Sealed proposals will be received by the Board of Mayor and Aldermen of the City of Oxford, Mississippi, until noon, Central Standard Time, Thursday, March 15th, for engine, generator and switchboard equipment for the Municipal Water and Light Plant. Proposals will be considered for either oil engine or steam engine equipment. The right to reject any or all bids is retained.

For further information and specifications apply to R. J. FARLEY, Mayor, or T. M. EARLY, Superintendent Water and Light Plant.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

Bids: Mar. 12.

High and Low Pressure Steam and Water Piping in Pumping Station

Bay City, Mich.

Sealed proposals for high and low pressure steam and water piping, including boiler feed pumps, feed water heater and all accessories in Pumping Station, will be received at the office of the City Manager, City Hall, Bay City, Michigan, until ten o'clock A. M., Eastern Standard Time, on March 12th, 1923.

All bids must be made on blank proposal forms, and be accompanied by a proposal bond or certified check for $4,000.00.

Plans, proposal forms, contract and specifications may be obtained at the office of the City Manager, City Hall, Bay City, Michigan, and also from The Frazier-Ellms-Sheal Company, Engineers, B. F. Keith Building, Cleveland, Ohio, upon deposit of twenty dollars, to be refunded upon return of plans and specifications in good condition.

The City reserves the right to accept any bid or to reject any and all bids.

WM. H. REID,
City Manager.

OFFICIAL PROPOSALS

Bids: Mar. 6.

Road Oiling

Baltimore, Md.

OFFICIAL PROPOSALS

Bids: Mar. 21.

Water Works Improvements

Roxboro, N. C.

Sealed proposals will be received by the Mayor and Board of Commissioners of the Town of Roxboro, North Carolina, until 2 o'clock p.m., Wednesday, March 21st, 1923, for developing a new source of water supply. The principal items entering into the work are as follows:

Laying 20,000 feet of 12-inch cast iron B & S water pipe.

Building concrete and brick filter plant; concrete and brick pumping station; concrete reservoir; and earth dam with masonry spillway.

Furnishing and erecting filter equipment.

Furnishing and installing one 500 GPM centrifugal pump with electric motor and one 500 GPM centrifugal pump with gas engine drive.

Clearing impounding reservoir site—60 acres.

Plans will be on file and may be seen at the office of The Ludlow Engineers at Winston-Salem, N. C., or at the office of the Mayor at Roxboro, N. C., after March 1st. After that date copies of the Specifications, Bid Blank, and Contract Form may be obtained from the Engineers.

For the convenience of prospective bidders the Engineers will furnish full set of blue print copies of the plans upon application accompanied by a check for $7.50 to cover the cost, or separate prints at $1.00 each.

Each bid must be accompanied by a certified check payable to the Treasurer of the Town of Roxboro, in the sum of $4,000 with complete bids, or approximately 5% of the amount of partial bids.

Proposals will be opened publicly with the usual rights reserved.

DR. W. A. BRADSHER.
R. G. COLE.
R. L. HARRIS,
Water Works Committee.
THE LUDLOW ENGINEERS,
Winston-Salem, N. C.
J. L. LUDLOW,
Consulting Engineer.

Bids: Mar. 10.

Covered Drains

Monte Vista, Colo.

The Bowen Drainage District will receive up to 2 p.m. of March 10th bids for construction of about eighteen miles of covered drains. $5.00 deposit for plans and specifications.

O. A. CRAMER, Secretary.
Monte Vista, Colorado.

Bids: Mar. 13.

Street Paving

South Bend, Ind.

OFFICIAL PROPOSALS

Bids: March 13.

Pavements and Sewers

Wallingford, Conn.

Notice is hereby given that sealed proposals will be received by the Warden and Court of Burgesses, at the Borough Clerk's Office up to eight o'clock p.m. of the 13th day of March, 1923, for the furnishing of all labor, materials, tools, machinery (except the steam roller which will be furnished by the Borough free of charge without operator or fuel) teams, or auto trucks for the complete construction of the following pavements and sewers.

PAVEMENTS

1,710 sq.yd. of concrete pavement, 4,040 sq.yd. of Bituminous bound Macadam and a short section of water bound Macadam, together with about 4,320 lin.ft. of combined concrete curb and gutters.

SEWERS

2,283 lin.ft. of 10 in. to 18 in. Vitrified tile sewers and manholes on Simpson Ave. and Ward St., 750 lin.ft. of 12 in. vitrified tile sewer and manholes on Pomeroy Ave. and Ward St. and 600 lin.ft. of 18 in. vitrified tile sewers, manholes and catch basins on So. Orchard St., together with appurtenances.

All bids must be submitted on blanks furnished by the Borough, for the pavements and sewers on the various streets as shown by the approximate estimates.

Each proposal must be accompanied by a certified check or Surety Co.'s contractor bidding bond, for five (5%) per cent of the tendered bid and made payable to the Treasurer of the Borough of Wallingford, Conn.

The Warden and Court of Burgesses reserve the right to require of the successful bidder a satisfactory Surety Co. bond for 50% of the total contract awarded.

The Court of Burgesses reserves the right to reject any or all bids or to accept any bid or bids for either sewers or pavements which may appear in their judgment to be to the best interest of the Borough so to do.

BOROUGH OF WALLINGFORD, CONN.
JOHN P. BRIDGETT, Warden.

Sewer System, Disposal Plant and Pumping Station

Tonawanda, N. Y.

Notice is hereby given that sealed proposals will be received and considered by the Town Board of the Town of Tonawanda, New York, Wednesday, March 21st, 1923, at eight o'clock p.m., at the Village Hall, Kenmore, N. Y., for furnishing all necessary labor and material for the construction of a sewer system, disposal plant and pumping station in acordance with the proposed contract, maps, plans, specifications and estimates of the Town Engineer as approved by the said Town Board of the Town of Tonawanda, N. Y., for Sewer District No. 2 of said Township.

The proposed contract, maps, plans and specifications and estimates may be seen and examined, and further information may be obtained at the office of George C. Diehl, Town Engineer, No. 575 Ellicott Square, Buffalo, N. Y., or at the office of the undersigned, the Town Clerk of the Town of Tonawanda, N. Y., at No. 2852 Delaware Avenue, Kenmore, N. Y.

All bids must be accompanied by a certified check, payable to the order of J. Fred Moore, Supervisor of the Town of Tonawanda, N. Y., for the sum of five per centum of the Engineer's estimated expense of the improvement, or a bond with sufficient sureties to be approved by the said J. Fred Moore, Supervisor of said Town, conditioned in a penalty equal to five per centum of the estimated expense of the improvement, that if the work is awarded to the bidder, he will enter into the contract for the same, and that he will execute further security as may be required for the faithful performance of the contract, in the event of the proposal being accepted for the execution of the work.

The Town Board reserves the right to reject any or all bids should it deem it to the best interest of the District so to do.

Dated Kenmore, N. Y., February 17, 1923.

ELMER W. JOHNSTON,
Town Clerk, Town of Tonawanda,
2852 Delaware Avenue.
Kenmore, N. Y.

Bids: Mar. 13.

Reinforced Concrete Bridge

Media, Pa.

Sealed proposals will be received at the Controller's Office, Media, Pa., on Tuesday, March 13th, 1923, until 11 a.m., for furnishing all equipment, tools, machinery, and labor necessary to properly construct a two span reinforced concerte bridge, known as the Plush Mill Bridge No. 107, situate on Baltimore Pike over Crum Creek, between Springffield and Nether Providence Townships. The bridge is to be of the open spandrel type, two 120 ft. clear spans, 346 feet over all, with 30 ft. 6 in. roadway and two 5 ft. sidewalks.

Bids from other than those engaged or established in business for which proposals are asked will not be entertained and no bids will be entertained unless made out on printed blank forms furnished by the County Commissioners.

Each bid must be accompanied by a Certified Check of Fifteen Thousand ($15,000.00) dollars drawn to the order of the Commissioners of Delaware County.

Plans and specifications can be had by applying at the office of the County Controller, Media, Pa. All bidders desiring a set of plans and specifications shall deposit Twenty-five ($25.00) dollars with the County Controller, which amount will be refunded if palns and specifications are returned within one (1) week after the opening of bids.

No plans or specifications given out after Saturday, March 10th, 1923.

The Commissioners reserve the right to reject any or all bids.

GEORGE T. WADAS,
County Controller.

Bids: Mar. 9.

Bridges

Normal, Ill.

Bids: Mar. 27.

Bridge

Wilkes-Barre, Pa.

Sealed proposals will be received at the office of the City Clerk, City Hall, Wilkes-Barre, Pa., until twelve o'clock noon, Tuesday, March 27, 1923, for the construction of the South Street Bridge in the City of Wilkes-Barre, Pa., in accordance with the plans and specifications on file in the office of the City Engineer.

The bridge will cross the Pennsylvania, Lehigh Valley and Central Railroad of New Jersey's tracks, extend along the north side of South Street, from Washington Street to Park Avenue, be composed of steel trusses over the railroad tracks and reinforced concrete arches and retaining wall approaches thereto. The total length is about 1,735 feet.

Instructions to bidders, plans, specifications, proposal and contract forms may be seen in the office of J. E. Greiner & Company, Consulting Engineers, Lexington Building, Baltimore, Md., and Union Arcade Building, Pittsburgh, Pa., and can be obtained at the office of the City Engineer on and after Tuesday, Macrh 6, 1923, for a deposit of $10.00 for each set, which deposit will be refunded on the day of the letting to those submitting bids, provided the sets are returned complete and in good condition.

Each proposal must be accompanied by a certified check on a solvent bank or trust company in the sum of Five Thousand ($5,000.00) Dollars, made payable without reservations to the Treasurer of the City of Wilkes-Barre, Pa., as a guarantee that if the proposal be accepted a contract will be entered into.

Proposals must be made so as to conform with the instructions to bidders in every respect. Must be endorsed "Proposals for South Street Bridge" and addressed to Fred H. Gates, City Clerk. The City reserves the right to reject any or all bids and to award the contract as may be deemed to the best interests of the City.

MARTIN C. MURRAY,
Superintendent of Streets & Public Improvements.

Bids: Mar. 28.

OFFICIAL PROPOSALS

Bids: Mar. 19.

Power Plant Machinery and Electric Line Material

Jacksonville, Fla.

Sealed proposals will be received by the City Commission of the City of Jacksonville, Florida, until 3:00 o'clock p.m., Monday, March 19th, 1923, for the following equipment, in accordance with plans and specifications on file in the office of the City Commission and in the office of the Scofield Engineering Company of Philadelphia, Pa., Consulting Engineers.

1. 1—12,000 K.W. Turbo Generator.
2. Surface Condensing Equipment.
3. Improvements for surface condensing equipment.
4. Admiralty Condenser Tubes.
5. Switchboard additions and improvements, for Generating and Sub-stations.
6. Constant Current Transformers.
7. Power Transformers.
8. Reactors and Transformer rewinding material.
9. Improvements for boilers and superheaters.
10. Oil burners and furnace material.
11. Force draft fans.
12. Centrifugal boiler feed pump.
13. Centrifugal sump pumps.
14. Synchronous motors.
15. 2 storage batteries.
16. Machine shop equipment.
17. Lead covered cable and jointing material.
18. Copper wire.

Bids shall state the time in which the bidder guarantees to make shipment and complete the work as specified to the satisfaction and acceptance of the Consulting Engineers. Bids shall be subject to acceptance within two weeks. Form of contract is on file in the offices of the City Commissibon and Scofield Engineering Company, Consulting Engineers, Philadelphia, Pa., and further information may be obtained from said engineers or by applying to Frank H. Owen, Commissioner Public Utilities, City Hall, Jacksonville, Florida. Each bid must be accompanied by a certified check on a Jacksonville bank or on some National bank for five per cent (5%) of the amount bid as a guarantee that the bidder will, if awarded the contract, promptly enter into agreement for the work and furnish a surety bond acceptance to the Commission to an amount equal to twenty-five (25%) per cent of the contract price. Each bid should be addressed to the City Commission, be marked as a bid for Plant Machinery and Electric Line Material and be delivered through mail or otherwise at the office of the Secretary, Room 13, City Hall. The Commission reserves the right to reject any or all bids, to waive informalities or to accept any bid in whole or in part.

March 1, 1923.

W. A. EVANS,
Chairman.

Bids: March 20.

System of Water Mains

Mt. Greenwood, Cook Co., Ill.

Sealed Proposals, endorsed "Proposals for Water Main," will be received by the Board of Local Improvements of the Village of Mt. Greenwood, Illinois, in the Village Hall in said Village, until eight o'clock p.m., March 20, 1923, for furnishing all labor, tools, machinery, equipment and materials and constructing and completing a system of cast iron water mains in various streets in said Village, as designated by and in accordance with an Ordinance duly passed, and in accordance with a special assessment proceeding in the County Court of Cook County, designated as Special Assessment Number Two, of the Village of Mt. Greenwood, Illinois, and in accordance with the following estimated quantities:

4,044.78 Lin.Ft. of (12") internal diameter cast iron water main, average depth (5½').

33,198.49 Lin.Ft. of (6") internal diameter cast iron water main, average depth (5½').

(12) 12" standard iron, parallel seat, double gate valves, with brick valve chambers and cast iron covers.

(57) 6" standard iron, parallel seat, double gate valves, with brick valve chambers and cast iron covers.

(99) 6" standard fire hydrants, with iron body, fitted with (2), (2½") hose and (1) steamer connection, with (5") valve opening and a (7") inside diameter working barrel and fitted with auxiliary valves.

(11) 12" x 12" x 6" x 6" cast iron cross connections, 512 lbs. each.

(24) 6" x 6" x 6" x 6" cast iron cross connections, 257 lbs. each.

(3) 12" x 12" x 6" cast iron tee connections, 458 lbs. each.

(104) 6" x 6" x 6" cast iron tee connections, 200 lbs. each.

(8) 6" cast iron, ⅛, 45 degree bends, 105 lbs. each.

All proposals must be submitted on the Proposal Blanks furnished by the Board of Local Improvements of said Village; and shall be accompanied by cash or certified check made payable to M. L. Cusack, President of the Board of Local Improvements, in an amount equal to ten (10%) per cent of the total proposal.

A construction bond, satisfactory to the Board of Local Improvements, in an amount equal to one-third of the total proposal will be required of the successful bidder.

Payment for the above work will be made by the Board of Local Improvements of said Village, in Special Assessment Bonds, issued against Special Assessment Number Two of the Village of Mt. Greenwood, Illinois, bearing interest at the rate of six (6) per cent per annum, with a maximum maturity date of ten (10) years.

Plans, specifications, and proposal blanks may be obtained at the office of the Village Clerk, of said Village; and from Allen L. Fox, engineer for said Board of Local Improvements, at his office in the Commercial Bank Building, Chicago Heights, Illinois; and in the office of F. K. Root, 14th Floor Conway Building, Chicago, Illinois.

The Board of Local Improvements reserves the right to reject any or all Proposals.

BOARD OF LOCAL IMPROVEMENTS.
M. L. CUSACK,
President.
A. JOHNSON,
WILLIAM BURGOYNE,
Clerk.

J., on March 14th, 1923, at 2 p.m., for the furnishing of two (2) one thousand (1,000) gallons capacity tank trailers for transporting asphaltum.

For specifications and other detailed information, communicate with the Supervisor of Roads, Court House, Hackensack, N. J.

JOHN A. W. DONALDSON,
Chairman of Road Committee.

OFFICIAL PROPOSALS

Bids: Mar. 27.

Barge Canal Terminal

Albany, N. Y.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, March 27th, 1923, at which place and hour they will be publicly opened and read, for the construction of Barge Canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and amendatory laws, as follows:

TERMINAL CONTRACT NO. 237.

For constructing a terminal freighthouse at Oswego. Contract plans, sheets 1 to 9, inclusive.

Plans may be seen and detailed specifications, engineer's estimates of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y.; at the office of the Assistant Superintendent of Public Works for the Western Division, at Rochester, N. Y.; at the offices of the Superintendent of Public Works, Erie Basin Terminal, Buffalo, N. Y., and Terminal Warehouse, Pier 6, East River, New York City.

Blueprint copies of plans will be furnished by the State Engineer and Surveyor upon the receipt at his office in the Telephone Building, Albany, N. Y., of payment at the rate of fifteen cents (15c.) per sheet. Refund will not be made for any blueprints which may be returned.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent) of the estimated cost of the work, according to the contract price, and an additional bond known as the labor bond, in the sum of ten per centum (10 per cent) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y.; and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

EDWARD S. WALSH.
Superintendent of Public Work
February 21st, 1923.

OFFICIAL PROPOSALS

Bids: Mar. 30.

Moose Temple Building

Clearfield, Penna.

Sealed proposals for furnishing material and construction of the Moose Temple Building for the Loyal Order of Moose, Clearfield, Penna., as per plans and specifications as prepared by W. V. Justus of Punxsutawney, Pa., will be received by the Board of Trustees of Clearfield, Penna., at their present lodge room on 315 Market Street, until six p.m., Eastern time, March 30, 1923.

Each proposal must be accompanied with a certified check of five per cent of their bid, a bond of one hundred per cent of the contract price will be required.

This building is 70 x 100, three stories and basement, fireproof construction and steel skeleton frame.

Copies of plans and specifications can be obtained at the office of the Architect at 329 East Mahoning Street, Punxsutawney, Penna., upon deposit of the sum of twenty dollars with the Architect, ten dollars of which will be refunded upon the return of all prints in good condition, the remainder to be retained to cover printing, mailing, etc., etc.

The right is reserved to reject any and all bids.

Plumbing, Heating and Electrical Wiring are not included in the General Contract; to be advertised later.

LOYAL ORDER OF MOOSE NO. 97.
(Signed) D. D. GUPPY,
D. B. McCARTY,
Trustees.

Bids: Mar. 13.

Reinforced Concrete Bridge

Media, Pa.

Sealed proposals will be received at the Controller's Office, Media, Pa., on Tuesday, March 13th, 1923, until 11 a.m., for furnishing all equipment, tools, machinery, and labor necessary to properly construct a two span reinforced concerte bridge, known as the Plush Mill Bridge No. 107, situate on Baltimore Pike over Crum Creek, between Springffield and Nether Providence Townships. The bridge is to be of the open spandrel type, two 120 ft. clear spans, 346 feet over all, with 30 ft. 6 in. roadway and two 5 ft. sidewalks.

Bids from other than those engaged or established in business for which proposals are asked will not be entertained and no bids will be entertained unless made out on printed blank forms furnished by the County Commissioners.

Each bid must be accompanied by a Certified Check of Fifteen Thousand ($15,000.00) dollars drawn to the order of the Commissioners of Delaware County.

Plans and specifications can be had by applying at the office of the County Controller, Media, Pa. All bidders desiring a set of plans and specifications shall deposit Twenty-five ($25.00) dollars with the County Controller, which amount will be refunded if palns and specifications are returned within one (1) week after the opening of bids.

No plans or specifications given out after Saturday, March 10th, 1923.

The Commissioners reserve the right to reject any or all bids.

GEORGE T. WADAS,
County Controller.

Bids: March 22.

Steel Framing

New Orleans, La.

Sealed proposals will be received by the Board of Commissioners of the Port of New Orleans at their offices, Suite 200, New Court Building, until 3:00 p.m., March 22, 1923, and then publicly opened for furnishing, erecting and painting of the steel framing required for the wharf structure at Poland Street Landing.

A deposit of $2,000 in cash or certified check is required with each proposal.

A bond to the amount of 50 per cent of the sum bid is required with notarial contract.

Specifications and proposal forms are on file in the office of the Supervisor of Purchases, at No. 1 Canal Street, New Orleans, Louisiana. Complete sets will be furnished to prospective bidders on deposit of $5, which will be refunded to depositors who submit proposals, or return sets in good condition.

The right is reserved to reject any or all bids and to waive informalities.

J. H. WALSH,
General Manager.

Sealed proposals will be received by the Sewerage and Water Board of New Orleans up to 12 o'clock noon, Thursday, April 26th, 1923, for furnishing 1,500-1,800 hp. Water Tube Boilers.

Specifications and blank forms of proposals may be obtained at Room 303, No. 526 Carondelet Street, New Orleans.

The right is reserved to reject any or all bids.

GEO. G. EARL,
General Superintendent.

A. G. MOFFAT,
Secretary.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

Bids: March 20.

Pipe Sewers

South Bend, Ind.

Notice is hereby given that sealed proposals will be recevied by the Department of Public Works of the City of South Bend, Ind., up to 10:00 o'clock a.m., of the 20th day of March, 1923, for the execution of the following work:

Pipe sewers on the following streets:	
William Street	1,200 lin.ft.
Brookfield Street	1,460 lin.ft.
Calvert Street	1,155 lin.ft.
Kinyon Street, Keller and Medora Streets	1,713 lin.ft.
Victoria Street	1,400 lin.ft.
Indiana Avenue and Clyde Street	900 lin.ft.
Fairview Avenue	1,422 lin.ft.
Lafayette Street and Parkovash.	991 lin.ft.
Oak Part Court	600 lin.ft.
Marietta Street	233 lin.ft.

Complete drawing and specifications of said work are now on file in the office of the Department of Public Works in the City Hall, of South Bend, Indiana. The Board reserves the right to reject any or all bids.

L. B. SLAUGHTER,
L. P. HARDY,
ALBERT F. HONER,
Board of Public Works.

VERONICA C. SWEENEY,
Clerk of the Board.

Date of publication: March 8 and 15, 1923.

OFFICIAL PROPOSALS

Bids: Mar. 20.

Narrows Siphon No. 2 Contract 198

New York, N. Y.

Sealed bids will be received by the Board of Water Supply, at its offices, twenty-second floor, Municipal Building, Park Row, Centre and Chambers Streets, New York City, until 11 a.m., Eastern Standard time on Tuesday, March 20, 1923, for Contract 198, for the construction of Narrows Siphon No. 2, a 42-inch, flexible-jointed, cast-iron submarine pipe-line about 8,800 feet long, with shore connections of 42-inch and 48-inch bell-and-spigot cast-iron pipes about 560 feet in length. This siphon is a portion of the Catskill aqueduct and will extend across the Narrows of New York harbor from 86th Street and Shore Road, Bay Ridge, Brooklyn, to Vanderbilt Avenue and Bay Street, Clifton, Staten Island.

The work consists principally of furnishing approximately 4,650 tons of submarine pipes, dredging a trench in which the pipe-line will be laid across the Narrows, including the shore ends, and refilling over the pipe-line. The land work is to include furnishing and laying about 330 tons of cast-iron pipe and special castings of various sizes, furnishing and setting two large meters, building chambers and manholes and doing other incidental work.

At the above place and time the bids will be publicly opened and read. Pamphlets containing information for bidders, forms of bid and contract, specifications, contract drawings, etc., can be obtained at the office of the Secretary at the above address, by depositing the sum of ten dollars ($10) in cash or its equivalent for each pamphlet. For further particulars apply to the office of the Chief Engineer at the above address.

GEORGE J. GILLESPIE,
President.
JAMES P. SINNOTT,
PHILIP F. DONOHUE,
Commissioners, Board of Water Supply.
BENJ. F. EINBIGLER, Secretary.

Bids: March 26.

Oregon Road Bridge

Bowling Green, Ohio.

Sealed proposals will be received by the Board of County Commissioners of Wood County, Ohio, at the office of the County Auditor, Bowling Green, Ohio, until 1:00 o'clock p.m., Monday, March 26, 1923, and opened immediately thereafter, for the furnishing of all materials, tools, machinery, appliances and labor required for the construction of two abutments and one pier, providing the drainage, and grading 22,000 cu.yd. of approaches, also the erecting of two 152-ft. bridge spans with 20-ft. roadway, at the following location, viz.:

Oregon Road Bridge over the crossing of the Toledo and Cincinnati Railroad Company's (B. & O.) tracks in River Tract 85, Ross Township, Wood County, Ohio.

Said improvement to be made in accordance with plans, specifications and estimates now on file in the office of the County Auditor of Wood County, Ohio, and open to inspection during business hours of each day.

Each bid for the improvement must be accompanied by a certified check upon some solvent bank of Wood County, surety bond or cash in the sum equal to five (5) per cent of the price bid, as a guaranty that if the work is awarded to the bidder he will within seven days from the date of such award, enter into proper and acceptable contract and bond conditioned for the faithful performance of his work, otherwise said amount accompanying his bid will be forfeited to Wood County as liquidated damages.

Bids for the above described work shall be made on blanks to be furnished by the County Surveyor of Wood County.

The Board of County Commissioners of Wood County reserves the right to reject any or all bids.

By order of the Board of Commissioners of Wood County, Ohio.

E. E. CORIELL,
County Auditor.

Bowling Green, Ohio, Feb. 21, 1923.

Compensation Insurance

Some contractors "give" this insurance to a friend, either personal or political. How many, we wonder, "engage" the services of a specialist to advise them right in the intricate problems that arise in this business.

Alfred S. Hamilton
110 William St., New York

OFFICIAL PROPOSALS

Bids: March 22.

Sewage Disposal Works

Mamaroneck, N. Y.

Sealed proposals for the completion of Sewage Disposal Works will be received by the Clerk of the Village of Mamaroneck until 8 o'clock p.m., on Thursday, the 22nd day of March, 1923.

The work includes about 2,600 cubic yards of earth excavation; 1,630 cubic yards of concrete masonry; the completion of the machinery building; the furnishing and erection of compressors, cast-iron and wrought-iron piping, valves, diffuser blocks, electrical equipment and other work necessary for completion. Certain materials and apparatus will be furnished on the ground by the Village and the plant and equipment now on the ground may be used without cost by the Contractor.

A certified check or cash to the amount of $2,000 is required with each proposal and a performance bond to the amount of $50,000 required for the faithful performance of the work.

Notice to Bidders, Forms of Proposal and Contract, Specifications and Plans may be examined at the office of Fuller & McClintock, 170 Broadway, New York, and James M. Duffy, Village Engineer, Mamaroneck, N. Y. They may be obtained at these offices upon a deposit of $20 of which $15 will be refunded upon the return of the plans and specifications in good condition.

Proposals from responsible and qualified Contractors only are requested and the Village reserves the right to reject any or all bids.

By order of the Board of Trustees,
Dated Mamaroneck, N. Y., March 2, 1923.

JOHN F. HUNTER, MD.,
President.
EDGAR L. HOWE,
Village Clerk.

Bids: March 12.

Bulkhead and Filling

Mineola, N. Y.

Sealed proposals will be received by the Board of Supervisors of Nassau County in its Chambers in the Court House at Mineola, New York, on

Monday, March 12, 1923, at 11 a.m., for the improvement of the Long Beach Road, between Barnum Island Creek and the Upland, by the construction of a bulk head and filling.

Plans and specifications may be seen at the office of the County Engineer at Mineola, Long Island.

Each bid must be accompanied by a certified check on a solvent bank in the sum of Three per cent of the amount of the total contract, made payable to the County of Nassau.

The Board of Supervisors reserves the right to reject any or all bids, waive any informality in the bids, and to accept the bid which it deems most favorable to the interest of the County.

By order of the Board of Supervisors,
JESSE MERRITT,
Clerk.

Dated at Mineola, Long Island,
Feb. 26, 1923.

Bids: Mar. 28.

Sheet Asphalt Paving Top

Kalamazoo, Mich.

Bids will be received until 5 p.m., Wednesday, March 28, 1923, on approximately 28,000 square yards of Sheet Asphalt Paving Top. Specifications furnished upon application. Bids must be accompanied by certified check of five (5%) per cent of the total sum bid. The City reserves the right to reject any or all bids or to award the business where it appears to be to the best advantage.

Call or address,
HAROLD A. BLAND,
City Purchasing Agent, Kalamozoo, Mich.

OFFICIAL PROPOSALS

Bids: Mar. 22.

Madison Street Bridge

Eau Claire, Wis.

Sealed proposals will be received by the Wisconsin Highway Commission at the office of the Division Engineer, at 213 So. Barstow Street, Eau Claire, Wisconsin, until 2:00 o'clock p.m., Thursday, March 22nd, 1923, for furnishing materials an the performance of all construction work in connection with the following described bridge.

The bridge is known as the Madison Street Bridge over the Chippewa River, located on State Trunk Highway No. 12 in the city of Eau Claire, Eau Claire county. The bridge has a total over all length of about 700 feet, and is of the reinforced concrete arch type. The roadway is 36 feet with two 8-ft. sidewalks. There is one span 130 feet long; two spans each 120 feet long, and two spans each 115 feet long. Stream bed consists of sand and gravel. All substructure units are to be supported on timber piles.

An approximate estimate of the total quantities involved is as follows:

Concrete—Class "A," 6,149 cu.yds.; concrete—class "C," 4,408 cu.yds.; concrete balusters, 1,092; reinforcing steel, 670,050 lbs.; structural steel, 11,730 lbs.; wire mesh, 3,100 lbs.; pipe, ¾-in. diameter, 1-ft. long, 40 required; pipe ¾-in. diameter, 1-ft., 11-in. long, 20 required; pipe, 1½-in. 0-in. long, 408 required; wood piles 18-ft. 0-in. long, 1,232 required; drains complete, diameter, 1,530 lin.ft.; wood piles, 24-ft. 12 required; fillers for expansion joints; concrete vases, 28 required; metal lamp standards, 12 required.

The last two items are to be furnished by the Wisconsin Highway Commission.

The above estimate of quantities is approximate and its accuracy is not guaranteed. Bidders should make their own estimate of quantities and costs and submit bids thereon after examining the plans, the specifications and the bridge site.

Cement is to be furnished to the contractor by the Wisconsin Highway Commission, f.o.b. Eau Claire.

Bids are to be a lump proposal, exclusive of cement, but are to include the cost of handling, etc., of the cement.

Plans and specifications for this work may be seen at the offices of the Wisconsin Highway Commission at 206 Stephenson Bldg., Milwaukee, Wisconsin, and at 213 So. Barstow St., Eau Claire, Wisconsin, and in the State Capitol Annex at Madison. They will also be on file with Mr. J. T. Hurd, City Engineer, at Eau Claire, and also with the County Clerk in the Court House at Eau Claire.

Bidders desiring copies of the plans and specifications for their own use, may secure them from the Wisconsin Blue Print Company, Madison, Wisconsin, at the cost of $5.50 a set. Plans will be mailed first class and there will be no refund for return of plans.

Each proposal must be accompanied by cash, a certified check, a liberty bond, or a bidder's bond for a sum equal to at least 5 per cent of the bid, made payable to the Treasurer of the State of Wisconsin as a guarantee that the successful bidder will enter into a contract with the State to furnish the material, bid on and perform all of the construction work necessary for the proper completion of this structure in accordance with the standard plans and specifications for such structure. Bidders should state prices in writing and in figures.

All bids will be publicly opened by an authorized representative of the Wisconsin Highway Commission. The Commission reserves the right to reject any or all proposals and to accept any bid which may be most advantageous to the State.

Engineering News-Record

(Circulation over 30,000 weekly)

prints more than twice as many announcements advertising contracts to be let than appear in any other one publication

Practically every form of public work and the furnishing of material and supplies wer printed in the Official Proposal Columns of *Engineering News-Record* last year. They include calls for bids on:

Boilers
Bridges
Building Alterations
Canal Construction
Cast Iron Pipe
Dams
Drainage
Dredging
Engines
Excavation
Filling
Filtration Plants
Generators
Heating and Ventilating
Highway Construction
Paving
Pumps
Pumping Plants
River and Harbor Improvements
Road Oil
Road Building Equipment
Schools and Public Buildings
Sewage Disposal Plants
Sewers
Street Improvements
Street Lighting Systems
Supplies and Material
Water Works
Well Drilling, Etc.

THIS wide use of *Engineering News-Record's* Official Proposal Columns and the rapidly growing recognition of this paper's value as an advertising medium is due to RESULTS—keen competition, lower bids, better work—and savings.

For more than 40 years contractors, manufacturers, and dealers everywhere have consulted the Official Proposal Columns of *Engineering News-Record* and its predecessors for opportunities for business. Today, many of those interested in bidding on contracts for work, material, and supplies depend entirely upon the advertisements that appear in this dominant paper and would be unlikely to see those printed elsewhere.

The Dominant Proposal Medium

OFFICIAL PROPOSALS

Bids: Mar. 22.

Madison Street Bridge

Eau Claire, Wis.

Sealed proposals will be received by the Wisconsin Highway Commission at the office of the Division Engineer, at 213 So. Barstow Street, Eau Claire, Wisconsin, until 2:00 o'clock p.m., Thursday, March 22nd, 1923, for furnishing materials an the performance of all construction work in connection with the following described bridge.

The bridge is known as the Madison Street Bridge over the Chippewa River, located on State Trunk Highway No. 12 in the city of Eau Claire, Eau Claire county. The bridge has a total over all length of about 700 feet, and is of the reinforced concrete arch type. The roadway is 36 feet with two 8-ft. sidewalks. There is one span 120 feet long; two spans each 120 feet long, and two spans each 115 feet long. Stream bed consists of sand and gravel. All substructure units are to be supported on timber piles.

An approximate estimate of the total quantities involved is as follows:

Concrete—Class "A," 6,149 cu.yds.; concrete—class "C," 4,408 cu.yds.; concrete balusters, 1,092; reinforcing steel, 670,050 lbs.; structural steel, 21,730 lbs.; wire mesh, 3,100 lbs.; pipe, ¾-in. diameter, 1-ft. long, 40 required; pipe ¾-in. diameter, 1-ft., 11-in. long, 20 required; pipe, 1½-in. 0-in. long, 408 required; wood piles 18-ft. 0-in. long, 1,232 required; drains complete, diameter, 1,530 lin.ft.; wood piles, 24-ft. 12 required; fillers for expansion joints; concrete vases, 28 required; metal lamp standards, 12 required.

The last two items are to be furnished by the Wisconsin Highway Commission.

The above estimate of quantities is approximate and its accuracy is not guaranteed. Bidders should make their own estimate of quantities and costs and submit bids thereon after examining the plans, the specifications and the bridge site.

Cement is to be furnished to the contractor by the Wisconsin Highway Commission, f.o.b. Eau Claire.

Bids are to be a lump proposal, exclusive of cement, but are to include the cost of handling, etc., of the cement.

Plans and specifications for this work may be seen at the offices of the Wisconsin Highway Commission at 206 Stephenson Bldg., Milwaukee, Wisconsin, and at 213 So. Barstow St., Eau Claire, Wisconsin, and in the State Capitol Annex at Madison. They will also be on file with Mr. J. T. Hurd, City Engineer, at Eau Claire, and also with the County Clerk in the Court House at Eau Claire.

Bidders desiring copies of the plans and specifications for their own use, may secure them from the Wisconsin Blue Print Company, Madison, Wisconsin, at the cost of $5.50 a set. Plans will be mailed first class and there will be no refund for return of plans.

Each proposal must be accompanied by cash, a certified check, a liberty bond, or a bidder's bond for a sum equal to at least 5 per cent of the bid, made payable to the Treasurer of the State of Wisconsin as a guarantee that the successful bidder will enter into a contract with the State to furnish the material, bid on and perform all of the construction work necessary for the proper completion of this structure in accordance with the standard plans and specifications for such structure. Bidders should state prices in writing and in figures.

All bids will be publicly opened by an authorized representative of the Wisconsin Highway Commission. The Commission reserves the right to reject any or all proposals and to accept any bid which may be most advantageous to the State.

WISCONSIN HIGHWAY COMMISSION.
By W. C. Buetow, Bridge Engineer.

Bids: April 26.

Water Tube Boilers

New Orleans, La.

Sealed proposals will be received by the Sewerage and Water Board of New Orleans up to 12 o'clock noon, Thursday, April 26th, 1923, for furnishing 1,500-1,800 hp. Water Tube Boilers.

Specifications and blank forms of proposals may be obtained at Room 303, No. 526 Carondelet Street, New Orleans.

The right is reserved to reject any or all bids.

GEO. G. EARL,
General Superintendent.

A. G. MOFFAT,
Secretary.

OFFICIAL PROPOSALS

Bids: April 10.

Intercepting Sewer

Toledo, Ohio.

Sealed proposals will be received by the Director of Public Service, Toledo, Ohio, until twelve o'clock noon, eastern standard time, on the 10th day of April, 1923, and then publicly opened and read for the construction of Contract No. 6 of the Intercepting Sewer System, consisting of

2,295 feet of 78-inch circular sewer.
2,155 feet of 72-inch circular sewer.
4,940 feet of 69-inch circular sewer.
1,970 feet of 66-inch circular sewer.
4,575 feet of 51-inch circular sewer.
1,500 feet of 39-inch circular sewer.

all of which will be built in tunnel, together with two inverted siphons, special and standard manholes and appurtenances.

Bidders are invited to submit prices on monolithic concrete, vitrified segment block and brick.

Plans, specifications, contract and bond forms can be secured at the office of the Director of Public Service upon deposit of Twenty dollars ($20.00) for each set, which will be refunded provided they are returned in good order on or before May 15, 1923.

Information regarding the work can be obtained through the following offices of our consulting engineers, Fuller & McClintock, 170 Broadway, New York, 319 Summit-Cherry Bldg., Toledo, 421 Produce Exchange Building, Kansas City, Mo., 879 North Parkway, Memphis, Tenn., and 1001 Chestnut Street, Philadelphia, Pa.

Each proposal must be accompanied by a bond executed by the bidder and a surety company satisfactory to the Director of Public Service in the sum of Ten Per Cent (10%) of the amount of the bid, or in lieu of a bond the bidder may deposit with the Director of Public Service, a certified check on a solvent bank, payable to the order of the Director of Public Service, in amount equal to such bond, said bond or certified check being required as a guarantee that if the bid be accepted, a contract will be entered into and its performance properly secured.

The contract bond will be Fifty Per Cent (50%) of the amount of the contract. Labor and material bids mut be separately stated with the price therefor.

The Director of Public Service reserves the right to reject any or all bids or to accept any bid which he may deem advantageous to the City of Toledo.

W. T. JACKSON,
Director of Public Service.

GEORGE E. LASKA,
Secretary.

Bids: March 22.

Sewage Disposal Works

Mamaroneck, N. Y.

Sealed proposals for the completion of Sewage Disposal Works will be received by the Clerk of the Village of Mamaroneck until 8 o'clock p.m., on Thursday, the 22nd day of March, 1923.

The work includes about 2,600 cubic yards of earth excavation; 1,630 cubic yards of concrete masonry; the completion of the machinery building; the furnishing and erection of compressors, cast-iron and wrought-iron piping, valves, diffuser blocks, electrical equipment and other work necessary for completion. Certain materials and apparatus will be furnished on the ground by the Village and the plant and equipment now on the ground may be used without cost by the Contractor.

A certified check or cash to the amount of $2,000 is required with each proposal and a performance bond to the amount of $50,000 required for the faithful performance of the work.

Notice to Bidders, Forms of Proposal and Contract, Specifications and Plans may be examined at the office of Fuller & McClintock, 170 Broadway, New York, and James M. Duffy, Village Engineer, Mamaroneck, N. Y. They may be obtained at these offices upon a deposit of $20 of which $15 will be refunded upon the return of the plans and specifications in good condition.

Proposals from responsible and qualified Contractors only are requested and the Village reserves the right to reject any or all bids.

By order of the Board of Trustees.
Dated Mamaroneck, N. Y., March 2, 1923.

JOHN F. HUNTER, MD.,
President.

EDGAR L. HOWE,
Village Clerk.

OFFICIAL PROPOSALS

Bids: Mar. 27.

Barge Canal Terminal

Albany, N. Y.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, March 27th, 1923, at which place and hour they will be publicly opened and read, for the construction of Barge Canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and amendatory laws, as follows:

TERMINAL CONTRACT NO. 237.

For constructing a terminal freighthouse at Oswego. Contract plans, sheets 1 to 9, inclusive.

Plans may be seen and detailed specifications, engineer's estimates of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y.; at the office of the Assistant Superintendent of Public Works for the Western Division, at Rochester, N. Y.; at the offices of the Superintendent of Public Works, Erie Basin Terminal, Buffalo, N. Y., and Terminal Warehouse, Pier 6, East River, New York City.

Blueprint copies of plans will be furnished by the State Engineer and Surveyor upon the receipt at his office in the Telephone Building, Albany, N. Y., of payment at the rate of fifteen cents (15c.) per sheet. Refund will not be made for any blueprints which may be returned.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent) of the estimated cost of the work, according to the contract price, and an additional bond known as the labor bond, in the sum of ten per centum (10 per cent) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y.; and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

EDWARD S. WALSH.
Superintendent of Public Works.
February 21st, 1923.

OFFICIAL PROPOSALS

Bids: April 2

Storage Reservoir

West Chester, Penna.

Sealed proposals will be received by the Council of the Borough of West Chester, Chester County, Pa., at the Borough Hall on the 2nd day of April, 1923, until 12:00 o'clock noon, for the construction of a Storage Reservoir. The bids received will be publicly opened at 2:00 p.m., of the same day. The work includes a concrete and earth fill dam and the excavation of the reservoir site. Approximately 1,565 cubic yards of concrete, 1,400 square yards of stone rip rap, and 25,000 cubic yards of earth excavation will be required, together with the furnishing and installing of 16 inch and 24 inch C. I. pipe, valves and sluice gates.

Each proposal must be accompanied by a certified check, made payable to the Borough of West Chester, for the sum of $1,000.00. A bond for 50 per cent of the contract price will be required.

Plans and specifications will be on file and may be seen at the Borough Hall, West Chester, Chester County, Pa., or at the office of the Borough Engineer, T. G. Colesworthy, Court House, West Chester, Pa., or the Consulting Engineers, Remington & Vosbury, 601 Market Street, Camden N. J. Complete sets of the plans and specifications may be had upon application to either of the engineers upon deposit of $10.00. This deposit will be refunded only to those submitting a bonafide bid upon the work and returning the plans in good condition.

The right is reserved to reject any or all bids.

M. M. DAVIS,
Secretary of Council.

Bids: March 20.

System of Water Mains

Mt. Greenwood, Cook Co., Ill.

Sealed Proposals, endorsed "Proposals for Water Main," will be received by the Board of Local Improvements of the Village of Mt. Greenwood, Illinois, in the Village Hall in said Village, until eight o'clock p.m., March 20, 1923, for furnishing all labor, tools, machinery, equipment and materials and constructing and completing a system of cast iron water mains in various streets in said Village, as designated by and in accordance with an Ordinance duly passed, and in accordance with a special assessment proceeding in the County Court of Cook County, designated as Special Assessment Number Two, of the Village of Mt. Greenwood, Illinois, and in accordance with the following estimated quantities:

4,041.78 Lin.Ft. of (12") internal diameter cast iron water main, average depth (5½').

33,198.49 Lin.Ft. of (6") internal diameter cast iron water main, average depth (5½').

(12) 12" standard iron, parallel seat, double gate valves, with brick valve chambers and cast iron covers.

(57) 6" standard iron, parallel seat, double gate valves, with brick valve chambers and cast iron covers.

(99) 6" standard fire hydrants, with iron body, fitted with (2), (2½") hose and (1) steamer connection, with (5") valve opening and a (7") inside diameter working barrel and fitted with auxiliary valves.

(11) 12" x 12" x 6" x 6" cast iron cross connections, 512 lbs. each.

(24) 6" x 6" x 6" x 6" cast iron cross connections, 257 lbs. each.

(3) 12" x 12" x 6" cast iron tee connections, 458 lbs. each.

(104) 6" x 6" x 6" cast iron tee connections, 200 lbs. each.

(8) 6" cast iron, ½, 45 degree bends, 105 lbs. each.

All proposals must be submitted on the Proposal Blanks furnished by the Board of Local Improvements of said Village; and shall be accompanied by cash or certified check made payable to M. L. Cusack, President of the Board of Local Improvements, in an amount equal to ten (10%) per cent of the total proposal.

A construction bond, satisfactory to the Board of Local Improvements, in an amount equal to one-third of the total proposal will be required of the successful bidder.

Payment for the above work will be made by the Board of Local Improvements of said Village, in Special Assessment Bonds, issued against Special Assessment Number Two of the Village of Mt. Greenwood, Illinois, bearing interest at the rate of six (6) per cent per annum, with a maximum maturity date of ten (10) years.

Plans, specifications, and proposal blanks may be obtained at the office of the Village Clerk, of said Village; and from Allen L. Fox, engineer for said Board of Local Improvements, at his office in the Commercial Bank Building, Chicago Heights, Illinois; and in the office of F. K. Root, 14th Floor Conway Building, Chicago, Illinois.

The Board of Local Improvements reserves the right to reject any or all Proposals.

BOARD OF LOCAL IMPROVEMENTS.
M. L. CUSACK.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

Bids: Mar. 26.

Paving

Elmira, N. Y.

Sealed proposals for the following work will be received by the undersigned at his office, City Hall, Elmira, N. Y., until 3:00 o'clock p.m., Monday, March 26, 1923.

NEW PAVING

East Miller St.—new brick track area 1,800 sq.yds. Reinforced concrete, 5,894 sq.yds.

College Ave.—Sheet asphalt or Warrenite-Bitulithic, 3,070 sq.yds.

REPAVING

Maple and Penna Aves.—Brick track area, 1,195 sq.yds. Sheet Asphalt, Warrenite-Bitulithic or brick, 1,163 sq.yds.

Railroad Ave. and W. 3rd St.—Brick track area, 975 sq.yds. Sheet Asphalt, Warrenite-Bitulithic or brick, 4,869 sq.yds.

RESURFACING

South Main St.—Brick track area, 3,182 sq.yds. Sheet Asphalt or Warrenite-Bitulithic top, 4,267 sq.yds.

Certified checks payable to "Mayor of Elmira, N. Y.," in amounts as below must be inclosed with the bids, the envelopes to be marked "Proposals for Paving."

Road Work

White Plains, N. Y.

Sealed proposals will be received by the Board of Supervisors, Court House, White Plains, N. Y., until 10:30 a.m., April 2nd, 1923, for constructing the following roads with reinforced concrete:

Co. Road No. 4—Town of Mt. Pleasant, 1.02 miles.

Co. Road No. 12—Towns of Bedford and No. Castle, 3.63 miles.

Co. Road No. 13—Town of Yorktown, 2.96 miles.

Specifications, proposal sheets and all information relative to the above work may be secured at the office of the County Engineer, Court House, White Plains, N. Y. Deposit required for plans—Road No. 4, $3.00; Roads No. 12 and No. 13, $10.00 each.

BOARD OF SUPERVISORS,
FRED L. MERRITT, Clerk.
March 12, 1923.

OFFICIAL PROPOSALS

Bids: April 6.

Water Works and Sewerage Systems

Lyndonville, N. Y.

Sealed Proposals will be received by the Board of Trustees of the Village of Lyndonville, N. Y., until two o'clock p.m. on the 6th day of April, 1923, for the construction of a sewerage system and disposal works; and also for the construction of a water works system, the latter consisting of about five and one-third miles of cast iron mains, hydrants, valves, pump house, slow sand filter, water tower and accessories.

Plans may be seen and specifications obtained at the office of the Board at Lyndonville, or at the office of Hopkins & Field, Engineers, 349 Cutler Building, Rochester, N. Y.

The Board hereby reserves and has the right to reject any or all bids or to accept those that in its judgment will be for the best interests of the Village, and to waive any informality in the bidding.

A surety bond satisfactory to the Board in sufficiency of surety and in the amount of forty per cent of the bid will be required of the one to whom a contract may be awarded.

Bids will be received for the sewerage system and disposal works and separately for the water works pipe laying, pump house, filter, pure water reservoir and water tower foundations, cast iron pipe and special castings, valves, valve boxes and hydrants, water tower and pumping equipment.

A certified check made payable to the order of the Board of Trustees, Lyndonville, N. Y., to the amount of $1,000 must be deposited by each bidder and accompany his bid as a guarantee that in case the contract is awarded to him he will, within ten days thereafter, execute such contract and furnish his bond.

Bids must be sealed and addressed to the Board of Trustees, Lyndonville, N. Y., and marked on the outside of the enclosing envelope "Proposal for Sewerage (or Water Works) System."

RICHARD N. PARSONS,
President,
BENJAMIN J. WARD,
Trustee.
JAY W. BREED,
Trustee.

DONALD M. FRASER, Village Clerk.
Dated Lyndonville, N. Y., March 10, 1923.

Bids: March 20.

Pipe Sewers

South Bend, Ind.

Notice is hereby given that sealed proposals will be recevied by the Department of Public Works of the City of South Bend, Ind., up to 10:00 o'clock a.m., of the 20th day of March, 1923, for the execution of the following work:

Pipe sewers on the following streets:

William Street	1,200 lin.ft.
Brookfield Street	1,460 lin.ft.
Calvert Street	1,155 lin.ft.
Kinyon Street, Keller and Medora Streets	1,713 lin.ft.
Victoria Street	1,400 lin.ft.
Indiana Avenue and Clyde Street	900 lin.ft.
Fairview Avenue	1,422 lin.ft.
Lafayette Street and Parkovash.	991 lin.ft.
Oak Part Court	600 lin.ft.
Marietta Street	233 lin.ft.

Complete drawing and specifications of said work are now on file in the office of the Department of Public Works in the City Hall, of South Bend, Indiana. The Board reserves the right to reject any or all bids.

L. B. SLAUGHTER,
L. P. HARDY,
ALBERT F. HONER,
Board of Public Works.

VERONICA C. SWEENEY,
Clerk of the Board.

OFFICIAL PROPOSALS

Bids: April 16.

Intercepting Sewers, Sewage Treatment Plant and Appurtenances

Urbana, Ill.

Sealed proposals endorsed "Proposal for Intercepting Sewers, Sewage Treatment Plant and Appurtenances" will be received by the Board of Trustees of the Urbana and Champaign Sanitary District, Urbana, Illinois, at its office in the Flat Iron Building, Urbana, until 10:30 o'clock a.m. on the 16th day of April, 1923, and will then be publicly opened and read.

The work for which proposals are invited includes the following divisions:

DIVISION A, SEWERS. This division includes about 25,000 feet of intercepting sewer 8 inches to 30 inches in diameter, one inverted siphon and all manholes and appurtenances to serve about 70,000 population.

DIVISION B, SEWAGE TREATMENT PLANT. This division includes the construction of a sewage pumping station, four primary settling tanks, sprinkling filters, conduits, buildings and appurtenances for a sewage treatment plant to serve about 45,000 population.

The work includes wet and dry excavation, the making of embankments, backfilling, disposal of surplus excavation, and the placing of concrete, brickwork, filter stone, iron castings, sheeting, bracing and other material as specified.

The work is located in streets and rights-of-way through Champaign and Urbana and on property owned or leased by the Sanitary District adjacent to the northeast part of Urbana, in the Township of Urbana, Champaign County, Illinois.

Each proposal must contain the full name of every person or company interested in the same and must be accompanied by cash or a certified check on a bank in Urbana or Champaign or on a State or National Bank in good standing, and made payable to the order of the President of the Urbana and Champaign Sanitary District, in the following amounts:

Division A—$3,500.00
B— 8,500.00
A and B—10,000.00

This sum is a guarantee that if the proposal is accepted, a contract will be entered into and its performance properly secured.

All proposals must be made upon blank forms furnished by the Sanitary District and in accordance with the "Requirements for Bidding and Instructions to Bidders" attached thereto.

Proposals may be made upon one division or both divisions complete, but not on any part of either division.

The Board of Trustees of the Sanitary District reserves the right to reject any or all bids, waive or not waive any informality in the bids received and to accept or reject such items and divisions of the work as it deems most favorable to the Urbana and Champaign Sanitary District.

Requirements for bidding, instructions to bidders, form of proposal, contract, specifications, form of bond and plans may be obtained from the District Manager of the Sanitary District or at the offices of Pearse, Greeley & Hansen, 39 West Adams Street, Chicago, Illinois, upon deposit of Fifteen Dollars ($15.00), which sum so deposited will be refunded if said plans, specifications, etc., are returned in good condition within thirty (30) days after the opening of bids.

Dated this 12th day of March, A. D. 1923.

URBANA AND CHAMPAIGN SANITARY DISTRICT, URBANA, ILLINOIS,
By P. W. WRIGHT, President,
Its Board of Trustees.

Attest: C. N. RILEY, Clerk.

Bids: April 13.

Transmission Line and Telephone Line

Seattle, Wash.

The City of Seattle, Washington, will call for bids for the construction of 100 miles of 165 K.V. Transmission Line and Telephone Line. Specifications will be complete March 30th and bids will be called for Friday, April the Thirteenth.

Intending bidders should familiarize themselves in the meantime with all details, so that bids can be made out at the proper time.

All necessary information can be obtained at the office of The Skagit River Development, 1400 Alaska Building, Seattle, Washington.

C. E. HIRDEN.

OFFICIAL PROPOSALS

Bids: April 10.

Water Filtration Plant

Toronto, Ohio.

The Board of Trustees of Public Affairs of the Village of Toronto, Ohio, will receive bids for the furnishing of materials, labor and equipment and the construction of a water filtration plant, until 12:00 o'clock noon, Eastern Standard Time, Tuesday, April 10th, 1923, at the Municipal offices in the Village of Toronto, Ohio.

The work consists of two 1,000,000 gallons per day mechanical filter units with the accompanying auxiliary works, one 2,000,000 gallons per day motor driven centrifugal high-lift pump, 1 2,000,000 gallons per day motor driven centrifugal low-lift pump, the necessary electrical installations, piping and other appurtenances, as per Plans and Specifications.

Any intending Bidder will be required to indicate to the satisfaction of the Engineers, or upon appeal to the satisfaction of the Board of Trustees of Public Affairs, that they have had experience in building work of this class, and to show their financial ability and give references as to past experience. Any Contractors inexperienced in the building of mechanical filtration plants or the structural work incidental thereto need not apply.

The work will be advertised under eight items, but the Contract may be let as one Contract, or divided among the eight parts depending upon the bids received.

Each bidder will be required to furnish a Banker's Certificate or a satisfactory Bidder's Bond in the amount of 10 per cent (10%) of the total amount of the bid, guaranteeing that he will enter into the Contract precisely as originally prepared, provided said Contract is awarded him.

The Contractor to whom the Contract will be awarded will be required to furnish a satisfactory Bond on a satisfactory Bonding Company, in the amount of one hundred per cent (100%) of the total bid, said Bond to guarantee the faithful performance of the Contract in all respects and the completion of said Contract within the time specified or any extensions which might be granted thereto.

Plans, Specifications and Bidding Blanks may be received from the Engineers, Hudson & Myron, 808 Wabash Building, Pittsburgh, Pa., upon proper application, and a deposit of $20.00 may be required of any Bidder, subject to the presentation and return of said Plans, Specifications, etc. In case a Contractor receiving Plans does not offer a bid and returns the Plans in good condition, then $10.00 of the $20.00 will be refunded to him, the other $10.00 being retained to cover the cost of excessive sets of Plans. In case any Contractor, however, receiving Plans and data and submitting a bid, and in case all data, with Plans, is returned to the office in good condition, then said Contractor will be refunded the entire amount of $20.00. In case any Contractor receiving Plans and data and not returning the same within two (2) weeks' time after the opening of bids, then said Contractor will forfeit the entire amount of the deposit of $20.00.

The Board of Trustees of Public Affairs reserves the right to reject any part or the total parts of any or all bids received.

SAMUEL McADOO,
President of the Board.
S. H. CAREY,
Secretary of the Board.
W. D. CAMPBELL,

Bids: April 5.

Water Works and Sewerage Improvements

Fayetteville, N. C.

Sealed proposals will be received by the Public Works Commission of the City of Fayetteville, N. C., until 3:00 p.m., April 5th, 1923, for improvements to the City Water Works and Sewerage Systems.

The improvements consist of furnishing and laying approximately 1,600 tons of cast iron water pipe and special castings, sizes 6-inch to 12-inch inclusive, and furnishing valves and hydrants; the construction of a 300,000 gallon elevated tank, etc.; furnishing and laying approximately 87,000 feet of vitrified pipe sewers, sizes 8-inch to 18-inch inclusive; the construction of 293 manholes and 20 flush tanks; and miscellaneous improvements to the pumping and filter plants such as equipment of present filters with new manifold and strainer systems, rate controllers, loss of head and rate of flow gages; and the furnishing and installation of one chlorinator, one motor driven centrifugal pump, one Venturi meter, etc. The plant improvements also include the construction of various concrete structures.

Proposals must be marked "Proposals for Water Works and Sewerage Improvements for the City of Fayetteville, N. C." All bids must be submitted on blank forms to be provided in copies of the proposal, contract and specifications.

Each bid must be accompanied by a certified check for five (5) per cent of the amount of the bid, as evidence of good faith.

Plans, copies of the proposal, contract and specifications, etc., may be obtained on application to the Engineer or these may be seen at the office of the Secretary of the Public Works Commission in Fayetteville.

The Commission reserves the right to reject any or all bids and to award contracts which appear to be for the best interests of the City.

WILLIAM C. OLSEN,
Consulting Engineer.
H. J. McBUIE, Secy, Kinston, N. C.

OFFICIAL PROPOSALS

Bids: March 24.

Sewer

Milwaukee, Wis.

Construction of a Main Sewer to be located in St. Francis Ave., First St., Elizabeth Ave., Pennsylvania Ave. and Thompson Ave. Published by authority of the Metropolitan Sewerage Commission of the County of Milwaukee.

Sealed proposals for the construction of extensions to the Intercepting Sewer System of the County of Milwaukee, State of Wisconsin, will be received by the Metropolitan Sewerage Commission of said County at its offices, 508 Market Street, Milwaukee, Wisconsin, until 2 o'clock p.m., the 24th day of March, 1923, at which time and place, during the session of the said Commission, the proposals will be publicly opened and read.

The work to be done embraces the building of the following approximate work:

9,060 lineal feet of 36" Concrete Sewer (in tunne)l

Together with all manholes and other appurtenances.

The time allowed for the completion of this contract shall be twelve (12) months from the date of the Engineer's notice to begin the work.

The liquidated damages for not completing the work within the time above stated shall, for each day in excess thereof, be Ten ($10.00) Dollars.

Each proposal submitted must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a National or State Bank or Trust Company, and to the order of the "Metropolitan Sewerage Commission of the County of Milwaukee," to the amount of Twenty-five Hundred ($2,500.00) Dollars.

Specifications and blank forms of proposals can be obtained and detailed plans examined at the office of the Metropolitan Sewerage Commission, 508 Market Street, Milwaukee, Wis., and a full set of plans will be sent to any contractor upon receipt of five dollars ($5.00). This sum will be returned upon surrender of the plans in good condition, if returned within thirty days after the award of the contract.

The Metropolitan Sewerage Commission of the County of Milwaukee reserves the right to reject any and all bids submitted.

JOHN H. FOWLES,
Secretary.

Bids: Mar. 21.

Water Works Improvements

Roxboro, N. C.

Sealed proposals will be received by the Mayor and Board of Commissioners of the Town of Roxboro, North Carolina, until 2 o'clock p.m., Wednesday, March 21st, 1923, for developing a new source of water supply. The principal items entering into the work are as follows:

Laying 20,000 feet of 12-inch cast iron B & S water pipe.

Building concrete and brick filter plant; concrete and brick pumping station; concrete reservoir; and earth dam with masonry spillway.

Furnishing and erecting filter equipment.

Furnishing and installing one 500 GPM centrifugal pump with electric motor and one 500 GPM centrifugal pump with gas engine drive.

Clearing impounding reservoir site—60 acres.

Plans will be on file and may be seen at the office of The Ludlow Engineers at Winston-Salem, N. C., or at the office of the Mayor at Roxboro, N. C., after March 1st. After that date copies of the Specifications, Bid Blank, and Contract Form may be obtained from the Engineers.

For the convenience of prospective bidders the Engineers will furnish full set of blue print copies of the plans upon application accompanied by a check for $7.50 to cover the cost, or separate prints at $1.00 each.

Each bid must be accompanied by a certified check payable to the Treasurer of the Town of Roxboro, in the sum of $4,000 with complete bids, or approximately 5% of the amount of partial bids.

Proposals will be opened publicly with the usual rights reserved.

Bids: April 10.

Sanitary Sewer System

Hazard, Ky.

Sealed proposals for constructing a sanitary sewer system will be received by the City Clerk of Hazard, Ky., until 12 o'clock noon on Tuesday, April 10, 1923, and will then be opened and read publicly.

All bids shall be made upon the official proposal blank attached to the instructions to bidders, specifications, form of contract and bond, which may be seen at the office of the City Clerk, Hazard, Ky., or may be obtained by bona fide bidders upon application to the J. N. Chester Engineers, Union Bank Bldg., Pittsburgh, Pa., or Arline G. Taylor, City Clerk.

Each proposal shall be accompanied by a certified check, or an acceptable bidding bond may be offered in place of the certified check at the bidder's option, made payable to the order of J. W. Craft, Mayor of Hazard, Ky., of not less than three per cent (3%) of the total amount of the bid, but in no case shall this check be less than fifty dollars ($50.00). This check is to be conditioned that if bid is accepted, a contract will be entered into and performance of same secured within ten (10) days after notification of acceptance of the bid. In case bid is rejected, or contract entered into, check will be returned. Successful bidders will be required to furnish a corporate surety bond in an acceptable surety company in the full amount of the contract.

The right is reserved to reject any or all bids.

J. W. CRAFT, Mayor.

OFFICIAL PROPOSALS

Bids: April 10.

Water Filtration Plant

Toronto, Ohio.

The Board of Trustees of Public Affairs of the Village of Toronto, Ohio, will receive bids for the furnishing of materials, labor and equipment and the construction of a water filtration plant, until 12:00 o'clock noon, Eastern Standard Time, Tuesday, April 10th, 1923, at the Municipal offices in the Village of Toronto, Ohio.

The work consists of two 1,000,000 gallons per day mechanical filter units with the accompanying auxiliary works, one 2,000,000 gallons per day motor driven centrifugal high-lift pump, 1 2,000,000 gallons per day motor driven centrifugal low-lift pump, the necessary electrical installations, piping and other appurtenances, as per Plans and Specifications.

Any intending Bidder will be required to indicate to the satisfaction of the Engineers, or upon appeal to the satisfaction of the Board of Trustees of Public Affairs, that they have had experience in building work of this class, and to show their financial ability and give references as to past experience. Any Contractors inexperienced in the building of mechanical filtration plants or the structural work incidental thereto need not apply.

The work will be advertised under eight items, but the Contract may be let as one Contract, or divided among the eight parts depending upon the bids received.

Each bidder will be required to furnish a Banker's Certificate or a satisfactory Bidder's Bond in the amount of 10 per cent (10%) of the total amount of the bid, guaranteeing that he will enter into the Contract precisely as originally prepared, provided said Contract is awarded him.

The Contractor to whom the Contract will be awarded will be required to furnish a satisfactory Bond on a satisfactory Bonding Company, in the amount of one hundred per cent (100%) of the total bid, said Bond to guarantee the faithful performance of the Contract in all respects and the completion of said Contract within the time specified or any extensions which might be granted thereto.

Plans, Specifications and Bidding Blanks may be received from the Engineers, Hudson & Myron, 808 Wabash Building, Pittsburgh, Pa., upon proper application, and a deposit of $20.00 may be required of any Bidder, subject to the presentation and return of said Plans, Specifications, etc. In case a Contractor receiving Plans does not offer a bid and returns the Plans in good condition, then $10.00 of the $20.00 will be refunded to him, the other $10.00 being retained to cover the cost of excessive sets of Plans. In case any Contractor, however, receiving Plans and data and submitting a bid, and in case all data, with Plans, is returned to the office in good condition, then said Contractor will be refunded the entire amount of $20.00. In case any Contractor receiving Plans and data and not returning the same within two (2) weeks' time after the opening of bids, then said Contractor will forfeit the entire amount of the deposit of $20.00.

The Board of Trustees of Public Affairs reserves the right to reject any part or the total parts of any or all bids received.

OFFICIAL PROPOSALS

Bids: Mar. 27.

Barge Canal Terminal

Albany, N. Y.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, March 27th, 1923, at which place and hour they will be publicly opened and read, for the construction of Barge Canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and amendatory laws, as follows:

TERMINAL CONTRACT NO. 237.

For constructing a terminal freighthouse at Oswego. Contract plans, sheets 1 to 9, inclusive.

Plans may be seen and detailed specifications, engineer's estimates of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y.; at the office of the Assistant Superintendent of Public Works for the Western Division, at Rochester, N. Y.; at the offices of the Superintendent of Public Works, Erie Basin Terminal, Buffalo, N. Y., and Terminal Warehouse, Pier 6, East River, New York City.

Blueprint copies of plans will be furnished by the State Engineer and Surveyor upon the receipt at his office in the Telephone Building, Albany, N. Y., of payment at the rate of fifteen cents (15c.) per sheet. Refund will not be made for any blueprints which may be returned.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent) of the estimated cost of the work, according to the contract price, and an additional bond known as the labor bond, in the sum of ten per centum (10 per cent) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y.; and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

EDWARD S. WALSH.
Superintendent of Public Works.

February 21st, 1923.

OFFICIAL PROPOSALS

Bids: April 6.

Water Works and Sewerage Systems

Lyndonville, N. Y.

Sealed Proposals will be received by the Board of Trustees of the Village of Lyndonville, N. Y., until two o'clock p.m. on the 6th day of April, 1923, for the construction of a sewerage system and disposal works; and also for the construction of a water works system, the latter consisting of about five and one-third miles of cast iron mains, hydrants, valves, pump house, slow sand filter, water tower and accessories.

Plans may be seen and specifications obtained at the office of the Board at Lyndonville, or at the office of Hopkins & Field, Engineers, 349 Cutler Building, Rochester, N. Y.

The Board hereby reserves and has the right to reject any or all bids or to accept those that in its judgment will be for the best interests of the Village, and to waive any informality in the bidding.

A surety bond satisfactory to the Board in sufficiency of surety and in the amount of forty per cent of the bid will be required of the one to whom a contract may be awarded.

Bids will be received for the sewerage system and disposal works and separately for the water works pipe laying, pump house, filter, pure water reservoir and water tower foundations, cast iron pipe and special castings, valves, valve boxes and hydrants, water tower and pumping equipment.

A certified check made payable to the order of the Board of Trustees, Lyndonville, N. Y., to the amount of $1,000 must be deposited by each bidder and accompany his bid as a guarantee that in case the contract is awarded to him he will, within ten days thereafter, execute such contract and furnish his bond.

Bids must be sealed and addressed to the Board of Trustees, Lyndonville, N. Y., and marked on the outside of the enclosing envelope "Proposal for Sewerage (or Water Works) System."

RICHARD N. PARSONS,
President.
BENJAMIN J. WARD,
Trustee.
JAY W. BREED,
Trustee.

DONALD M. FRASER, Village Clerk.
Dated Lyndonville, N. Y., March 10, 1923.

Bids: April 26.

Water Tube Boilers

New Orleans, La.

Sealed proposals will be received by the Sewerage and Water Board of New Orleans up to 12 o'clock noon, Thursday, April 26th, 1923, for furnishing 1,500-1,800 hp. Water Tube Boilers.

Specifications and blank forms of proposals may be obtained at Room 303, No. 526 Carondelet Street, New Orleans.

The right is reserved to reject any or all bids.

GEO. G. EARL,
General Superintendent.

A. G. MOFFAT,
Secretary.

Bids: April 5.

Concrete Wharf, Chain Walls, etc.

New Orleans, La.

Sealed proposals will be received by the Board of Commissioners of the Port of New Orleans at their office, Suite 200, New Court Building, until 3:00 p.m., April 5, 1923, and then publicly opened for concrete wharf, chain walls and column footings for shed at Claiborne Avenue Landing.

A deposit of $10,000 in cash or certified check is required with each proposal.

A bond to the amount of 50% of the sum bid is required with notarial contract.

Specifications and proposal forms are on file in the office of the Supervisor of Purchases, at No. 1 Canal Street, New Orleans, Louisiana. Complete sets will be furnished to prospective bidders on deposit of $5, which will be refunded to depositors who submit proposals, or return sets in good condition.

The right is reserved to reject any or all bids and to waive informalities.

J. H. WALSH,
General Manager.

OFFICIAL PROPOSALS

Bids: April 10

Dredging

Baton Rouge, La.

Sealed Proposals will be received at the office of the LOUISIANA HIGHWAY COMMISSION, Reymond Building, Baton Rouge, Louisiana, up to time specified below, Tuesday, April 10th, 1923, at which time and place they will be publicly opened for constructing Section "A" of Federal Aid Project 127 Hammond-New Orleans Highway, as follows:

Section "A," Tangipahoa Parish. From a point 1.6 miles South of Ponchatoula to Pass Manchac, 8.834 miles.

Bids to be received up to 12 o'clock noon. Approximate quantities involved: 770,388 Cubic Yards of dredged borrow, 12,682 feet B. M. cresoted lumber, 2,240 feet creosoted piling, 397.49 Stations timber corduroy, 195 acres clearing and 80 acres grubbing.

Section "B," St. John, the Bapist Parish. From Pass Manchac to Frenier, 13.173 miles

Bids to be received up to 3 o'clock p.m. Approximate quantities involved: 853,682 Cubic Yards dredged borrow, 602,366 Stations timber corduroy, 316 acres clearing, and 125 acres grubbing.

Construction of both Sections consists of clearing, grubbing, and grading roadway embankment. A canal will be dredged parallel to the Highway and all suitable material taken therefrom will be used in constructing the roadway embankment. Said embankment to be placed on timber Corduroy where specified by the State Highway Engineer.

Information as to the location, character of work, extent and class of material, terms of payment, regulations governing manner of submitting proposals and executing contract, may on application, be obtained at the office of the Louisiana Highway Commission, Reymond Building, Baton Rouge, Louisiana. Plans and Specifications may be inspected at the office of the Commission in Baton Rouge, or will be furnished upon receipt of $5.00 as payment therefor not to be refunded.

J. M. FOURMY,
State Highway Engineer.

W. T. PETERMAN, Chairman,
Louisiana Highway Commission.

Bids: April 2.

Road Work

White Plains, N. Y.

Co. Road No. 4—Town of Mt. Pleasant, 1.02 miles.

Co. Road No. 12—Towns of Bedford and No. Castle, 3.63 miles.

Co. Road No. 13—Town of Yorktown, 2.96 miles.

Specifications, proposal sheets and all information relative to the above work may be secured at the office of the County Engineer, Court House, White Plains, N. Y. Deposit required for plans—Road No. 4, $3.00; Roads No. 12 and No. 13, $10.00 each.

BOARD OF SUPERVISORS.
FRED L. MERRITT, Clerk.

March 12, 1923.

Bids: April 3.

Highway Work

Harrisburg, Pa.

Pennsylvania State Highway Department, Harrisburg, Pa. Sealed proposals will be received at the State Capitol until 10 a.m., April 3, 1923, when bids will be publicly opened and scheduled and contract awarded as soon thereafter as possible for the reconstruction of 40 miles of either Bituminous Surface on a Concrete foundation or One Course Reinforced Concrete Pavement, 30 miles of One Course Reinforced Concrete Pavement and 3 miles of Bituminous Macadam Pavement. Bidding blanks and specifications may be obtained free, and plans upon payment of $2.50 per set, upon application to State Highway Department, Harrisburg. No refund for plans returned. They also can be seen at office of State Highway Department, Harrisburg, 1001 Chestnut Street, Philadelphia, and 119 Federal Street, N. S., Pittsburgh, Pa.

P. D. WRIGHT.
State Highway Commissioner.

OFFICIAL PROPOSALS

Bids: April 3.

Highway Work

Albany, N. Y.

State Commission of Highways, Albany, N. Y.—Pursuant to Chapter 30, Laws of 1909, and amendments thereto, sealed proposals will be received by the undersigned at No. 55 Lancaster Street, Albany, N. Y., at 1 o'clock p.m., on Tuesday, the third day of April, 1923, for the furnishing and delivering bituminous material "A" f.o.b. railroad cars at destination for use by the State Highway Commission, in the maintenance and repair of improved state and county highways in all of the counties of the State, unless otherwise specified, for the following contracts:

B. M. Contract No. 1, Bituminous Material "A"—Cut Back for use in Divisions Nos. 1 & 5.

B. M. Contract No. 2, Bituminous Material "A"—Cut Back for use in Divisions Nos. 2, 3 & 4.

B. M. Contract No. 3, Bituminous Material "A"—Cut Back for use in Divisions Nos. 6, 7, 8 & 9.

Proposals will be for furnishing the specified material at any railroad delivery point within the divisions named in the proposal.

Table showing approximate quantities and anticipated railroad delivery points, specifications and proposals may be obtained at the office of the State Commission of Highways at Albany, N. Y.

Special attention of bidders is called to "General Information for Bidders" in the proposal, specifications and contract agreement. Proposal for each contract must be submitted in a separate sealed envelope with the name and number of the contract plainly endorsed on the outside of the envelope. Each proposal must be accompanied by cash, draft of certified check payable to the order of the State Commission of Highways for an amount equal to at least 3 per cent of the amount of the proposal. The retention and disposal of such cash, draft or check by the State Commission of Highways shall conform with Subdivision 3, Section 130 of the Highway Law, as amended by Chapter 623, Laws of 1919.

The successful bidder will be required to execute the contract and comply in all respects with Section 130 of the Highway Law as amended by Chapter 623.

The right is reserved to reject any or all bids.

FRED'K STUART GREENE
Commissioner

W. A. PATTON, Secretary.

Bids: April 18.

Mechanical Filter Plant

Richmond, Va.

Sealed proposals for the construction of a mechanical filter plant, consisting of Substructures, Contract No. 1; Equipment, Contract No. 2; and Superstructures, Contract No. 3, will be received at the office of the Director of Public Utilities, City Hall, Richmond, Va., until 12 o'clock, noon of Wednesday, April 18, 1923; and at that time publicly opened and read.

Contract No. 1 includes about 9,500 cu. yds. of reinforced concrete masonry and about 13,000 cu.yds. of excavation in connection with the construction of 10 filter tanks, a basin beneath them, two coagulating basins and other appurtenant work.

Contract No. 2 includes about 200 tons of cast-iron pipe and specials, over 60 gate valves and sluice gates, filter sand and gravel, and all filter equipment for a 30-million-gallon filter plant. It also includes six electrically-driven centrifugal pumps.

Contract No. 3 includes brick superstructures for the plant, comprising a one-story filter building about 110 ft. by 150 ft., and a two story head house about 50 ft. by 125 ft.

Copies of plans, specifications and forms of proposal covering all three contracts may be obtained at the office of the Department of Public Utilities, City Hall, Richmond, or at the office of Fuller and McClintock, Engineers, 170 Broadway, New York, on or after March 26, upon deposit of $25.00 for each set of plans and specifications furnished.

Certified checks are required in the sum of $15,000 for Contract No. 1, $10,000 for Contract No. 2 and $5,000 for Contract No. 3.

The right is reserved to reject any or all bids.

E. W. TRAFFORD,
Director of Public Utilities.

OFFICIAL PROPOSALS

Bids: April 13.

Transmission Line and Telephone Line

Seattle, Wash.

The City of Seattle, Washington, will call for bids for the construction of 100 miles of 165 K.V. Transmission Line and Telephone Line. Specifications will be complete March 30th and bids will be called for Friday, April the Thirteenth.

Intending bidders should familiarize themselves in the meantime with all details, so that bids can be made out at the proper time.

All necessary information can be obtained at the office of The Skagit River Development, 1400 Alaska Building, Seattle, Washington.

C. F. UHDEN.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

Bids: April 2.

City Wharf

Norwalk, Conn.

Sealed proposals will be received by the undersigned at Room 7, City Hall, Norwalk, Conn., for alternate bids for the construction of about 200 lin.ft. of concrete and creosoted lumber wharf with appurtenances, until Monday, April 2, at 7 o'clock p.m., after which time they will be publicly opened and read by the Washington Street Bridge Construction Committee.

A certified check in the amount of $1,000, made payable to said Committee, must accompany each bid as an evidence of good faith to execute contract. Plans, specifications, proposal sheets and all information relative to same may be procured from the undersigned upon making a deposit of $5.

The right is reserved to reject all proposals and readvertise for the awarding of said work if, in the judgment of said Committee, the interests of the city will be enhanced thereby.

DOMINICK B. EULA,
Engineer in Charge.

JOHN H. McMAHON, Chairman.

OFFICIAL PROPOSALS

Bids: April 10.

Intercepting Sewer

Toledo, Ohio.

Sealed proposals will be received by the Director of Public Service, Toledo, Ohio, until twelve o'clock noon, eastern standard time, on the 10th day of April, 1923, and then publicly opened and read for the construction of Contract No. 6 of the Intercepting Sewer System, consisting of

2,295 feet of 78-inch circular sewer.
2,155 feet of 72-inch circular sewer.
4,940 feet of 69-inch circular sewer.
1,970 feet of 66-inch circular sewer.
4,575 feet of 51-inch circular sewer.
1,500 feet of 39-inch circular sewer.

all of which will be built in tunnel, together with two inverted siphons, special and standard manholes and appurtenances.

Bidders are invited to submit prices on monolithic concrete, vitrified segment block and brick.

Plans, specifications, contract and bond forms can be secured at the office of the Director of Public Service upon deposit of Twenty dollars ($20.00) for each set, which will be refunded provided they are returned in good order on or before May 15, 1923.

Information regarding the work can be obtained through the following offices of our consulting engineers, Fuller & McClintock, 170 Broadway, New York, 319 Summit-Cherry Bldg., Toledo, 421 Produce Exchange Building, Kansas City, Mo., 879 North Parkway, Memphis, Tenn., and 1001 Chestnut Street, Philadelphia, Pa.

Each proposal must be accompanied by a bond executed by the bidder and a surety company satisfactory to the Director of Public Service in the sum of Ten Per Cent (10%) of the amount of the bid, or in lieu of a bond the bidder may deposit with the Director of Public Service, a certified check on a solvent bank, payable to the order of the Director of Public Service, in amount equal to such bond, said bond or certified check being required as a guarantee that if the bid be accepted, a contract will be entered into and its performance properly secured.

The contract bond will be Fifty Per Cent (50%) of the amount of the contract. Labor and material bids mut be separately stated with the price therefor.

The Director of Public Service reserves the right to reject any or all bids or to accept any bid which he may deem advantageous to the City of Toledo.

W. T. JACKSON,
Director of Public Service.

GEORGE E. LASKA,
Secretary.

Bids: April 3

Dam Construction

Newburgh, N. Y.

Sealed proposals for the construction of dams will be received by the City Manager, Newburgh, N. Y., at his office in the City Hall until 12 o'clock, noon, on Tuesday, the 3rd day of April, 1923, and at that time will be publicly opened and read.

The work comprises the construction of two dams, an easterly earth dam with a concrete core wall and spillway, and alternate bids are asked for the construction of the second dam adjacent to the easterly dam, two alternatives providing for an earth dam with concrete core wall and the other for a reinforced concrete facing wall with earth backing. The work lies about two miles southerly of Newburgh at the point where the southerly branch of Silver Stream crosses under the New York City Aqueduct. While the bids are divided as between the east and west dam, the work will be let to a single contractor, the character of construction for the west dam being decided by economical construction as represented by the bids.

Each bid must be accompanied by a certified check upon an acceptable National Bank or Trust Company, made payable to the order of the city of Newburgh, or by cash to the amount of $5,000.

Copies of the plans and specifications may be examined at the office of the City Engineer of Newburgh, N. Y., and copies of plans, specifications, contract and form of proposal may be obtained at that office or at the office of the Engineers, Fuller & Harding, 170 Broadway, N. Y., upon the deposit of $15, of which $10 will be refunded if the said plans and specifications are returned in good condition.

W. JOHNSTON McKAY,
City Manager.

OFFICIAL PROPOSALS

Bids: April 4.

Bridge

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the construction of Bridge No. Ma-6 Church St., Matawan; consisting of one thirty-six foot plate girder span encased in gunite and twenty-two roadway, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey on Wednesday, April 4th, 1923, at 11:00 a.m.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB,
Director

CHARLES E. COLE, Clerk.
Freehold, N. J., March 10th, 1923.

Bids: April 16.

Street Resurfacing and Storm Sewer Construction

Canonsburg, Pa.

Separate and sealed proposals will be received by the Borough Council of Canonsburg, Pa., until April 16th, 1923, at 7:30 p.m., for placing approximately 7,500 sq. yd. of street resurfacing with asphaltic concrete.

For unloading sewer pipe and construction of storm water sewers according to plans and specifications. Estimated quantities: 192 lin.ft. of 30 in. Reinforced Concrete Railroad Culvert Pipe; 950 lin.ft. of 30 in. Cement sewer Pipe; 290 lin.ft. of 27 in.; 530 lin.ft. of 24 in.; 270 lin.ft. of 20 in.; manholes and catch basins together with appurtenances.

Plans, specifications and estimates may be seen and examined and further information may be obtained at the office of H. M. Day, Borough Engineer, 35 W. Pike St., Canonsburg, Pa.

Each proposal must be accompanied by a certified check for 5 per cent of the tendered bid and made payable to the Treasurer of the Borough of Canonsburg. Bond shall be 50 per cent of total contract awarded. The Council reserves the right to reject any or all bids, or to accept any bid or bids for sewers or resurfacing which may appear, in their judgment, to be to the best interest of the Borough.

W. C. BLACK,
Borough Secretary.

March 16, 1923.

OFFICIAL PROPOSALS

Bids: April 5.

Reinforced Concrete and Brick Pavement

Burlington, Vt.

Sealed proposals will be received by the City of Burlington on April 5th at five p.m. o'clock, standard time, at the City Hall, Burlington, Vermont, for the improvement of sections of Church, Pearl, Winooski Avenue Bank and Battery Streets. The work will consist of approximately 11,500 square yards of reinforced concrete, 1,400 square yards brick pavement and 4,900 lin.ft. concrete curb.

All bids must be upon blanks provided in the proposal furnished to bidders.

Bids must be accompanied by a certified check for three per cent (3%) of the amount of the bid. Plans and specifications will be on file at the City Clerk's office, City Hall, Burlington, Vermont, and at the office of the Engineer, H. Eltinge Breed, Room 600, 507 Fifth Avenue, New York City.

Copies of the plans and specifications may be obtained as above for three dollars ($3.00) per set.

No refund for blanks returned. Bidding blanks will be furnished free.

The right is reserved to reject any or all bids.

EDWARD CORLEY,
City Clerk.

Bids: April 2.

Bridge Letting in Lake Co.

Waukegan, Ill.

Notice is hereby given that sealed proposals will be received at the office of the County Supt. of Highways in Waukegan, Illinois, on Monday, April 2, 1923, at 2 o'clock p.m., for the construction of 130 foot reinforced concrete bridge over the Des Plaines River at Gurnee, Illinois, in accordance with plans and specifications on file in said office and in the office of the Bridge Dept. of the Div. of Highways of Springfield, at which places they may be examined. Complete copies may be had upon a deposit of the sum of Ten Dollars which will be refunded upon the return of the plans from bona fide bidders.

Approximate quantities are:
473 cu.yds. Class "A" Concrete.
69,870 lbs. Reinforcing Steel.
162 Piles.
Misc. iron, etc.

A certified check for $500 shall accompany all proposals.

Right is reserved to reject any and all bids.

Dated at Waukegan, Illinois, this 10th day of March, 1923.

By order of Road and Bridge Committee and Highway Commissioner of Town of Warren.

CHARLES E. RUSSELL,
Co. Supt. of Highways.

Mechanical Filter Plant

Richmond, Va.

Sealed proposals for the construction of a mechanical filter plant, consisting of Substructures, Contract No. 1; Equipment, Contract No. 2; and Superstructures, Contract No. 3, will be received at the office of the Director of Public Utilities, City Hall, Richmond, Va., until 12 o'clock, noon of Wednesday, April 18, 1923; and at that time publicly opened and read.

Contract No. 1 includes about 9,500 cu. yds. of reinforced concrete masonry and about 13,000 cu.vds. of excavation in connection with the construction of 10 filter tanks, a basin beneath them, two coagulating basins and other appurtenant work.

Contract No. 2 includes about 200 tons of cast-iron pipe and specials, over 60 gate valves and sluice gates, filter sand and gravel, and all filter equipment for a 30-million-gallon filter plant. It also includes six electrically-driven centrifugal pumps.

Contract No. 3 includes brick superstructures for the plant, comprising a one-story filter building about 110 ft. by 150 ft., and a two story head house about 50 ft. by 125 ft.

Copies of plans, specifications and forms of proposal covering all three contracts may be obtained at the office of the Department of Public Utilities, City Hall, Richmond, or at the office of Fuller and McClintock, Engineers, 170 Broadway, New York, on or after March 26, upon deposit of $25.00 for each set of plans and specifications furnished.

Certified checks are required in the sum of $15,000 for Contract No. 1, $10,000 for Contract No. 2 and $5,000 for Contract No. 3.

The right is reserved to reject any or all bids.

E. W. TRAFFORD,
Director of Public Utilities.

OFFICIAL PROPOSALS

Bids: April 10.

Street Paving

Easley, S. C.

Sealed proposals will be received by the Paving Commission and the Town Council of Easley, S. C., at the Town Hall, two o'clock P.M., April 10th, 1923, for the furnishing of all labor, materials and equipment necessary for paving of certain streets and the laying of sidewalks.

The approximate amount of work to be done is as follows:

25,000 square yards hard surface pavement.

17,700 lineal feet of combination curb and gutter.

4,000 square yards of sidewalk.

8,000 cubic yards grading.

Proposals must be submitted on the forms which may be obtained at the office of the Town Clerk in Easley or the Engineer's office in Spartanburg. Plans may be seen at both places.

Each proposal must be accompanied by a cashier's check, on a South Carolina Bank, for $1,000.00 made payable to the Treasurer of Easley as evidence of good faith.

The right is reserved to reject any or all bids.

A. B. TAYLOR,
Chairman Paving Commission.

HARWOOD BEEBE,
Engineer,
Spartanburg, S. C.

National Publicity Offers a Two-Fold Advantage

Giving calls for bids National publicity opens the way for additional and possibly lower offers from outside bidders to whom work can be let, if desired.
Then too, local contractors, seeing your contracts advertised Nationally will figure closer, realizing that the field of competitors for the work is greatly enlarged.
An advertisement printed in the Official Proposal Columns of *Engineering News-Record* brings the contract to the attention of not only local bidders but, in addition, any others who might be interested.

Bids: April 10.

Sanitary Sewer System

Hazard, Ky.

Sealed proposals for constructing a sanitary sewer system will be received by the City Clerk of Hazard, Ky., until 12 o'clock noon on Tuesday, April 10, 1923, and will then be opened and read publicly.

All bids shall be made upon the official proposal blank attached to the instructions to bidders, specifications, form of contract and bond, which may be seen at the office of the City Clerk, Hazard, Ky., or may be obtained by bona fide bidders upon application to the J. N. Chester Engineers, Union Bank Bldg., Pittsburgh, Pa., or Arline G. Taylor, City Clerk.

Each proposal shall be accompanied by a certified check, or an acceptable bidding bond may be offered in place of the certified check at the bidder's option, made payable to the order of J. W. Craft, Mayor of Hazard, Ky., of not less than three per cent (3%) of the total amount of the bid, but in no case shall this check be less than fifty dollars ($50.00). This check is to be conditioned that if bid is accepted, a contract will be entered into and performance of same secured within ten (10) days after notification of acceptance of the bid. In case bid is rejected, or contract entered into, check will be returned. Successful bidders will be required to furnish a corporate surety bond in an acceptable surety company in the full amount of the contract.

The right is reserved to reject any or all bids.

J. W. CRAFT, Mayor.

Attest:
ARLINE G. TAYLOR,
City Clerk.
March 10, 1923.

OFFICIAL PROPOSALS

Bids: April 10.

Intercepting Sewer

Toledo, Ohio.

Sealed proposals will be received by the Director of Public Service, Toledo, Ohio, until twelve o'clock noon, eastern standard time, on the 10th day of April, 1923, and then publicly opened and read for the construction of Contract No. 6 of the Intercepting Sewer System, consisting of

2,295 feet of 78-inch circular sewer.
2,155 feet of 72-inch circular sewer.
4,940 feet of 69-inch circular sewer.
1,970 feet of 66-inch circular sewer.
4,575 feet of 51-inch circular sewer.
1,500 feet of 39-inch circular sewer.

all of which will be built in tunnel, together with two inverted siphons, special and standard manholes and appurtenances.

Bidders are invited to submit prices on monolithic concrete, vitrified segment block and brick.

Plans, specifications, contract and bond forms can be secured at the office of the Director of Public Service upon deposit of Twenty dollars ($20.00) for each set, which will be refunded provided they are returned in good order on or before May 15, 1923.

Information regarding the work can be obtained through the following offices of our consulting engineers, Fuller & McClintock, 170 Broadway, New York, 319 Summit-Cherry Bldg., Toledo, 421 Produce Exchange Building, Kansas City, Mo., 879 North Parkway, Memphis, Tenn., and 1001 Chestnut Street, Philadelphia, Pa.

Each proposal must be accompanied by a bond executed by the bidder and a surety company satisfactory to the Director of Public Service in the sum of Ten Per Cent (10%) of the amount of the bid, or in lieu of a bond the bidder may deposit with the Director of Public Service, a certified check on a solvent bank, payable to the order of the Director of Public Service, in amount equal to such bond, said bond or certified check being required as a guarantee that if the bid be accepted, a contract will be entered into and its performance properly secured.

The contract bond will be Fifty Per Cent (50%) of the amount of the contract. Labor and material bids mut be separately stated with the price therefor.

The Director of Public Service reserves the right to reject any or all bids or to accept any bid which he may deem advantageous to the City of Toledo.

W. T. JACKSON,
Director of Public Service.

GEORGE E. LASKA,
Secretary.

Bids: April 3.

Hauling Stone Chips

Baltimore, Md.

Sealed proposals for hauling approximately 16,463 tons of stone chips in three Districts as follows:

	Tons
Dist. No. 3—Montgomery and Prince George's Counties	3,245
" No. 5—Carroll, Howard, Frederick and Montgomery Counties	8,640
" No. 6—Allegany, Frederick, Garrett and Washington Counties	4,578
	16,463

will be received by the State Roads Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M., on the 3rd day of April, 1923, at which time and place they will be publicly opened and read.

Bids must be made in letter form. Blue prints, showing details, furnished by this Commission upon request.

No bid will be received unless accompanied by a certified check for the sum of One Hundred ($100.00) Dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By order of the State Roads Commission this 19th day of March, 1923.

JOHN N. MACKALL,
Chairman.

L. H. STEUART,
Secretary.

OFFICIAL PROPOSALS

Bids: April 11

Sea Bright-Highlands Road

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the Reconstruction of the Sea Bright-Highlands Road, No. 54, with a Reinforced Concrete Pavement, for a distance of 2.27 miles, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey on Wednesday, April 11th at 11:00 a.m.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB,
Director.

Bids: April 24.

Storm Water Drain

Buffalo, N. Y.

The Commissioner of Public Works will receive sealed proposals at Room No. 3 Municipal Building, Buffalo, N. Y., until 11 o'clock a.m., April 24th, 1923, for the construction of a reinforced concrete storm water drain 33 feet 6 inches and 32 feet 6 inches inside width, vertical side walls seven feet in height with semi-eliptical arch roof of seven feet rise or fourteen feet high at center, length 7,154 feet, to care for the storm water of Scajaquada Creek.

Work consists of the following: Caring for dry weather and storm flow of the creek.

(Normal dry weather flow estimated at about five to twenty cubic feet per second.)

Removal of about 122,435 cu.yd. of earth.

Removal of about 89,684 cu.yds. of rock.

Removal of 9 bridges.

Removal of about 37,862 cu.yd. concrete.

Placing of about 3,464,674 lb. reinforcing steel.

Construction of syphon, overflow connection and side sewers.

Bid and contract will be on a lump sum basis.

No proposal will be considered unless it be accompanied by a certified check upon a National or State Bank drawn and made payable to the Cashier of the Department of Public Works of the city of Buffalo, N. Y., for one hundred thousand dollars ($100,000).

Plans and specifications, form of contract and proposal blanks may be had at the office of the City Engineer, Room No. 20 Municipal Building, Buffalo, N. Y., by depositing $25.00 for same. Said sum shall be returned to bidders submitting proposals. Ten dollars will be returned to those not submitting proposal upon return of plans and specifications in good condition.

The Commissioner of Public Works reserves the right to reject any and all bids and waive any informalities.

Formal advertisement will be found in the Buffalo Commercial Express and Enquirer, March 26th, 27th, April 2nd and 3rd, 1923.

This is not a formal advertisement.

OFFICIAL PROPOSALS

Bids: April 11

Freehold-Eatontown Road

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the Reconstruction of the Freehold-Eatontown Road, No. 42, Section 1, with a Reinforced Concrete Pavement for a distance of 2.48 miles, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey on Wednesday, April 11th at 11:00 a.m.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB,
Director.

Bridge

Johnstown, Pa.

Sealed proposals will be received at the office of the Superintendent of Streets and Public Improvements, City Hall, Johnstown, Pa., until 12 o'clock noon of Monday, April 16th, 1923, for the construction of the Coopersdale Bridge and the Woodvale Bridge in the City of Johnstown, Pa., in accordance with plans, contract and specifications on file in the office of the City Engineer.

The Coopersdale Bridge will cross the Conemaugh River at the foot of Laurel Avenue in the 20th ward, on the west, and Cooper Avenue in the 21st ward on the east. It will consist of three spans of through plate girders each about 92 ft. long, and concrete masonry. There will be a 36 ft. roadway with two lines of trolley tracks and an 8 ft. clear sidewalk.

The Woodvale Bridge will cross the Little Conemaugh at First Street in the 10th and 11th wards. It will consist of one bow string truss span 129 ft. long on existing masonry extended. It will have a 36 ft. roadway with two lines of trolley tracks and two 8 ft. sidewalks.

Plans, specifications, contract and proposals may be seen at the office of the Consulting Engineers, J. E. Greiner & Co., Baltimore, Md., and Pittsburgh, Pa., and can be obtained only at the office of the City Engineer on and after Monday, March 26th, 1923, for a deposit of Five Dollars ($5.00) for each set, which deposit will be refunded on the day of the letting to those submitting bids, provided the sets are returned complete and in good condition.

Each proposal must contain the full name of the party or parties presenting the same and all persons interested therein; and must be accompanied by a bond, duly and legally executed, for an amount that shall not be less than five per cent (5%) of the contract price, or a certified check for like amount on a solvent bank, doing business in the City of Johnstown, Pa., and made payable without reservation to the order of the Treasurer of the City of Johnstown, Pa., as a guarantee that if the proposal be accepted a contract will be entered into.

All proposals must be made on the blank forms furnished with specifications, as none other will be accepted, and they shall be enclosed in an envelope, bearing the name and address of the bidder, marked "Bridge Proposal," and addressed to the "Superintendent of Streets and Public Improvements."

The City reserves the right to reject any or all bids, and to award the contract as may be deemed to the best interests of the City.

M. LEE MASTERTON,
Supt. of Streets and Public Improvements.

Bids: April 11.

Prison Wall

Ossining, N. Y.

Sealed proposals for Construction—Steel Fence, (Prison Wall), Sing Sing Prison, Ossining, N. Y., will be received by Hon. Charles F. Rattigan, Superintendent of State Prisons, Capital, Albany, N. Y., until 12 o'clock noon, Wednesday, April 11, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a deposit, consisting of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York, or money, equal to five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4035. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the Office of the Warden, Sing Sing Prison, Ossining, N. Y.; at the New York Office of the Department of Architecture, Room 1058, 25 Broadway, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

Dated: March 22, 1923.

OFFICIAL PROPOSALS

Iron Water Pipe, Hydrants, etc.

Totowa, N. J.

Sealed proposals will be received by the Borough Council of the Borough of Totowa on Monday evening, April 16, 1923, at the Council Chambers in the Borough of Totowa at eight o'clock for the furnishing of approximately 3,000 feet of 6-in. cast iron water pipe, hydrants, gates and fittings, required for the extension of the water system of the Borough of Totowa, according to the specifications prepared by the Borough Engineer.

Certified check or cash in the sum of $100 must accompany bid and successful bidder will be required to enter into bond. The Borough Council reserves the right to reject any and all bids and will consider the responsibility of the bidder in awarding contract.

Name and address of the bidder must appear on the outside of the envelope in which bid is enclosed.

Proposal blanks and any further information may be had from Garwood Ferguson, Borough Engineer, Court House, Paterson, New Jersey, or Harold Dunkerly, Borough Clerk, Boyle Avenue, Borough of Totowa, New Jersey.

Largest Circulation of Any Technical Paper

Engineering News-Record's circulation—over 30,000 weekly—is the largest of any technical paper printed. It includes among its readers practically every worthwhile contractor, dealer, and manufacturer in the country who is interested in bidding on public works contracts—either local or outside of his immediate vicinity.

Bids: April 10.

Dredging

Baton Rouge, La.

Sealed proposals will be received at the office of the LOUISIANA HIGHWAY COMMISSION, Reymond Building, Baton Rouge, Louisiana, up to time specified below, Tuesday, April 10th, 1923, at which time and place they will be publicly opened for constructing Section "A" of Federal Aid Project 127 Hammond-New Orleans Highway, as follows:

Section "A," Tangiphoa Parish. From a point 1.6 miles South of Ponchatoula to Pass Manchac, 8.834 miles.

Bids to be received up to 12 o'clock noon. Approximate quantities involved: 770,388 Cubic Yards of dredged borrow, 12,662 feet B. M. creosoted lumber, 2,240 feet creosoted piling, 397.49 Stations timber corduroy, 195 acres clearing and 80 acres grubbing.

Section "B," St. John, the Baptist Parish. From Pass Manchac to Frenier, 13.173 miles.

Bids to be received up to 3 o'clock p.m. Approximate quantities involved: 853,663 Cubic Yards dredged borrow, 602.366 Stations timber corduroy, 316 acres clearing, and 125 acres grubbing.

Construction of both Sections consists of clearing, grubbing, and grading roadway embankment. A canal will be dredged parallel to the Highway and all suitable material taken therefrom will be used in constructing the roadway embankment. Said embankment to be placed on timber Corduroy where specified by the State Highway Engineer.

Information as to the location, character of work, extent and class of material, terms of payment, regulations governing manner of submitting proposals and executing contract, may on application, be obtained at the office of the Louisiana Highway Commission, Reymond Building, Baton Rouge, Louisiana. Plans and Specifications may be inspected at the office of the Commission in Baton Rouge, or will be furnished upon receipt of $5.00 as payment therefor not to be refunded.

J. M. FOURMY,
State Highway Engineer.
W. T. PETERMAN, Chairman,
Louisiana Highway Commission.

OFFICIAL PROPOSALS

Bids: April 6.

System of Water Mains

Mt. Greenwood, Ill.

Sealed proposals will be received by the Board of Public Works at its offices in Eastman Park Mansion, on or before 4 P.M., Thursday, April 12th, 1923, for the reconstruction of the City Pumping Station.

Plans, specifications, form of proposal, bond and contract may be obtained at the office of the Superintendent of Public Works, Poughkeepsie, N. Y., and at the office of Hazen & Whipple, Consulting Engineers, 30 East 42nd Street, New York City; upon the deposit of twenty-five ($25.00) dollars, which amount will be refunded upon the return of the plans and specifications in good condition.

Quantities of work to be done are approximately:

Item

1. Removing present wooden roof and walls.
2. Excavation of brick masonry, 2,500 cubic feet.
3. Excavation of concrete masonry, 300 cubic feet.
4. Excavation of earth.
5. Excavation of rock.
6. Brick masonry, 5,500 cubic feet.
7. Concrete in floors and foundations, without forms, 1,500 cubic feet.
8. All other concrete, 500 cubic feet.
9. Cement tile in roof, 6,792 square feet.
10. Waterproofing on roof, 6,592 square feet.
11. Structural steel, 57,000 pounds.
12. Reinforcing steel, 1,200 pounds.
13. Floor plates, 1,400 pounds.
14. Windows and doors.
15. Wainscoting, 1,450 square feet.
16. Tile floors, 2,200 square feet.
17. Plastering, 3,400 square feet.
18. Painting 10,000 square feet.
19. Crane.
20. Appurtenances: Roof catch basins and leaders, floor manhole castings, alum feed hoppers, I-beam track and trolley, wood partition and stairs, iron stairs and balcony, skylight.

The proposal shall be accompanied by a certified check drawn upon an incorporated State or National Bank or Trust Company in good credit, within this State, payable to the order of the City of Poughkeepsie for five per cent of the amount of the bid. The successful bidder will be required to give a satisfactory bond for the faithful performance of the agreement in amount equal to fifty per cent of the value of the contract.

The Board of Public Works reserves the right to reject any or all bids.

By order of the Board of Public Works.

HAZEN & WHIPPLE,
Consulting Engineers,
30 East 42nd Street,
New York, N. Y.

Bids: April 9.

Street Improvement

Mineola, N. Y.

Sealed proposals will be received by the Board of Supervisors of Nassau County, in its chambers, in the Court House, at Mineola, Long Island, at 11 a.m. on Monday, April 9, 1923; at which time they will be publicly opened and read, and the contract awarded as soon thereafter as practicable, for the improvement of Park Street running from the easterly boundary line of Lido Country Club, easterly to the Town Park at Nassau by the Sea, Long Beach, in the Town of Hempstead, Nassau County, New York.

Plans and specifications may be seen at the office of W. Fred Starks, County Engineer, at Mineola, Long Island.

Each bid must be accompanied by a certified check on a solvent bank in the sum of three per cent of the amount of the total contract, made payable to the County of Nassau.

The Board of Supervisors reserves the rig t to reject any or all bids, waive any informality in the bids, and to accept the bid which it deems most favorable to the interest of the County.

By order of the Board of Supervisors.
By JESSE MERRITT,
Clerk.

Dated at Mineola, L. I., March 22, 1923.

OFFICIAL PROPOSALS

Bids: April 16.

Street Paving

Shenandoah, Pa.

Bids will be received by the Borough of Shenandoah, Penna., for paving West Coal Street between the West Curb of West Street and the West Side of Vine Street, approximately 5,103 square yards with a one course reinforced cement concrete pavement or with vitrified brick on a five or six inch cement concrete base, or with sheet asphalt on a six-inch base, according to State Highway Specifications of 1920, or with other bituminous pavement. Also for resetting nine inlets. Council reserves the right to reject any or all bids. Bids to be sealed and in the hands of the chairman of the Street Commission by noon, April 16th, 1923.

GEORGE FEIST,
Chairman Street Commission,
237 So. West Street,
Shenandoah, Pa.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

Bids: April 3.

Road Work

Hartford, Conn.

Sealed proposals will be received by the State Highway Commissioner, 12 Washington Street, Hartford, Connecticut, until 2 p.m., Tuesday, April 3rd, 1923, for the following sections of State work, in accordance with plans and specifications on file in the office of the State Highway Commissioner and at the following places:

TOWN OF BRISTOL: About 2,180 linear feet of plain cement concrete pavement on School Street. NOTE: Portland cement for the above work will be furnished by the State. Plans and specifications at the office of R. W. Stevens, Division Engineer, 12 Washington Street, Hartford, Conn.

TOWNS OF EAST HARTFORD AND MANCHESTER: About 15,850 linear feet of 3 inch Bituminous Macadam over 5 inch stone base on Silver Lane. Plans and specifications at the office of R. W. Stevens, Division Engineer, 12 Washington Street, Hartford, Conn.

TOWNS OF NEW BRITAIN AND

OFFICIAL PROPOSALS

PLAINVILLE: About 15,965 linear feet of plain cement concrete pavement on 3 inch sheet asphalt over 6 inch concrete base on the New Britain-Plainville Road. NOTE: Portland cement for the above work will be furnished by the State. Specifications at the office of R. W. Stevens, Division Engineer, 12 Washington Street, Hartford, Conn.

TOWN OF STAFFORD: About 4,750 linear feet of 7 inch Waterbound Macadam, using either local stone or crushed gravel for the coarse aggregate, on Monson Street. Plans and specifications at the Town Clerk's office and at the office of R. W. Stevens, Division Engineer, 12 Washington Street, Hartford, Conn.

TOWN OF STRATFORD: About 6,865 linear feet of 3 inch sheet asphalt pavement over 6 inch concrete base on the Post Road. NOTE: Portland cement required for the above work will be furnished by the State. Specifications at the office of E. C. Welden, Division Engineer, 106 Elm Street, New Haven, Conn.

TOWN OF WEST HAVEN: About 5,372 linear feet of plain cement concrete pavement on Campbell Avenue. NOTE: Portland cement for the above work will be furnished by the State. Specifications at the office of Frank D. Alling, First Selectman, and at the office of E. C. Welden, Division Engineer, 106 Elm Street, New Haven, Conn.

All bids must be accompanied by a surety company bond or a certified check not less than one-third of the cost of the work. The State Highway Commission reserves the right to reject any and all bids.

Dated at Hartford, Connecticut, March 24, 1923.

C. J. BENNETT,
State Highway Commissioner.
12 Washington St., Hartford, Conn.

Bids: April 3.

Secretary.

Bids: April 10.

Street Paving

Easley, S. C.

Sealed proposals will be received by the Paving Commission and the Town Council of Easley, S. C., at the Town Hall, two o'clock P.M., April 10th, 1923, for the furnishing of all labor, materials and equipment necessary for paving of certain streets and the laying of sidewalks.

The approximate amount of work to be done is as follows:

25,000 square yards hard surface pavement.
17,700 lineal feet of combination curb and gutter.
4,000 square yards of sidewalk.
8,000 cubic yards grading.

Proposals must be submitted on the forms which may be obtained at the office of the Town Clerk in Easley or the Engineer's office in Spartanburg. Plans may be seen at both places.

Each proposal must be accompanied by a cashier's check, on a South Carolina Bank, for $1,000.00 made payable to the Treasurer of Easley as evidence of good faith.

The right is reserved to reject any or all bids.

A. B. TAYLOR,
Chairman Paving Commission.
HARWOOD BEEBE,
Engineer,
Spartanburg, S. C.

Bids: April 23.

Sanitary Sewer

Marysville, Kansas.

The City of Marysville, Kansas, will receive bids until 5 P.M., Monday, April 23rd, 1923, for the construction of approximately 13,000 lineal feet of 8 inch sanitary sewer extensions, including manholes, flush tanks, galvanized pipe, etc.

H. E. CLARK,
City Clerk.
B. F. BOWMAN,
City Engineer.

Compensation Insurance
A contractor once dealt direct with an insurance company. Two years later we came along and proved to him he had overpaid. Through our efforts the insurance company made full restitution of many thousands of dollars. Mr. Contractor, it pays to employ a specialist who knows.
Alfred S. Hamilton
110 William St., New York

OFFICIAL PROPOSALS

Bids: April 13.

Highway Work

Albany, N. Y.

State Commission of Highways, Albany, N. Y.—Pursuant to Chapter 30, Laws of 1909, and amendments thereto, sealed proposals will be received by the undersigned at No. 55 Lancaster Street, Albany, N. Y., at 1 o'clock P.M., on Friday, April 13, 1923, for the furnishing and delivering bituminous material "A" and "T" f.o.b. railroad cars at destination for use by the State Highway Commission, in the maintenance and repair of improved state and county highways in all of the counties of the State, unless otherwise specified, for the following contracts:

B. M. Contract No. 4—Bituminous Material "A"—Penetration method for use in Divisions Nos. 1, 2, 3, 4 and 5.

B. M. Contract No. 5—Bituminous Material "A"—Penetration method for use in Divisions Nos. 6, 7, 8 and 9.

B. M. Contract No. 6—Bituminous Material "A"—Hot application for use in Divisions Nos. 2, 4 and 7.

B. M. Contract No. 7—Bituminous Material "T"—Cut back for use in Divisions Nos. 1, 4, 7 and 8.

B. M. Contract No. 8—Bituminous Material "T"—Cold application for use in all divisions.

B. M. Contract No. 9—Bituminous Material "A"—Emulsion for use in all divisions.

B. M. Contract No. 10—Bituminous Material "A"—Cut back for use in all divisions.

Proposals will be for furnishing the specified material at any railroad delivery point within the divisions named in the proposal.

Table showing approximate quantities and anticipated railroad delivery points, specifications and proposals may be obtained at the office of the State Commission of Highways at Albany, N. Y.

Special attention of bidders is called to "General Information for Bidders" in the proposal, specifications and contract agreement. Proposal for each contract must be submitted in a separate sealed envelope with the name and number of the contract plainly endorsed on the outside of the envelope. Each proposal must be accompanied by cash, draft or certified check payable to the order of the State Commission of Highways for an amount equal to at least three per cent of the amount of the proposal. The retention and disposal of such cash, draft or check by the State Commission of Highways shall conform with Subdivision 3, Section 130 of the Highway Law, as amended by Chapter 623 of the Laws of 1919.

The successful bidder will be required to execute the contract and comply in all respects with Section 130 of the Highway Law, as amended by Chapter 623.

The right is reserved to reject any or all bids.

FRED'K STUART GREENE,
Commissioner.

W. A. PATTON,
Secretary.

Bids: April 11

Freehold-Eatontown Road

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the Reconstruction of the Freehold-Eatontown Road, No. 42, Section 1, with a Reinforced Concrete Pavement for a distance of 2.48 miles, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey on Wednesday, April 11th at 11:00 a.m.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB,
Director.

Bids: April 16.

South Park Boulevard Viaduct

OVER ILLINOIS CENTRAL RAILROAD COMPANY'S RIGHT OF WAY AT EAST TWENTY-THIRD STREET, CHICAGO

Chicago, Ill.

Proposals are invited by the South Park Commissioners for furnishing, fabricating and erecting the structural steel work for the "South Park Boulevard Viaduct" in accordance with the drawings and specifications prepared by Condron Company, Consulting Engineers, copies of which may be obtained at the office of the South Park Commissioners, or at the office of the Consulting Engineers, upon depositing therefor the sum of twenty-five dollars ($25.00). This deposit will be repaid to the depositor on the return of the plans and specifications.

Proposals should be addressed to and delivered to the office of the South Park Commissioners, 57th Street and Cottage Grove Avenue, Chicago, Ill., enclosed in an opaque sealed envelope marked, "Proposal" and bearing the title of the work and the name of the bidder, on or before twelve (12:00) o'clock noon, April 16, 1923.

The successful bidder will be required to enter into a contract and give a surety bond in the sum of 25 per cent of value of contract.

The right is reserved to reject any or all bids, or to accept any bid which in its judgment will be for the best interest of the public.

Each proposal must be accompanied by a certified check in the sum of twenty thousand dollars ($20,000), payable to the South Park Commissioners as a guarantee of the good faith of the bidder, which check will be returned to the bidder unless forfeited under the conditions stipulated in the proposal.

Proposals shall be made on the "Proposal Form" accompanying the specifications. It is desired that the date of the completion of the work be not later than May 1, 1924.

J. F. NEIL, Secretary.

OFFICIAL PROPOSALS

Bids: April 18.

Mechanical Filter Plant

Richmond, Va.

Sealed proposals for the construction of a mechanical filter plant, consisting of Substructures, Contract No. 1; Equipment, Contract No. 2; and Superstructures, Contract No. 3, will be received at the office of the Director of Public Utilities, City Hall, Richmond, Va., until 12 o'clock, noon of Wednesday, April 18, 1923; and at that time publicly opened and read.

Contract No. 1 includes about 9,500 cu. yds. of reinforced concrete masonry and about 13,000 cu.yds. of excavation in connection with the construction of 10 filter tanks, a basin beneath them, two coagulating basins and other appurtenant work.

Contract No. 2 includes about 200 tons of cast-iron pipe and specials, over 60 gate valves and sluice gates, filter sand and gravel, and all filter equipment for a 30-million-gallon filter plant. It also includes six electrically-driven centrifugal pumps.

Contract No. 3 includes brick superstructures for the plant, comprising a one-story filter building about 110 ft. by 150 ft. and a two story head house about 50 ft. by 125 ft.

Copies of plans, specifications and forms of proposal covering all three contracts may be obtained at the office of the Department of Public Utilities, City Hall, Richmond, or at the office of Fuller and McClintock, Engineers, 170 Broadway, New York, on or after March 26, upon deposit of $25.00 for each set of plans and specifications furnished.

Certified checks are required in the sum of $15,000 for Contract No. 1, $10,000 for Contract No. 2 and $5,000 for Contract No. 3.

The right is reserved to reject any or all bids.

E. W. TRAFFORD,
Director of Public Utilities.

Bid: April 10

Road Work

Baltimore, Md.

Sealed proposals for building seven sections of State Highway, as follows:

Frederick Co. Cont. F-63. One section of State Highway from Emmitsburg west to the Penna. State Line, a distance of 1.16 miles. (Concrete.)

Howard Co. Cont. HO 23. One section of State Highway from the end of the Folly Quarter Road to the Triadelphia Pike, a distance of 1.45 miles. (Concrete.)

Prince George's Co. Cont. P-44. One section of State Highway between Laurel and the Montgomery County Line, a distance of 0.7 mile. (Concrete).

Caroline Co. CO-32. One section of State Highway from Hillsboro toward Denton, for a distance of 1.45 miles. (Concrete).

Dorchester Co. Cont. D-31. One section of State Highway between Cambridge and Lloyds, for a distance of 1.0 mile. (Concrete).

Somerset Co. Cont. S-17. One section of State Highway between Princess Anne and Deals Island for a distance of 3.0 miles. (Concrete).

Queen Anne's Co. Cont. Q-25. One section of State Highway between Chester and the Kent Narrows, for a distance of 1.08 miles. (Concrete).

will be received by the State Roads Commission, at its offices, 691 Garrett Building, Baltimore, Maryland, until 12 m. on the 10th day of April 1923, at which time and place they will be publicly opened and read.

Bids must be made upon the blank proposal form which with specifications and plans will be furnished by the Commission upon application and cash payment of $1.00, as hereafter no charges will be permitted.

No bids will be received unless accompanied by a certified check for the sum of Five Hundred ($500) Dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By order of the State Roads Commission this 21st day of March 1923.

JOHN N. MACKALL,
Chairman.

L. H. STEUART, Secretary.

OFFICIAL PROPOSALS

Bids: April 24.

SANITARY DISTRICT OF INDIANAPOLIS
Indianapolis, Ind.

Sealed proposals will be received by the Board of Sanitary Commissioners, Sanitary District of Indianapolis, at its office in the City Hall, Indianapolis, Indiana, until 10 A.M., April 24th, 1923, at which time bids will be publicly opened and scheduled and awards made as soon thereafter as practicable, for the construction of the Dehydration Building and furnishing Equipment of Section 5, Division III., for the Sewage Disposal Plant of the Sanitary District of Indianapolis, in accordance with plans and specifications on file at the office of the Board. This construction and equipment consists of the following items:

5—a. Dehydration Building.
5—b. Dryer Settings.
5—c. Electric Wiring.
5—d. Stokers.
5—e. Coal Storage and Handling Equipment.
1. Bunker.
2. Conveyors.
5—f. Sludge Dryers.
5—g. Fans and Motors.
5—h. Sludge Handling Equipment.
1. Sludge Conveyors.
2. Sludge Breakers.
3. Dry Sludge Screen.
5—i. Traveling Crane.
5—j. Cast Iron Pipe and Specials.
5—k. Special Sluice Gates.

Each bidder shall deposit with his bid a certified check in the amount as provided in said specifications and information to bidders, to secure the execution of the contract for which bid is made.

Copies of plans and specifications and general information may be obtained at the office of Charles H. Hurd, Consulting Engineer, 1405 Merchants Bank Building, Indianapolis, Indiana.

The board reserves the right to reject any and all bids.

BOARD OF SANITARY COMMISSIONERS.
JAY A. CRAVEN, President.
JOHN L. ELLIOTT, Vice-Pres.
LUCIUS B. SWIFT.

Bids: April 11

Farmingdale-Manasquan Road

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the reconstruction of the Farmingdale-Manasquan Road, No. 34, (Section 1), with a reinforced concrete pavement for a distance of 1.91 miles and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey on Wednesday, April 11th, at 11:00 a.m.

Drawings and specifications for the proposed work, prepared by George D. Cooper, Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollors ($10.00), which amount will be refunded upon the return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB, Director.
Attest: CHAS E. COLE, Clerk.
Freehold, N. J., Feb. 7th, 1923.

OFFICIAL PROPOSALS

Bids: April 24.

Storm Water Drain

Buffalo, N. Y.

The Commissioner of Public Works will receive sealed proposals at Room No. 3 Municipal Building, Buffalo, N. Y., until 11 o'clock a.m., April 24th, 1923, for the construction of a reinforced concrete storm water drain 33 feet 6 inches and 32 feet 6 inches inside width, vertical side walls seven feet in height with semi-eliptical arch roof of seven feet rise or fourteen feet high at center, length 7,154 feet, to care for the storm water of Scajaquada Creek.

Work consists of the following: Caring for dry weather and storm flow of the creek.

(Normal dry weather flow estimated at about five to twenty cubic feet per second.)

Removal of about 122,435 cu.yd. of earth.

Removal of about 89,684 cu.yds. of rock.

Removal of 9 bridges.

Removal of about 37,862 cu.yd. concrete.

Placing of about 3,464,674 lb. reinforcing steel.

Construction of syphon, overflow connection and side sewers.

Bid and contract will be on a lump sum basis.

No proposal will be considered unless it be accompanied by a certified check upon a National or State Bank drawn and made payable to the Cashier of the Department of Public Works of the city of Buffalo, N. Y., for one hundred thousand dollars ($100,000).

Plans and specifications, form of contract and proposal blanks may be had at the office of the City Engineer, Room No. 20 Municipal Building, Buffalo, N. Y., by depositing $25.00 for same. Said sum shall be returned to bidders submitting proposals. Ten dollars will be returned to those not submitting proposal upon return of plans and specifications in good condition.

The Commissioner of Public Works reserves the right to reject any and all bids and waive any informalities.

Formal advertisement will be found in the Buffalo Commercial Express and Enquirer, March 26th, 27th, April 2nd and 3rd, 1923.

This is not a formal advertisement.

Bids: April 18.

Street Paving and Storm Sewer Construction

Bennington, Vt.

Sealed proposals will be received by the President and Trustees of the Village of Bennington, Vermont, at the Village Clerk's room in Bennington, Vermont, until 8 p.m. (Standard Time), April 18th, 1923, for street improvements and storm sewer line. The work will consist of about 10,800 square yards of reinforced cement concrete pavement, 4,000 linear feet of integral curb and gutter, and 4,200 linear feet vitrified clay or concrete storm sewer pipe 8 in. to 30 in. in size.

All bids must be upon blanks provided in the proposal furnished to bidders.

Bids must be accompanied by a certified check for three per cent (3%) of the amount of the bid. Plans and specifications will be on file at the Village Clerk's office in the Village of Bennington, and at the office of the engineer, 507 Fifth Avenue, New York City.

Copies of the plans and specifications may be obtained on and after April 10th, 1923, for three dollars, ($3.00), per set. No refund for blanks returned. Bidding blanks will be furnished free.

The right is reserved to reject any or all bids.

W. P. HOGAN, Village Clerk.
H. ELTINGE BREED, Engineer,
507 Fifth Avenue,
New York City.

Bids: April 11

Sea Bright-Highlands Road

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the Reconstruction of the Sea Bright-Highlands Road, No. 54, with a Reinforced Concrete Pavement, for a distance of 2.27 miles, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey on Wednesday, April 11th at 11:00 a.m.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

Bids: April 9

Movable Dam and Appurtenances

NOTICE TO CONTRACTORS

Fort Wayne, Ind.
March 28, 1923.

Department of Public Works,
Office of the Board,
Room 2, City Hall.

Notice is hereby given by the Board of Public Works, of the City of Fort Wayne, Indiana, that sealed proposals will be received by them at their office until Monday, April 9th, 1923, at 10:30 o'clock A. M., for the construction of a movable dam and appurtenances across the Maumee River, City of Fort Wayne, Indiana.

The principal items included in the proposed work are two (2) ninety-nine (99) feet steel rollers or drums ten (10) feet in diameter weighing approximately One Hundred and Twenty-Five (125) tons, erected, and hoisting machinery for same; gears; racks and stanchions about Twenty-Five (25) tons; Tainter Gate and Sluice Gates; Six Thousand Three Hundred and Fifty (6,350) cubic yards concrete; Six Hundred and Thirty-Seven (637) piles; Twenty-Two Thousand (22,000) square feet steel piling; Seventy (70) tons reinforcing steel; Five Thousand Twenty (5,020) cubic yards wet excavation; Two Thousand Two Hundred and Fifty (2,250) cubic yards dry excavation; Foot bridge over rollers.

The estimated cost of the proposed improvements is One Hundred and Eighty-Nine Thousand, Eight Hundred and Forty ($189,840.00) Dollars.

Bidding forms, non-collusion affidavit and envelopes must be obtained from the undersigned Board of Public Works.

OFFICIAL PROPOSALS

Properly executed non-collusion affidavit must accompany each bid.

All work done in the construction of the aforementioned dam shall be in accordance with the plans cross-sections, profiles and specifications therefor, which are now on file, and may be seen in the office of the Department of Public Works of said City, and also at the office of the Designing Engineers, **A. W. Grosvenor, 122 East** Washington Street, Fort Wayne, Indiana, and Charles Brossman, 1503 Merchants Benk Building, Indianapolis, Indiana.

The bidder in submitting his proposal for the construction of the aforementioned dam **must accompany his proposal with a certified check in the sum of Five Thousand ($5,000.00) Dollars, made payable to the City of Fort Wayne, Indiana, as an evidence** of good faith, that he will execute within five (5) days from the acceptance of his proposal a contract and bond signed by a surety company satisfactory to said Board of Public Works of the City of Fort Wayne, Indiana.

A failure of the successful bidder to enter into such a contract and bond upon the acceptance of his proposal, will forfeit the check and sum of money payable thereon to the City of Fort Wayne, Indiana, as agreed and liquidated damages for such failure.

The Board reserves the right to reject or accept any or all proposals submitted.

JOHN B. KOCKS
OTTO BANGS
JESSE BROSIUS,
Board of Public Works.

Bids: April 24.

Sewer Construction

LETTING NO. 8

Louisville, Ky.

Sealed proposals will be received by the Commissioners of Sewerage of Louisville until 12 o'clock noon, April 24, 1923, for the following sewer construction in Louisville, Ky.

This letting embraces the following:

PORTLAND RELIEF—775 lin.ft. of 54-in., 1,145 lin.ft. of 48-in., 533 lin.ft. of 45-in., 900 lin.ft. of 27-in., 44 lin.ft. of 24-in., 26 lin.ft of 18-in., and 91 lin.ft. of 15-in. Sewers.

THIRTY-FOURTH STREET SEWER—1,460 lin.ft. of 60-in., 987 lin.ft. of 54-in., 1,488 lin.ft. of 48-in., 484 lin.ft. of 45-in., 478 lin.ft. of 36-in. Sewers.

THIRTY-FOURTH STREET LATERALS—375 lin.ft. of 27-in., 2,450 lin.ft. of 24-in., 840 lin.ft. of 21-in., 350 lin.ft. of 15-in. Sewers.

Total principal quantities for the above pieces of work are approximately 44,000 cubic yards of excavation, 3,500 cubic yards of concrete, 155,000 pounds of reinforcement. Smaller items as pipe, etc., not listed.

Approximate amount of this work $250,000.00.

Drawings, form of proposal, contract and specifications may be had at the office of the Commission upon the deposit of ten dollars ($10.00) for each project, to secure the return of same in good condition within thirty days.

Each proposal must be inclosed in a sealed envelope addressed to the Commissioners of Sewerage, 417 West Main Street, Louisville, Ky., and accompanied by a certified check drawn upon a state or national bank or a trust company established in the city of Louisville or the city of New York, for an amount not less than seven (7) per cent of the total amount of the accompanying proposal, payable to the Commissioners of Sewerage of Louisville or the bond executed as set forth in the information for bidders.

The right to reject any and all bids is reserved.

Water Works and Sewerage Systems

Lyndonville, N. Y.

Sealed Proposals will be received by the Board of Trustees of the Village of Lyndonville, N. Y., until two o'clock p.m. on the 6th day of April, 1923, for the construction of a sewerage system and disposal works; and also for the construction of a water works system, the latter consisting of about five and one-third miles of cast iron mains, hydrants, valves, pump house, slow sand filter, water tower and accessories.

Plans may be seen and specifications obtained at the office of the Board at Lyndonville, or at the office of Hopkins & Field, Engineers, 349 Cutler Building, Rochester, N. Y.

The Board hereby reserves and has the right to reject any or all bids or to accept those that in its judgment will be for the best interests of the Village, and to waive any informality in the bidding.

A surety bond satisfactory to the Board in sufficiency of surety and in the amount of forty per cent of the bid will be required of the one to whom a contract may be awarded.

Bids will be received for the sewerage system and disposal works and separately for the water works pipe laying, pump house, filter, pure water reservoir and water tower foundations, cast iron pipe and special castings, valves, valve boxes and hydrants, water tower and pumping equipment.

A certified check made payable to the order of the Board of Trustees, Lyndonville, N. Y., to the amount of $1,000 must be deposited by each bidder and accompany his bid as a guarantee that in case the contract is awarded to him he will, within ten days thereafter, execute such contract and furnish his bond.

Bids must be sealed and addressed to the Board of Trustees, Lyndonville, N. Y., and marked on the outside of the enclosing envelope "Proposal for Sewerage (or Water Works) System."

RICHARD N. PARSONS,
President.
BENJAMIN J. WARD,
Trustee.
JAY W. BREED,
Trustee.

DONALD M. FRASER, Village Clerk.
Dated Lyndonville, N. Y., March 10, 1923.

Bids: April 9.

Street Improvement

Mineola, N. Y.

Sealed proposals will be received by the Board of Supervisors of Nassau County, in its chambers, in the Court House, at Mineola, Long Island, at 11 a.m. on Monday, April 9, 1923; at which time they will be publicly opened and read, and the contract awarded as soon thereafter as practicable, for the improvement of Park Street running from the easterly boundary line of Lido Country Club, easterly to the Town Park at Nassau by the Sea, Long Beach, in the Town of Hempstead, Nassau County, New York.

Plans and specifications may be seen at the office of W. Fred Starks, County Engineer, at Mineola, Long Island.

Each bid must be accompanied by a certified check on a solvent bank in the sum of three per cent of the amount of the total contract, made payable to the County of Nassau.

The Board of Supervisors reserves the right to reject any or all bids, waive any informality in the bids, and to accept the bid which it deems most favorable to the interest of the County.

By order of the Board of Supervisors
By JESSE MERRITT
Clerk.

Dated at Mineola, L. I., March 22, 1923.

Paving Construction

Miami, Fla.

Sealed proposals will be received by "The Commission of the City of Miami, Florida," at the City Hall in Miami, Florida, until 9:30 a.m., at the regular meeting of the Commission, Tuesday, May 1, 1923, for the construction of Sheet Asphalt Paving.

The work will consist of approximately 75,887 sq.yd. of Sheet asphalt paving and will be divided into one contract. The bidder can bid on any or all of these contracts.

The improvements are to be constructed and payment, therefore, is to be made under Section 56 of the City Charter.

All bids must be upon blank forms provided in the proposal, specifications and contract.

Each bid must be accompanied by a certified check for 2½ per cent of the amount of the bid to insure the execution of the contract as provided by Section 56 of the City Charter.

The City reserves the right to reject any or all bids.

Plans and specifications will be on file at the City Hall in the office of the City Manager.

Copies of proposals, specifications and contract can be obtained from the office of Chas. W. Murray, Director of Public Service, on deposit of $10, which will be refunded to those who submit bona fide bids.

F. H. WHARTON, City Manager.

Bids: April 13.

Highway Work

Albany, N. Y.

State Commission of Highways, Albany, N. Y.—Pursuant to Chapter 30, Laws of 1909, and amendments thereto, sealed proposals will be received by the undersigned at No. 55 Lancaster Street, Albany, N. Y., at 1 o'clock P.M., on Friday, April 13, 1923, for the furnishing and delivering bituminous material "A" and "T" f.o.b. railroad cars at destination for use by the State Highway Commission, in the maintenance and repair of improved state and county highways in all of the counties of the State, unless otherwise specified, for the following contracts:

B. M. Contract No. 4—Bituminous Material "A"—Penetration method for use in Divisions Nos. 1, 2, 3, 4 and 5.

B. M. Contract No. 5—Bituminous Material "A"—Penetration method for use in Divisions Nos. 6, 7, 8 and 9.

B. M. Contract No. 6—Bituminous Material "A"—Hot application for use in Divisions Nos. 2, 4 and 7.

B. M. Contract No. 7—Bituminous Material "T"—Cut back for use in Divisions Nos. 1, 4, 7 and 8.

B. M. Contract No. 8—Bituminous Material "T"—Cold application for use in all divisions.

B. M. Contract No. 9—Bituminous Material "A"—Emulsion for use in all divisions.

B. M. Contract No. 10—Bituminous Material "A"—Cut back for use in all divisions.

Proposals will be for furnishing the specified material at any railroad delivery point within the divisions named in the proposal.

Table showing approximate quantities and anticipated railroad delivery points, specifications and proposals may be obtained at the office of the State Commission of Highways at Albany, N. Y.

Special attention of bidders is called to "General Information for Bidders" in the proposal, specifications and contract agreement. Proposal for each contract must be submitted in a separate sealed envelope with the name and number of the contract plainly endorsed on the outside of the envelope. Each proposal must be accompanied by cash, draft or certified check payable to the order of the State Commission of Highways for an amount equal to at least three per cent of the amount of the proposal. The retention and disposal of such cash, draft or check by the State Commission of Highways shall conform with Subdivision 3, Section 130 of the Highway Law, as amended by Chapter 623 of the Laws of 1919.

The successful bidder will be required to execute the contract and comply in all respects with Section 130 of the Highway Law, as amended by Chapter 623.

The right is reserved to reject any or all bids.

FRED'K STUART GREENE, Commissioner.

W. A. PATTON, Secretary.

Project 3067—Wirt County—Moorehead Bridge No. 867 over Right Reedy Creek, 120-ft. steel through truss, ashlar masonry or concrete substructure. Separate proposals will be received for substructure, Certified check, $500; and superstructure, certified check, $500.

Project 3067—Wirt County—Lee Bridge No. 868 over Reedy Creek, 150-ft. steel through truss, reinforced concrete substructure. Separate proposals will be received for substructure. Certified check, $500; and for superstructure, certified check, $500.

Project 3067 — Wirt County — McClung Bridge No. 869 over Reedy Creek, 120-ft. steel through truss, ashlar masonry or concrete substructure. Separate proposals will be received for substructure. Certified check, $500; and for superstructure, certified check, $500.

Project 3077—Brooke County—Four concrete slab culverts, approximately 10-ft. span. Certified check, $500.

Project 124—Harrison County—2.5 miles of the Northwestern Turnpike between Bridgeport and the Taylor County line for grading, draining and paving with cement concrete, bituminous concrete or warrenite bitulithic.

Project 125—Taylor County—4.5 miles of the Northwestern Turnpike between Harrison County line and Project 3025 for grading, draining and paving with cement concrete, bituminous concrete or warrenite bitulithic.

(Note: Projects 124 and 125 will be let in one contract. Certified check, $15,000.)

Project 3225-B — Harrison County — 5 miles of the Sycamore Dale-Good Hope Road for grading, draining and paving with bituminous macadam. Certified check, $7,500.

Project 108-B — Braxton County — Salt Lick Bridge No. 685 over Salt Lick Creek, 70-ft. steel pony truss, ashlar masonry substructure. Separate proposals will be received for substructure. Certified check, $500; and for superstructure, certified check, $500.

Project 2114 — Harrison County — Limestone Run Bridge No. 871 over Limestone Run, 75-ft. concrete arch. Certified check, $600.

Project 3142 — Pendleton County — 5.0 miles of the Franklin-Brandywine Road for grading and draining. Certified check, $3,000.

Project 3218—Jefferson County—4.1 miles of the Charlestown-Virginia Line road for grading, draining and waterbound macadam. Certified check, $4,000.

Project 3148—Hardy County—Petersburg Gap Bridge No. 875 over South Branch Potomac, one 200-ft. steel through truss and one 80-ft. steel pony truss, ashlar masonry or concrete substructure. Separate proposals will be received for substructure. Certified check, $700; and for superstructure, certified check, $1,100.

Project 3014—Pendleton County—Upper Tract Bridge No. 876 over South Branch Potomac, 200-ft. steel through truss, ashlar masonry or concrete substructure. Separate proposals will be received for substructure. Certified check, $500; and superstructure certified check, $900.

Project 1027—Fayette County—6 miles of the Fayetteville-Oak Hill Road for cleaning and tar cold surface application including cover coat. Certified check, $500.

Projects 54, 2024, 2009, 1086, 2023, 2025 and 1111—Greenbrier County—16.4 miles for cleaning and tar cold and hot surface application including cover coat. Certified check, $600.

Projects 79-A and 1068 — Pocahontas County—3.5 miles for cleaning and tar cold surface application including cover coat. Certified check, $500.

Projects 34, 60 and 1065—Monroe County—4.8 miles for cleaning and tar cold surface application including cover coat. Certified check, $500.

Projects 42, 1037, 2021, 2022—Raleigh County—22.4 miles for cleaning and tar cold surface application including cover coat. Certified check, $600.

Proposals will be received only upon State Standard forms in accordance with plans, specifications and estimates of quantities therefor, which standard forms, plans, specifications and estimates of quantities may be obtained from the office of the Division Engineer, in whose territory the proposed construction is located or from the office of the State Road Commission at Charleston, W. Va.

Each proposal must be accompanied by a certified check for the amount noted.

The right is reserved to reject any and all proposals.

THE STATE ROAD COMMISSION
OF WEST VIRGINIA
E. B. CARSKADON, Secretary.

OFFICIAL PROPOSALS

Bids: April 18.

Atlantic Highlands - Hendricksons Corner Road

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the reconstruction of the Atlantic Highlands-Hendricksons Corner Road No. 58, Sect. 1 with a reinforced concrete pavement for a distance of 2.54 miles, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey, on April 18, 1923, at 11:00 A.M.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and addressed to the Board of Chosen Freeholders of the County of Monmouth and name of proposed work on the outside, must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB,
Director.

Attest:
CHARLES E. COLE, Clerk.
Freehold, N. J., March 21, 1923.

Bids: April 16.

Sanitary Sewer Extensions Contracts Nos. 16, 17 and 18

Lebanon, Pa.

Sealed bids will be received by the Mayor and Council of the City of Lebanon, Pa., until 11 a.m., Monday, April 16, for the construction of extensions to the Sanitary Sewer System. They will be publicly opened at a regular meeting of Council that same evening.

Contract No. 16 contains approximately 930 lineal feet of 8-in., 475 lineal feet of 10-in., 350 lineal feet of 15-in., 850 lineal feet of 18-in. vitrified pipe together with about 400 lineal feet of house connections.

Contract No. 17 contains approximately 900 lineal feet of 8-in., 2,000 lineal feet of 10-in., 400 lineal feet of 12-in., and 1,100 lineal feet of 15-in. vitrified pipe together with about 2,500 lineal feet of house connections.

Contract No. 18 contains approximately 950 lineal feet of 8-in. vitrified pipe together with about 300 lineal feet of house connections.

Miscellaneous structures such as flush tanks, manholes, lampholes, etc., are included in these contracts. Excavations will be partly in stiff clay and partly in limestone rock.

Plans, specifications and complete information concerning contracts and manner of submitting bids can be obtained from the City Engineer of Lebanon. A deposit of five dollars ($5) is required for each set of plans and specifications.

A certified check of $1,000 is to accompany bids on Contract No. 16; $1,500 on Contract No. 17; and $250 on Contract No. 18.

Payment for the work is to be made at the completion of the contracts by short term bonds bearing 6 per cent interest and secured by assessments against the abutting properties as provided by an Act of Assembly.

The Mayor and Council reserve the right to reject any and all bids and to award the contract as is deemed to the best interest of the City of Lebanon, Pa.

Attest:
DAN M. SHARP, City Clerk.
WM. S. DAVIS, City Engineer.

OFFICIAL PROPOSALS

Bids: April 18.

Mechanical Filter Plant

Richmond, Va.

Sealed proposals for the construction of a mechanical filter plant, consisting of Substructures, Contract No. 1; Equipment, Contract No. 2; and Superstructures, Contract No. 3, will be received at the office of the Director of Public Utilities, City Hall, Richmond, Va., until 12 o'clock, noon of Wednesday, April 18, 1923; and at that time publicly opened and read.

Contract No. 1 includes about 9,500 cu. yds. of reinforced concrete masonry and about 13,000 cu.yds. of excavation in connection with the construction of 10 filter tanks, a basin beneath them, two coagulating basins and other appurtenant work.

Contract No. 2 includes about 200 tons of cast-iron pipe and specials, over 60 gate valves and sluice gates, filter sand and gravel, and all filter equipment for a 30-million-gallon filter plant. It also includes six electrically-driven centrifugal pumps.

Contract No. 3 includes brick superstructures for the plant, comprising a one-story filter building about 110 ft. by 150 ft., and a two story head house about 50 ft. by 125 ft.

Copies of plans, specifications and forms of proposal covering all three contracts may be obtained at the office of the Department of Public Utilities, City Hall, Richmond, or at the office of Fuller and McClintock, Engineers, 170 Broadway, New York, on or after March 26, upon deposit of $25.00 for each set of plans and specifications furnished.

Certified checks are required in the sum of $15,000 for Contract No. 1, $10,000 for Contract No. 2 and $5,000 for Contract No. 3.

The right is reserved to reject any or all bids.

E. W. TRAFFORD,
Director of Public Utilities.

Bids: April 24.

Sewer Construction

LETTING NO. 8

Louisville, Ky.

Sealed proposals will be received by the Commissioners of Sewerage of Louisville until 12 o'clock noon, April 24, 1923, for the following sewer construction in Louisville, Ky.

This letting embraces the following:

PORTLAND RELIEF—775 lin.ft. of 54-in., 1,145 lin.ft. of 48-in., 533 lin.ft. of 45-in., 900 lin.ft. of 27-in., 44 lin.ft. of 24-in., 26 lin.ft of 18-in., and 91 lin.ft. of 15-in. Sewers.

THIRTY-FOURTH STREET SEWER—1,460 lin.ft. of 60-in., 987 lin.ft. of 54-in., 1,488 lin.ft. of 48-in., 484 lin.ft. of 45-in., 478 lin.ft. of 36-in. Sewers.

THIRTY-FOURTH STREET LATERALS—375 lin.ft. of 27-in., 2,450 lin.ft. of 24-in., 840 lin.ft. of 21-in., 350 lin.ft. of 15-in. Sewers.

Total principal quantities for the above pieces of work are approximately 44,000 cubic yards of excavation, 3,500 cubic yards of concrete, 155,000 pounds of reinforcement. Smaller items as pipe, etc., not listed.

Approximate amount of this work $250,000.00.

Drawings, form of proposal, contract and specifications may be had at the office of the Commission upon the deposit of ten dollars ($10.00) for each project, to secure the return of same in good condition within thirty days.

Each proposal must be inclosed in a sealed envelope addressed to the Commissioners of Sewerage, 417 West Main Street, Louisville, Ky., and accompanied by a certified check drawn upon a state or national bank or a trust company established in the city of Louisville or the city of New York, for an amount not less than seven (7) per cent of the total amount of the accompanying proposal, payable to the Commissioners of Sewerage of Louisville or the bond executed as set forth in the information for bidders.

The right to reject any and all bids is reserved.

COMMISSIONERS OF SEWERAGE OF LOUISVILLE.
By MATT H. CRAWFORD,
Chairman.
P. H. HOGE, JR.,
Sec. and Treas.

J. B. F. BREED,
Chief Engineer.

OFFICIAL PROPOSALS

Bids: April 18.

Farmingdale-Manasquan Road

SECTION 3

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the reconstruction of the Farmingdale-Manasquan Road No. 34, Sect. 3 with a reinforced concrete pavement for a distance of 1.44 miles, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey on April 18th, 1923, at 11:00 A.M.

Drawings and specifications for the proposed work, prepared by George D. Cooper, Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

Director.

Attest:
CHARLES E. COLE, Clerk.
Freehold, N. J., March 21, 1923.

Bids: April 21.

Readvertisement of Tonawanda Sewer

Tonawanda, N. Y.

Notice is hereby given that sealed proposals will be received and considered by the Town Board of the Town of Tonawanda, New York, April 21st, 1923, at 8 o'clock p.m., at the Village Hall, Kenmore, N. Y. for furnishing all necessary labor and material, or certain specified portions thereof, for the construction of a sewer system, disposal plant and pumping station in accordance with the amended proposed contract, maps, plans, specifications and estimates of the Town Engineer as approved by the said Town Board of the Town of Tonawanda, N. Y., for Sewer District No. 2 of said Township.

The proposed contract, maps, plans and specifications and estimates may be seen and examined, and further information may be obtained at the office of George C. Diehl, Town Engineer, No. 575 Ellicott Square, Buffalo, N. Y., or at the office of the undersigned, the Town Clerk of the Town of Tonawanda, N. Y., at No. 2852 Delaware Avenue, Kenmore, N. Y.

All bids must be accompanied by a certified check payable to the order of J. Fred Moore, Supervisor of the Town of Tonawanda, N. Y., for the sum of five per centum of the Engineer's estimated expense of the improvement, or a bond with sufficient sureties to be approved by the said J. Fred Moore, Supervisor of said Town, conditioned in a penalty equal to five per centum of the estimated expense of the improvement, that if the work is awarded to the bidder, he will enter into the contract for the same, and that he will execute further security as may be required for the faithful performance of the contract, in the event of the proposal being accepted for the execution of the work.

The Town Board reserves the right to reject any or all bids should it deem it to be in the best interest of the Town so to do. Bids must be in conformity with the specifications or they will be rejected as informal, and cannot be considered.

Dated Kenmore, N. Y., April 2nd, 1923.

ELMER W. JOHNSON,
Town Clerk, Town of Tonawanda,
2852 Delaware Avenue, Kenmore, N. Y.

Bids: April 24.

Road Repair

Trenton, N. J.

Proposals for furnishing and applying bituminous road materials.

The Board of Freeholders of Mercer County will receive separate bids on Tuesday, April 24, 1923, at 2:30 o'clock in the afternoon, at their regular place of meeting, Court House, Trenton, N. J., for: (1) Furnishing and applying asphaltic oil; (2) furnishing and applying tar. Said materials to be applied to various roads throughout the county.

The estimated amount of work under proposal No. 1 is as follows:

31,243 gallons of asphalt oil for surface treatment.
14,230 gallons of asphalt for penetration work.
1,630 tons of washed pebbles.
210 tons of dustless trap rock screenings.
175 tons of crushed slag.

The estimated amount of work under proposal No. 2 is as follows:

130,480 gallons of tar for surface treatment.
1,685 tons of crushed slag.
4,430 tons of pebbles.

Prospective bidders are referred to plans and specifications covering the above work prepared by Harry F. Harris, Mercer County Engineer, which plans and specifications are on file in his office at the Court House, Trenton, N. J. Copies of said plans and specifications may be obtained upon deposit of the sum of ten dollars, which will be refunded if the plans and specifications are returned in good condition within 48 hours after the bids are opened.

Each bid must be accompanied by a certified check in the amount of one thousand dollars ($1,000.00), payable to Edgar G. Weart, County Treasurer, also by a proposition from a surety company fulfilling the requirements of Section 507, Chapter 185, P. L., 1918.

The right is reserved to reject any or all bids and to waive any immaterial defect or informality in any bid should it be in the interest of the county to do so.

ARTHUR BRAY, JR.,
Director of Department of Road Repair.

Construction bond required, 100 per cent of cost of work.

Five year asphalt guarantee bond required, 25 per cent of cost of work.

Copies of plans, specifications and forms of proposals may be obtained at the office of the City Engineer, City Hall, Plainfield, N. J.

The Common Council reserves the right to reject any or all bids, to waive defects in bids or to accept any bid.

JOHN J. CARROLL, City Clerk.

OFFICIAL PROPOSALS

Bids: April 23.

Pumping Station

Springfield, Ill.

Sealed proposals will be received at the office of the Mayor, Springfield, Illinois, up to 2:30 o'clock p.m. on Monday, the 23rd day of April, 1923, for furnishing all tools, labor, materials and equipment for improvements to City pumping station.

Separate bids will be entertained as follows:

1. For furnishing and erecting complete one (1) ten million gallon per day steam turbine driven centrifugal pump. Certified check, $3,000.

2. For furnishing f.o.b. cars, Springfield, Ill. two (2) 3,500 gallon per minute motor-driven low service centrifugal pumps. Certified check, $500.

3. For furnishing all labor and material and constructing complete reinforced concrete settling basins. Certified check, $8,000.

Each bid must be accompanied by a certified check of the specified amount payable to the City Treasurer of Springfield, Ill. All material and equipment shall be furnished and work performed in accordance with the plans and specifications on file at the office of the City Clerk, Springfield, Ill., and at the office of the Engineers, Kansas City, Missouri.

Prospective bidders desiring extra copies of the plans and specifications on the settling basins for personel use may obtain the same from the Engineers by making a deposit of ten dollars ($10), half of which will be refunded upon the return of the plans and unsued specifications within ten days after the day of the letting. No charge shall be made for specifications for pumping equipment.

The Board reserves the right to reject any or all bids and readvertise the letting of the work.

ROBERT G. MOORE, City Clerk.
BURNS & McDONNELL ENGINEERING CO., 402 Interstate Building, Kansas City, Missouri.

Bids: April 18.

Street Paving and Storm Sewer Construction

Bennington, Vt.

Sealed proposals will be received by the President and Trustees of the Village of Bennington, Vermont, at the Village Clerk's room in Bennington, Vermont, until 8 p.m. (Standard Time), April 18th, 1923, for street improvements and storm sewer line. The work will consist of about 10,800 square yards of reinforced cement concrete pavement, 4,000 linear feet of integral curb and gutter, and 4,200 linear feet vitrified clay or concrete storm sewer pipe 8 in. to 30 in. in size.

All bids must be upon blanks provided in the proposal furnished to bidders.

Bids must be accompanied by a certified check for three per cent (3%) of the amount of the bid. Plans and specifications will be on file at the Village Clerk's office in the Village of Bennington, and at the office of the engineer, 507 Fifth Avenue, New York City.

Copies of the plans and specifications may be obtained on and after April 10th, 1923, for three dollars, ($3.00), per set. No refund for blanks returned. Bidding blanks will be furnished free.

The right is reserved to reject any or all bids.

W. P. HOGAN Village Clerk.
H. ELTINGE BREED, Engineer,
507 Fifth Avenue,
New York City.

Bids: May 1.

OFFICIAL PROPOSALS

Bids: May 1.

Paving Construction

Miami, Fla.

Sealed proposals will be received by "The Commission of the City of Miami, Florida," at the City Hall in Miami, Florida, until 9:30 a.m., at the regular meeting of the Commission, Tuesday, May 1, 1923, for the construction of bituminous macadam paving.

The work will consist of approximately 158,268 sq.yd. of bituminous macadam paving and will be divided into two contracts. The bidder can bid on any or all of these contracts.

The improvements are to be constructed and payment therefor is to be made under Section 56 of the City Charter.

All bids must be upon blank forms provided in the proposal, specifications and contract.

Each bid must be accompanied by a certified check for 2½ per cent of the amount of the bid to insure the execution of the contract as provided by Section 56 of the City Charter.

The City reserves the right to reject any or all bids.

Plans and specifications will be on file at the City Hall in the office of the City Manager.

Copies of proposals, specifications and contract can be obtained from the office of Chas. W. Murray, Director of Public Service, on deposit of $10, which will be refunded to those who submit bona fide bids.

F. H. WHARTON, City Manager.

Bids: May 1.

Pavilion, Open Air Pool and Bathing Group

Sea Girt, N. J.

Proposals will be received by the Borough Council of the Borough of Sea Girt, County of Monmouth and State of New Jersey on or before 7.00 p.m., standard time, Tuesday, May 1st, 1923, at the Municipal Building in the Borough of Sea Girt, on the "General Construction," "Plumbing," "Mechanical Installation," and "Electrical Work" of Pavilion, Open Air Pool and Bathing Group to be erected on the southwest corner of Ocean Avenue and Chicago Boulevard in the Borough of Sea Girt, N. J.

Separate proposals must be tendered on "General Construction," "Plumbing," "Mechanical Installation," and "Electrical Work." Plans and specifications are on file in the offices of Ernest A. Arend and K. M. Towner, associate architects, 105 West 40th Street, New York City, and Kinmouth Building, Asbury Park, N. J. Copies may be obtained from architects upon deposit of ten dollars ($10.00) which will be refunded upon return of same in good condition.

A certified check or Surety Co. bid bond for the sum of two per cent (2%) of bid will be required with all proposals. Checks to be drawn to the order of Leonard T. Newman, Treasurer, and to be forfeited if contractor refuses to sign contract when awarded.

All proposals must be in sealed envelopes, with designation of work covered by same and name of bidder on outside of envelope and to be mailed to Frank Durand, Jr., Borough Clerk, Sea Girt, New Jersey, or presented personally before the stated time.

The Borough Council reserves the right to reject any or all proposals and also reserves the right to hold any bid or bids together with the certified check or checks accompanying the same for fifteen days, before accepting or rejecting the same.

FRANK DURAND, JR.,
Borough Clerk.
Sea Girt, N. J.

OFFICIAL PROPOSALS

Bids: April 30.

Curbing, Grading and Paving

Norfolk, Va.

Sealed proposals will be received at the office of the Director of Public Works until 12 o'clock noon of the 30th day of April, 1923, for paving certain streets, or parts thereof, aggregating 1,630 lin.ft. granite curb reset, 7,665 ft. new granite curb furnished and set, 48 sets granite corners furnished and set, 18,400 lin.ft. combined concrete curb and gutter, 76 sets combined concrete corners and gutter, 2,217 lin.ft. concrete headers, 83,999 sq.yds. grade and concrete base, 83,999 sq.yds. asphalt surface including binder and top, and 1,220 sq.yds. concrete paving, together with all incidental work pertaining thereto.

A complete schedule of the work, specifications and proposal blanks can be had at the office of the Director of Public Works. Bids must be made on the proposal blank, sealed and addressed to Walter H. Taylor, 3rd, Director of Public Works, marked "Paving Proposals, Project No. 1, April 30, 1923."

A certified check on some local bank in the sum of Two Thousand Dollars ($2,000), payable to B. Gray Tunstall, City Treasurer, must accompany each bid upon the conditions expressed in the proposal.

The City of Norfolk especially reserves the right to award contracts by item as set out below, by combination of items, or for the items as a whole, or to reject any or all bids for any item, combination of items or for all of the items.

Item 1. Includes the resetting of granite curb, and the furnishing and setting of new granite curb and corners.

Item 2. Includes the combined concrete curb and gutter and the combined concrete corners and gutters.

Item 3. Includes the grading and concrete base.

Item 4. Includes the binder and asphalt top.

CHAS. E. ASHBURNER,

Bids: May 1.

Paving Construction

Miami, Fla.

Sealed proposals will be received by "The Commission of the City of Miami, Florida," at the City Hall in Miami, Florida, until 9:30 a.m., at the regular meeting of the Commission, Tuesday, May 1, 1923, for the construction of Sheet Asphalt Paving.

The work will consist of approximately 75,887 sq.yd. of Sheet asphalt paving and will be divided into one contract. The bidder can bid on any or all of these contracts.

The improvements are to be constructed and payment, therefore, is to be made under Section 56 of the City Charter.

All bids must be upon blank forms provided in the proposal, specifications and contract.

Each bid must be accompanied by a certified check for 2½ per cent of the amount of the bid to insure the execution of the contract as provided by Section 56 of the City Charter.

The City reserves the right to reject any or all bids.

Plans and specifications will be on file at the City Hall in the office of the City Manager.

Copies of proposals, specifications and contract can be obtained from the office of Chas. W. Murray, Director of Public Service, on deposit of $10, which will be refunded to those who submit bona fide bids.

F. H. WHARTON, City Manager.

OFFICIAL PROPOSALS

Bids: May1.

Trunk Sewer and Sewage Disposal Works

Jersey City, N. J.

Sealed proposals for furnishing materials and doing all work required for the construction of Section 1 of the trunk sewer from Dover to Boonton and the Sewage Disposal Works will be received by the Board of Commissioners, in the Assembly Chamber of the City Hall, Jersey City, N. J., Tuesday, May 1st, 1923, at 3 o'clock p.m. (daylight saving time), at which place they will be publicly opened.

Section 1 of the Trunk Sewer extends from Boonton to Powerville and includes approximately 3.2 miles of 24 to 39-inch sewer with manholes, appurtenances and other work incidental thereto.

Up to and including sewer of 27 inches in diameter, the material is to be salt-glazed vitrified terra cotta pipe. Alternate bids will be received on both segment block and monolithic reinforced concrete pipe with brick invert for the larger sizes.

The plant includes Settling Tanks, Sludge Digestion Tanks, Sludge Drying Beds, Contact Beds, Sand Filters, Disinfection Plant and auxiliary units.

Each bid must be accompanied by certified check for $100,000 payable to the City of Jersey City, as a guarantee that the Contractor will execute the contract n awarded, failing which said check shall be forfeited, and which said check shall be returned to the bidder on the execution of the contract. Check of unsuccessful bidders will be returned on the award of the contract. Proposals must also be accompanied by the consent in writing of a surety company authorized to do business according to the laws of the State of New Jersey, that, should the proposal be accepted, it will become surety in the full amount of the contract as provided in the specifications and in Chapter 75, P. L. 1918, forms of which is made part of the specifications.

Copies of the plans, proposal forms, specifications and forms of bond and contract can be seen at the office of Michael I. Fagen, Director, Department of Streets and Public Improvements, City Hall, Jersey City, N. J., or at the office of Clyde Potts, Consulting Engineer, 30 Church Street, New York City, or may be obtained by prospective bidders upon depositing twenty-five dollars ($25.00), which sum will be refunded to Contractors who submit bids, on return of the plans within ten days after the contract has been awarded, if the same are in good condition when returned.

The deposit will not be refunded to parties who take out plans and do not submit proposals.

The Board of Commissioners reserves the right to reject any and all proposals.

By order of The Board of Commissioners of Jersey City.

EDWARD J. HOLLAND,
City Clerk.

Dated City Clerk's Office,
Jersey City, April 6th, 1923.

Bids: April 26.

OFFICIAL PROPOSALS

Bids: May 1.

Trunk Sewer

SECTION 3

Jersey City, N. J.

Sealed proposals for furnishing materials and doing all work required for the construction of Section 3 of the Trunk Sewer from Dover to Boonton will be received by the Board of Commissioners in the Assembly Chamber, of the City Hall, Jersey City, N. J., Tuesday, May 1st, 1923, at 3 o'clock p.m. (daylight saving time), at which place and time they will be publicly opened.

The work includes approximately 2.7 miles of 10-inch to 33-inch sewer with manholes, appurtenances and other work incidental thereto. Section 3 is within and adjacent to the Town of Dover.

Up to and including sewer of 22 inches in diameter, the material is to be salt-glazed vitrified terra cotta pipe. Alternate bids will be received on both segment block and monolithic reinforced concrete pipe with brick invert for the 33-inch sewer.

Each bid must be accompanied by certified check for $10,000, payable to the City of Jersey City, as a guarantee that the Contractor will execute the contract if awarded, failing which said check shall be forfeited, and which said check shall be returned to the bidder on the execution of the contract. Checks of unsuccessful bidders will be returned on the award of the contract. Proposals must also be accompanied by the consent in writing of a surety company authorized to do business according to the laws of the State of New Jersey, that, should the proposal be accepted, it will become surety in the full amount of the contract as provided in the specifications and in Chapter 75, P. L. 1918, form of which consent is made part of the specifications.

Copies of plans, proposal forms, specifications and forms of bond and contract can be seen at the office of Michael I. Fagen, Director, Department of Streets and Public Improvements, City Hall, Jersey City, N. J., or at the office of Clyde Potts, Consulting Engineer, 30 Church Street, New York City, or may be obtained by prospective bidders upon depositing ten dollars ($10.00), which sum will be refunded to Contractors who submit bids, on return of the plans within ten days after the contract has been awarded, if the same are in good condition when returned.

The deposit will not be refunded to parties who take out plans and do not submit proposals.

The Board of Commissioners reserves the right to reject any and all proposals.

By order of The Board of Commissioners of Jersey City.

EDWARD J. HOLLAND,
City Clerk.

Dated City Clerk's Office,
Jersey City, April 6th, 1923.

Bids: April 20.

Bids: May 12.

Cast Iron, Steel and Vitrified Clay Pipe Lines

Memphis, Tenn.

Sealed proposals, addressed to the Board of Commissioners of the Memphis Artesian Water Department, and endorsed with the bidders' name and title of the bid, will be received at the office of the Memphis Artesian Water Dept., Memphis, Tenn., until 12 o'clock noon of the 12th day of May, 1923, and then publicly opened and read for:

Contract 14. The furnishing of all labor and materials, except the furnishing of cast iron pipe and fittings, necessary to construct at Memphis, Tennessee, approximately 18,000 lineal feet of 14", 20", 30", 36" and 42" cast iron pipe line, 27,000 lineal feet of 4", 6", 8" and 10" steel pipe line, and 9,500 lineal feet of 12" vitrified clay pipe line, all complete with valves and appurtenances.

Contract 15. The furnishing and delivering f.o.b. cars Memphis, Tenn., of approximately 3,100 tons of Class A, cast iron, bell and spigot water pipe and special castings, in sizes ranging from 14 inches to 42 inches diameter.

Bids may me made upon one or both contracts, but a bid upon either contract must include all the work under that contract.

Copies of bidding blanks, bonds, contracts, specifications and drawings may be obtained from the office of the engineers, Fuller & McClintock, 879 North Parkway, Memphis, Tenn., or may be inspected at any of the following offices:

Memphis Artesian Water Department, Memphis, Tenn.

Fuller & McClintock, 206 Walsix Bldg., Kansas City, Mo.

Fuller & McClintock, 170 Broadway, New York City.

Fuller & McClintock, 1001 Chestnut St., Philadelphia, Pa.

Fuller & McClintock, 319 Summit Cherry Bldg., Toledo, Ohio.

A charge of $20.00 will be made for each set of specifications, which charge will be refunded provided the specifications are returned within 30 days after bids are received.

The Water Commission reserves the right to reject any or all bids, to waive any informalities in the bids received, and to accept any bid or bids which they deem most favorable to the interests of the City of Memphis.

By order of the Board of Commissioners of the Memphis Artesian Water Department.

Bids: May 1.

Water Works System

Macedon, N. Y.

Sealed proposals will be received by the Board of Water Commissioners of the Village of Macedon, N. Y., until one o'clock p.m., on May 1st, 1923, for the construction of a system of Water Works, consisting of a cast iron piping system, pump well, pump house, pumping equipment, distributing reservoir, valves, hydrants and accessories.

Plans may be received and specifications obtained at the office of the Board at Macedon, N. Y., or at the office of Hopkins & Field, Engineers, 349 Cutler Building, Rochester, N. Y.

The Board hereby reserves and has the right to reject any or all bids, or to accept any that in its judgment will be for the best interest of the Village.

A surety bond satisfactory to the Board in form and amount, will be required of him to whom a contract may be awarded.

A certified check, payable to the order of the Board of Water Commissioners, of Macedon, N. Y., to the amount of $1,000.00 must be deposited by any contractor bidding on the piping system, pump well or reservoir, and accompany his bid as a guaranty, that in case the contract is awarded to him, he will within seven days thereafter, execute such contract.

Bids will be received separately for the pumping equipment, pipe and special castings, and for the valves, valve boxes, and hydrants, in lump or separately for the piping system, pump house, pump well and reservoir.

Bids must be sealed and addressed to the Board of Water Commissioners, Macedon, N. Y., and marked on the outside of the envelopes enclosing them, "Proposals for Macedon Water System," The Village of Macedon, N. Y.

DR. E. M. RODENBERGER,
Chairman.
EDWARD W. GRIDLEY,
JOHN CROWLEY,
Commissioners.

Dated Macedon, N. Y.
April 1, 1923.

OFFICIAL PROPOSALS

Bids: April 24.

Water Works System

Locust Valley, N. Y.

Sealed proposals will be received by the Board of Water Commissioners, Locust Valley, New York, until eight o'clock P.M. April 24th, 1923, then publicly opened and read in the Matinecock Neighborhood House, for the construction of a system of Water Works for the Locust Valley District, in accordance with plans and specifications prepared by Sidney B. Bowne, Engineer.

WORK INCLUDED IN CONTRACT

UNDER CONTRACT NO. 1

There will be furnished and laid about 18 miles of 6 in., 8 in., 10 in. and 12 in. cast iron mains, with about 150 hydrants and 110 valves.

UNDER CONTRACT NO. 2

There will be furnished and installed two (2) complete units consisting of driven well, motor driven well turbines, etc.

UNDER CONTRACT NO. 3

There will be constructed two brick pumping stations, one about 12 ft. x 12 ft. and the other about 12 ft. x 24 ft. in plan.

UNDER CONTRACT NO. 4

There will be built a Stand Pipe 42 ft. in diameter and 75 ft. high of 770,000 gal. capacity, with ornamental balcony and roof and surrounding an existing elevated tank.

Plans and specifications are on file and may be seen at the office of Sidney B. Bowne, Engineer, Post Office Building, Mineola, New York, and will be forwarded on receipt of five ($5.00) dollars. (Same not to be refunded.)

All inquiries must be addressed to the Engineer.

Each bidder must accompany his proposal with a certified check or its equivalent for five (5%) per cent of the amount of his proposal made payable to E. Mortimer Ward, Treasurer, which will be returned to the unsuccessful bidders immediately following the award of the contract.

The successful bidder will be required to enter into a contract for the performance of the work as may be awarded him or them with a bond of an approved Surety Company for not less than one-half (50%) of the total amount of the awarded contract price.

The right is reserved to reject any or all bids, or accept any bid, or bids, or any portion of any bid.

BOARD OF WATER COMMISSIONERS.
BENJ. W. DOWNING,
Chairman.
E. MORTIMER WARD,
Treasurer.
EDWIN A. SCHLOTZHAUER,

Bids: April 26.

Reinforced Cement Concrete Pavement

Lynbrook, N. Y.

Notice is hereby given that sealed bids will be received by the Board of Trustees of the Incorporated Village of Lynbrook, N. Y., for the construction of a reinforced cement concrete pavement on certain streets in the Village of Lynbrook until 8 p.m. on April 26, 1923.

The Engineer's estimate of the quantities is as follows:

CONTRACT NO. 1

59,000 sq.yds. Reinforced Cement Concrete Pavement.
6 Standard Drainage Basins.
30 lin.ft. Additional depth of Drainage Basin.
16 Catch Basins.
300 lin.ft. 8 inch Vitrified Pipe.
500 sq.ft. Concrete Sidewalk.
100 lin.ft. Concrete Curb.

CONTRACT NO. 2

950 lin.ft. 12 inch Vitrified Pipe.
6 Catch Basins.

CONTRACT NO. 3

650 lin.ft. 12 inch Vitrified Pipe.
2 Catch Basins.

Plans and specifications will be on file in the office of the Clerk, 23 Broadway, Lynbrook, N. Y., after April 16, 1923, and copies of same will be furnished to prospective bidders upon payment of Ten Dollars ($10.00), which amount will be refunded upon return of the plans and specifications in good condition before the time specified for the opening of bids. The Board of Trustees reserves the right to reject any or all bids and to waive any defect or informality in any bid, should it be deemed to the best interests of the Village so to do.

By order of the Board of Trustees.

PHILIP STAUDERMANN, President.
FRANK H. JOHNSON, Clerk.

Dated April 9, 1923.

Notice is hereby given that sealed proposals will be received by the Mayor and Council of the Borough of Freehold, N. J., at the Freehold Municipal Building, on Tuesday, May 1st, 1923, at 1.30 p.m., for the following equipment.

CONTRACT A.

Furnishing and erection of fuel oil engines, pumps and compressors, with all small piping and appurtenances.

CONTRACT B.

Furnishing two 8,000 gallon fuel oil tanks.

CONTRACT C.

Deepening several existing wells at the Freehold Water Works.

Plans and specifications for the proposed work prepared by Charles A. Niles, Borough Engineer, may be obtained at the Municipal Building upon payment of $10.00, which amount will be refunded upon return of the plans and specifications before the time specified for receiving the bids.

All proposals must be submitted on blanks furnished by the Borough; placed in a sealed envelope, bearing the name and address of the bidder, the contract or contracts upon which bids are submitted and addressed to the Mayor and Council of the Borough of Freehold and accompanied by a certified check made payable to H. A. Sutphin, Borough Treasurer, in an amount of not less than 5% of the amount bid, and also accompanied by a Surety Company Certificate stating that the said Surety Company will provide the bidder with a bond to the full amount of the contract.

The Borough Council reserves the right to reject any or all bids and to award the work as may appear to be for the best interest of the Borough irrespective of price bid.

H. M. BURKE,
Boro. Clerk.

CHARLES A. NILES,
Boro. Engineer.

Bids: April 30.

Highway Maintenance Materials

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the following highway maintenance materials:

Crushed trap rock, limestone, dolomite or gneiss in the following approximate quantities:

49,624 tons of of 2½-in. stone.
375 tons of 1½-in. stone.
5,606 tons of ¾-in. stone.
21,125 tons of grade "A" screenings,
700 tons of grade "B" screenings.
7,192 tons of dustless screenings.

Bids will be received at the Assembly Chamber, State House, Trenton, N. J., on Monday, April 30, 1923, at 11 a.m., Standard Time, and opened and read immediately thereafter.

Points of delivery and other details will be furnished upon application to A. W. Muir, Superintendent of Maintenance, 517 Broad St. Bank Bldg., Trenton, N. J.

Specifications, form of bid, special addressed envelope, and conditions under which bids will be accepted for the above are on file in the office of A. W. Muir, Superintendent of Maintenance, 517 Broad St. Bank Bldg., Trenton, N. J., and may be obtained upon request. Bids must be made upon the proposal forms furnished, in the manner designated therein, and as required by the specifications, same to be enclosed in sealed special addressed envelopes which will be furnished each bidder with the bid blank, bearing the name and address of the bidder on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500 nor more than $20,000 and be delivered at the above place on or before the hour named. Bids not submitted on the standard proposal form or enclosed in other than the special envelope will be considered informal and will be rejected.

The State Highway Commission reserves the right to reject any or all bids.

By order of the State Highway Commission.

A. LEE GROVER, Chief Clerk.

OFFICIAL PROPOSALS

Bids: May 1.

Project 3197-B—Tyler County—1.5 miles of the Sistersville-Middlebourne Road for grading, draining and paving with waterbound macadam. Certified check, $1,000.

Project 3252 — Pleasants County — 1.2 miles St. Marys-Ellenboro Road for grading, and gravel surfacing. Certified check, $500.

Projects 3254 and 3268—Pleasants County —0.35 miles of Barkwill Street and Third Street, St. Marys for grading, draining and paving with cement concrete or brick and gravel. Certified check, $500.

Project 3067—Wirt County—Moorehead Bridge No. 867 over Right Reedy Creek, 120-ft. steel through truss, ashlar masonry or concrete substructure. Separate proposals will be received for substructure. Certified check, $500; and superstructure, certified check, $500.

Project 3067—Wirt County—Lee Bridge No. 868 over Reedy Creek, 150-ft. steel through truss, reinforced concrete substructure. Separate proposals will be received for substructure. Certified check, $500; and for superstructure, certified check, $500.

Project 3067 — Wirt County — McClung Bridge No. 869 over Reedy Creek, 120-ft. steel through truss, ashlar masonry or concrete substructure. Separate proposals will be received for substructure. Certified check, $500; and for superstructure, certified check, $500.

Project 3077—Brooke County—Four concrete slab culverts, approximately 10-ft. span. Certified check, $500.

Project 124—Harrison County—2.5 miles of the Northwestern Turnpike between Bridgeport and the Taylor County line for grading, draining and paving with cement concrete, bituminous concrete or warrenite bitulithic.

Project 125—Taylor County—4.5 miles of the Northwestern Turnpike between Harrison County line and Project 3025 for grading, draining and paving with cement concrete, bituminous concrete or warrenite bitulithic.

(Note: Projects 124 and 125 will be let in one contract. Certified check, $15,000.)

Project 3225-B — Harrison County — 5 miles of the Sycamore Dale-Good Hope Road for grading, draining and paving with bituminous macadam. Certified check, $7,500.

Project 108-B — Braxton County — Salt Lick Bridge No. 685 over Salt Lick Creek, 70-ft. steel pony truss, ashlar masonry substructure. Separate proposals will be received for substructure. Certified check, $500; and for superstructure, certified check, $500.

Project 2114 — Harrison County — Limestone Run Bridge No. 871 over Limestone Run, 75-ft. concrete arch. Certified check, $600.

Project 3142 — Pendleton County — 5.0 miles of the Franklin-Brandywine Road for grading and draining. Certified check, $3,000.

Project 3218—Jefferson County—4.1 miles of the Charlestown-Virginia Line road for grading, draining and waterbound macadam. Certified check, $4,000.

Project 3148—Hardy County—Petersburg Gap Bridge No. 875 over South Branch Potomac, one 200-ft. steel through truss and one 80-ft. steel pony truss, ashlar masonry or concrete substructure. Separate proposals will be received for substructure. Certified check, $700; and for superstructure, certified check, $1,100.

Project 3014—Pendleton County—Upper Tract Bridge No. 876 over South Branch Potomac, 200-ft. steel through truss, ashlar masonry or concrete substructure. Separate proposals will be received for substructure. Certified check, $500; and superstructure certified check, $900.

Project 1027—Fayette County—6 miles of the Fayetteville-Oak Hill Road for cleaning and tar cold surface application including cover coat. Certified check, $500.

Projects 54, 2024, 2009, 1086, 2023, 2025 and 1111—Greenbrier County—16.4 miles for cleaning and tar cold and hot surface application including cover coat. Certified check, $600.

Projects 79-A and 1068 — Pocahontas County—3.5 miles for cleaning and tar cold surface application including cover coat. Certified check, $500.

Projects 34, 60 and 1065—Monroe County —4.8 miles for cleaning and tar cold surface application including cover coat. Certified check, $500.

Projects 42, 1037, 2021, 2022—Raleigh County—22.4 miles for cleaning and tar cold surface application including cover coat. Certified check, $600.

Proposals will be received only upon State Standard forms in accordance with plans, specifications and estimates of quantities therefor, which standard forms, plans, specifications and estimates of quantities may be obtained from the office of the Division Engineer, in whose territory the proposed construction is located or from the office of the State Road Commission at Charleston, W. Va.

Each proposal must be accompanied by a certified check for the amount noted.

The right is reserved to reject any and all proposals.

THE STATE ROAD COMMISSION
OF WEST VIRGINIA
E. B. CARSKADON, Secretary.

OFFICIAL PROPOSALS

Bids: May 9.

Road Fill

Ashland, R. I.

Sealed proposals for the construction of the Ashland Causeway, a fill about half a mile long with a maximum height of about 60 feet, to carry the Relocated Plainfield Pike across the proposed Scituate Reservoir at the village of Ashland in the Town of Scituate, R. I., about 10 miles west of the City of Providence, will be received at the office of the Water Supply Board, City Hall, Providence, R. I., until 1:30 p.m., Eastern Standard Time (2:30 p.m. Daylight Saving Time) on Wednesday, May 9, 1923, at which time and place they will be publicly opened and read.

The work will include the construction of a large concrete culvert, the placing of riprap and other appurtenant work but will not include road surfacing. The estimated quantities are: Excavation 7,000 cu.yd., borrow, 230,000 cu.yd. riprap, 28,000 cu.yd.; broken stone, 10,000 cu.yd., concrete, 3,000 cu.yd.; reinforcing steel 120,000 lb.

Pamphlets containing plans, information for bidders, form of proposal, contract and bond and specifications, may be obtained from the Secretary of the Board, City Hall, or from the Chief Engineer, 661 Westminster Street.

CITY OF PROVIDENCE
WATER SUPPLY BOARD
B. THOMAS POTTER, Chairman.
SAMUEL N. GRAMMONT, Secretary.
FRANK E. WINSOR, Chief Engineer.

Bids: June 1.

Hall of Chemistry at West Virginia University

Morgantown, W. Va.

Sealed proposals will be received by the State Board of Control at its office in Charleston, West Virginia, until 3 p.m., Friday, June 1, 1923, for doing all work and furnishing all material necessary to complete the building described below, according to the plans and specifications prepared therefor by Paul A. Davis, 3rd, and Dunlap, architects, Philadelphia, Pa.

The building is to be 305'7" x 79'0", four stories, with basement and attic, with extension of one story and basement. Fireproof construction except main roof, which is steel, wood and slate. Exterior of face brick with granite base, Indiana limestone face first story, and Indiana limestone trimmings above. Interior brick finished walls. Concrete ceilings. Interior wood finish of oak. Interior partitions brick and tile. Stairs iron. Entrance vestibule marble and plaster. Floors of terrazzo, marble, tile, composition, cement and asphalt. Wrought iron railings. Electric elevator and lift.

Plans and specifications, blank form for bids and blank form of proposal bond will be mailed by the State Board of Control when request for plans is accompanied with check for $25, which amount will be refunded on receipt of bona-fide bid on or before time named above and proposal bond properly filled out and return of plans.

STATE BOARD OF CONTROL
By JAMES S. LAKIN, President.
Charleston, W. Va.

Bids: April 20.

Street Paving Construction

Warwick, N. Y.

Sealed proposals will be received by the President and Trustees of the Village of Warwick, New York, at the village office in Warwick, until 1:30 p.m., daylight time, Monday, April 30, 1923, for street paving and appertaining structures. The work will consist of about twenty-two thousand (22,000) square yards of reinforced cement concrete pavement, including excavation for the same.

All bids must be upon blanks provided in the proposal furnished to bidders. Evidence of suitable plant and ability to get materials must accompany each bid.

Bids must be accompanied by a certified check for three per cent of the amount of the bid. Plans and specifications will be on file at the Village Clerk's office in the Village of Warwick and at the office of the Engineer, 507 Fifth Avenue, New York City.

Copies of the plans and specifications may be obtained on or after April 19, 1923, for three dollars ($3) per set. No refund for blanks returned. Bidding blanks will be furnished free.

The right is reserved to reject any all bids.

JOHN M. DEMING, Jr., Village Clerk.
H. ELTINGE BREED, Engineer,
507 Fifth Avenue, New York City.

OFFICIAL PROPOSALS

Bids: April 25.

Sprinkling System

Utica, N. Y.

Sealed proposals for Sanitary Work—Sprinkling System, Manufacturing Department, Utica State Hospital, Utica, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 3 o'clock p.m., on Wednesday, April 25, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a deposit, consisting of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York, or money, equal to five per cent (5 per cent) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50 per cent) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4054. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the Utica State Hospital, Utica, N. Y.; at the New York office of the Department of Architecture, Room 1058, 25 Broadway, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

Dated: April 9, 1923.

Bids: April 30.

Construction of Water System and Driving Wells

Waldwick, N. J.

Sealed proposals will be received by the Clerk of the Borough of Waldwick, N. J., at the Council Chamber, over the office of the Waldwick Coal and Lumber Co., until 8 o'clock p.m. on Monday the 30th day of April, 1923, for laying 6.7 miles of water pipe and constructing concrete reservoir, dykes, dams and foundations for power house and pumping station, also for driving two or more artesian wells.

Bids must be made on proposal forms furnished by the clerk and must be accompanied by a certified check for the amount of five hundred ($500) drawn, payable to W. R. Evans, Jr., clerk.

Proposals must be sealed and delivered to the clerk, endorsed on the envelope "Proposal for Constructing Water System" or "Proposal for Driving Wells" as the case may be.

Plans may be seen at the office of the Waldwick Coal and Lumber Co., or at the office of the Engineer, Suite 707, 30 Church St., N. Y., and specifications, form of proposal and contract may be secured by addressing the clerk at Waldwick, N. J.

The Borough Council reserves the right to reject any and all bids or to accept one other than the lowest.

By order of the Borough Council of the Borough of Waldwick, N. J., at regular meeting, April 5th, 1923.

B. B. VAN WAGONER, Mayor.
E. D. HOOK, Chairman
W. R. EVANS, Jr., Borough Clerk.
of Water Committee.
JOHN L. COLLINS, Engineer.

Bids: May 1.

Bids: May 10.

Bridge

Haverhill, Mass.

Sealed proposals for rebuilding the Haverhill Lower Bridge over the Merrimack River in the City of Haverhill, Mass., will be received by the Haverhill Lower Bridge Rebuilding Commission at the County Commissioners' office in the Court House at Salem, Mass., until 11:00 o'clock a.m. of Thursday, May 10, 1923, and then and there will be publicly opened and read.

The proposed bridge is to be 804 feet long and 66 feet wide, consisting of five reinforced concrete arches of 80 feet clear span, one arch of 55 feet clear span, a double leaf steel bascule drawspan of 75 feet in the clear, and reinforced concrete approaches of beam and slab construction. The new bridge will occupy the site of the old bridge and extend downstream therefrom so that one-half of the new bridge is to be built clear of the old bridge which is then to be removed and the other half of the new bridge completed in its place.

Each proposal must be accompanied by a certified check for forty thousand dollars ($40,000). A bond in the sum of fifty per cent (50%) of the amount of the contract with an approved surety company as surety will be required for the faithful performance of the contract.

More detailed information is given in the plans, notice to contractors, specifications, and form of proposal, contract, and bond, copies of which may be inspected after April 25 at the office of the Commission, No. 14 Water Street, Haverhill, or may be obtained after that date at the office of the County Engineer in the Court House at Salem upon the deposit of fifty ($50.00) dollars, forty ($40.00) dollars of which will be refunded upon return of plans, specifications, etc., in good condition on or before the day herein set for the opening of proposals.

The right is reserved to reject any and all proposals.

ROBERT H. MITCHELL, Chairman,
CHARLES N. KELLY,
EDMUND C. WENTWORTH,
RAYMOND H. TREFRY,
FREDERICK BUTLER,
Haverhill Lower Bridge Rebuilding Commission.

ROBERT R. EVANS,
Engineer.

Haverhill, Mass., April 16, 1923.

OFFICIAL PROPOSALS

Bids: May 1.

Trunk Sewer and Sewage Disposal Works

Jersey City, N. J.

Sealed proposals for furnishing materials and doing all work required for the construction of Section 1 of the trunk sewer from Dover to Boonton and the Sewage Disposal Works will be received by the Board of Commissioners, in the Assembly Chamber of the City Hall, Jersey City, N. J., Tuesday, May 1st, 1923, at 3 o'clock p.m. (daylight saving time), at which place they will be publicly opened.

Section 1 of the Trunk Sewer extends from Boonton to Powerville and includes approximately 3.2 miles of 24 to 39-inch sewer with manholes, appurtenances and other work incidental thereto.

Up to and including sewer of 27 inches in diameter, the material is to be salt-glazed vitrified terra cotta pipe. Alternate bids will be received on both segment block and monolithic reinforced concrete pipe with brick invert for the larger sizes.

The plant includes Settling Tanks, Sludge Digestion Tanks, Sludge Drying Beds, Contact Beds, Sand Filters, Disinfection Plant and auxiliary units.

Each bid must be accompanied by certified check for $100,000 payable to the City of Jersey City, as a guarantee that the Contractor will execute the contract n awarded, failing which said check shall be forfeited, and which said check shall be returned to the bidder on the execution of the contract. Check of unsuccessful bidders will be returned on the award of the contract. Proposals must also be accompanied by the consent in writing of a surety company authorized to do business according to the laws of the State of New Jersey, that, should the proposal be accepted, it will become surety in the full amount of the contract as provided in the specifications and in Chapter 75, P. L. 1918, forms of which is made part of the specifications.

Copies of the plans, proposal forms, specifications and forms of bond and contract can be seen at the office of Michael I. Fagen, Director, Department of Streets and Public Improvements, City Hall, Jersey City, N. J., or at the office of Clyde Potts, Consulting Engineer, 30 Church Street, New York City, or may be obtained by prospective bidders upon depositing twenty-five dollars ($25.00), which sum will be refunded to Contractors who submit bids, on return of the plans within ten days after the contract has been awarded, if the same are in good condition when returned.

The deposit will not be refunded to parties who take out plans and do not submit proposals.

The Board of Commissioners reserves the right to reject any and all proposals.

By order of The Board of Commissioners of Jersey City.

EDWARD J. HOLLAND,
City Clerk.

Dated City Clerk's Office,
Jersey City, April 6th, 1923.

Bids: May 1.

Road Oil

Hartford, Conn.

Separate sealed proposals will be received by the Board of Contract and Supply of the City of Hartford at the Mayor's office, Municipal Building, until 11 o'clock a.m., Tuesday, May 1st, 1923, for furnishing and delivering to the Street Department f.o.b. Tank Cars, Hartford, Conn., 400,000 gallons more or less of road oil with about 45 per cent asphaltic base and 50,000 gallons more or less of road oil with about 65 per cent asphaltic base.

Bidders will quote prices on tank car lots and will submit quart samples of the road oil with the name and grade of oil plainly marked on each sample.

Proposals to be endorsed "Proposal for Road Oil" and addressed to the Board of Contract and Supply, Hartford, Conn. Each bid must be accompanied by a certified check for two hundred dollars ($200) made payable to the City Treasurer of Hartford. A satisfactory surety bond amounting to 25 per cent of the contract will be required of the successful bidder.

Specifications and blank forms for proposal can be obtained at the office of the Board of Street Commissioners, Municipal Building, Hartford, Connecticut.

Right is reserved to reject any or all bids not deemed to the advantage of the city.

BOARD OF CONTRACT AND SUPPLY,
WILLIAM F. O'NEIL, Secretary.

OFFICIAL PROPOSALS

Bids: May 1.

Trunk Sewer

SECTION 3

Jersey City, N. J.

Sealed proposals for furnishing materials and doing all work required for the construction of Section 3 of the Trunk Sewer from Dover to Boonton will be received by the Board of Commissioners in the Assembly Chamber, of the City Hall, Jersey City, N. J., Tuesday, May 1st, 1923, at 3 o'clock p.m. (daylight saving time), at which place and time they will be publicly opened.

The work includes approximately 2.7 miles of 10-inch to 33-inch sewer with manholes, appurtenances and other work incidental thereto. Section 3 is within and adjacent to the Town of Dover.

Up to and including sewer of 22 inches in diameter, the material is to be salt-glazed vitrified terra cotta pipe. Alternate bids will be received on both segment block and monolithic reinforced concrete pipe with brick invert for the 33-inch sewer.

Each bid must be accompanied by certified check for $10,000, payable to the City of Jersey City, as a guarantee that the Contractor will execute the contract if awarded, failing which said check shall be forfeited, and which said check shall be returned to the bidder on the execution of the contract. Checks of unsuccessful bidders will be returned on the award of the contract. Proposals must also be accompanied by the consent in writing of a surety company authorized to do business according to the laws of the State of New Jersey, that, should the proposal be accepted, it will become surety in the full amount of the contract as provided in the specifications and in Chapter 75, P. L. 1918, form of which consent is made part of the specifications.

Copies of plans, proposal forms, specifications and forms of bond and contract can be seen at the office of Michael I. Fagen, Director, Department of Streets and Public Improvements, City Hall, Jersey City, N. J., or at the office of Clyde Potts, Consulting Engineer, 30 Church Street, New York City, or may be obtained by prospective bidders upon depositing ten dollars ($10.00), which sum will be refunded to Contractors who submit bids, on return of the plans within ten days after the contract has been awarded, if the same are in good condition when returned.

The deposit will not be refunded to parties who take out plans and do not submit proposals.

The Board of Commissioners reserves the right to reject any and all proposals.

By order of The Board of Commissioners of Jersey City.

EDWARD J. HOLLAND,
City Clerk.

Dated City Clerk's Office,
Jersey City, April 6th, 1923.

Bids: May 9.

Road Fill

Ashland, R. I.

Sealed proposals for the construction of the Ashland Causeway, a fill about half a mile long with a maximum height of about 60 feet, to carry the Relocated Plainfield Pike across the proposed Scituate Reservoir at the village of Ashland in the Town of Scituate, R. I., about 10 miles west of the City of Providence, will be received at the office of the Water Supply Board, City Hall, Providence, R. I., until 1:30 p.m., Eastern Standard Time (2:30 p.m. Daylight Saving Time) on Wednesday, May 9, 1923, at which time and place they will be publicly opened and read.

The work will include the construction of a large concrete culvert, the placing of riprap and other appurtenant work but will not include road surfacing. The estimated quantities are: Excavation 7,000 cu.yd., borrow, 230,000 cu.yd. riprap, 28,000 cu.yd.; broken stone, 10,000 cu.yd., concrete, 3,000 cu.yd.; reinforcing steel 120,000 lb.

Pamphlets containing plans, information for bidders, form of proposal, contract and bond and specifications, may be obtained from the Secretary of the Board, City Hall, or from the Chief Engineer, 661 Westminster Street.

CITY OF PROVIDENCE
WATER SUPPLY BOARD
B. THOMAS POTTER, Chairman.
SAMUEL N. GRAMMONT, Secretary.
FRANK E. WINSOR, Chief Engineer.

OFFICIAL PROPOSALS

Bids: May 15.

Water Works Construction

Harrisburg, Pa.

Sealed proposals for building extension and improvements to Water Works of Harrisburg, Pa., will be received at the Council Chamber, 406 Dauphin Bldg., Harrisburg, Pa., until 1.00 p.m., May 15, at which time they will be publicly opened and read. The work will be done under two contracts, as follows:

CONTRACT E—Construction of a 30,000,000 gallon reservoir with slab roof, having **86,000** yards of excavation and 13,600 yards of concrete. This reservoir has a 125,000 square foot flat slab roof. Bids may be offered on the Contractor's own design of roof which must however, comply with the specifications in all particulars.

CONTRACTS F—Laying 4,000 feet of new 36 inch cast iron pipe, re-laying 2,000 feet of 30 inch cast iron pipe, miscellaneous smaller pipe, valves, gate house, etc.

Each contract will be awarded separately but both may be awarded to the same bidder. Proposals must be accompanied by a certified check equal to 10% of the total bid for each contract. A bond will be required for the amount of 25% of each contract.

The right is reserved to reject any or all bids.

Information for bidders, Form of Contract, Specifications, and Plans, will be available for inspection at the office of Dr. Samuel F. Hassler, Supt. Public Safety, Room 406 Dauphin Bldg., Harrisburg, Pa., or at the office of James H. Fuertes, consulting engineer, 140 Nassau Street, New York, and may be had upon deposit of $20.00, which will be returned to the prospective bidder upon the return of the drawings and specifications accompanied by a bona fide bid.

S. F. HASSLER,
Supt. Public Safety,
Harrisburg, Pa.

Bids: May 16.

Pipe Line

San Francisco, Calif.

OFFICE OF THE BOARD OF PUBLIC WORKS OF THE CITY AND COUNTY OF SANFRANCISCO, APRIL 13, 1923.

Sealed proposals will be received at this office between the hours of 2:00 o'clock p.m. and 3:00 o'clock p.m. Wednesday, the 16th day of May, 1923, for:

Construction of the Bay Crossing Pipe Line in the Bay Crossing Division of the Hetch Hetchy Aqueduct Contract No. 90, Hetch Hetchy Water Supply.

The pipe line will be located in the vicinity of Irvington and Redwood City, Calif., and will be 19.45 miles long. Alternative bids will be considered on 60 inch riveted steel pipe or 58 inch lock bar or welded steel pipe or equivalent diameters suited for nesting pipe for shipment. Provision is made for division into two contracts covering 9.2 miles and 10.25 miles respectively.

Specifications accompanied by proposal forms and official advertisement may be obtained from the office of M. M. O'Shaughnessy, City Engineer, City Hall, on deposit of $20.

By order of the Board of Public Works,
W. J. FITZGERALD,
Secretary.

Bids: May 1.

Highway Work

Harrisburg, Pa.

Pennsylvania State Highway Department, Harrisburg, Pa.—Sealed proposals will be received at the State Capitol until 10 a.m., May 1, 1923, when bids will be publicly opened and scheduled and contract awarded as soon thereafter as possible for the reconstruction of 20 miles of reinforced concrete pavement and 27 miles of either bituminous surface on a concrete foundation or reinforced concrete pavement: also for the fabrication and erection complete of a two span through plate girder bridge with reinforced concrete floor. Bidding blanks and specifications may be obtained free, and plans upon payment of $2.50 per set, upon application to State Highway Department, Harrisburg. No refund for plans returned. They also can be seen at office of State Highway Department, Harrisburg, 1001 Chestnut Street, Philadelphia, and 119 Federal Street, N. S. Pittsburgh, Pa. P. D. WRIGHT, State Highway Commissioner.

Bids: May 1.

Fuel Oil Engines, Pump, Compressors, Tanks, and Well Drilling

Freehold, N. J.

Notice is hereby given that sealed proposals will be received by the Mayor and Council of the Borough of Freehold, N. J., at the Freehold Municipal Building, on Tuesday, May 1st, 1923, at 1.30 p.m., for the following equipment.

CONTRACT A.

Furnishing and erection of fuel oil engines, pumps and compressors, with all small piping and appurtenances.

CONTRACT B.

Furnishing two 8,000 gallon fuel oil tanks.

CONTRACT C.

Deepening several existing wells at the Freehold Water Works.

Plans and specifications for the proposed work prepared by Charles A. Niles, Borough Engineer, may be obtained at the Municipal Building upon payment of $10.00, which amount will be refunded upon return of the plans and specifications before the time specified for receiving the bids.

All proposals must be submitted on blanks furnished by the Borough; placed in a sealed envelope, bearing the name and address of the bidder, the contract or contracts upon which bids are submitted and addressed to the Mayor and Council of the Borough of Freehold and accompanied by a certified check made payable to H. A. Sutphin, Borough Treasurer, in an amount of not less than 5% of the amount bid, and also accompanied by a Surety Company Certificate stating that the said Surety Company will provide the bidder with a bond to the full amount of the contract.

The Borough Council reserves the right to reject any or all bids and to award the work as may appear to be for the best interest of the Borough irrespective of price bid.

H. M. BURKE,
Boro. Clerk.

CHARLES A. NILES,
Boro. Engineer.

Bids: May 1.

Paving Construction

Miami, Fla.

Sealed proposals will be received by "The Commission of the City of Miami, Florida," at the City Hall in Miami, Florida, until 9:30 a.m., at the regular meeting of the Commission, Tuesday, May 1, 1923, for the construction of bituminous macadam paving.

The work will consist of approximately 158,268 sq.yd. of bituminous macadam paving and will be divided into two contracts. The bidder can bid on any or all of these contracts.

The improvements are to be constructed and payment therefor is to be made under Section 56 of the City Charter.

All bids must be upon blank forms provided in the proposal, specifications and contract.

Each bid must be accompanied by a certified check for 2½ per cent of the amount of the bid to insure the execution of the contract as provided by Section 56 of the City Charter.

The City reserves the right to reject any or all bids.

Plans and specifications will be on file at the City Hall in the office of the City Manager.

Copies of proposals, specifications and contract can be obtained from the office of Chas. W. Murray, Director of Public Service, on deposit of $10, which will be refunded to those who submit bona fide bids.

F. H. WHARTON, City Manager.

Bids: May 4.

Street Improvement

Winchester, Ky.

The Board of Commissioners of the City of Winchester, Ky., will on May 4, 1923, at 2:00 p.m., in its Chamber at the City Hall, receive sealed bids for the improvement of about 15,000 square yards of streets, to be constructed of sheet asphalt, concrete, Kentucky rock asphalt or asphalt macadam, according to the plans and specifications therefor on file in the office of J. C. Lary, City Clerk.

The Commissioners reserve the right to reject any and all bids.

N. A. POWELL,
Commissioner of Public Works.

Bids: May 3.

Highway Maintenance Materials

Albany, N. Y.

State Commission of Highways, Albany, N. Y.—Pursuant to Chapter 30, Laws of 1909, and amendments thereto, sealed proposals will be received by the undersigned at No. 56 Lancaster Street, Albany, N. Y., on Thursday, May 3, 1923, at one o'clock p.m. advanced standard time, which is twelve o'clock noon eastern standard time, for the furnishing and delivering bituminous material A, Emulsion, in bbls., carload lot, known as Bituminous Material Contract No. 11, f.o.b. railroad cars at destination for use by the State Highway Commission, in the maintenance and repair of improved state and county highways in all the counties of the State, unless otherwise specified.

Proposals will be for furnishing the specified material at any railroad delivery point within the divisions named in the proposal.

Table showing approximate quantities and anticipated railroad delivery points, specifications and proposals may be obtained at the office of the State Commission of Highways at Albany, N. Y.

Special attention of Bidders is called to "General Information for Bidders" in the proposal, specifications and contract agreement. Proposal for this contract must be submitted in a separate sealed envelope with the name and number of the contract plainly endorsed on the outside of the envelope. Each proposal must be accompanied by cash, draft or certified check payable to the order of the State Commission of Highways for an amount equal to at least three per cent of the amount of the proposal. The retention and disposal of such cash, draft or check by the State Commission of Highways shall conform with Subdivision 3, Section 130 of the Highway Law, as amended by Chapter 623, Laws of 1919.

The successful bidder will be required to execute the contract and comply in all respects with Section 130 of the Highway Law, as amended by Chapter 623.

The right is reserved to reject any or all bids.

FRED'K STUART GREENE,
W. A. PATTON, Commissioner.
Secretary.

Bids: May 22.

Lake Intake Pipe—Tunnel—Conduit

Portland, Maine.

Sealed proposals will be received by the Trustees of the Portland Water District at their office, 16 Casco Street, Portland, Maine, up to 2 p.m., Eastern Standard time, on Tuesday, May 22, 1923, for four contracts as follows:

1. For furnishing about 3,500 linear feet 54-inch reinforced concrete, or steel water pipe.
2. For laying about 1,600 linear feet of 54-inch lake intake pipe of reinforced concrete, or steel (Section I of the New Conduit at Sebago Lake).
3. For building about 2,100 feet of tunnel (almost wholly through rock), 7 feet in diameter of excavation, and 5 feet in diameter of lined section (Section II of the New Conduit at Sebago Lake).
4. For laying about 1,900 linear feet of 54-inch reinforced concrete, or steel conduit from the tunnel to connect with the existing mains. (Section III of the New Conduit at Sebago Lake.)

Said proposals will be publicly opened and read at the above stated time and place.

All bids must be upon the blank form of proposal furnished by the Trustees and must be accompanied by the required certified check. Bonds will be required for the faithful performance of the contracts.

The printed forms of "Information for Bidders, Form of Proposal, Contract and Bond, and Specifications, and Contract Drawings," will be available at the office of the Trustees.

The samples of wash and core drill borings taken over the area traversed by the tunnel, may also be examined at the office of the Trustees.

The site of the work may be examined at the convenience of the bidders.

A deposit of Ten Dollars ($10.00) will be required for contract drawings.

The right is reserved to reject any or all bids.

THE TRUSTEES,
Portland Water District.

HARRY U. FULLER,
Chief Engineer, Portland Water District.
METCALF & EDDY,
Consulting Engineers,
14 Beacon Street, Boston, 9, Mass.

Sealed Bids will be Received by the

BOARD OF ESTIMATE AND APPORTIONMENT
CITY OF NEW YORK

at its meeting room in the Council Chamber, Room 16, City Hall, Borough of Manhattan, until 12 o'clock noon on

FRIDAY, MAY 18, 1923

For the Construction of the South Street Shaft at St. George, in the Borough of Richmond for a Freight and Passenger Railroad Tunnel to be Built in the Boroughs of Brooklyn and Richmond and Under New York Bay, New York City.

A statement of the quantities of the various items of work and further information are given in the invitation to bid forming part of the contract. At the above place and time the bids will be publicly opened and read. The award of the contract, if awarded, will be made by the Board as soon thereafter as practicable. The Board reserves the right to reject any and all bids.

A bond in the sum of two hundred thousand dollars ($200,000) will be required for the faithful performance of the contract.

No bid will be received or considered unless accompanied by a certified check upon a National or State Bank, or Trust Company of The City of New York, or a check of such bank or trust company signed by a duly authorized officer thereof, drawn to the order of the Comptroller of The City of New York to the amount of ten thousand dollars ($10,000).

The time allowed for the completion of the work is twelve months after notification of the endorsement of the Comptroller's certificate as to the appropriation of funds upon the executed contract.

Pamphlets containing forms of invitation to bid, contract and specifications and plans, etc., can be obtained at the office of the Chief Engineer of the Board of Estimate and Apportionment, Room 2700, Municipal Building, Manhattan, for the sum of $5.00 per set which will be refunded upon their return in good condition within thirty (30) days from the date of receipt of bids.

For further particulars apply to the office of the Chief Engineer at the above address.

BOARD OF ESTIMATE AND APPORTIONMENT,
JOHN F. HYLAN, Mayor, *Chairman.*

OFFICIAL PROPOSALS

Bids: May 7.

Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the construction of the following:

Route No. 6, Section No. 15, Broadway in the City of Gloucester, Camden County; estimated amount of ten inch (10") two line reinforced concrete pavement, 5,494 square yards.

Route No. 5, Section No. 7, Mine Hill, Morris County; estimated amount of eight inch (8") two line reinforced concrete pavement 2,665 square yards; estimated amount of Granite Block pavement on a six inch (6") concrete base, 6,836 square yards.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, May 7th, 1923, at 11:00 A.M., Standard Time, and opened and read immediately thereafter.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of the State Highway Department, Trenton, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on deposit of Ten Dollars ($10.00) upon application to the State Highway Department, 9th floor Broad Street Bank Building, Trenton, New Jersey. Bids must be made on the standard proposal forms in the manner designated therein, and as required by the 1922 specifications, same to be enclosed in sealed special addressed envelopes bearing the name and address of bidder and the name and section of the route on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 or more than $20,000.00, and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelope will be furnished on application. Bids not enclosed in special envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Each bidder must also accompany his bid with a Statement of Equipment properly filled out.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: May 7.

Sewers

Butler, N. J.

Pursuant to a resolution adopted the 16th day of April, 1923, the Council of the Borough of Butler, N. J., will receive at its meeting, to be held on the 7th day of May, 1923, at 7:30 P.M. (standard time) at the Municipal Building in the Borough, sealed proposals for furnishing materials and doing all other work required for the construction of sewers left unfinished by the abandonment of a previous contract.

The work includes approximately 5,000 feet of vitrified tile sewers from ten (10) to twenty (20) inches in diameter and 60 feet of four (4) and six (6) inch siphon lines, with manholes, siphon manholes and appurtenances complete.

Plans may be seen and specifications and forms of proposals obtained at the office of the Borough Clerk at Butler, N. J., or at the office of Clyde Potts, 30 Church Street, New York City.

Plans and specifications may be taken away upon the payment of ten dollars ($10.00), the same to be returned if the plans are returned within twenty (20) days, in good condition.

Each bid must be accompanied by a certified check on a solvent bank for $2,000.

The Borough Council reserves the right to reject any and all proposals and to waive any informality in the proposals received, and to accept any proposals which they deem to be most favorable to the interests of the Borough.

D. D. SMITHYMAN,
Chairman, Sewer Committee.
JOHN F. BORMUTH,
Borough Clerk.

Bids: May 7.

Public School Building

Bergenfield, N. J.

Sealed proposals will be received by the Board of Education of the Borough of Bergenfield, County of Bergen, New Jersey, at 8:30 o'clock p.m., daylight saving time, May 7th, 1923, in the Board of Education Room, Washington School at Summit and Taylor Avenues, Bergenfield, New Jersey, for the complete construction of a new Public School Building, at which time the bids will be opened publicly. Bids shall be based on the plans and specifications on file with the architect.

Bids for the general construction, for the Heating and Ventilating, for the Plumbing and for the Electrical Work, will be taken separately.

Bidders shall make the following deposits by certified check payable to the Board of Education of the Borough of Bergenfield in the County of Bergen:

Two Thousand ($2,000) dollars for general construction;

One thousand ($1,000) dollars for heating and ventilating;

Five hundred ($500) dollars for plumbing.

Two hundred ($200) dollars for electrical work.

If the bidder or bidders who receive the award shall not execute the contract and furnish the required bond within ten days after the acceptance of such bid or bids, the said sum so deposited shall be forfeited to the Board of Education and shall be liquidated damages for such forfeiture.

Contracts will be awarded to the lowest responsible bidders. The Board of Education reserves the right to reject any or all bids, or to waive defects or informalities in any bid it it be deemed to the interest of the Board of Education so to do.

Copies of the plans and specifications may be obtained by prospective bidders from Ernest Sibley, Architect, L. C. Licht, Hacker & Hacker Associated, Edgewood Lane and Bluff Road, Palisade, New Jersey, on deposit of ten ($10) dollars. Deposits will be forfeited unless plans and specifications are returned to the architect within ten days after bids are opened.

Signed
E. L. SCHWEIGER,
District Clerk.

For the Board of Education, Borough of Bergenfield, New Jersey.
Dated April 17, 1923.

Bids: May 11.

Street Improvement

Westfield, N. Y.

Sealed proposals will be received by the Board of Trustees of the Village of Westfield, N. Y., until 8 p.m., May 11, 1923, for the improvement of the following streets:

Paving of Union Street from the south line of Main Street to the south line of Second Street with reinforced concrete or brick pavement, with concrete base, with 2,940 lineal feet of curb, 5,275 square yards.

Paving of Pearl Street from the north line of Main Street to the south line of Jefferson Street with 18 feet wide reinforced concrete pavement, without curb, 2,490 square yards.

Plans and specifications are on file in the office of John Riley, Clerk of the Village, Westfield, New York, and at the North East Pa. office of Hill and Hill, Engineers.

A certified check of 5% of the amount of the bid must accompany each proposal. The right is reserved to reject any or all bids.

J. A. RILEY,
Per J. C. H. Village Clerk.

You think you are covered but—are you?

¶An analysis of a Contractor's Payroll Insurance Policy showed that only one paymaster was covered. He had several jobs and a paymaster on each one. ¶In another policy the term "premises" was defined as the main office. Thus the risk of paying off out on the job was not covered. ¶Swart Specialized Service is in itself insurance against such lose handling. ¶Swart will be glad to personally analyse your policy at no cost whatever and in the event it does not cover, will render a specialized service on which you can depend at no increase in cost over the inadequate sort. ¶More advertisements will appear under this heading—watch for them. They may save you money.

Bids: May 14.

Extension to Water Works Distributing System

Liberty, N. Y.

Sealed proposals for the installation of Cast Iron Water Pipe and Specials, required for a new water Main and for Extensions to the Distributing System of the Water Works of the Village of Liberty, New York, will be received by the Board of Water Commissioners, at the office of the Village Clerk until 8 o'clock p.m., Standard Time, on May 14th, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the Village Clerk, sealed and addressed, and shall be accompanied by a certified check in the sum of 5 per cent of the amount of the proposal. The contractor to whom the award is made will be required to furnish Surety Company bond in the sum of 50 per cent of the amount of the contract within thirty days after official notice of award of contract and in accordance with the terms of the specifications.

The work consists in installing about 9 miles of 8" Pipe, etc.

The right is reserved to reject any or all bids, and to let the work in one or two parts.

The Engineer plans to be in Liberty on April 30th and May 7th at 12 o'clock noon, for the purpose of going over the route of the pipe lines with prospective bidders and supplying additional information desired.

Plans and specifications may be seen at the office of the Village Clerk, Liberty, N. Y., or at the office of the Engineer, Henry W. Taylor, 149 Broadway, New York City, and specifications and blank forms of proposal may be obtained at the office of the Village Clerk in his discretion. Plans will be sent to prospective bidders by the Clerk or Engineer upon receipt of $5.00.

Dated April 23, 1923.

Signed by THEO. S. KESSLER,
Village Clerk.

Bids: May 16.

Pipe Line

San Francisco, Calif.

OFFICE OF THE BOARD OF PUBLIC WORKS OF THE CITY AND COUNTY OF SANFRANCISCO, APRIL 13, 1923.

Sealed proposals will be received at this office between the hours of 2:00 o'clock p.m. and 3:00 o'clock p.m. Wednesday, the 16th day of May, 1923, for:

Construction of the Bay Crossing Pipe Line in the Bay Crossing Division of the Hetch Hetchy Aqueduct Contract No. 90, Hetch Hetchy Water Supply.

The pipe line will be located in the vicinity of Irvington and Redwood City, Calif., and will be 19.45 miles long. Alternative bids will be considered on 60 inch riveted steel pipe or 58 inch lock bar or welded steel pipe or equivalent diameters suited for nesting pipe for shipment. Provision is made for division into two contracts covering 9.2 miles and 10.25 miles respectively.

Specifications accompanied by proposal forms and official advertisement may be obtained from the office of M. M. O'Shaughnessy, City Engineer, City Hall, on deposit of $20.

By order of the Board of Public Works.

W. J. FITZGERALD,
Secretary.

Bids: May 7.

Highway Maintenance Materials

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the following highway maintenance materials:

Tar, Asphalt, Bituminous Concrete, Sheet Asphalt, and Crushed Slag, Dustless Screenings, in the following approximate quantities:

364,625	gallons of Tar, Grade "B" or "UB"
36,052	gallons of Asphalt, Grade "HHO"
10,705	gallons of Tar, Grade "X" or "U3"
6,317.5	tons of Bituminous Concrete, Type "FABC-1"
64	tons of Sheet Asphalt, Type "SA"
8,645	tons of Crushed Slag, Dustless Screenings.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, May 7th, 1923, at 11 A.M., Standard Time, and opened and read immediately thereafter.

Points of delivery and other details will be furnished upon application to A. W. Muir, Superintendent of Maintenance, 517 Broad Street Bank Bldg., Trenton, New Jersey.

Specifications, form of bid, special addressed envelope, and conditions under which bids will be accepted for the above are on file in the office of A. W. Muir, Superintendent of Maintenance, 517 Broad St., Bank Bldg., Trenton, N. J., and may be obtained upon request. Bids must be made upon the proposal forms furnished, in the manner designated therein, and as required by the specifications, same to be enclosed in sealed special addressed envelopes which will be furnished each bidder with the bid blank, bearing the name and address of the bidder on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 nor more than $20,000.00, and be delivered at the above place on or before the hour named. Bids not submitted on the standard proposal form or enclosed in other than the special envelope will be considered informal and will be rejected.

The State Highway Commission reserves the right to reject any or all bids.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the construction of the following:

Route No. 6, Section No. 15, Broadway in the City of Gloucester, Camden County; estimated amount of ten inch (10") two line reinforced concrete pavement, 5,494 square yards.

Route No. 5, Section No. 7, Mine Hill, Morris County; estimated amount of eight inch (8") two line reinforced concrete pavement 2,665 square yards; estimated amount of Granite Block pavement on a six inch (6") concrete base, 6,836 square yards.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, May 7th, 1923, at 11:00 A.M., Standard Time, and opened and read immediately thereafter.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of the State Highway Department, Trenton, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on deposit of Ten Dollars ($10.00) upon application to the State Highway Department, 9th floor Broad Street Bank Building, Trenton, New Jersey. Bids must be made on the standard proposal forms in the manner designated therein, and as required by the 1922 specifications, same to be enclosed in sealed special addressed envelopes bearing the name and address of bidder and the name and section of the route on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 or more than $20,000.00, and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelope will be furnished on application. Bids not enclosed in special envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Each bidder must also accompany his bid with a Statement of Equipment properly filled out.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: June 1.

Pier

Bids: May 7.

Sewers

Butler, N. J.

Pursuant to a resolution adopted the 16th day of April, 1923, the Council of the Borough of Butler, N. J., will receive at its meeting, to be held on the 7th day of May, 1923, at 7:30 P.M. (standard time) at the Municipal Building in the Borough, sealed proposals for furnishing materials and doing all other work required for the construction of sewers left unfinished by the abandonment of a previous contract.

The work includes approximately 5,000 feet of vitrified tile sewers from ten (10) to twenty (20) inches in diameter and 60 feet of four (4) and six (6) inch siphon lines, with manholes, siphon manholes and appurtenances complete.

Plans may be seen and specifications and forms of proposals obtained at the office of the Borough Clerk at Butler, N. J., or at the office of Clyde Potts, 30 Church Street, New York City.

Plans and specifications may be taken away upon the payment of ten dollars ($10.00), the same to be returned if the plans are returned within twenty (20) days, in good condition.

Each bid must be accompanied by a certified check on a solvent bank for $2,000.

The Borough Council reserves the right to reject any and all proposals and to waive any informality in the proposals received, and to accept any proposals which they deem to be most favorable to the interests of the Borough.

D. D. SMITHYMAN,
Chairman, Sewer Committee.
JOHN F. BORMUTH,
Borough Clerk.

Bids: May 15.

Bids: May 22.

Lake Intake Pipe—Tunnel—Conduit

Portland, Maine

Sealed proposals will be received by the Trustees of the Portland Water District at their office, 16 Casco Street, Portland, Maine, up to 2 p.m., Eastern Standard time, on Tuesday, May 22, 1923, for four contracts as follows:

1. For furnishing about 3,500 linear feet 54-inch reinforced concrete, or steel water pipe.

2. For laying about 1,600 linear feet of 54-inch lake intake pipe of reinforced concrete, or steel (Section I of the New Conduit at Sebago Lake).

3. For building about 2,100 feet of tunnel (almost wholly through rock), 7 feet in diameter of excavation, and 5 feet in diameter of lined section (Section II of the New Conduit at Sebago Lake).

4. For laying about 1,900 linear feet of 54-inch reinforced concrete, or steel conduit from the tunnel to connect with the existing mains. (Section III of the New Conduit at Sebago Lake.)

Said proposals will be publicly opened and read at the above stated time and place.

All bids must be upon the blank form of proposal furnished by the Trustees and must be accompanied by the required certified check. Bonds will be required for the faithful performance of the contracts.

The printed forms of "Information for Bidders, Form of Proposal, Contract and Bond, and Specifications, and Contract Drawings," will be available at the office of the Trustees.

The samples of wash and core drill borings taken over the area traversed by the tunnel, may also be examined at the office of the Trustees.

The site of the work may be examined at the convenience of the bidders.

A deposit of Ten Dollars ($10.00) will be required for contract drawings.

The right is reserved to reject any or all bids.

THE TRUSTEES,
Portland Water District.
HARRY U. FULLER,
Chief Engineer, Portland Water District.
METCALF & EDDY,
Consulting Engineers,
14 Beacon Street, Boston, 9, Mass.

Bids: May 21.

Paving Construction

St. Paul, Minn.

Sealed proposals will be received by the County Board, Ramsey County, at the office of the County Auditor, until 10 a.m., May 21, 1923, for the construction of pavements, grading, and the necessary accessories for project number (23-02) (23-55), approximately sixty thousand (60,000) square yards of paving. Bids must be accompanied by certified check or bidder's bond of 10% of the total bid price. Plans and specifications can be procured at the office of the County Engineer of Ramsey County, St. Paul, Minnesota. This project is the first one to be let in connection with the six million ($6,000,000) dollar road program.

PAUL N. COATES, County Engineer.

Bids: May 17.

Paving

Poughkeepsie, N. Y.

Sealed proposals will be received by the Board of Public Works until 4:00 p.m. May 17, 1923, at Eastman Park Mansion in the City of Poughkeepsie for the following approximate items:

38,000 square yards Asphalt Pavement on concrete foundation.
10,000 square yards Granite Block Pavement on concrete foundation.
100 square yards Brick Pavement adjusted.
3,000 lineal feet New Blue-stone Curb set in concrete.
10,000 lineal feet of Old Blue-stone Curb re-set in concrete.

A certified check for five (5) per cent of the amount of the bid must accompany each proposal.

Specifications may be examined at the office of the Board of Public Works or will be forwarded on receipt of five dollars, which amount will be refunded when the specifications are returned in good condition. The Board reserves the right to reject any or all bids.

By ORDER OF THE BOARD
OF PUBLIC WORKS
THOMAS F. LAWLOR, Superintendent.
April 28, 1923.

OFFICIAL PROPOSALS

Bids: May 10.

Street Paving Construction

Ellwood City, Pa.

Sealed proposals will be received by the Borough Council of Ellwood City, Pa., at the office of the Borough Clerk, 228 Sixth Street, until 7:30 o'clock p.m., eastern standard time, Thursday, May 10, 1923, for grading, curbing and paving Line Avenue from Gregg Street to the east Borough Line near Johnson's Run, joining with the improved State Road leading from New Castle.

The work will consist of about 7,000 cubic yards of excavating, 8,000 lineal feet of concrete curb and gutter, 13,000 square yards of block paving with concrete foundation, 9 storm water inlets and 300 lineal feet of storm sewer.

All bids must be made upon blanks provided in the proposals furnished to bidders. Evidence of suitable equipment and ability to get material must accompany each bid.

Bids must be accompanied by a certified check made payable to the Borough of Ellwood City for the sum of $1,000 to insure the good faith of the bidder.

Plans, specifications and bidding blanks may be obtained at the office of Alex Main, Borough Engineer, 228 Sixth Street, upon payment of $5.00, which sum will be returned to the bidder if a bona-fide bid is submitted upon the above date and the plans are returned in good condition.

The right to reject any or all bids is reserved and the right to waive any immaterial defect or irregularity in the bids if it should be in the interest of the Borough to do so.

By Order of Borough Council.

GEO. A. REUFF,
F. E. MOORE,
CARL C. DAVIDSON,
Street Committee.

Bids: May 11.

Street Improvement

Westfield, N. Y.

Sealed proposals will be received by the Board of Trustees of the Village of Westfield, N. Y., until 8 p.m., May 11, 1923, for the improvement of the following streets:

Paving of Union Street from the south line of Main Street to the south line of Second Street with reinforced concrete or brick pavement, with concrete base, with 2,940 lineal feet of curb, 5,275 square yards.

Paving of Pearl Street from the north line of Main Street to the south line of Jefferson Street with 18 feet wide reinforced concrete pavement, without curb, 2,490 square yards.

Plans and specifications are on file in the office of John Riley, Clerk of the Village, Westfield, New York, and at the North East Pa. office of Hill and Hill, Engineers.

A certified check of 5% of the amount of the bid must accompany each proposal. The right is reserved to reject any or all bids.

J. A. RILEY,
Per J. C. H. Village Clerk.

Bids: May 25.

Constructing Coagulation Basins

CONTRACT 44
BALDWIN-FAIRMOUNT PROJECT

Cleveland, Ohio.

Sealed proposals will be received at the office of the commissioner of purchases and supplies, room 219, City Hall, until 12:00 o'clock noon, official Cleveland time, Friday, May 25, 1923, for constructing coagulation basins, for the division of water, and will be opened and read in the council chamber immediately thereafter.

Each bid must be accompanied by a certified check on a solvent bank for thirty thousand ($30,000) dollars, drawn payable to the city of Cleveland, as surety for the acceptance of the contract.

Each bid must be made in accordance with the plans and specifications which may be obtained at the division of water drafting room, 213 City Hall, upon the deposit of fifty dollars ($50.00) per set, said deposit to be redeemed upon the return of said plans and specifications in good condition.

No proposal will be entertained unless made on the blank forms furnished by the division of water, and delivered at the office of the commissioner of purchases and supplies, previous to 12:00 o'clock noon on the day above specified.

The city reserves the right to reject any or all bids.

This contract includes 40,000 cubic yards of concrete, 2,500,000 pounds of reinforcing steel, sluice gates, mud valves, pipe, castings and miscellaneous items.

A. V. RUGGLES,
Commissioner of Water.

OFFICIAL PROPOSALS

Bids: May 9.

Subway Construction

Rochester, N. Y.

Sealed proposals will be received at the office of the Board of Contract and Supply, 37 City Hall, Rochester, N. Y., until 11 a.m., May 9, 1923, for subway construction, Contract No. 2, from Court Street to the crossing of the Rochester & Eastern Rapid Railroad, a distance of about five miles; pursuant to the provisions of Ordinance No. 6162, adopted by the Common Council January 23, 1923.

The work will consist of excavation in the abandoned Erie Canal and the construction of a rapid transit railway therein, including the necessary tracks, sidings, stations, bridges and incidental work.

All proposals must be made upon the blank form of proposal which, together with the plans, specifications, engineer's estimates of quantities and other information, will be furnished at the office of the City Engineer, 52 City Hall, after April 25, 1923.

A deposit of twenty dollars ($20) will be required by the City Engineer for copies of plans and specifications furnished to prospective bidders, which deposit will be returned only to bidders submitting proposals, upon the return of said plans and specifications.

A certified check for one hundred thousand dollars ($100,000) payable to the City of Rochester, must accompany the proposal as an earnest of good faith, and the successful bidder or bidders will be required to execute to the City a Surety Company bond in the sum of one million dollars ($1,000,000) for the faithful performance of the contract and the payment of all laborers' wages.

Each proposal must be enclosed in a sealed envelope addressed to the Board of Contract and Supply, and must be indorsed on the envelope with the title of the work for which the proposal is made.

The Board reserves the right to reject all bids if it shall deem it for the best interests of the City.

HIRAM I. DAVIS,
Secretary.

Bids: May 23.

Steel Penstocks and Accessories

San Francisco, Calif.

OFFICE OF THE BOARD OF PUBLIC WORKS OF THE CITY AND COUNTY OF SAN FRANCISCO, APRIL 13, 1923.

Sealed proposals will be received at this office between the hours of 2:00 o'clock p.m. and 3:00 o'clock p.m. on Wednesday, the 23rd day of May, 1923 for:

Furnishing, delivering and installing steel penstocks and accessories for the Moccasin Creek Power Plant Contract No. 91, Hetch Hetchy Water Supply.

The work will be located near Groveland, Tuolumne County, Calif. Approximately 7,900 tons of riveted steel pipe or 6,000 tons of welded steel are required. Provision is made for division into two contracts for about 18 and 82 per cent of the whole respectively.

Specifications accompanied by proposal forms and official advertisement may be obtained from the office of M. M. O'Shaughnessy, City Engineer, City Hall, on deposit of $20.

By order of the Board of Public Works,

W. J. FITZGERALD,
Secretary.

Bids: May 8.

Improvement of Streets

Henderson, Ky.

Sealed proposals will be received by the Commissioner of Public Works of Henderson, Kentucky, until twelve o'clock noon standard time on the 8th day of May, 1923, for the improvement of the following streets in the city of Henderson, Henderson County, Kentucky. Main street from the south margin of Fourth Street to the north margin of First Street; Elm Street, from the south margin of Third to the north margin of First; Green Street, from the south margin of Third to the north margin of First; to consist of paved carriage ways extending the full width of the street, wood curb and relaying gutters.

Requirements for bidding and Instructions to Bidders, Form of Proposal, Contract, Specifications, Form of Bond, and Plans may be obtained from the Commissioner of Public Works of the City of Henderson upon receipt of fifteen dollars ($15), which sum so deposited will be refunded if said plans, specifications, etc., are returned in good condition within thirty days after the opening of bids.

180 lin.ft. relaid pipe.
1,200 sq.yd. Class A concrete gutter.
400 lin.ft. wire cable guard rail.
1,200 lin.ft. shoulder curb.

CONTRACT NO. 48-C
FILL AT APPOQUINIMINK

3,000 cu.yd. borrow.

CONTRACT NO. CK-8A
HIGHWAY DRAINAGE SEWER
IN CAMDEN

4 catch basins.
1 outlet.
4 manholes.
1,600 lb. castings.
1,700 lin.ft. 15-in. vit. clay pipe (including excavation).

Performance of contract shall commence within ten (10) days after execution of the contract and be completed during 1923 as specified.

Monthly payments will be made for 90 per cent of the construction completed each month.

Bidders must submit proposals upon forms provided by the Department.

Each proposal must be accompanied by a surety bond, certified check, or money to the amount of at least ten (10) per centum of the total amount of the proposal.

The envelope containing the proposal must be marked "Proposal for the Construction of State Highway Contract No. . . . . ."

The Contract will be awarded or rejected within twenty (20) days from the date of opening proposals.

The right is reserved to reject any or all bids.

Detailed plans may be seen and index plans and specifications may be obtained upon deposit of ten dollars ($10), which amount will be refunded upon return of plans and specifications in good condition at the office of

STATE HIGHWAY DEPARTMENT,
Dover, Delaware.

OFFICIAL PROPOSALS

Bids: May 10.

Sewerage System and Disposal

Cuba, N. Y.

Sealed proposals will be received by the Board of Trustees of the Village of Cuba, N. Y., until 2 o'clock p.m., on the 10th day of May, 1923, for the construction of a sewerage system and sewage disposal works.

Plans may be seen and specifications obtained at the office of the Board at Cuba, N. Y., or at the office of Hopkins & Field, Engineers, 349 Cutler Building, Rochester, N. Y.

The Board hereby reserves and has the right to reject any or all bids or to accept the one that in its judgment will be for the best interests of the Village.

A surety bond satisfactory to the Board and in amount of $25,000 will be required of the one to whom the contract may be awarded.

A certified check, made payable to the order of the Board of Trustees, Cuba, N. Y., to the amount of $2,000 must be deposited by each bidder and accompany his bid as a guarantee that in case the contract is awarded to him, he will, within ten days thereafter, execute such contract and furnish his bond.

Bids must be sealed and addressed to the Board of Trustees, Cuba, N. Y., and marked on the outside of the envelopes, "Proposal for Sewerage System and Disposal Works."

H. W. EVANS,
President.
A. O. RENWICK,
Trustee,
H. J. DEMCEY,
Trustee.

H. M. SETCHEL, Village Clerk.
Dated Cuba, N. Y., Apr. 16, 1923.

Bids: May 17.

Timber Bulkhead and Culvert

Newark, N. J.

Sealed proposals will be received from 10 to 10:15 a.m., on Thursday, May 17, 1923, at the office of the Director of the Department of Streets and Public Improvements, on the second floor of the City Hall, and publicly opened and read for the construction of a timber bulkhead and culvert at Port Newark Terminal.

Bids must be made upon blanks to be furnished by the department.

Plans and specifications and proposal blanks may be obtained at the office of the Bureau of Docks, room 205, City Hall.

Terms of proposal and surety required are fixed by the specifications.

The contract will be awarded to the lowest responsible bidder, the right being reserved to reject any and all bids or waive informalities therein, and to award contracts for the whole or any part thereof.

By direction of the Board of Commissioners of the City of Newark.

THOMAS L. RAYMOND,
Director, Department of Streets and Public Improvements.

Bids: May 14.

150-Foot Chimney

Norfolk, Va.

Sealed proposals will be received at the Office of the Director of Public Works, City of Norfolk, Virginia, until 12 o'clock noon on the 14th day of May, 1923, for one chimney 150 feet high and 5 feet inside diameter.

Instructions to Bidders, Form of Proposal, Specifications, Contract and Form of Bond may be inspected at the Office of the Director of Public Works, Norfolk, Virginia, or at the Office of the Consulting Engineer, Dabney H. Maury, 1445 Monadnock Block, Chicago, Ill., and a complete set of all of the above papers may be obtained by intending bidders either from the Director of Public Works or from the Consulting Engineer, upon application accompanied by a check or Postal Order for Ten Dollars ($10), payable to B. Gray Tunstall, City Treasurer, which amount will be refunded to the party depositing it on the return of all of the foregoing papers in good order.

A certified check on an approved bank either in the City of Norfolk, or in the City of New York or in the City of Chicago, in the sum of $300.00, and payable to B. Gray Tunstall, City Treasurer, must accompany each bid, subject to the conditions expressed in the Instructions to Bidders and Form of Proposal.

The City of Norfolk reserves the right to reject any or all bids.

WALTER H. TAYLOR, 3rd,
Director of Public Works.

OFFICIAL PROPOSALS

Bids: May 24.

Bridge Substructure

Chicago, Ill.

Sealed proposals for the construction of the substructure of a double leaf trunnion bascule bridge (Strauss type) over the main drainage channel of the sanitary district of Chicago, on the line of South California Avenue extended across said main drainage channel in the City of Chicago, County of Cook, State of Illinois, will be received by the clerk at the office of said sanitary district, Suite 700, 910 South Michigan Avenue, Chicago, Illinois, until 12 m., Standard Time, on Thursday, May 24, 1923, and will be publicly opened by the Board of Trustees of said sanitary district at a meeting to be held on that day or at the first meeting thereafter.

All proposals must be made upon blank forms of proposal furnished by the sanitary district, and bearing the personal signature of the chief engineer of said sanitary district and shall be made in accordance with and to conform to the terms and conditions set forth in "Requirements for Bidding and Instruction to Bidders," attached thereto.

Said proposals shall be enclosed in an envelope furnished by the said sanitary district, bearing the printed endorsement, "Proposal for Substructure, California Avenue Bridge" and the name and address of the bidder.

Forms of proposal, specifications and plans may be obtained upon deposit of twenty-five dollars ($25.00) at the office of said sanitary district, which sum, so deposited, will be refunded if said forms of proposal, plans and specifications are returned in good condition within thirty days following the opening of bids.

The Board of Trustees reserves the right to reject any or all proposals.

Engineers:
MUNICIPAL ENGINEERING CO.,
715-16 Praetorian Bldg.,
Dallas, Texas.

OFFICIAL PROPOSALS

Bids: Nov. 30, 1923.

Sydney Harbour Bridge Tenders —Extension of Time

DEPARTMENT OF PUBLIC WORKS
Sydney, Australia,
January 31st, 1923.

Tenders are invited by the Government of New South Wales for the Construction of the Superstructure and substructure of a Cantilever Bridge across Sydney Harbour from Dawes Point to Milson's Point, embracing a main span of 1,600 feet in the clear, centre to centre of main piers, and a length of main bridge 2,600 feet centre to centre of anchor piers. The total length of main bridge and approach spans included in tender is 3,810 feet; also an Alternative Tender for the Construction of the Superstructure and Substructure of an Arch Bridge across Sydney Harbour from Dawes Point to Milson's Point, embracing a main span of 1,650 feet in the clear centre to centre of bearings. The total length of main bridge and approach spans included in tender is 3,770 feet. Either bridge is to provide for four lines of railway, six lines of vehicular traffic, and footway accommodation.

Copies of Specification, including Plans, General Conditions, and Tender Forms, may be obtained by bona fide tenderers on application to the Official Secretary, Australian Commissioner's Office, 44 Whitehall Street, New York City.

Tenders, the time for which has been extended, must reach the Under Secretary for Public Works, Sydney, New South Wales, not later than 30th November, 1923.

R. T. BALL,
Minister for Public Works and Railways.

Bids: May 16.

Concrete Retaining Walls

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the construction of reinforced concrete retaining walls at Bridge No. W-43 between Avon and Belmar and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey, on May 16, 1923, at 11:00 a.m., Daylight Saving Time.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the county so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB, Director.
Attest:
CHARLES E. COLE, Clerk.
Freehold, N. J., April 18, 1923.

Bids: May 15.

State Hospital Work

Albany, N. Y.

Sealed proposals for Electric Freight Elevator—Kitchen and Dining Room Building, at the Central Islip State Hospital, Central Islip, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 2 o'clock p.m. (Standard Time) on Wednesday, May 16, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a deposit, consisting of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York, or money, equal to five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4076. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the Central Islip State Hospital, Central Islip, N. Y.; at the New York Office of the Department of Architecture, Room 1058, 25 Broadway, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

Dated: April 23, 1923.

OFFICIAL PROPOSALS

Bids: June 5.

Swing Bridge

STEEL SUPERSTRUCTURE,
MACHINERY AND FLOOR
Bridge File No. 701,302
Spring Lake Township, Ottawa County,
Michigan.

Sealed proposals will be received at the office of the City Manager, City Hall, Grand Haven, Michigan, until 1:30 o'clock p.m., Central Standard Time, Tuesday, June 5th, 1923, jointly by Frank F. Rogers, State Highway Commissioner and the City of Grand Haven, for the superstructure, machinery, floor, backwalls, and electrical work for a 212 ft. 6 in. Swing Bridge with three 100 ft. Deck Truss Approach spans, located on T. L. Route No. 11 on T. L. project No. 11-33, crossing Grand River in Section 21, Town 8 N. Range 16 W, in Spring Lake Township, Ottawa County, this structure joining the City of Grand Haven with the Village of Ferrysburg on a new location on a line which is the continuation of Pine St. in Ferrysburg, being bridge file Number 701,302.

Description: The general nature of the work to be done is as follows.

Substructure is now under contract. North rest pier and footings for North and South abutments now complete and about ready to cast footing for Pivot pier.

Superstructure consists of one 212 ft. 6 in. Swing Span with three 100 ft. Deck truss spans. The bridge carries a 24 ft. clear roadway and two 5 ft. cantilever walks and involves approximately 1,259,000 pounds of structural steel and approximately 93,000 pounds of machinery.

Floor. The roadway section and backwall notches are of reinforced concrete throughout and involves about 255.5 cu. yds. of concrete and 70,950 pounds of reinforcing steel. Cantilevered sidewalks and curb are of creosoted lumber and involve about 20.2 M. B. M. lumber.

Electrical Work. The swing span is designed for both Electrical and Hand Power operation and Electrical Equipment is to be provided in this contract. Boulevard lights on Standard Cast Iron Posts are to be provided.

Erection. The Swing Span is to be erected on the Timber protection work at the pivot pier. This work will probably be complete by Aug. 1st. Completion dates called for on part of Substructure Contractor are as follows: Abut. A, July 15th; Abut. B, July 15th; Pier No. 1, Now Ready; Pivot Pier, July 15th; Pier No. 3, Oct. 1st; Pier No. 4, Sept. 1st, however, the Department does not guarantee these dates. Deck spans can be probably be floated to place. However if falsework is used, piles will be required as the bottom is sand.

Plans, instructions to bidders, specifications and proposal blanks may be obtained at the office of the State Highway Department, Lansing, Michigan. Plans will be furnished by the undersigned upon receipt of a deposit of Twenty-Five ($25.00) Dollars, which will be refunded upon their safe return. Only bids from fabricating companies will be considered.

A certified check in the sum of One Thousand ($1,000.00) Dollars, made payable to Frank F. Rogers, State Highway Commissioner, must accompany each proposal. The right is reserved to reject any or all proposals.

FRANK F. ROGERS,
State Highway Commissioner.
Lansing, Michigan, May 3rd, 1923.

Bids: June 5.

Drainage Work

Rolling Fork, Miss.

Sealed bids for the construction of Improvements in the Ottar Bayou Drainage District of Sharkey, Washington & Issaquena Counties, Mississippi, of approximately 3,392,000 cubic yards of drainage channels will be received by the Board of Commissioners for said District at their office in the Town of Rolling Fork, Mississippi, until 12 m., of the 5th day of June, 1923, and publicly opened and considered. Work to be done according to Plans and Specifications on file. A certified check for three per cent of bid, or, bidder's bond to accompany each proposal. The right is reserved to reject any and all bids.

Prospective bidders are invited to make inquiry of C. H. West, Engineer, Greenville, Mississippi, for further information. They will also upon payment of the sum of $2.00 be furnished with Map, Specifications and other detailed information.

President of Board.

Bids: May 22.

Lake Intake Pipe—Tunnel—Conduit

Portland, Maine.

Sealed proposals will be received by the Trustees of the Portland Water District at their office, 16 Casco Street, Portland, Maine, up to 2 p.m., Eastern Standard time, on Tuesday, May 22, 1923, for four contracts as follows:

1. For furnishing about 3,500 linear feet 54-inch reinforced concrete, or steel water pipe.
2. For laying about 1,600 linear feet of 54-inch lake intake pipe of reinforced concrete, or steel (Section I of the New Conduit at Sebago Lake).
3. For building about 2,100 feet of tunnel (almost wholly through rock), 7 feet in diameter of excavation, and 5 feet in diameter of lined section (Section II of the New Conduit at Sebago Lake).
4. For laying about 1,900 linear feet of 54-inch reinforced concrete, or steel conduit from the tunnel to connect with the existing mains. (Section III of the New Conduit at Sebago Lake.)

Said proposals will be publicly opened and read at the above stated time and place.

All bids must be upon the blank form of proposal furnished by the Trustees and must be accompanied by the required certified check. Bonds will be required for the faithful performance of the contracts.

The printed forms of "Information for Bidders, Form of Proposal, Contract and Bond, and Specifications, and Contract Drawings," will be available at the office of the Trustees.

The samples of wash and core drill borings taken over the area traversed by the tunnel, may also be examined at the office of the Trustees.

The site of the work may be examined at the convenience of the bidders.

A deposit of Ten Dollars ($10.00) will be required for contract drawings.

The right is reserved to reject any or all bids.

THE TRUSTEES,
Portland Water District.

HARRY U. FULLER,
Chief Engineer, Portland Water District.
METCALF & EDDY,
Consulting Engineers,
14 Beacon Street, Boston, 9, Mass.

Bids: May 14.

Sewage Disposal Works

Mamaroneck, N. Y.

Sealed proposals for the completion of sewage disposal works will be received by the clerk of the village of Mamaroneck until 8:30 o'clock p.m., Monday, the 14th day of May, 1923.

The work includes about 2,600 cubic yards of earth work; 1,630 cubic yards of concrete masonry; the completion of the machinery building; the furnishing and erection of compressors, cast-iron and wrought iron pipe, valves, diffuser blocks, electrical equipment and other work and materials required for completing the work in accordance with the plans and specifications; certain materials and apparatus will be furnished on the ground by the village and alternate proposals are asked for the work, one including the use of the plant and equipment now on the ground, and the other based on the contractor furnishing his own plant and equipment.

A certified check or cash to the amount of $2,000 is required with each proposal and a performance bond to the amount of $50,000 for the faithful performance of the work.

Notice to bidders, forms of proposals, contract, specifications and plans may be examined at the office of Fuller & McClintock, 170 Broadway, New York, and James M. Duffy, Village Engineer, Mamaroneck, N. Y. They may be obtained at these offices upon a deposit of $20 of which $15 will be refunded upon the return of plans and specifications in good condition.

Proposals from responsible and qualified contractors only are requested and the village reserves the right to reject any or all bids.

By order of the Board of Trustees.
JOHN F. HUNTER, M.D.,
President.
EDGAR L. HOWE,
Village Clerk.

OFFICIAL PROPOSALS

Bids: June 1.

Pier

Charleston, S. C.

Sealed proposals will be received by the Port Utilities Commission of Charleston, S. C., at its office Room 712 Peoples Building until noon June 1, 1923, and then publicly opened for constructing a pier (exclusive of earth fill) on Town Creek, Charleston Harbor.

Specifications and proposal forms will be furnished to prospective bidders on deposit of $5, which will be refunded to depositors who submit proposals or return sets in good condition. Further information on application.

H. M. GALLAGHER,
General Manager.

National Publicity Offers a Two-Fold Advantage

Giving calls for bids National publicity opens the way for additional and possibly lower offers from outside bidders to whom work can be let, if desired.

Then too, local contractors, seeing your contracts advertised Nationally will figure closer, realizing that the field of competitors for the work is greatly enlarged.

An advertisement printed in the Official Proposal Columns of *Engineering News-Record* brings the contract to the attention of not only local bidders but, in addition, any others who might be interested.

Bids: June 5.

Sewage Disposal System

Hightstown, N. J.

SEALED PROPOSALS for the construction of alterations and additions to the sewage disposal system of the Borough of Hightstown, New Jersey, will be received until 8 P.M., Daylight Saving Time, on the 5th day of June, 1923, at the office of the Borough Clerk, Hightstown, and then and there will be publicly opened and read by him.

The proposed work consists principally of the construction of sewage tanks, sludge beds, and one acre of sand filter beds.

The work is to be completed by September 15th, 1923.

Plans, specifications and blank forms of proposal may be obtained at the office of the Borough Clerk. A deposit of $10.00 is required on plans and specifications furnished, and will be refunded on their return.

The proposal must be made on one of the blank forms provided and must be accompanied by a certified check for $1,000.

The amount of bond for faithful performance, to be furnished when the contract is executed, will be the amount of the contract.

The Borough Council reserves the right to reject any or all bids.

Hightstown, N. J., May 8, 1923.
By order of the Borough Council.
GEORGE P. DENNIS, Borough Clerk.

Mr. Contractor, were you the lowest bidder on that excavating job? If so let Crooks dig in and dig it out.

Heavy and light excavating, sewer and water pipe, trench work taken by contract or machines rented with crews.

THOS. H. CROOKS

Elmer Street, Hollis, Long Island, N. Y.

Phone Jamaica 2451-J.

OFFICIAL PROPOSALS

Bids: May 16.

Concrete Retaining Walls

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the construction of reinforced concrete retaining walls at Bridge No. W-43 between Avon and Belmar and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey, on May 16, 1923, at 11:00 a.m., Daylight Saving Time.

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the county so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.
BRYANT B. NEWCOMB, Director.

Attest:
CHARLES E. COLE, Clerk.
Freehold, N. J., April 18, 1923.

Bids: May 31.

Water Works System Extensions

Easton, Md.

Sealed proposals for laying extensions to the Water Works System of the Town of Easton, Md., will be received and opened by the Mayor of Easton at the Council Chamber in Easton, Maryland, at 12.30 o'clock p.m., on the thirty-first day of May, 1923.

The work to be done comprises the furnishing, laying and complete installation of approximately 3,900 feet of 6" to 8" mains, 16 valves, 9 fire hydrants, and special fittings.

Contract, Proposal Forms and Plans may be seen at the office of the Town Clerk or of the Town Engineer, Easton, Md. Plans will be furnished upon payment of $1.00 for each set.

Each proposal for the work must be accompanied by a certified check drawn to the order of the Mayor and Council of Easton in the sum of $500.00.

JOHN C. NORTH,
Town Clerk.

E. G. KASTENHUBER, JR.,
Town Engineer.

Bids: May 17.

Road Construction

Newton, N. J.

Notice is hereby given that sealed bids will be received by the County of Sussex for the construction of the Lafayette Township Road, No. 1, in the Township of Lafayette, County of Sussex, with a gravel surface, estimated amount of excavation required is 5,885 cu.yd. and estimated amount of gravel pavement required is 16,778 sq.yd. and for Hampton Township Road, No. 1, in the Township of Hampton, County of Sussex, with a gravel surface, estimated amount of excavation required is 4,731 cu.yd. and estimated amount of gravel pavement required is 11,945 sq.yd. and opened and read in public at the Freeholders' Office, Newton, N. J., on May 17, 1923, at 11:30 a.m.

"Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by Harvey Snook, County Engineer, are on file in the office of the said engineer at Newton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to the Board of Chosen Freeholders, County of Sussex, Newton, N. J., and must be accompanied by a certified check for not less than 10 per cent of the amount bid and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the engineer.

"By order of the Board of Chosen Freeholders."

(Signed) WM. S. VOUGHT, Clerk.

Bids: May 22.

Street Paving

Kendallville, Ind.

TO WHOM IT MAY CONCERN:

Notice is hereby given by the Common Council of the City of Kendallville, Indiana, that sealed proposals will be received by the City Clerk of said City until 5:00 p.m., Tuesday, May 22nd, 1923, for Street Paving.

The work will consist of approximately 18,600 square yards of pavement and 11,800 lineal feet of curbing, bids to be received on the following items:

One and two course reinforced concrete with combined or separate curb, asphalt block with combined curb and gutter, three inch vertical fiber brick with combined curb and gutter (the brick having an asphaltic filler), and creosoted wood block with combined curb and gutter.

Plans and specifications can be obtained from the City Engineer or City Clerk by depositing the sum of $5.00, which sum will be returned upon the return of the plans and specifications in good condition.

Bids must be accompanied by a certified check for 5 per cent of the amount of the bid. Bids must be upon blanks provided by the City of Kendallville. Evidence of suitable equipment and ability must accompany each bid.

The Council reserves the right to reject any and all bids.

HARRY H. MORTORFF,
City Engineer.

CARL F. ORSTADT,
City Clerk.
May 2, 1923.

Bids: May 31.

Sewerage System Extensions

Easton, Md.

Sealed Proposals for the construction of certain extensions to the Sewerage System of Easton, Md., will be received and opened by the Mayor of Easton at the Council Chamber in Easton, Maryland, at 12.30 o'clock p.m., on the thirty-first day of May, 1923.

The work to be done comprises the complete construction of about one mile of 8" to 12" pipe sewer, 1,000 feet of House Connections, small pumping station and 4" force main.

Contract, Proposal Forms and Plans may be seen at the office of the Town Clerk or of the Town Engineer, Easton, Md. Plans will be furnished upon payment of $5.00 for each set.

Each Proposal for the work must be accompanied by a certified check drawn to the order of the Mayor & Council of Easton in the sum of $500.00.

JOHN C. NORTH,
Town Clerk.

E. G. KASTENHUBER, JR.,
Town Engineer.

A Bonding Company's Suggestion to Official Proposal Advertisers

"A large part of our contract bond business is submitted to us by wire, and I am a constant reader of the Official Proposals in order to find out the size and nature of the work that is referred to in the bond application. Very frequently I am unable to get any clear idea of what the advertisers are asking bids on, and of course the prospective bidder or contractor is also at a loss to know what kind of a job is being advertised.

"Traveling expenses are heavy at the present time, and contractors pay out considerable sums during the course of a year in investigating prospective contracts. This of course is a large charge that the owners eventually pay, and anything that will reduce the general overhead of contract work will eventually be to the advantage of the owner.

"One way to reduce this overhead is to word the advertisement so that the contractor sitting in his office will know whether or not he should investigate and prepare a bid on the proposed work."

OFFICIAL PROPOSALS

Bids: May 23.

Disposal Plant

Tonawanda, N. Y.

Notice is hereby given that sealed proposals will be received and considered by the Town Board of the Town of Tonawanda, New York, May 23, 1923, at 8 o'clock P.M. at the Village Hall, Kenmore, N. Y. for furnishing all necessary labor and material, for the construction of a disposal plant in accordance with the amended proposed contract, maps, plans, specifications and estimates of the Town Engineer as approved by the said Town Board of the Town of Tonawanda, N. Y., for Sewer District No. 2 of said Township.

The proposed contract, maps, plans and specifications and estimates may be seen and examined, and further information may be obtained at the office of George C. Diehl, Town Engineer, No. 575 Ellicott Square, Buffalo, N. Y., or at the office of the undersigned, the Town Clerk of the Town of Tonawanda, N. Y., at No. 2852 Delaware Avenue, Kenmore, N. Y.

All bids must be accompanied by a certified check payable to the order of J. Fred Moore, Supervisor of the Town of Tonawanda, N. Y., for the sum of five per centum of the Engineer's estimated expense of the improvement, or a bond with sufficient sureties to be approved by the said J. Fred Moore, Supervisor of said Town, conditioned in a penalty equal to five per centum of the estimated expense of the improvement, that if the work is awarded to the bidder, he will enter into the contract for the same, and that he will execute further security as may be required for the faithful performance of the contract, in the event of the proposal being accepted for the execution of the work.

The Town Board reserves the right to reject any or all bids should it deem it to be in the best interest of the Town so to do. Bids must be in conformity with the specifications or they will be rejected as informal, and cannot be considered.

Dated Kenmore, N. Y., May 7th, 1923.

ELMER W. JOHNSON,
Town Clerk, Town of Tonawanda,
2852 Delaware Avenue,
Kenmore, N. Y.

Bids: June 4.

Water Supply Systems

Talladega, Alabama.

Sealed proposals for furnishing material and constructing a Water Supply System for the City of Talladega, Alabama, will be received by the Commissioners at the City Hall, until Two (2) p.m., Monday, June 4, 1923.

The Water Supply System will consist of a 10 ft. reinforced concrete intake dam, 16" c.i. intake, pumping station, 2,000,000 gallon service reservoir, coagulating basin, three 500,000 gallon concrete filters, 200,000 gallon clear water reservoir, and approximately 19,000 feet of 16 inch c.i. supply main.

Each proposal must be accompanied by a certified check, payable to the City of Talladega, Alabama, to an amount equal to five (5) per cent of the bid, as a guarantee that the contract will be entered into if awarded. A bond of one hundred per cent (100%) of the contract price will be required. Payments will be made on monthly estimates.

Plans and specifications are on file in the office of the City Clerk, at Talladega, Alabama, and with Paul H. Norcross, Consulting Engineer, 1404 Candler Building, Atlanta, Georgia.

Bidders may obtain copies from the Engineer, by enclosing certified check for twenty-five ($25.00) dollars, payable to the City of Talladega. If blue prints are desired they may be had at the cost of printing. If the plans, specifications, and blue prints are returned within thirty days after opening bids, the check for twenty-five dollars will be returned.

H. H. THORNTON,
City Commissioner.
J. F. HANKS,
Light & Water Commissioner.
D. M. REMSON,
City Clerk.

PAUL H. NORCROSS,
Consulting Engineer,
1404 Candler Building,
Atlanta, Georgia.

You think you are covered but—are you?

¶There is a time-honored philosophy that does not fit modern conditions. Resting complacently on the thought that "Where ignorance is bliss 'tis folly to be wise", would cost real money and lots of it if applied to a contractor's insurance where the policy reads that no work covered by it shall be sublet. Many such policies exist and practically every contractor sublets a considerable portion of his work. ¶Swart will examine your policies without charge and change the philosophy to read "Where ignorance is bliss 'tis safer to be wise".

Bids: May 15.

Water Works Construction

Harrisburg, Pa.

Sealed proposals for building extension and improvements to Water Works of Harrisburg, Pa., will be received at the Council Chamber, 406 Dauphin Bldg., Harrisburg, Pa., until 1.00 p.m., May 15, at which time they will be publicly opened and read. The work will be done under two contracts, as follows:

CONTRACT E—Construction of a 30,000,000 gallon reservoir with slab roof, having 86,000 yards of excavation and 13,600 yards of concrete. This reservoir has a 125,000 square foot flat slab roof. Bids may be offered on the Contractor's own design of roof which must however, comply with the specifications in all particulars.

CONTRACTS F—Laying 4,000 feet of new 36 inch cast iron pipe, re-laying 2,000 feet of 30 inch cast iron pipe, miscellaneous smaller pipe, valves, gate house, etc.

Each contract will be awarded separately but both may be awarded to the same bidder. Proposals must be accompanied by a certified check equal to 10% of the total bid for each contract. A bond will be required for the amount of 25% of each contract.

The right is reserved to reject any or all bids.

Information for bidders, Form of Contract, Specifications, and Plans, will be available for inspection at the office of Dr. Samuel F. Hassler, Supt. Public Safety, Room 406 Dauphin Bldg., Harrisburg, Pa., or at the office of James H. Fuertes, consulting engineer, 140 Nassau Street, New York, and may be had upon deposit of $20.00, which will be returned to the prospective bidder upon the return of the drawings and specifications accompanied by a bona fide bid.

S. F. HASSLER,
Supt. Public Safety,
Harrisburg, Pa.

Bids: May 21.

Paving Construction

St. Paul, Minn.

Sealed proposals will be received by the County Board, Ramsey County, at the office of the County Auditor, until 10 a.m., May 21, 1923, for the construction of pavements, grading, and the necessary accessories for project number (23-02) (23-55), approximately sixty thousand (60,000) square yards of paving. Bids must be accompanied by certified check or bidder's bond of 10% of the total bid price. Plans and specifications can be procured at the office of the County Engineer of Ramsey County, St. Paul, Minnesota. This project is the first one to be let in connection with the six million ($6,000,000) dollar road program.

PAUL N. COATES, County Engineer.

U. S. GOVERNMENT

OFFICIAL PROPOSALS

Bids: May 31.

Sanitary Sewer System

New York Mills, N. Y.

The village of New York Mills, Oneida County, N. Y., will receive proposals for furnishing material for and the construction of a sanitary sewer system for said village, under the following conditions:

Bids may be submitted either upon the sewers alone, the disposal plant alone or for both.

Plans and specifications can be secured, either by personal application or by mail from W. G. Stone & Son, engineers, 24-31 Mann Building, Utica, N. Y., or from W. S. Thomas, Village Clerk, New York Mills, N. Y. Specifications will be furnished, free of charge. Plans can be secured upon the deposit of $10.00, which will be reimbursed upon the return of same, uninjured.

Proposals must be submitted upon the printed bidding sheet, be enclosed in plain envelopes, bearing no business card or other means of identification, be securely sealed, endorsed either "Proposal for Sewers," "Proposal for Disposal Plant" or "Proposal for Sewers and Disposal Plant" as the case may be, addressed to W. S. Thomas, Village Clerk, New York Mills, N. Y., and must be in the custody of said Clerk, on or before 8 o'clock p.m. of May 31, 1923 (daylight saving time).

On the above date and at the time specified, such proposals as have been submitted in the manner and form above set forth, will be publicly opened and read at the office of the Board of Trustees, of and in, said village. The Board reserves the right to reject any or all bids received and will make its award of contract, if made, at such time as may suit its convenience and not at the time of opening the bids.

Each bid must be accompanied with cash or certified check, made payable to "The Treasurer of the village of New York Mills" in the sum of One Thousand Dollars ($1,000.00), which sum shall be retained as the liquidated damages of said village if the contractor to whom the contract is awarded, fails to enter into a valid contract with said village to furnish material, labor and services for the construction of said sewer system, under and pursuant to the plans and specifications therefor, within 15 days from the award of said contract. The above clause refers to those bidding upon both sewers and disposal plant. Bidders upon disposal plant alone will be required to deposit the sum of Five Hundred Dollars ($500.00). Bidders upon the sewers alone will be required to deposit the sum of Five Hundred Dollars ($500.00), both subject to the same conditions as to liquidated damages as above stated but in the sum of Five Hundred Dollars ($500.00). The Board reserves the right to separate joint bids and award the sewer contract to one person and the disposal plant contract to another.

Coincidentally with the signing of the contract the contractor will be required to furnish a bond, with such sureties and in such manner and form and so conditioned as may be demanded by the village, in the sum of fifty per cent (50%) of the sum total of his bid.

Bids: May 22.

State Highway Work

Hartford, Conn.

Sealed proposals will be received by the State Highway Commissioner, 12 Washington Street, Hartford, Conn., until 1:00 p.m., Standard Time, Tuesday, May 22, 1923, for the following sections of State work, in accordance with plans and specifications on file in the office of the State Highway Commissioner and at the following places:

TOWN OF BERLIN: About 800 lineal feet of plain cement concrete pavement on the cross road from the Berlin Turnpike to the Beach Swamp Road. NOTE: Cement for the above work will be furnished by the State. Specifications at the Town Clerk's office, Berlin, and at the office of R. W. Stevens, Division Engineer, 12 Washington St., Hartford, Conn.

TOWN OF WEST HARTFORD: About 2,000 linear feet of plain cement concrete pavement on Quaker Lane. NOTE: Cement for the above work will be furnished by the State. Specifications at the Town Manager's office and at the office of R. W. Stevens, Division Engineer, 12 Washington Street, Hartford, Conn.

TOWN OF GROTON: About 4,700 linear feet of 7 inch Native Stone Macadam on the Center Groton Road. Plans and specifications at the Town Clerk's office and at the office of A. W. Bushell, Division Engineer, Thayer Bldg., Norwich, Conn.

TOWN OF GROTON: About 2,600 linear feet of plain cement concrete pavement on Baptist Hill, Village of Mystic. NOTE: Cement for this work will be furnished by the State. Plans and specifications at the office of A. W. Bushell, Division Engineer, Thayer Building, Norwich, Conn.

TOWN OF WATERFORD: About 2,400 linear feet of 3 inch bituminous macadam over 5 inch base on Willetts Avenue. Plans and specifications at the First Selectman's office and at the office of A. W. Bushell, Division Engineer, Thayer Building, Norwich, Conn.

TOWN OF DANBURY: About 7,000 linear feet of 7 inch native stone macadam on the Padanaram Road. Plans and specifications at the office of G. E. Smith, Divison Engineer, New Milford, Conn.

TOWN OF WINCHESTER: About 1,766 linear feet of plain cement concrete pavement on South Main Street, Winsted. NOTE: Cement for the above work will be furnished by the State. Plans and specifications at the office of D. C. Loewe, Division Engineer, Winsted, Conn.

All bids must be accompanied by a surety company bond or a certified check not less than one-third of the cost of the work. The State Highway Commissioner reserves the right to reject any and all bids.

Dated at Hartford, Conn., May 8, 1923.
C. J. BENNETT,
State Highway Commissioner.
12 Washington St., Hartford, Conn.

Water System Improvements

Belmar, N. J.

Sealed bids will be received by the Mayor and Council of the Borough of Belmar up to 8:45 p.m., Tuesday evening, May 29th, for the following improvements to the Water System, separate bids to be submitted on the four items given below.

ITEM NO. 1.

The enlargement of an existing six inch well for its upper 150 feet or more to a diameter of 17 inches, including the casing and the sealing of the larger section to the lower section.

ITEM NO. 2.

The boring or driving of a new well having its upper 150 feet of 17 or 18 inches in diameter with the balance of the well 10 inches in diameter. The total length of the well to extend to the waterbearing stratum at approximately 650 feet deep. This bid will include the necessary casing and screen.

ITEM NO. 3.

The furnishing and delivery in place, connected up, ready to run of a multi stage vertical shaft centrifugal pump of 400 gallons capacity, to be located in the well referred to in Item No. 1.

ITEM NO. 4.

The furnishing and delivery in place, connected up, ready to run, of a multi stage vertical shaft centrifugal pump to be located in the well referred to in Item No. 2.

Plans and specifications may be obtained from the Borough Clerk. The Council reserves the right to reject any and all bids.

FRED V. THOMPSON,
Borough Clerk.

OFFICIAL PROPOSALS

Bids: June 1.

School Building

Haworth, N. J.

Sealed proposals will be received by the Board of Education of the Borough of Haworth, County of Bergen, N. J., at 8 p.m. (daylight saving time), June 1, 1923, in the Borough Hall, Terrace Street, Haworth, N. J., for the complete construction of a new public school building, at which time the bids will be opened publicly. Bids shall be based on the plans and specifications on file with the architect.

Bids for the general construction, for the heating and ventilating, for the plumbing, and the electric work will be taken separately.

Bids shall be accompanied by the deposit of certified checks payable to the Board of Education of the Borough of Haworth, in the County of Bergen, as follows:

With general construction bid	$1,000
With heating and ventilating bid	500
With plumbing bid	300
With electric bid	100

If the bidder or bidders who receive the award shall not execute the contract and furnish the required bond for the full amount of the contract within ten days after the acceptance of such bid or bids the said sum so deposited shall be forfeited to the Board of Education and shall be liquidated damages for such default.

Contracts will be awarded to the lowest responsible bidders. The Board of Education reserves the right to reject any or all bids or to waive defects or informalities in any bid if it be deemed in the interest of the Board of Education so to do.

Copies of the plans and specifications may be obtained by prospective bidders from A. C. Pauli at his residence, on Myrtle Street, Haworth, N. J., or at the office of F. Markoe Robertson and A. C. Pauli, architects, 247 Park Avenue, 14th floor, New York City, on deposit of Ten Dollars. The deposit of Ten Dollars will be forfeited unless plans and specifications are returned in good condition to the architect ten days after bids are opened. Plans and specifications may be inspected at the above addresses without deposit.

For the Board of Education of the Borough of Haworth, Westervelt Mount, District Clerk.

Dated May 10, 1923.

Bids: June 4.

Water Supply Systems

Talladega, Alabama.

Sealed proposals for furnishing material and constructing a Water Supply System for the City of Talladega, Alabama, will be received by the Commissioners at the City Hall, until Two (2) p.m., Monday, June 4, 1923.

The Water Supply System will consist of a 10 ft. reinforced concrete intake dam, 16" c.i. intake, pumping station, 2,000,000 gallon service reservoir, coagulating basin, three 500,000 gallon concrete filters, 200,000 gallon clear water reservoir, and approximately 19,000 feet of 16 inch c.i. supply main.

Each proposal must be accompanied by a certified check, payable to the City of Talladega, Alabama, to an amount equal to five (5) per cent of the bid, as a guarantee that the contract will be entered into if awarded. A bond of one hundred per cent (100%) of the contract price will be required. Payments will be made on monthly estimates.

Plans and specifications are on file in the office of the City Clerk, at Talladega, Alabama, and with Paul H. Norcross, Consulting Engineer, 1404 Candler Building, Atlanta, Georgia.

Bidders may obtain copies from the Engineer, by enclosing certified check for twenty-five ($25.00) dollars, payable to the City of Talladega. If blue prints are desired they may be had at the cost of printing. If the plans, specifications, and blue prints are returned within thirty days after opening bids, the check for twenty-five dollars will be returned.

H. H. THORNTON,
City Commissioner.
J. F. HANKS,
Light & Water Commissioner.
D. M. REMSON,
City Clerk.

PAUL H. NORCROSS,
Consulting Engineer,
1404 Candler Building,
Atlanta, Georgia.

Baltimore City. Contract BC-43. One section of State Highway along Hillen St. between Harford Ave. and 33rd St. a distance of 0.4 mile. (Sheet-Asphalt).

Charles Co. Contract Ch-25. One section of State Highway between Pomonkey and the Prince George County line, a distance of 3.4 miles. (Gravel).

St. Mary's Co. Contract SM-23. One section of State Highway between Valley Lee and Piney Point for a distance of 4.4 miles. (Gravel).

Dorchester Co. Contract D-33. One section of State Highway between Gum Swamp and Golden Hill for a distance of 2.5 miles. (Concrete).

Worcester Co. Contract Wo.-28. One section of State Highway between Snow Hill and Public Landing for a distance of 1 mile. ((Concrete).

will be received by the State Roads Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M. on the 22nd day of May, 1923, at which time and place they will be publicly opened and read.

Bids must be made upon the blank proposal form which, with specifications and plans will be furnished by the Commission upon application and cash payment of $1.00, as hereafter no changes will be permitted.

No bids will be received unless accompanied by a certified check for the sum of Five Hundred ($500) Dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By order of the State Roads Commission this 3rd day of May, 1923.

L. H. STEUART, Secretary,
JOHN N. MACKALL, Chairman.

Bids: May 22.

Street Paving

Kendallville, Ind.

TO WHOM IT MAY CONCERN:

Notice is hereby given by the Common Council of the City of Kendallville, Indiana, that sealed proposals will be received by the City Clerk of said City until 5:00 p.m., Tuesday, May 22nd, 1923, for Street Paving.

The work will consist of approximately 18,600 square yards of pavement and 11,800 lineal feet of curbing, bids to be received on the following items:

One and two course reinforced concrete with combined or separate curb, asphalt block with combined curb and gutter, three inch vertical fiber brick with combined curb and gutter (the brick having an asphaltic filler), and creosoted wood block with combined curb and gutter.

Plans and specifications can be obtained from the City Engineer or City Clerk by depositing the sum of $5.00, which sum will be returned upon the return of the plans and specifications in good condition.

Bids must be accompanied by a certified check for 5 per cent of the amount of the bid. Bids must be upon blanks provided by the City of Kendallville. Evidence of suitable equipment and ability must accompany each bid.

The Council reserves the right to reject any and all bids.

HARRY H. MORTORFF,
City Engineer.

CARL F. ORSTADT,
City Clerk.
May 2, 1923.

OFFICIAL PROPOSALS

Bids: May 21.

Reinforced Concrete Pavement

Red Bank, N. J.

Notice is hereby given that sealed bids will be received by the Mayor and Council of the Borough of Red Bank for the reconstruction of Bergen Place, Beach Street, Irving Place and Wharf Avenue, with a reinforced concrete pavement, and opened and read in public at the rooms of said Council, Borough Hall, Red Bank, New Jersey, on Monday, May 21, 1923, at 8.00 p.m., Daylight Saving Time.

Drawings and specifications for the proposed work, prepared by George D. Cooper, Civil Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Mayor and Council of the Borough of Red Bank, New Jersey, and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the Borough of Red Bank and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Mayor and Council of the Borough of Red Bank reserves the right to reject any or all bids if deemed to the best interests of the Borough so to do.

By order of the Mayor and Council of the Borough of Red Bank, New Jersey.

A. L. MILLER, Mayor.

Attest:
A. E. OLSEN, Clerk.
Red Bank, N. J., May 7, 1923.

Bids: May 28.

Bridge

Norwich, N. Y.

Construction of a bridge over Canasawacta Creek at South Broad Street, Norwich, N. Y.

Sealed bids addressed to Stuart C. Nelson, Jr., clerk of the joint bodies, town board of the town of Norwich and the Common Council of the City of Norwich, N. Y., City Hall, Norwich, N. Y., and endorsed "Proposal for South Broad Street Bridge" will be received by the joint boards on Monday, May 28th, 1923, at 7:30 p.m., in the council chambers in the City Hall at Norwich, N. Y., and at that time and place will be publicly opened and read for the construction of a bridge over the Canasawacta Creek on South Broad Street, Norwich, N. Y.

Bids will embrace the construction of a concrete steel girder bridge, also a reinforced concrete bridge.

Contractors will be permitted to submit plans and specifications for a reinforced concrete structure which will have the same carrying capacity, water way, clearance and depth of roadway as the concrete steel girder bridge. Such plans and specifications must have the approval of the department of highways of the state of New York and will be considered by the joint boards in making awards.

The right is expressly reserved to reject any and all bids.

Plans and specifications of the concrete steel girder bridge may be obtained from the City Engineer or the City Chamberlain at the City Hall, Norwich, N. Y. Such plans and specifications will be sent for two dollars.

STUART C. NELSON, JR.,
Clerk of the Joint Boards of the
Town and City of Norwich, N. Y.
E. F. MUSSON, City Engineer.

Dated at Norwich, N. Y.
May 9th, 1923.

OFFICIAL PROPOSALS

Bids: June 4.

Road Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the construction of the following:

Route No. 4, Section No. 19, Sea Girt-Belmar, in the County of Monmouth. Estimated 10,793 cubic yards of excavation, and 38,613 square yards of one line eight inch (8 in.) reinforced concrete pavement.

Route No. 5, Section No. 2A, Hackettstown-Drakestown, in the Counties of Morris and Warren. Estimated 5,744 cubic yards of earth excavation, and 44,673 square yards of eight inch (8 in.) two line reinforced concrete pavement.

Route No. 9, Section No. 10, Bound Brook to Lincoln Avenue, in the County of Middlesex. Estimated 8,471 cubic yards of excavation, and 28,690 square yards of eight inch (8 in.) two line reinforced concrete pavement.

Route No. 16, Section No. 6, Passaic River to Morris Township Line, in the County of Morris. Estimated 14,727 cubic yards of earth excavation, 39,180 square yards of eight inch (8 in.) two line reinforced concrete pavement.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, June 4th, 1923, at 11:00 a.m., Standard Time, and opened and read immediately thereafter.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of the State Highway Department, Trenton, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on deposit of Ten Dollars, ($10.00) upon application to the State Highway Department, 9th floor, Broad St. Bank Building, Trenton, New Jersey. Bids must be made on the standard proposal forms in the manner designated therein, and as required by the 1922 specifications, same to be enclosed in sealed special addressed envelopes bearing the name and address of bidder and the name and section of the route on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 nor more than $20,000.00, and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelope will be furnished on application. Bids not enclosed in special envelope will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Each bidder must also accompany his bid with a Statement of Equipment properly filled out.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: May 31.

Sewerage System Extensions

Easton, Md.

Sealed Proposals for the construction of certain extensions to the Sewerage System of Easton, Md., will be received and opened by the Mayor of Easton at the Council Chamber in Easton, Maryland, at 12.30 o'clock p.m., on the thirty-first day of May, 1923.

The work to be done comprises the complete construction of about one mile of 8" to 12" pipe sewer, 1,000 feet of House Connections, small pumping station and 4" force main.

200 Lin. Ft. Relaid Pipe 18 in. and under
250 Lin. Ft. Wire Cable Guard Rail
500 Lin. Ft. Wood Shoulder Curb

AUTO REPAIR SHOP
AT DOVER

40 ft. x 60 ft. frame, Roof trusses of 40 ft. span, concrete and wood floor.

Alternate bids will be received for standard steel building of approximately the same dimensions with clear floor space and trusses designed to sustain a 3-ton load at center of span.

Performance of contract shall commence within ten (10) days after execution of the contract and be completed during 1923 as specified.

Monthly payments will be made for 90 per cent of the construction completed each month.

Bidders must submit proposals upon forms provided by the Department.

Each proposal must be accompanied by a surety bond, certified check, or money to the amount of at least ten (10) per centum of the total amount of the proposal.

The envelope containing the proposal must be marked "Proposal for the Construction of State Highway Contract No. ....."

The Contract will be awarded or rejected within twenty (20) days from the date of opening proposals.

The right is reserved to reject any or all bids.

Detailed plans may be seen and index plans and specifications may be obtained upon deposit of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications in good condition at the office of

STATE HIGHWAY DEPARTMENT,
Dover, Delaware.

OFFICIAL PROPOSALS

Bids: June 4.

Sewers and Pumping Equipment

Hackensack, N. J.

The Hackensack Improvement Commission, the governing body of the City of Hackensack, Bergen County, New Jersey, requests proposals for the following works, to wit:

Contract No. 5—For the construction of about 27,000 linear feet of eight (8) inch vitrified pipe sewers, about 6,600 linear feet of ten (10) inch, and twelve (12) inch vitrified pipe sewers, about 4,400 linear feet of fifteen (15) inch, twenty (20) inch and twenty-two (22) inch vitrified pipe sewers, about 3,600 linear feet of six (6) inch, eight (8) inch, ten (10) inch, twelve (12) inch and twenty (20) inch cast iron sewers and force mains; and three (3) electrically operated sewage pumping stations, together with pumping equipment, manholes, and other works and equipment appurtenant thereto. Pumping equipment shall consist of A. B. Wood patent trash pumps. Motors and switch boards shall be of General Electric or other approved make.

Contract No. 6—For the construction of about 8,400 linear feet of eight (8) inch vitrified pipe sewers, chiefly an extension of existing sewers, together with manholes and other works appurtenant thereto.

The foregoing works are more particularly described and set forth in the plans and specifications, on file with Lemuel Lozier, Engineer of the Commission, and with the Clerk of the Commission.

The plans and specifications, information for bidders, forms of proposals and contracts, forms of bonds required and other information can be seen at the office of Lemuel Lozier, Engineer of the Commission, Room 3, Bank Building, Main and Mercer Streets, Hackensack, New Jersey; copies of such plans and specifications may be obtained by bidders of making a deposit of ($25.00) which deposit will be refunded upon the return of the plans and specifications in good condition.

Bidders may submit proposals upon one or more of the aforesaid contracts.

Each contract will be let separately to the lowest responsible bidder, subject to the right of the Commission to reject any or all bids.

All bids must be made upon a form of proposal to be obtained from the Engineer of the Commission, and must give the prices both in writing and figures, and must give such other information and be signed in the manner indicated on the form of proposal. Each bid for Contract No. 5 shall be accompanied by a certified check for $10,000, payable to the "HACKENSACK IMPROVEMENT COMMISSION." Each bid submitted for Contract No. (6) shall be accompanied by a certified check for $2,000, payable to the "Hackensack Improvement Commission."

Checks of the unsuccessful bidders will be returned immediately upon the award of each of the respective contracts. The check of the successful bidders will be returned to the bidder upon the execution of the contract an the furnishing of the bonds required, within ten days after the date of the award thereof, or within such extended time as may be determined by the Commission. In case of failure to execute the required contract or contracts, and furnish the required bonds within such time, such check or checks shall be forfeited to the Hackensack Improvement Commission as liquidated damages.

The proposals herein required for Contracts 5 and 6 shall be presented to the Hackensack Improvement Commission, at the Municipal Building, 346 State Street, Hackensack, Bergen County, New Jersey, on Monday, the 4th day of June, 1923, at 8 P.M. daylight saving time, 7 P.M. Standard Time.

No bids will be received prior to said hour, and none thereafter. The proposals shall be submitted in sealed envelopes or packages (in case one bidder bids upon two contracts, he shall present two separate proposals).

The proposals shall be endorsed respectively as follows:

1—"Proposal for sewers and pumping stations Contract No. 5."

2—"Proposal for sewers, Contract No. 6."

HACKENSACK IMPROVEMENT
COMMISSION.
By SPENCER D. BALDWIN,
Mayor.

WILLIAM SCHAAF, Clerk.

OFFICIAL PROPOSALS

Bids: June 2.

Sanitary Sewer Construction

Columbus, Ohio.

Sealed proposals will be received at the office of the Board of County Commissioners of Franklin County, Ohio, until ten o'clock a.m., central standard time, of Saturday, June 2, 1923, and the same will be publicly opened at the same hour and at the said office for all labor and material necessary and required to construct, build and complete the sewers hereinafter described.

The plans, profiles, specifications and estimates of quantities for doing this work are on file in the office of the Board of County Commissioners and the office of the County Sanitary Engineer, 406½ South High Street, Columbus, Ohio, for inspection by all persons interested in the same. All proposals shall be made on the standard bidding blanks furnished by the County Sanitary Engineer and shall be addressed to the Board of County Commissioners and endorsed as hereinafter specified. Each bid shall contain the full name and address of each person or company interested in the same and shall be accompanied by a bond or certified check, made payable to the Board of County Commissioners of Franklin County, Ohio, said check being on a solvent bank within Franklin County, Ohio, in amount Five Hundred Dollars ($500.00), conditioned that if the bid is accepted a contract will be entered into within one week, and its performance properly secured. Prices for labor and material shall be stated separately. A bond in the sum of 50 per cent of the total contract price, conditioned according to law, will be required as security for the fulfillment of the contract when the contract is executed. A deposit of $10 will be required for plans and specifications taken from the office, which amount will be refunded on return of the plans within one week after receiving bids.

Contract No. 3—Sewer District Franklin No. 1, Joint Intercepting Sewer

Includes 16,049 ft. of segment block or concrete pipe sewer, 30-inch, 33-inch and 39-inch and 4,675 ft. vitrified or concrete pipe sewer, 24-inch.

Also 68 manholes and other accessories.

Indorsement. "Proposal for construction of sewers in Sewer District Franklin No. 1. Contract No. 3."

The Board of County Commissioners reserves the right to reject any or all bids.

By order of the Board of County Commissioners of Franklin County, Ohio.

RALPH W. SMITH,
Clerk of the Board.

Bids: June 4.

Street Pavement

Babylon, N. Y.

Sealed proposals will be received by the Board of Trustees of the Village of Babylon for the construction of approximately 29,000 square yards of concrete pavement, and will be opened and read in public at the Village Board Room, Babylon, Long Island, N. Y., on Monday, June 4, 1923, at 8 p.m.

Plans and specifications may be seen at the office of the Engineer, George H. Walbridge, Main Street, Babylon, N. Y., on and after Thursday, May 24, 1923. Copies of same may be obtained by prospective bidders upon payment of twenty ($20) dollars, which amount will be refunded upon return of plans and specifications in good condition within five days after the date of opening bids.

Each bidder must use the proposal blank attached to and forming a part of the specifications.

A certified check for 5 per cent of the gross amount of the bid shall be deposited with each proposal as a guarantee that the bidder will execute the contract at the price bid.

A satisfactory bond will be required for the faithful performance of the specified work for an amount equal to 50 per cent of the gross amount bid.

The Board of Trustees reserves the right to reject any or all bids.

CHESTER O. KETCHAM,
President.
JAMES O'SHEA,
GUSTAVE FISHEL,
JOSEPH KEENAN,
WILLIAM E. SPRAGUE,
Trustees.
JAMES B. COOPER, Clerk.

OFFICIAL PROPOSALS

Bids: June 4.

Branch Ave. Paving

Red Bank, N. J.

Notice is hereby given that sealed bids will be received by the Council of Borough of Red Bank for the Construction of a Concrete Pavement on Branch Avenue in the Borough of Red Bank, N. J., and opened and read in public at the rooms of said Council, Borough Hall, Red Bank, New Jersey, on June 4th, 1923, 8.00 p.m., daylight saving time.

Drawings and specifications for the proposed work prepared by George K. Allen, Jr., Borough Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Council of Borough of Red Bank and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the Borough Collector and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Council of Borough of Red Bank reserves the right to reject any or all bids if deemed to the best interests of the Borough so to do.

By order of the Council of Borough of Red Bank.

A. L. MILLER,
Mayor.

Bids: May 28.

Bridge

Norwich, N. Y.

Construction of a bridge over Canasawacta Creek at South Broad Street, Norwich, N. Y.

Sealed bids addressed to Stuart C. Nelson, Jr., clerk of the joint bodies, town board of the town of Norwich and the Common Council of the City of Norwich, N. Y., City Hall, Norwich, N. Y., and endorsed "Proposal for South Broad Street Bridge" will be received by the joint boards on Monday, May 28th, 1923, at 7:30 p.m., in the council chambers in the City Hall at Norwich, N. Y., and at that time and place will be publicly opened and read for the construction of a bridge over the Canasawacta Creek on South Broad Street, Norwich, N. Y.

Bids will embrace the construction of a concrete steel girder bridge, also a reinforced concrete bridge.

Contractors will be permitted to submit plans and specifications for a reinforced concrete structure which will have the same carrying capacity, water way, clearance and depth of roadway as the concrete steel girder bridge. Such plans and specifications must have the approval of the department of highways of the state of New York and will be considered by the joint boards in making awards.

The right is expressly reserved to reject any and all bids.

Plans and specifications of the concrete steel girder bridge may be obtained from the City Engineer or the City Chamberlain at the City Hall, Norwich, N. Y. Such plans and specifications will be sent for two dollars.

STUART C. NELSON, JR.,
Clerk of the Joint Boards of the Town and City of Norwich, N. Y.
E. F. MUSSON,
City Engineer.

Dated at Norwich, N. Y.
May 9th, 1923.

OFFICIAL PROPOSALS

Bids June 5.

Bridges

Fine, N. Y.

Sealed proposals will be received at the office of the Town Clerk of the Town of Fine, St. Lawrence County, New York, until Tuesday, the 5th day of June, 1923, at 1:00 P.M. for the building of two concrete-steel arch bridges, as follows:

1. Scott's Bridge, across the Oswegatchie River about four miles north of the Village of Oswegatchie.

2. A bridge across the Little River about three-quarters of a mile north of the Village of Oswegatchie.

Both located on Fine-Star Lake Highway.

Plans, specifications may be seen at office of

1. Mr. F. H. Kelly, Town Clerk of Fine, at the Village of Oswegatchie, St. Lawrence Co., N. Y.

2. Concrete-Steel Engineering Company, Park Row Bldg., New York, N. Y.

Copies of the plans and specifications including form of proposal may be obtained from the Concrete-Steel Engineering Company upon making a deposit of $20.00, which will be refunded upon the return of the plans and specifications in good order.

Each proposal must be accompanied by an unconditional certified check on a Natonal Bank for five per cent (5%) of the contract price, made payable to the order of the "Supervisor of the Town of Fine" as evidence of good faith, and to be forfeited to the Town as liquidated damages in case of failure on the part of the bidder to enter into a contract for the execution of the work, and to furnish a satisfactory surety bond as hereinafter stipulated. Bidders' certified checks will be returned after consideration of the bids, and the check of the successful bidder will be returned as soon as the contract is signed.

Successful bidder will be required to furnish bond acceptable to Town of Fine in sum equal to 50% amount of contract.

Proposals will be entertained only from parties who have at their command the necessary capital, plant and experience for properly doing such work.

Contract for one or both bridges may be awarded to one party. The party or parties to whom a contract may be awarded will be required to execute the contract with surety within ten days from the date of service of notice to that effect; and in case of failure or neglect to do so, he or they will be considered as having abandoned it.

The right is reserved by the Town to accept any proposal or to reject any or all proposals.

TOWN OF FINE
By E. H. BACKUS, Town Superintendent.

Bids: June 4.

Building Alterations and Repairs

New York, N. Y.

Sealed proposals for Alterations, Repairs, Etc., To Office Buildings, Department of Labor, 124 East 28th St., New York City, will be received by Hon. Bernard L. Shientag, Industrial Commissioner, 124 East 28th St., New York City, until 1 o'clock p.m. (Standard Time), Monday, June 4, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a deposit, consisting of a certain check drawn upon some legally incorporated bank in this State and made payable to the State of New York, or money, equal to five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4099. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the office of the Department of Labor, 124 East 28th St., New York City at the New York Office of the Department of Architecture, 18th Floor, Fuller Building, Broadway and 23rd St.; and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, SULLIVAN W. JONES, Capitol, Albany, N. Y.

Dated: May 17, 1923.

OFFICIAL PROPOSALS

Bids: June 1.

School Building

Haworth, N. J.

Sealed proposals will be received by the Board of Education of the Borough of Haworth, County of Bergen, N. J., at 8 p.m. (daylight saving time), June 1, 1923, in the Borough Hall, Terrace Street, Haworth, N. J., for the complete construction of a new public school building, at which time the bids will be opened publicly. Bids shall be based on the plans and specifications on file with the architect.

Bids for the general construction, for the heating and ventilating, for the plumbing, and the electric work will be taken separately.

Bids shall be accompanied by the deposit of certified checks payable to the Board of Education of the Borough of Haworth, in the County of Bergen, as follows:

With general construction bid....	$1,000
With heating and ventilating bid..	500
With plumbing bid.....	300
With electric bid.....	100

If the bidder or bidders who receive the award shall not execute the contract and furnish the required bond for the full amount of the contract within ten days after the acceptance of such bid or bids the said sum so deposited shall be forfeited to the Board of Education and shall be liquidated damages for such default.

Contracts will be awarded to the lowest responsible bidders. The Board of Education reserves the right to reject any or all bids or to waive defects or informalities in any bid if it be deemed in the interest of the Board of Education so to do.

Copies of the plans and specifications may be obtained by prospective bidders from A. C. Paull at his residence, on Myrtle Street, Haworth, N. J., or at the office of F. Markoe Robertson and A. C. Paull, architects, 247 Park Avenue, 14th floor, New York City, on deposit of Ten Dollars. The deposit of Ten Dollars will be forfeited unless plans and specifications are returned in good condition to the architect ten days after bids are opened. Plans and specifications may be inspected at the above addresses without deposit.

For the Board of Education of the Borough of Haworth, Westervelt Mount, District Clerk.

Dated May 10, 1923.

BIDS: June 6

State Road Work

Providence, R. I.

Sealed proposals, for the construction under the provisions of the Federal Aid Road Act of a section of State Highway in the towns of North Providence and Lincoln, beginning at a point on the Louisquisset Pike, 1,500 feet northerly from Mineral Spring Avenue in North Providence and extending northerly on the Louisquisset Pike a distance of 3.13 miles, will be received by the State Board of Public Roads at its office, State House, Providence, R. I., until 12 M. (Daylight Saving) (11 A.M. Eastern Standard) on Wednesday, June 6, 1923, at which time they will be opened and read in Public.

Bids: May 29.

Street Paving and Trolley Track Reconstruction

Woodbury, N. J.

Pursuant to a resolution adopted May 1, 1923, the Council of the City of Woodbury will receive, at its meeting to be held Tuesday evening, May 29, 1923, at 7 o'clock p.m. (standard time), 8 o'clock p.m. (daylight saving time), at the Council Chamber, City Hall, Woodbury, New Jersey, sealed proposals for the construction of (Bid A, approximately 4,992 lineal feet of straight track complete, including all extras, track and paving, &c.) and (Bid B, approximately 6,944 square yards of reinforced concrete pavement complete, including excavations), on Cooper Street, in the City of Woodbury, Gloucester County, New Jersey, and the furnishing of all labor and materials therefor, in accordance with plans and specifications prepared by J. Owen Carter, C. E., Woodbury, New Jersey, and on file in the office of the City Clerk, Woodbury, New Jersey, and in the office of J. Owen Carter, 48 Cooper Street, Woodbury, New Jersey.

Each proposal must be accompanied with a bidder's bond, or a certificate from a surety company duly authorized to do business in this State stating that such surety company will provide said bidder with a bond in such amount as is required by and in accordance with the bid and specifications, or a certified check drawn to the order of the City of Woodbury; said bidder's bond, or certificate, or certified check to be in an amount not less than ten per centum of the bid or bids. Each proposal must be delivered by the bidder, or his agent, to the undersigned at the meeting above mentioned.

The Council of the City of Woodbury reserves the right to reject any or all proposals, and to award separate contracts under Bids A and B.

CLINTON S. DAVIS,
Dated, May 15, 1923. City Clerk.

Bids: June 5.

Foote & Son, Architects, Mount Morris, New York, on deposit of the sum of Ten ($10.00) dollars, certified check or draft, same to be forfeited unless plans and specifications are returned within ten days after bids are opened.

Board of Education, Mount Morris Union Free School District, Mount Morris, New York.

WILLIAM H. POVALL,
President.
TIFFANY E. BARNARD,
Clerk.

Bids: June 1.

Street Paving

Paducah, Ky.

Sealed bids will be received until 10 o'clock a.m., Friday, June 1, 1923, at the City Hall, Paducah, Kentucky, by Henry A. Pulliam, Commissioner of Public Works, for the construction of 67,000 square yards of street paving in the City of Paducah. Work will be divided into six different contracts.

Materials will be concrete 7 inches thick with marginal reinforcement or bituminous surfaces on a 6 inch concrete base.

Payments by cash or bonds issued against abutting property. Estimates according to state law. 65 per cent monthly payable in 6 per cent warrants.

Right is reserved to reject any or all bids.

Plans and specifications will be furnished upon deposit of $3.00, which will be refunded upon return of same. Letting June 1, 1923.

Bids for 9,100 lineal feet of concrete curb and gutter will be received on the same date.

HENRY A. PULLIAM.

OFFICIAL PROPOSALS

Bids: June 5.

Sewerage System

Long Branch, N. J.

Notice is hereby given that sealed proposals will be received by the Board of Commissioners of the City of Long Branch, New Jersey, for the building of a separate sewerage system, together with a sedimentation tank, in the northwesterly section of the city, and will be opened and read at a regular meeting of the Board at City Hall, on Tuesday, the fifth day of June, 1923, at eight o'clock p.m. (Daylight Saving Time), or as soon thereafter as may be called for.

The approximate amount of work to be done consists of 16,000 feet of main sewer, 5,000 feet of connections to the curb, with necessary manholes and sedimentation tank, all as shown on plans and specifications prepared by J. Wesley Seaman, City Engineer, which may be obtained by applying to the Engineer at his office at 192 Broadway, Long Branch, N. J., upon a deposit of $10, which will be refunded upon the return of the plans and specifications in good condition at the time the bids are received.

Bids must be made on the standard proposal form, in the manner designated therein and required by the specifications, and must be enclosed in sealed envelope bearing the name and address of the bidder, and marked "Bids for Sewer" and addressed to Frank C. Quinn, City Clerk, and must be accompanied by a certified check for not less than 10 per cent of the amount bid on the work, drawn to the order of Frank L. Howland, City Treasurer, or cash in equal amount. The Board of Commissioners reserves the right to reject any or all bids if deemed to the best interest of the Board so to do.

Dated, Long Branch, N. J., May 18, 1923.
FRANK C. QUINN, City Clerk.

Bids: June 1.

Bids: June 4.

Branch Ave. Paving

Red Bank, N. J.

Notice is hereby given that sealed bids will be received by the Council of Borough of Red Bank for the Construction of a Concrete Pavement on Branch Avenue in the Borough of Red Bank, N. J., and opened and read in public at the rooms of said Council, Borough Hall, Red Bank, New Jersey, on June 4th, 1923, 8.00 p.m., daylight saving time.

Drawings and specifications for the proposed work prepared by George K. Allen, Jr., Borough Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Council of Borough of Red Bank and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the Borough Collector and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Council of Borough of Red Bank reserves the right to reject any or all bids if deemed to the best interests of the Borough so to do.

By order of the Council of Borough of Red Bank.

A. L. MILLER,
Mayor.

Bids: June 4.

Street Improvement

Newburgh, N. Y.

Sealed proposals will be received by the City Manager at his office in the City Hall, Newburgh, N. Y., until 2 p.m. Monday, June 4, 1923, for paving and otherwise improving Renwick Street, between the West Shore R.R. and Liberty Street, and South Street between Water and Grand Streets with either vitrified hillside brick or reinforced concrete pavement.

The approximate quantities of pavement to be laid are as follows:

South Street about 4,050 sq.yds.
Renwick Street about 3,900 sq.yds.

Bids will be received on each street separately and cash or a certified check for $1,500 must accompany the bid on each street.

Plans and specifications are on file in the office of the City Engineer, City Hall, Newburgh, N. Y.

The City reserves the right to reject any or all bids received.

W. J. McKAY,
City Manager.

OFFICIAL PROPOSALS

Bids: June 4.

Concrete Pavement

Red Bank, N. J.

Notice is hereby given that alternate sealed bids will be received by the Council of Borough of Red Bank for the Construction of a Concrete Pavement and a Sheet Asphalt Pavement on a concrete base on Peters Place and for the Construction of a Concrete Pavement on Drummond Place and Oakland Street, in the Borough of Red Bank, N. J., and opened and read in public at the rooms of said Council, Borough Hall, Red Bank, New Jersey, on June 4, 1923, 8 p.m., daylight saving time.

Drawings and specifications for the proposed work prepared by George K. Allen, Jr., Borough Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Council of Borough of Red Bank and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the Borough Collector and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Council of Borough of Red Bank reserves the right to reject any or all bids if deemed to the best interests of the Borough so to do.

By order of the Council Borough of Red Bank.

A. L. MILLER, Mayor.

Bids: June 15.

Paving

East Cleveland, Ohio.

Sealed bids will be received by the City Manager of The City of East Cleveland, Ohio, until 12:00 o'clock, noon, June 15, 1923, for furnishing labor and material for constructing the following named improvements:

Paving all or part of Terrace Road, Dover Court, Nela Court, and Allandale Avenue with brick or asphalt.

Repaving part of Shaw Avenue with brick or asphalt.

Repaving or resurfacing Forest Hill Avenue and Third Avenue with asphalt.

Total length of streets, 7,577 ft. Area to be paved, 21,980 sq.yds. Estimated cost, $112,700.

Bids must be upon blanks furnished by the City and accompanied by bond or certified check for 10% of estimated cost.

CHAS. A. CARRAN,
City Manager.
East Cleveland, Ohio.

OFFICIAL PROPOSALS

Bids: June 7.

Main Sanitary Sewer

CONTRACT D

Marion, Ohio.

Sealed proposals will be received at the office of the Director of Public Service in the City Hall, Marion, Ohio, until 12 o'clock noon (Official Marion Time), June 7, 1923, and then publicly opened and read, for the construction of Main Sanitary Sewer, Contract D.

The following quantities give a general idea of the amount and character of the work to be done:

2,300 lin.ft. of 30 in. circular sewer.
5,000 lin.ft. of 27 in. vitrified pipe sewer.
3,600 lin.ft. of 24 in. vitrified pipe sewer.
7,500 lin.ft. of 12 to 18 in. vitrified pipe sewer.
11,500 lin.ft. of 6 to 10 in. vitrified pipe sewer.

Copies of plans and specifications and blank proposals may be obtained at the office of the Director of Public Service, City Hall, Marion, Ohio, or at the office of George B. Gascoigne, 648 Leader-News Building, Cleveland, Ohio, after May 22, 1923. A deposit of Ten Dollars ($10.00) will be required for each set of plans and specifications taken from the above offices. If a bid is submitted this deposit will be refunded upon the return of said plans and specifications in good condition. Similar deposits will be required for additional sets of plans and specifications taken from the above offices, there being no refund for their return. All checks for said plans and specifications shall be made payable to the City of Marion.

The proposal shall contain the full name and address of the party or parties making the same and all persons interested therein, and shall be accompanied by a proposal bond signed by a surety company authorized to do business in the State of Ohio or by a certified check on a solvent bank located in Marion for Eight Thousand Dollars ($8,000.00) made payable to the City of Marion, as surety that if the bid be accepted a contract will be entered into and the performance of it properly secured.

No proposal will be entertained unless made on the blanks furnished by the Director of Public Service and delivered at the office of the Director of Public Service in the City Hall, Marion, Ohio, previous to 12 o'clock noon (Official Marion Time), on the day specified.

The City through its Director of Public Service, reserves the right to reject any or all bids, to waive any informalities in the bids received, and to accept any bid which is deemed most favorable to the City of Marion, Ohio.

The City of Marion, Ohio.

E. A. SCHULTZ,
Director of Public Service.

Bids: Feb. 28, 1924.

Bids: June 5.

Bridges

Fine, N. Y.

Sealed proposals will be received at the office of the Town Clerk of the Town of Fine, St. Lawrence County, New York, until Tuesday, the 5th day of June, 1923, at 1:00 P.M. for the building of two concrete-steel arch bridges, as follows:

1. Scott's Bridge, across the Oswegatchie River about four miles north of the Village of Oswegatchie.

2. A bridge across the Little River about three-quarters of a mile north of the Village of Oswegatchie.

Both located on Fine-Star Lake Highway.

Plans, specifications may be seen at office of

1. Mr. F. H. Kelly, Town Clerk of Fine, at the Village of Oswegatchie, St. Lawrence Co., N. Y.

2. Concrete-Steel Engineering Company, Park Row Bldg., New York, N. Y.

Copies of the plans and specifications including form of proposal may be obtained from the Concrete-Steel Engineering Company upon making a deposit of $20.00, which will be refunded upon the return of the plans and specifications in good order.

Each proposal must be accompanied by an unconditional certified check on a Natonal Bank for five per cent (5%) of the contract price, made payable to the order of the "Supervisor of the Town of Fine" as evidence of good faith, and to be forfeited to the Town as liquidated damages in case of failure on the part of the bidder to enter into a contract for the execution of the work, and to furnish a satisfactory surety bond as hereinafter stipulated. Bidders' certified checks will be returned after consideration of the bids, and the check of the successful bidder will be returned as soon as the contract is signed.

Successful bidder will be required to furnish bond acceptable to Town of Fine in sum equal to 50% amount of contract.

Proposals will be entertained only from parties who have at their command the necessary capital, plant and experience for properly doing such work.

Contract for one or both bridges may be awarded to one party. The party or parties to whom a contract may be awarded will be required to execute the contract with surety within ten days from the date of service of notice to that effect; and in case of failure or neglect to do so, he or they will be considered as having abandoned it.

The right is reserved by the Town to accept any proposal or to reject any or all proposals.

TOWN OF FINE
By E. H. BACKUS, Town Superintendent.

Bids: June 27.

Water Supply System

Davenport, Wash.

Proposals will be received by the City Council, of Davenport, Washington, until 8 o'clock P.M. of the 27th day of June, 1923, for materials and labor required in construction of additions to City water supply system, as follows:

One 150,000-gallon Elevated Tank.
(alternate designs, steel and concrete tower);
Approximately 900 lineal feet of new 8-inch main,
(alternate steel and cast-iron pipe);
Changes in piping system at Pump House, including Altitude Control Valve, Gate Valve and specials;

Each proposal shall be accompanied by a bona fide certified check, on a banking institution in the state of Washington, in a sum not less than ten per cent (10%) of the amount of proposal.

Proposals shall be made upon blank forms furnished for the purpose, and shall be addressed to Mayor and City Council, in care of Mrs. Nan C. Ingle, City Clerk. Envelope to be marked "Water Works Proposal."

Plans and Specifications can be seen at the Mayor's office, Davenport, or in the office of R. M. Murray, Engineer, 326 Hutton Bldg., Spokane. Copies of Plans and Specifications for individual use may be obtained of the City Clerk on deposit of Ten Dollars ($10.00), five dollars of which amount will be refunded when sets are returned.

By order of the City Council.

Signed at Davenport, Wash., May 15, 1923.

J. E. FRASER, Mayor.
NAN C. INGLE, Clerk.

OFFICIAL PROPOSALS

Bids: June 20.

Concrete Dam

Fort Collins, Colo.

Sealed proposals will be received at the office of the North Poudre Irrigation Company in Fort Collins, Colorado, until twelve o'clock M., on June 20, 1923, for the enlargement of the Halligan Dam on the North Fork of the Cacheela Poudre River about thirty-five miles northwest of Fort Collins, Colorado, requiring about 5,000 cubic yards of foundation excavation and the placing of about 22,000 cubic yards of mass concrete in an arched concrete dam, together with other related work.

Full plans and specifications will be furnished upon application accompanied by a deposit of $15.00 to be repaid to the successful bidder and to all other bidders upon the return by them of the plans and specifications in good and acceptable condition. The Board of Directors reserves the right to reject any or all bids as the interests of the Company may require.

Each proposal must be accompanied by a certified check for five per cent of the amount bid payable to the order of the Treasurer of the North Poudre Irrigation Company for the benefit of said company as a guaranty that the bidder will, if successful, execute a satisfactory contract and furnish a bond satisfactory to the Board of Directors of the Company in the sum of not less than twenty-five per cent of the amount of his bid for the faithful performance of the work in accordance with the plans and specifications.

Proposals may be made for a completed structure according to the plans and specifications, the contractor to furnish all material therefor at his own expense, or may be made on the basis that the Company furnish cement and all steel or iron used in the construction, f.o.b. cars at Ingleside, Colorado; or the bidder may make proposals or both bases.

The proposal must be marked "Proposal for Enlargement of the Halligan Dam" and addressed "North Poudre Irrigation Company, Fort Collins, Colorado."

Done in pursuance of an order of the Board of Directors of the North Poudre Irrigation Company this 14th day of May, 1923.

A. J. WHISTLEMAN,
Secretary of the North Poudre Irrigation Co.

Bids: June 8.

Proposals will be received only upon State Standard forms in accordance with plans, specifications and estimates of quantities therefor, which standard forms, plans, specifications and estimates of quantites may be obtained from the office of the Division Engineer in whose territory the proposed construction is located or from the office of the State Road Commission at Charleston, W. Va.

Each proposal must be accompanied by a certified check for the amount noted.

The right is reserved to reject any and all proposals.

THE STATE ROAD COMMISSION OF WEST VIRGINIA
E. B. CARSKADON, Secretary.

OFFICIAL PROPOSALS

Bids: June 12.

Street Improvements

Long Branch, N. J.

Notice is hereby given that sealed proposals will be received by the Board of Commissioners of the City of Long Branch, New Jersey, for the paving of Bath Avenue, North Bath Avenue, South Bath Avenue and Garfield Avenue, with approximately 35,000 square yards of asphalt, upon a concrete foundation, with concrete gutters 3 feet wide, together with new concrete curb and other work incidental to said improvements, including those portions of driveways of intersecting streets or alleys which are included within the property lines of said avenues above mentioned and will be opened and read at a regular meeting of the Board of Commissioners at City Hall, Long Branch, N. J., on Tuesday evening, June 12, 1923, at 8 o'clock, Day Light Saving Time, or as soon thereafter as same can be presented.

Drawings and specifications prepared by J. W. Seaman, City Engineer, are now on file in the office of the City Clerk and at the office of the engineer, and may be obtained from the engineer by prospective bidders during business hours, upon a deposit of $10, which will be refunded upon return of the plans and specifications in good condition at or before the time the bids are received.

All bids must be made on the standard proposal form in the manner designated therein and required by the specifications and must be enclosed in sealed envelopes bearing the name and address of the bidder and marked "Bid for paving Bath Avenue, North Bath Avenue, South Bath Avenue and Garfield Avenue" and addressed to Frank C. Quinn, City Clerk, and must be accompanied by a surety company certificate stating that said surety company will provide the bidder with the required bond on the proposed work. No bid will be considered unless accompanied by a certified check for not less than 10% of the amount bid on the work, drawn to the order of Frank L. Howland, City Treasurer, or cash in equal amount.

The standard proposal form and data may be obtained on application to the engineer at his office 192 Broadway, Long Branch, New Jersey.

The Board of Commissioners reserve the right to reject any or all bids if deemed to the best interest of the City so to do.

Dated Long Branch, New Jersey, May 26, 1923.

FRANK C. QUINN,
City Clerk.

Bids: June 11th.

Street Improvement

Adrian, Mich.

Sealed proposals will be received by the City Commission of the City of Adrian, at the office of the City Clerk, until three p.m., June 11th, 1923, for the improvement of the following streets:

Center street from Church to Erie street.
Toledo street from Main to Broad street.
Pearl stret from Winter to Church street.
Front street from Winter to Main street.
Center street from Logan to Beecher street.
Wolverton avenue, Maumee to Pearl street.

The work will consist of 5,163 yards of excavation, 11,591 yards of pavement and 2,174 feet of curbing. Alternate bids will be received on this work on 6 inch concrete base with 2½ inch asphalt top also straight 7 inch concrete construction. At the same time and place, bids will be received for resurfacing with sheet asphalt, Maumee street from Broad to Maume street bridge, Main street from Church to Front street, with 3,425 feet of header and 8,313 square yards of asphalt top.

All bids to be made on blanks provided in the proposals furnished to bidders. Bids must be accompanied by certified check made payable to the City of Adrian for the sum of $1,000.00 to insure good faith of the bidder. Plans specifications and bidding blanks may be obtained at the office of the City Clerk upon the payment of $5.00, which sum will be returned to the bidder if a bona-fide bid is submitted on the above date and plans are returned in good condition.

The right to reject any or all bids is reserved and the right to waive any immaterial defect or irregularity in the bids if it should be of interest to the City of Adrian.

By order of the City Commission.

G. PERCY LOVE,
City Clerk.

Bids: June 26.

Hudson River Vehicular Tunnel

CONTRACT NO. 5

New York, N. Y.

Sealed bids will be received by New York State Bridge and Tunnel Commission and New Jersey Interstate Bridge and Tunnel Commission at the office of the Commissions, Room 618, Hall of Records, New York City, until 2:00 o'clock p.m. (Eastern Standard Time), Tuesday, June 26th, 1923, for the construction of a portion of two (2) tunnels as approaches to the river section of a vehicular tunnel under the Hudson River, said approach section being on the Island of Manhattan, known as Contract No. 5.

A statement of the quantities of the various items of work and further information are given in the invitation to bid forming part of the contract. At the above place and time the bids will be publicly opened and read. The award of the contract, if awarded, will be made by the Commissions as soon thereafter as practicable. The Commissions reserve the right to reject any and all bids.

Bonds in the sum of three hundred fifty thousand ($350,000) dollars each to the State of New York and to the State of New Jersey will be required for the faithful performance of the contract.

No bids will be received or considered unless accompanied by two certified checks upon a National or State Bank or Trust Company, satisfactory to the Commissions and located in New York City or the cities of Newark or Jersey City in the sum of seventy-five thousand ($75,000) dollars each, one payable to the order of the "Comptroller of the State of New York," and the other payable to the order of "The New Jersey Interstate Bridge and Tunnel Commission."

The time allowed for the completion of the work is twenty-four months after the date of the delivery of the contract.

Books containing forms of invitation to bid, proposal, contract, specifications and bond and contract drawings, etc., can be obtained at the office of the Commissions for the sum of $5.00 per set, which will be refunded upon their return in good condition within thirty (30) days from the date of receipt of bids.

New Jersey Interstate Bridge and Tunnel Commission.

THEODORE BOETTGER,
Chairman.

New York State Bridge and Tunnel Commission.

GEORGE R. DYER,
Chairman.

Bids: June 4.

Building Alterations and Repairs

New York, N. Y.

Sealed proposals for Alterations, Repairs, Etc., To Office Buildings, Department of Labor, 124 East 28th St., New York City, will be received by Hon. Bernard L. Shientag, Industrial Commissioner, 124 East 28th St., New York City, until 1 o'clock p.m. (Standard Time), Monday, June 4, 1923, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a deposit, consisting of a certain check drawn upon some legally incorporated bank in this State and made payable to the State of New York, or money, equal to five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 4099. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the office of the Department of Labor, 124 East 28th St., New York City at the New York Office of the Department of Architecture, 18th Floor, Fuller Building, Broadway and 23rd St.; and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, SULLIVAN W. JONES, Capitol, Albany, N. Y.

Dated: May 17, 1923.

Bids: June 21.

Road Work

Newton, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Sussex for the construction of Newton Avenue in the Borough of Sussex, County of Sussex, with a reinforced concrete surface, estimated amount of surface pavement required is 720 sq.yds. and for the improvement of Mill Street in the Borough of Sussex, County of Sussex with a reinforced concrete surface estimated amount of surface pavement required is 1,408 sq.yds. and for the improvement of Newton Stanhope Road Section 3A in the Borough of Andover, County of Sussex, estimated amount of surface pavement required is 11,798 sq.yds. and opened and read in public at the Freeholders Office, Newton, N. J., on June 21, 1923, at 11:30 a.m., Daylight Saving Time.

Drawings, Specifications and forms of bid, contract and bond for the proposed work, prepared by Harvey Snook, County Engineer, are on file in the Office of the said Engineer at Newton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the Engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to the Board of Chosen Freeholders, County of Sussex, Newton, N. J., and must be accompanied by a certificate of the Bonding Company and a certified check for not less than 10% of the amount bid and be delivered at the place and on the hour above named. The Standard Proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

By order of the Board of Chosen Freeholders.

(Signed) WM. S. VOUGHT,
Clerk.

Bids: June 22.

Furnishing and Laying Random Road Main

CONTRACT 31
BALDWIN-FAIRMOUNT PROJECT

Cleveland, Ohio.

Sealed proposals will be received at the office of the commisioner of purchases and supplies, room 213, City Hall, until 12:00 o'clock noon, official Cleveland time, Friday, June 22, 1923, for furnishing and laying Random Road Main, of the Baldwin-Fairmount Project, division of water, and will be opened and read in the council chamber immediately thereafter.

Each bid must be accompanied by a cashier's check on a solvent bank for five thousand dollars ($5,000.00) drawn payable to the city of Cleveland as surety for the acceptance of the contract.

Each bid must be made in accordance with the plans and specifications which may be obtained at the division of water drafting room, 213 City Hall, upon the deposit of five dollars ($5.00) per set, said deposit to be redeemed upon the return of said copies in good condition.

No proposal will be entertained unless made on the blank forms furnished by the division of water, and delivered at the office of the commissioner of purchases and supplies, previous to 1:00 o'clock noon on the day above specified.

The city reserves the right to reject any or all bids.

This contract contains 8,500 cu.yds. of excavation and backfilling; furnishing and setting 1,045 tons of 24-inch straight B. & S. pipe; 48 tons of B. & S. fittings; setting 3-24-inch and 8-20-inch valves furnished.

A. V. RUGGLES
Commissioner of Water.

Roads and Bridges

BOND ISSUE

Minneapolis, Minn.

The Minnesota State Legislature authorized a bond issue of $2,000,000 for Hennepin County, for the construction of roads and a bridge over the Minnesota River, between Fort Snelling and Mendota. Bridge approximately 4,100 feet long, 110 feet above low water; will probably be steel. Engineer not selected.

GEORGE H. MALLON,
Chairman County Commissioners,
Minneapolis, Minnesota.

The right is reserved to reject any or all bids.

May 29th, 1923.

D. N. RUMSEY, Village Clerk.

OFFICIAL PROPOSALS

Bids: June 26.

Hudson River Vehicular Tunnel

CONTRACT NO. 5

New York, N. Y.

Sealed bids will be received by New York State Bridge and Tunnel Commission and New Jersey Interstate Bridge and Tunnel Commission at the office of the Commissions, Room 618, Hall of Records, New York City, until 2:00 o'clock p.m. (Eastern Standard Time), Tuesday, June 26th, 1923, for the construction of a portion of two (2) tunnels as approaches to the river section of a vehicular tunnel under the Hudson River, said approach section being on the Island of Manhattan, known as Contract No. 5.

A statement of the quantities of the various items of work and further information are given in the invitation to bid forming part of the contract. At the above place and time the bids will be publicly opened and read. The award of the contract, if awarded, will be made by the Commissions as soon thereafter as practicable. The Commissions reserve the right to reject any and all bids.

Bonds in the sum of three hundred fifty thousand ($350,000) dollars each to the State of New York and to the State of New Jersey will be required for the faithful performance of the contract.

No bids will be received or considered unless accompanied by two certified checks upon a National or State Bank or Trust Company, satisfactory to the Commissions and located in New York City or the cities of Newark or Jersey City in the sum of seventy-five thousand ($75,000) dollars each, one payable to the order of the "Comptroller of the State of New York," and the other payable to the order of "The New Jersey Interstate Bridge and Tunnel Commission."

The time allowed for the completion of the work is twenty-four months after the date of the delivery of the contract.

Books containing forms of invitation to bid, proposal, contract, specifications and bond and contract drawings, etc., can be obtained at the office of the Commissions for the sum of $5.00 per set, which will be refunded upon their return in good condition within thirty (30) days from the date of receipt of bids.

New Jersey Interstate Bridge and Tunnel Commission.

THEODORE BOETTGER,
Chairman.

New York State Bridge and Tunnel Commission.

GEORGE R. DYER,
Chairman.

Bids: June 22.

Furnishing and Laying Random Road Main

CONTRACT 31

BALDWIN-FAIRMOUNT PROJECT

Cleveland, Ohio.

Sealed proposals will be received at the office of the commisioner of purchases and supplies, room 213, City Hall, until 12:00 o'clock noon, official Cleveland time, Friday, June 22, 1923, for furnishing and laying Random Road Main, of the Baldwin-Fairmount Project, division of water, and will be opened and read in the council chamber immediately thereafter.

Each bid must be accompanied by a cashier's check on a solvent bank for five thousand dollars ($5,000.00) drawn payable to the city of Cleveland as surety for the acceptance of the contract.

Each bid must be made in accordance with the plans and specifications which may be obtained at the division of water drafting room, 213 City Hall, upon the deposit of five dollars ($5.00) per set, said deposit to be redeemed upon the return of said copies in good condition.

No proposal will be entertained unless made on the blank forms furnished by the division of water, and delivered at the office of the commissioner of purchases and supplies, previous to 1:00 o'clock noon on the day above specified.

The city reserves the right to reject any or all bids.

This contract contains 8,500 cu.yds. of excavation and backfilling; furnishing and setting 1,045 tons of 24-inch straight B. & S. pipe; 48 tons of B. & S. fittings; setting 3-24-inch and 8-20-inch valves furnished.

A. V. RUGGLES,
Commissioner of Water.

OFFICIAL PROPOSALS

Bids: June 25.

Each bid shall be made on the proposal in the accompanying pamphlet and enclosed in envelope furnished herewith. The same to be securely sealed bearing, no indication of the name of the Bidder nor the amount of the bid, and shall be mailed to the officer of the Company designated in this notice to receive the same.

The pamphlet containing form of Notice, Proposal, Contract and Specifications, and the Plans of this work may be seen at or obtained from Chief Engineer's Office, Greenville, Pa.

The right is reserved to reject any and all bids.

H. T. PORTER, Chief Engineer,
Greenville, Pa.

Bids: June 21.

Sanitary Sewer Construction

Linthicum Heights, Md.

Sealed proposals addressed to the Anne Arundel County Sanitary Commission, Linthicum Heights, Maryland, for constructing sewers in the Glen Burnie Sanitary District, Contract No. 1-S containing approximately 3,200 lineal feet of six-inch vitrified pipe including house connections, 2,506 lineal feet eight-inch and 3,359 lineal feet ten-inch vitrified pipe, 158 lineal feet manholes including necessary fittings, excavation, back-fill and incidental work, and in the Linthicum Heights Sanitary District, Contract No. 2-S containing approximately 1,191 lineal feet of six-inch vitrified pipe house connections, 15,889 lineal feet eight-inch and 1,682 lineal feet ten-inch vitrified pipe sewer, 473 lineal feet of brick or concrete manholes including necessary fittings, drop connections, excavation, back-fill and incidental work, as shown on drawings on file in the office of the Commission at Linthicum Heights, Maryland, will be received at said office, until twelve o'clock noon June 21, 1923, at which place they will be publicly opened and read.

Proposals for each contract must be made upon the blank forms furnished by the Commission for that purpose, which with more complete information to bidders, plans and specifications will be furnished by the Commission upon application and cash payment of five dollars for each set, which will not be refunded by the Commission.

The successful bidder will be required to be bonded to the Commission to a sum equal to fifty per cent of the amount of his proposal.

Each proposal must be accompanied by a certified check for five per cent of the amount of the proposal and unless so accompanied will not be considered.

The right is hereby reserved to reject any or all proposals and to waive technical informalities as the interests of the Anne Arundel County Sanitary Districts may require.

The Anne Arundel County Sanitary Commission.

FRED M. WARNKEN, Chairman,
WM. C. LENKUHL,
JAMES J. MURPHY.

WM. H. SAUNDERS,
Secretary-Treasurer.

OFFICIAL PROPOSALS

Bids: June 20.

Storage Dam, Pipe Line and Filter Plant

Fairport, N. Y.

Sealed proposals will be received by the Municipal Commission of Fairport, N. Y., at its office until two o'clock P.M. standard time, Wednesday, June 20, 1923, for constructing the following works:

DIVISION 1. An earthen dam with concrete core about 45 feet in height and 400 feet in length, an adjacent earthen concrete dam 10 feet in height and about 200 feet in length with a total of 45,000 cubic yards of earth embankment and about 2,000 cubic yards of concrete. Gravel is available close to the site of the work. These dams will be located about 3 miles south of the Village of Victor, N. Y.

DIVISION 2. A rapid sand reinforced concrete filter plant with a daily capacity of 1,000,000 per day located about 3 miles south of the Village of Fairport, N. Y.

DIVISION 3. The hauling, excavating of trench and laying of approximately 10 miles of 12-inch pipe and one mile of 16-inch pipe.

DIVISION 4. The furnishing of approximately 10 miles of class A 12-inch cast iron pipe and about one mile of 16-inch cast iron pipe.

DIVISION 5. The construction of a 300,000 gallon standpipe about 30 feet in height, about one mile south of the Village of Fairport, N. Y.

The above estimate of quantities is approximate and its accuracy is not guaranteed. Bidders should make their own estimate of quantities and cost and submit bids thereon after examining the plans and specifications and the site of the work. Bids are to be made on the unit price basis unless otherwise specified.

Plans and specifications for this work may be seen or obtained at the office of James P. Wells, Consulting Engineer, Cutler Building, Rochester, N. Y., or at the office of the Municipal Commission of Fairport, N. Y. Bidders requiring copies of the specifications and plans for their own use may secure them upon making a deposit of $10.00, which will be refunded upon return of the plans and specifications in good condition. All proposals must be accompanied by a check or a bidder's bond for a sum equal to at least 5 per cent of the bid, made payable to the Fairport Municipal Commission, as a guarantee that the successful bidder will enter into a contract with the Village of Fairport to furnish the material and perform all of the construction work necessary in accordance with the plans and specifications.

All bids will be publicly opened.

The Commission reserves the right to reject any or all proposals.

FAIRPORT MUNICIPAL COMMISSION,
WILLIAM WAGNER, Chairman.

Bids: Nov. 30, 1923.

Sydney Harbour Bridge Tenders —Extension of Time

DEPARTMENT OF PUBLIC WORKS

Sydney, Australia,
January 31st, 1923.

Tenders are invited by the Government of New South Wales for the Construction of the Superstructure and substructure of a Cantilever Bridge across Sydney Harbour from Dawes Point to Milson's Point, embracing a main span of 1,600 feet in the clear, centre to centre of main piers, and a length of main bridge 2,600 feet centre to centre of anchor piers. The total length of main bridge and approach spans included in tender is 3,810 feet; also an Alternative Tender for the Construction of the Superstructure and Substructure of an Arch Bridge across Sydney Harbour from Dawes Point to Milson's Point, embracing a main span of 1,650 feet in the clear centre to centre of bearings. The total length of main bridge and approach spans included in tender is 3,770 feet. Either bridge is to provide for four lines of railway, six lines of vehicular traffic, and footway accommodation.

Copies of Specification, including Plans, General Conditions, and Tender Forms, may be obtained by bona fide tenderers on application to the Official Secretary, Australian Commissioner's Office, 44 Whitehall Street, New York City.

Tenders, the time for which has been extended, must reach the Under Secretary for Public Works, Sydney, New South Wales, not later than 30th November, 1923.

R. T. BALL,
Minister for Public Works and Railways.

OFFICIAL PROPOSALS

Bids: June 20.

Concrete Pavement

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the reconstruction of the Englishtown-Jamesburg Road, No. 19, with a reinforced concrete pavement for a distance of 1.25 miles, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey, on Wednesday, June 20, 1923, at 11 A.M., daylight saving time.

Drawing and specifications for the proposed work, prepared by Geo. F. Randolph, Civil Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB,
Director.

Attest:
CHAS. E. COLE, Clerk.
Freehold, N. J., May 23, 1923.

Bids: June 19.

Sanitary Sewers and Sewage Disposal Plant

Media, Pa.

Sealed proposals will be received by the Borough Council of the Borough of Media, Pa., at the Borough Hall on the 19th day of June, 1923, until 7:00 o'clock P.M. (Eastern Standard Time), for the construction of sanitary sewers consisting of approximately 8,000 lineal feet of 5 in, 8 in, 10 in. and 12 in. Terra Cotta pipe sewers, 30 manholes and 3 flush tanks; and one section of the proposed sewage disposal plant.

Each proposal must be accompanied by a certified check made payable to the Borough of Media, for a sum equal to 5% of the amount bid. A bond for 100% of the contract price will be required.

Plans and specifications will be on file and may be seen at the Secretary's office, Borough Hall, Media, Pa., or at the office of the Engineers, Remington & Vosbury, 601 Market Street, Camden, N. J. Complete sets of plans and specifications may be obtained from the Engineers upon a deposit of $10.00, of which sum $5.00 will be refunded upon the return of same in good condition by June 27, 1923.

The Borough reserves the right to feject any or all bids, and to decide as to the desirability of the bidders.

EDWARD MINTON,
Secretary, Borough Council.

Bids: June 26.

Pumping Plant and Building

Savanna, Ill.

Sealed bids will be received until ten o'clock a.m. June 26, 1923 by the Carroll County Drainage and Levee District No. 1 at the office of the Secretary, H. P. Greison, Savanna, Illinois for an oil engine driven pumping plant containing a 30 inch double suction centrifugal pump. Bids will also be received for a building to house this plant.

For further information address the Engineers, Elliott & Harman Engineering Co., 144 Fredonia, Peoria, Illinois.

OFFICIAL PROPOSALS

Bids: June 20.

Concrete Dam

Fort Collins, Colo.

Sealed proposals will be received at the office of the North Poudre Irrigation Company in Fort Collins, Colorado, until twelve o'clock M., on June 20, 1923, for the enlargement of the Halligan Dam on the North Fork of the Cacheela Poudre River about thirty-five miles northwest of Fort Collins, Colorado, requiring about 5,000 cubic yards of foundation excavation and the placing of about 22,000 cubic yards of mass concrete in an arched concrete dam, together with other related work.

Full plans and specifications will be furnished upon application accompanied by a deposit of $15.00 to be repaid to the successful bidder and to all other bidders upon the return by them of the plans and specifications in good and acceptable condition. The Board of Directors reserves the right to reject any or all bids as the interests of the Company may require.

Each proposal must be accompanied by a certified check for five per cent of the amount bid payable to the order of the Treasurer of the North Poudre Irrigation Company for the benefit of said company as a guaranty that the bidder will, if successful, execute a satisfactory contract and furnish a bond satisfactory to the Board of Directors of the Company in the sum of not less than twenty-five per cent of the amount of his bid for the faithful performance of the work in accordance with the plans and specifications.

Proposals may be made for a completed structure according to the plans and specifications, the contractor to furnish all material therefor at his own expense, or may be made on the basis that the Company furnish cement and all steel or iron used in the construction, f.o.b. cars at Ingleside, Colorado; or the bidder may make proposals or both bases.

The proposal must be marked "Proposal for Enlargement of the Halligan Dam" and addressed "North Poudre Irrigation Company, Fort Collins, Colorado."

Done in pursuance of an order of the Board of Directors of the North Poudre Irrigation Company this 14th day of May, 1923.

A. J. WHISTLEMAN,
Secretary of the North Poudre Irrigation Co.

Bids: July 2.

Sea Wall or Flood Protection

Vicksburg, Miss.

Sealed proposals for the construction of a concrete wall along the river front at Vicksburg, Mississippi, will be received at the City Hall until 4 p.m. July 2, 1923, at which time and place, they will be publicly opened and read.

Approximately 4,200 lineal feet of wall containing about 9,500 cu.yd. of concrete, 450 tons of reinforcing steel and 4,200 lineal feet interlocking sheet piling 10 to 20 feet long, will be contained in the work. Bidders must accompany their proposal with a certified check payable to "Board of Mayor and Aldermen," City of Vicksburg, for not less than 5 per cent of their bid price.

Care will be exercised in determining the special skill and the responsibility of the bidders, to which end each bidder will be expected to make satisfactory answers to a questionnaire, copy of which will be forwarded upon request. Plans and specifications may be obtained from Miller-Butterworth Company, Engineers, 624 Southern Trust Building, Little Rock, Arkansas, for the sum of $10. Upon surrender of the plans and specifications in good condition, $5 of this will be returned. The City reserves the right to reject any and all bids and to waive technicalities in awarding the contract.

J. J. HAYES, Mayor.

Bids: June 18.

The beginning point of said Ditch and Improvement is at West ¼ Cor. N. W. ¼ Sec. 31-Competine Twp. 73-r 12 W. and ending in the S. E. ¼ Sec. 13 Pleasant Twp. 72-r. 12 on the Wapello Jefferson County Line, a distance of 7.23 miles divided into sections as follows:

Sec. E-5—42,636 cu.yds. Start work on or before May 1st, 1924. Complete by June 15, 1924.

Sec. F-6—42,129 cu.yds. Start work on or before Mch. 15, 1924. Completed by May 1, 1924.

Sec. G-7—43,643 cu.yds. Start work on or before Feb. 1, 1924. Completed by March 15, 1924.

Sec. H-8—37,654 cu.yds. Start work on or before Dec. 20, 1923. Completed by Feb. 1, 1924.

Sec. I-9—35,204 cu.yds. Start work on or before Nov. 15, 1923. Completed by Dec. 20, 1923.

Sec. J-10—24,258 cu.yds. Start work on or before Oct. 20, 1923. Completed by Nov. 15, 1923.

Sec. K-11—31,310 cu.yds. Start work on or before Sept. 15, 1923. Completed by Oct. 20, 1923.

The estimated quantity of material to be excavated in said entire ditch is 256,834 cu.yds. of excavation. This work consists in cutting a continuous channel as located, which channel is 12 feet in width at the bottom, and side slopes shall be one-half foot horizontal to one foot vertical; side slopes shall be left smooth and uniform, and bottom of channel shall be brought to proper grade elevation and left smooth and uniform ,and with an approximate depth of 10½ feet; right of way 100 feet in width.

Bids will be submitted for the entire work; and the price must be stated in both words and figures, and permission will not be granted to amend or withdraw any bid after filing with the County Auditor. Maps, plans profiles, specifications, and form for bids, contracts, etc., are on file in my office, and at the office of Brown & Cook, Engineers, Ottumwa, Iowa, and can be examined. The Board will award contract to the lowest responsible bidder therefor; but the right is hereby expressly reserved by said Board to reject any or all bids and to readvertise the letting of said work; and no bid will be considered unless on the approved form for bids furnished by the undersigned.

All bids must be signed with the recognized name of the Contractor or firm who expects to do the work if awarded the contract, and each bid must be accompanied by a certified check of some reputable bank, in the sum equal to ten per cent, of the amount of the bid, (but not to exceed $10,000.00), drawn in favor of the County Auditor of Wapello County, Iowa, as a guarantee of good faith in entering on said contract, and if awarded the contract for said work, the bidder will within ten days from the date of notice thereof, enter into said contract therefor and execute said Bond therefor, or deposit cash, as provided by law in the sum of twenty-five per cent of estimated cost of said work so let by such contract. The checks of unsuccessful bidders will be returned to them respectively as soon as award is made. All provisions of present Drainage Laws of Iowa are made a part of all said contracts.

All bids must be sealed and marked on the outside of envelope: Bid for Contract on Cedar Creek Drainage Ditch, No. 4, and addressed to Fred W. Prosser, County Auditor, Ottumwa, Wapello County, Iowa. The bids will be opened at Two o'clock p.m., on July 10, 1923, in the office of the Board of Supervisors, in Court House at Ottumwa, Iowa, and the contract, if awarded will be awarded by the said Board as soon as practicable thereafter on said date.

Witness my hand and seal this day of May, 1923.

FRED W. PROSSER,
County Auditor of Wapello Co., Ia.

Bids: June 13.

Road Fill

READVERTISEMENT

Ashland, R. I.

Sealed proposals for the construction of the Ashland Causeway, a fill about half a mile long with a maximum height of about 60 feet, to carry the Relocated Plainfield Pike across the proposed Scituate Reservoir at the village of Ashland in the Town of Scituate, R. I., about 10 miles west of the City of Providence, will be received at the office of the Water Supply Board, City Hall, Providence, R. I., until 1:30 p.m., Eastern Standard Time (2:30 p.m. Daylight Saving Time) on Wednesday, June 13, 1923, at which time and place they will be publicly opened and read.

The work will include the construction of a large concrete culverts, the placing of riprap and other appurtenant work but will not include road surfacing. The estimated quantities are: Excavation 7,000 cu.yd., borrow, 230,000 cu.yd. riprap, 28,000 cu.yd.; broken stone, 10,000 cu.yd., concrete, 3,000 cu.yd.; reinforcing steel 120,000 lb.

Pamphlets containing plans, information for bidders, form of proposal, contract and bond and specifications, may be obtained from the Secretary of the Board, City Hall, or from the Chief Engineer, 661 Westminster Street.

CITY OF PROVIDENCE
WATER SUPPLY BOARD
B. THOMAS POTTER, Chairman.
SAMUEL N. GRAMMONT, Secretary.
FRANK E. WINSOR, Chief Engineer.

Bids: June 29.

Reinforced Concrete Bridge

Reading, Pa.

Sealed proposals are hereby invited for the building of a reinforced concrete bridge over the Schuylkill River, on Schuylkill Avenue, Reading, Pa.

The bridge is to consist of five spans 106 feet and 2 spans of 40 feet, with beam and slab construction in the approaches. Total length of the bridge to be 1,057 feet, 70 feet wide all over, with a 48 feet roadway and two 11 feet 6 inch wide walks.

The contractor is to build and maintain during the construction of the new bridge a temporary bridge at the site indicated on the plans.

A deposit of $200.00 will be required for each set of plans and specifications, which will be refunded upon the return of the same. Plans and specifications are in the hands of the County Commissioners, Court House, Reading, Pa.

A certified check equal to 10 percentum of the aggregate amount of the bid must accompany each proposal.

Bids will be received by the County Controller at the Court House, Reading, Pa., until 10 o'clock in the morning of June 29, 1923.

JOHN P. WANNER,
County Controller,
Court House,
Reading, Pa.

Bids: June 15.

Street Pavement

Hudson, N. Y.

Notice is hereby given that sealed bids will be received by the Commission of Public Works, of the City of Hudson, N. Y., until 2:30 p.m., Daylight Saving Time, June 15th, 1923, for paving approximately 20,000 sq.yds. of street surface with seven (7) inch plain concrete and 19,000 sq.yds. with five (5) inch concrete and two (2) inch asphaltic concrete wearing surface. Specifications and bidding sheet will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of specifications before the time specified for opening bids.

The Commission of Public Works reserves the right to reject any and all bids or parts of bids, or to accept any bid considered the best for the interests of the City.

M. J. O'HARA,
City Engineer.

Bids: July 10.

Drainage Ditch and Impovement

DISTRICT NO. 6

Ottumwa, Ia.

In the Matter of the Cedar Creek Drainage District No. 6, of Wapello County, Iowa, and Drainage Ditch and improvement therein:

Notice is hereby given that in pursuance of an order of the Board of Supervisors of Wapello County, Iowa, made on May 17, 1923, sealed bids will be received by the undersigned for said Board up to Two o'clock p.m. on July 10, 1923, at the Court House, Ottumwa, Ia., but not later, for the construction of said Drainage Ditch and improvement in said Drainage District No. 6, of Wapello County, Ia., in accordance with the approved plans, profiles, specifications, and contract in blank form for bids, and bond therefor, on file in my office; said work thereof being described as follows, and having the approximate estimated amount and quantities as specified, but which may be found to be either more or less on final measurement:

The beginning point of said Ditch and Improvement is at E. of CM. & ST. P. R. RY. bridge No. 1-352 in N. W. ¼ S. W. ¼ Sec. 21-Highland Twp. 73-R 13 W. and ending at the E. ¼ Cor. S. E. ¼ Sec. 36-Highland Twp., a distance of 4.47 miles, divided into sections as follows:

Sec. A-1—34,966 cu.yds. Start work on or before Nov. 1, 1924. Completed by Dec. 1, 1924.

Sec. B-2—38,541 cu.yds. Start work on or before Sept. 1, 1924. Completed by Nov. 1, 1924.

Sec. C-3—30,904 cu.yds. Start work on or before Aug. 1, 1924. Completed by Sept. 1, 1924.

Sec. D-4—43,822 cu.yds. Start work on or before June 15, 1024. Completed by Aug. 1, 1924.

The estimated quantity of material to be excavated in said entire Ditch is 148,233 cu. yds. of excavation. This work consists in cutting a continuous channel as located, which channel is 10 feet in width at the bottom, and side slopes shall be one foot horizontal to one foot vertical; side slopes shall be left smooth and uniform, and bottom of channel shall be brought to proper grade elevation and left smooth and uniform, and with an approximate depth of 9½ feet; right of way 125 feet in width from place of beginning to CM. & ST. P. Bridge in Sec. 27-73-13 and 150 feet in width from there to the end.

Bids will be submitted for the entire work; and the price must be stated in both words and figures, and permission will not be granted to amend or withdraw any bid after filing with the County Auditor. Maps plans, profiles, specifications, and form for bids, contracts, etc., are on file in my office, and at the office of Brown & Cook, Engineers, Ottumwa, Iowa, and can be examined. The Board will award contract to the lowest responsible bidder therefor; but the right is hereby expressly reserved by said Board to reject any or all bids and to readvertise the letting of said work; and no bid will be considered unless on the approved form for bids furnished by the undersigned.

All bids must be signed with the recognized name of the Contractor or firm who expects to do the work if awarded the contract, and each bid must be accompanied by a certified check of some reputable bank, in the sum equal to ten per cent, of the amount of the bid, (but not to exceed $10,000.00), drawn in favor of the County Auditor of Wapello County, Iowa, as a guarantee of good faith in entering on said contract, and if awarded the contract for said work, the bidder will within ten days from the date of notice thereof, enter into said contract therefor and execute said Bond therefor, or deposit cash, as provided by law in the sum of twenty-five per cent of estimated cost of said work so let by such contract. The checks of unsuccessful bidders will be returned to them respectively as soon as award is made. All provisions of present Drainage Laws of Iowa are made a part of all said contracts.

All bids must be sealed and marked on the outside of envelope: Bid for Contract on Cedar Creek Drainage Ditch, No. 6, and addressed to Fred W. Prosser, County Auditor, Ottumwa, Wapello County, Iowa. The bids will be opened at Two o'clock p.m. on July 10, 1923, in the offic of the Board of Supervisors, in Court House at Ottumwa, Iowa, and the contract, n awarded by the said Board as soon as practicable thereafter on said date.

Witness my hand and seal this day of May, 1923.

FRED W. PROSSER,
County Auditor of Wapello Co., Ia.

OFFICIAL PROPOSALS

Bids: June 19.

Trench Excavating

Memphis, Tenn.

The Board of Water Commissioners of the City of Memphis, Water Department, will receive proposals at the office of the Department, 105-107 North Second Street, Memphis, Tennessee up until 12 o'clock noon Tuesday, June 19, 1923, for excavating by machinery trenches for cast iron collecting conduit, tile drains and compressed air lines —this work being in connection with the Parkway Pumping Station construction. Depth of trenches varies from 4 to 16 feet. The following table shows the approximate lineal feet of trench for the various sizes of pipe:

COLLECTING CONDUIT
3,000 lineal feet for 42-inch pipe.
10,000 lineal feet for 36-inch pipe.
500 lineal feet for 30-inch pipe.
1,000 lineal feet for 20-inch pipe.
3,000 lineal feet for 14-inch pipe.

TILE DRAINS
10,000 feet for 12-inch tile.
200 feet for 8-inch tile.

FOR COMPRESSED AIR LINES
1,200 lineal feet for 4—10-inch lines in one trench.
2,500 lineal feet for 3—10-inch lines in one trench.
4,500 lineal feet for 2—10-inch lines in one trench.
2,500 lineal feet for 1—8-inch line in one trench.
3,000 lineal feet for 1—4-inch line in one trench.

It is desired that proposals be submitted per lineal foot of trench for the entire contract. The Department will guarantee a minimum of from 300 to 400 feet per day depending upon the size and depth of trench dug. Detailed information, together with plans and specifications, may be obtained at the offices of the Department, 105-107 North Second Street, Memphis, Tennessee. The successful contractor will be required to furnish bond to the full amount of the contract price covering the faithful performance of the work, the expense of this bond to be paid by the Water Department. The contractor will be required to begin work within fifteen (15) days after award of contract. The right is reserved to reject any or all bids. Address proposals to the Board of Water Commissioners of the City of Memphis, Water Department. Mark "Bid for Trench Excavating."

Board of Water Commissioners, City of Memphis, Water Department.
JAMES SHEAHAN,
General Superintendent.

Bids: June 25.

Street Paving

Augusta, Ga.

SEALED PROPOSALS will be received by the Permanent Paving and Civic Improvements Committee of the City Council of Augusta, Ga., until 12 o'clock (noon), Monday, June 25, at the City Hall, and at that time and place publicly opened, for paving the following streets:

FIFTH (CENTER) STREET, from Broad to Calhoun Streets, consisting of approximately:
10,000 Sqare yards of pavements.
3,000 Cubic yards of excavation.
2,000 Lineal feet of re-set curb.
423 Lineal feet of marginal curb.
1,000 Cubic yards of concrete in car tracks.
600 Cubic yards of ballast under car tracks.

TWIGGS STREET, from Telfair Street to the intersection of the Savannah Road and the Milledgeville Road, consisting of approximately:
27,000 Square yards of pavement.
8,000 Cubic yards of excavation.
1,500 Lineal feet of re-set curb.
600 Lineal feet of marginal curb.
1,600 Cubic yards of concrete in car tracks.
1,040 Cubic yards of ballast under car tracks.

MILLEDGEVILLE ROAD, from the Savannah Road to the City Limits, consisting of approximately:
17,000 Square yards of pavement.
5,000 Cubic yards of excavation.
10,000 Lineal feet of New Granite Curb.
Lineal feet of re-set curb.
600 Lineal feet of marginal curb.
1,200 Cubic yards of concrete in car tracks.
800 Cubic yards of ballast under car tracks.

SAVANNAH ROAD, from the Milledgeville Road to 12th (Marbury) Street, consisting of approximately:
5,500 Square yards of pavement.
1,500 Cubic yards of excavation.
2,800 Lineal feet of new granite curb.
200 Lineal feet of re-set curb.
150 Lineal feet of marginal curb.

BROAD STREET, from Eve Street to the Lake View Bridge, consisting of approximately:
18,000 Square yards of pavement.
4,500 Cubic yards of excavation.
1,000 Lineal feet of re-set curb.
4,000 Lineal feet of new granite curb.
200 Lineal feet of marginal curb.
2,000 Cubic yards of concrete in car tracks.
1,270 Cubic yards of ballast under car tracks.

Approximately thirty per cent (30%) of the above proposed pavement will be on sections of the streets containing no car tracks.

Bids will be received on any and all types of pavements.

As a guarantee that the bidder will execute the contract, if awarded, all bids must be accompanied with a certified check, or bidder's bond, in favor of the City Council of Augusta, in the sum of five per cent (5%) of the total amount bid.

Address all bids to J. W. Westmoreland, Clerk of Council, marking on envelope "Proposal for Paving.....Street, from .....to .....Street, Augusta, Ga."

Proposal form, plans and specifications may be obtained from the undersigned after June 11, by depositing the sum of ten ($10.00) dollars, which amount will be refunded upon the return of the plans and specifications.

The City reserves the right to reject any and all bids.

W. H. WISE,
City Engineer and Commissioner of Public Works.

June 7, 1923.

Bids: June 28.

Reinforced Concrete Reservoir

DuBois, Pa.

Sealed proposals addressed to the City Council of DuBois, Pa., for the construction of a reinforced concrete reservoir will be received by J. C. Weaver, City Clerk, at the City Hall, West Scribner Avenue, DuBois, Pa., until 5:00 P.M., Thursday, June 28th, 1923, and will be opened by the Council at the Council Chamber at 7:30 P.M., Eastern Standard Time, of that day.

The work under this contract will consist of the construction of a reinforced concrete reservoir, 165 feet inside diameter, 26 feet high, including the necessary excavation, and embankment for the same; the construction of a control chamber, a 12-inch terra cotta drain approximately 500 feet long, piping connections, auxiliary drains and all necessary appurtenances.

Plans, specifications, and form of contract are on file and can be obtained at the office of the City Engineer, City Hall, DuBois, Pa., or at the office of Morris Knowles, Incorporated, 507 Westinghouse Building, Pittsburgh, Pa.

A set of the plans and specifications may be obtained for use in making up a bid by depositing Ten Dollars ($10.00) and this deposit will be refunded if such plans and specifications are returned in good condition within two weeks after the date set for receiving bids by the City Council.

Each proposal shall be accompanied by a certified check for an amount not less than five per cent (5%) of the proposal, drawn to the order of the City of DuBois, Pa. The bidder to whom the contract is awarded will be required to furnish, for the faithful performance of the work under this contract, an approved Surety Company Bond in the amount of fifty per cent (50%) of the sum of the bid submitted.

CITY OF DUBOIS, PA.
A. J. HAAG,
Mayor.
J. C. WEAVER,
City Clerk.

Bids: June 18.

Paving

Port Jervis, N. Y.

Sealed proposals will be received by the undersigned until 8 p.m., on June 18, 1923, for the construction of approximately 8,200 sq.yd. of reinforced concrete paving at Port Jervis, N. Y., under specifications on file in the City Clerk's Office. Certified check of $500 payable to the City of Port Jervis, N. Y., must accompany each bid. The right to reject any or all bids is reserved.

Common Council of the City of Port Jervis, N. Y.
per JOHN F. CLEARY, City Clerk.

Bids: June 29.

Vincentown-Cross Roads Road Bridgeboro-Chester Ave. Road and Florence Road

Mount Holly, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders for the reconstruction of the following roads: Road No. 19, Bridgeboro to Chester Ave., in the Townships of Delran and Moorestown; estimated amount of surface pavement required is 38,655 sq.yds.; Road No. 3, Vincentown-Cross Roads Road, in the Township of Southampton; estimated amount of surface pavement required is 46,622 sq.yds.; Road No. 15 Florence Road, in the Township of Florence; estimated amount of surface pavement required is 26,900 sq.yds. Said roads to be constructed of sheet asphalt surface upon a macadam foundation; and opened and read in public at the Collector's Office, Mt. Holly, N. J., on the 29th day of June, 1923, at 10:45 A.M., Eastern Standard Time.

Drawings and specifications and forms, of bid contract and bond for the proposed work, prepared by H. B. Smith, County Engineer, has been filed in the office of the said engineer, Court House, Mount Holly, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue print of the drawings by the engineer on proper notice and payment of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and the name of road on the outside, addressed to Alfonza Adams, Clerk. Mount Holly, N. J., and must be accompanied by a certificate from a Surety Company and a certified check for not less than 10 per cent of the amount of the bid and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished upon application to engineer.

The Board reserves the right to reject any or all bids.

By order of the Board of Chosen Freeholders of the County of Burlington, N. J.
ALFONZA ADAMS, Clerk.

Bids: June 27.

Steel and Concrete Bridge Work

REPAIRING AIKEN STREET BRIDGE OVER NORTHERN CANAL

Lowell, Mass.

Sealed bids for repairing Aiken Street Bridge over Northern Canal in the City of Lowell, including the removal of the existing wooden dock, the two iron railings, the end plates of the two plate girders, the top course of stone of each of the granite parapets of the existing abutments, and the construction of a new concrete deck with a bituminous macadam road surfacing, new concrete sidewalks, new iron railings, new steel plates at the ends of the plate girders, some miscellaneous steel in the roadway, and the painting of the entire steel structure and some repaving of the approaches, will be received by the Board of Public Service of said city at its office in City Hall until 12 o'clock noon (daylight saving time) Wednesday, June 27, at which time and place the bids will be publicly opened and read aloud.

The bridge has two through plate girders approximately 107 feet long, spaced 35 feet between centers. The bridge carries a roadway 31 feet 6 inches wide between curbs, and two cantilever sidewalks 7 feet 6 inches wide.

Each bid must be accompanied by a properly certified check for Two Thousand (2,000) Dollars. A bond in the sum of Ten Thousand ($10,000) Dollars of an approved surety company will be required for the faithful performance of the contract.

A more complete description of the work to be done is given in Notice to Bidders, Bid, Agreement, Articles, Bond Specifications and Contract Drawings.

Copies of the foregoing may be obtained from the Engineer, Fay, Spofford & Thorndike, 200 Devonshire Street, Boston, Mass., on and after June 11, 1923.

Receipt of bids will be subject to the conditions stated in said Notice to Bidders.

The right is reserved to reject any and all bids.

Board of Public Service, Lowell, Mass.
By STEPHEN KEARNEY,
Clerk.

FAY, SPOFFORD & THORNDIKE,
200 Devonshire Street,
Boston, Mass.

OFFICIAL PROPOSALS

Bids: June 20.

Concrete Pavement

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the reconstruction of the Englishtown-Jamesburg Road, No. 19, with a reinforced concrete pavement for a distance of 1.25 miles, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey, on Wednesday, June 20, 1923, at 11 A.M., daylight saving time.

Drawing and specifications for the proposed work, prepared by Geo. F. Randolph, Civil Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB, Director.

Attest:
CHAS. E. COLE, Clerk.
Freehold, N. J., May 23, 1923.

Bids: June 22.

State Highway Work

Providence, R. I.

Sealed proposals for the reconstruction under the provisions of the Federal Aid Road Act of a Section of State Highway in the Towns of Richmond and Hopkinton, between Wyoming and Hopkinton City on the New London Turnpike, will be received by the State Board of Public Roads at its office, State House, Providence, R. I., until 12 M. (Daylight Saving), 11 a.m. (Eastern Standard) on Friday, June 22, 1923, at which time they will be opened and read in public.

The principal estimated quantities are as follows:

Contract No. 2305—Federal Aid Project No. 18—5.51 miles Reinforced Cement Concrete Pavement.

Excavation	21,200 cu.yd.
Gravel Foundation	3,000 cu.yd.
Sub-drain	1,300 lin.ft.
Pipe Culverts	2,700 lin.ft.
Wooden Guard Rail	9,000 lin.ft.
Reinforced Cem. Conc. Pavement	11,340 cu.yd.
Cement for concrete pavement	20,640 bbl.
Galvanized steel fabric in pavement	295,000 lb.
Steel bars for reinforcement	33,000 lb.

Bids must be made upon blank forms to be furnished by the Board.

No bid will be accepted unless accompanied by a certified check for the sum of $200.00, payable to the State of Rhode Island.

The Board reserves the right to reject any and all bids, and to give preference to towns or cities, in accordance with Section V of Chapter 84 of the General Laws.

Plans may be examined and specifications and bidding blanks may be obtained at the office of the State Board of Public Roads, State House, Providence, R. I., on and after Monday, June 11, 1923, every week day (except holidays and Saturdays), between the hours of 9 a.m. and 5 p.m. Saturdays 9 a.m. to 12 m.

State Road Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the construction of the following:

Route No. 4, Section No. 21, Point Pleasant-Laurelton, in the County of Ocean. Estimated 12,846 cu.yds. of excavation, 33,937 sq.yds. of gravel surface, and 57,483 sq.yds. of single line eight inch (8") reinforced concrete pavement.

Route No. 5, Section No. 10, Chatham-Brantwood, in the Counties of Morris, Essex and Union. Estimated 7,212 cu.yds. of excavation, 461 sq.yds. of Sheet Asphalt pavement, 4,300 sq.yds. of Granite Block pavement, and 20,566 sq.yds. of double line eight inch (8") reinforced concrete pavement.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, June 25th, 1923, at 11:00 a.m., Standard Time, and opened and read immediately thereafter.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of the State Highway Department, Trenton, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on deposit of Ten Dollars ($10.00) upon application to the State Highway Department, 9th floor Broad St. Bank Building, Trenton, New Jersey. Bids must be made on the standard proposal forms in the manner designated therein, and as required by the 1922 specifications, same to be enclosed in sealed special addressed envelopes bearing the name and address of bidder and the name and section of the route on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 nor more than $20,000.00 and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelopes will be furnished on application. Bids not enclosed in special envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Each bidder must also accompany his bid with a Statement of Equipment properly filled out.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: June 29.

Reinforced Concrete Bridge

Reading, Pa.

Sealed proposals are hereby invited for the building of a reinforced concrete bridge over the Schuylkill River, on Schuylkill Avenue, Reading, Pa.

The bridge is to consist of five spans 106 feet and 2 spans of 40 feet, with beam and slab construction in the approaches. Total length of the bridge to be 1,057 feet, 70 feet wide all over, with a 48 feet roadway and two 11 feet 6 inch wide walks.

The contractor is to build and maintain during the construction of the new bridge a temporary bridge at the site indicated on the plans.

A deposit of $200.00 will be required for each set of plans and specifications, which will be refunded upon the return of the same. Plans and specifications are in the hands of the County Commissioners, Court House, Reading, Pa.

A certified check of $20,000.00 must be enclosed with the proposal.

Bids will be received by the County Controller at the Court House, Reading, Pa., until 10 o'clock in the morning of June 29, 1923.

Bids: June 20.

Storage Dam, Pipe Line and Filter Plant

Fairport, N. Y.

Sealed proposals will be received by the Municipal Commission of Fairport, N. Y., at its office until two o'clock P.M. standard time, Wednesday, June 20, 1923, for constructing the following works:

DIVISION 1. An earthen dam with concrete core about 45 feet in height and 400 feet in length, an adjacent earthen concrete dam 10 feet in height and about 200 feet in length with a total of 45,000 cubic yards of earth embankment and about 2,000 cubic yards of concrete. Gravel is available close to the site of the work. These dams will be located about 3 miles south of the Village of Victor, N. Y.

DIVISION 2. A rapid sand reinforced concrete filter plant with a daily capacity of 1,000,000 per day located about 3 miles south of the Village of Fairport, N. Y.

DIVISION 3. The hauling, excavating of trench and laying of approximately 10 miles of 12-inch pipe and one mile of 16-inch pipe.

DIVISION 4. The furnishing of approximately 10 miles of class A 12-inch cast iron pipe and about one mile of 16-inch cast iron pipe.

DIVISION 5. The construction of a 300,000 gallon standpipe about 30 feet in height, about one mile south of the Village of Fairport, N. Y.

The above estimate of quantities is approximate and its accuracy is not guaranteed. Bidders should make their own estimate of quantities and cost and submit bids thereon after examining the plans and specifications and the site of the work. Bids are to be made on the unit price basis unless otherwise specified.

Plans and specifications for this work may be seen or obtained at the office of James P. Wells, Consulting Engineer, Cutler Building, Rochester, N. Y., or at the office of the Municipal Commission of Fairport, N. Y. Bidders requiring copies of the specifications and plans for their own use may secure them upon making a deposit of $10.00, which will be refunded upon return of the plans and specifications in good condition. All proposals must be accompanied by a check or a bidder's bond for a sum equal to at least 5 per cent of the bid, made payable to the Fairport Municipal Commission, as a guarantee that the successful bidder will enter into a contract with the Village of Fairport to furnish the material and perform all of the construction work necessary in accordance with the plans and specifications.

All bids will be publicly opened.

The Commission reserves the right to reject any or all proposals.

FAIRPORT MUNICIPAL COMMISSION,
WILLIAM WAGNER, Chairman.

Bids: June 15.

Highway Work

Albany, N. Y.

OFFICE OF THE STATE COMMISSION OF HIGHWAYS—Sealed proposals will be received by the undersigned at their office, No. 55 Lancaster Street, Albany, N. Y., at one o'clock p.m., advanced standard time, which is 12 o'clock noon eastern standard time, on Friday, June 15, 1923, for the reconstruction of highways in the following counties:

ALBANY	(one contract: 1.43)
BROOME	(one contract: 3.68)
CHENANGO	(one contract: 1.61)
HERKIMER	(one contract: 1.02)
JEFFERSON	(one contract: 2.95)
MADISON	(one contract: 1.30)
MONTGOMERY	(one contract: 1.65)
ORANGE	(two contracts: 2.00 and 1.96)
SARATOGA	(one contract: 2.42)
BROOME—Grade Crossing Elimination	0.37 mile.

Maps, plans, specifications and estimates may be seen and proposal forms obtained at the office of the Commission in Albany, N. Y., and also at the office of the division engineers in whose division the roads are to be reconstructed. The addresses of the division engineers and the counties in which they are in charge will be furnished upon request.

The especial attention of bidders is called to "General Information for Bidders" in the itemized proposal, specifications and contract agreement.

FRED'K STUART GREENE,
Commissioner

W. A. PATTON, Secretary.

OFFICIAL PROPOSALS

Bids: June 26.

Hudson River Vehicular Tunnel

CONTRACT NO. 5

New York, N. Y.

Sealed bids will be received by New York State Bridge and Tunnel Commission and New Jersey Interstate Bridge and Tunnel Commission at the office of the Commissions, Room 618, Hall of Records, New York City, until 2:00 o'clock p.m. (Eastern Standard Time), Tuesday, June 26th, 1923, for the construction of a portion of two (2) tunnels as approaches to the river section of a vehicular tunnel under the Hudson River, said approach section being on the Island of Manhattan, known as Contract No. 5.

A statement of the quantities of the various items of work and further information are given in the invitation to bid forming part of the contract. At the above place and time the bids will be publicly opened and read. The award of the contract, if awarded, will be made by the Commissions as soon thereafter as practicable. The Commissions reserve the right to reject any and all bids.

Bonds in the sum of three hundred fifty thousand ($350,000) dollars each to the State of New York and to the State of New Jersey will be required for the faithful performance of the contract.

No bids will be received or considered unless accompanied by two certified checks upon a National or State Bank or Trust Company, satisfactory to the Commissions and located in New York City or the cities of Newark or Jersey City in the sum of seventy-five thousand ($75,000) dollars each, one payable to the order of the "Comptroller of the State of New York," and the other payable to the order of "The New Jersey Interstate Bridge and Tunnel Commission."

The time allowed for the completion of the work is twenty-four months after the date of the delivery of the contract.

Books containing forms of invitation to bid, proposal, contract, specifications and bond and contract drawings, etc., can be obtained at the office of the Commissions for the sum of $5.00 per set, which will be refunded upon their return in good condition within thirty (30) days from the date of receipt of bids.

New Jersey Interstate Bridge and Tunnel Commission.

THEODORE BOETTGER,
Chairman.

New York State Bridge and Tunnel Commission.

GEORGE R. DYER,
Chairman.

Bids: June 28.

Substructure

Chicago, Ill.

Sealed proposals for the construction of the substructure of a Double Leaf Trunnion Bascule Bridge (Strauss type) over the Main Drainage Channel of the Sanitary District of Chicago, on the line of South California Avenue extended across said Main Drainage Channel in the City of Chicago, County of Cook, State of Illinois, will be received by the Clerk at the office of said Sanitary District, Suite 700, 910 So. Michigan Avenue, Chicago, Illinois, until 12 M., standard time, on Thursday, June 28, 1923, and will be publicly opened by the Board of Trustees of said Sanitary District at a meeting to be held on that day or at the first meeting thereafter.

All proposals must be made upon blank forms of proposal furnished by the Sanitary District and shall be made in accordance with and to conform to the terms and conditions set forth in "Requirements for Bidding and Instruction to Bidders," attached thereto.

Said proposals shall be enclosed in an envelope furnished by the said Sanitary District, bearing the printed endorsement, "Proposal for Substructure, California Ave. Bridge."

Forms of proposal, specifications and plans may be obtained upon deposit of twenty-five dollars ($25), at the office of said Sanitary District, which sum, so deposited, will be refunded if said forms of proposal, plans and specifications are returned in good condition within thirty days following the opening of bids.

The Board of Trustees reserves the right to reject any or all proposals.

THE SANITARY DISTRICT
OF CHICAGO
BY WILLIS O. NANCE,
Chairman of its Committee on Finance.

ATTEST:
HARRY E. WALLACE, Clerk.
Chicago, June 4, 1923.

1,800 Lin.Ft. Bulkhead

CONTRACT NO. M-8

2,000 R. C. Guard Rail Posts

Performance of contract shall commence within ten (10) days after execution of the contract and be completed during 1923 as specified.

Monthly payments will be made for 90 per cent of the construction completed each month.

Bidders must submit proposals upon forms provided by the Department.

Each proposal must be accompanied by a surety bond, certified check, or money to the amount of at least ten (10) per centum of the total amount of the proposal.

The envelope containing the proposal must be marked "Proposal for the Construction of State Aid Highway Contract No. ....."

The Contract will be awarded or rejected within twenty (20) days from the date of opening proposals.

The right is reserved to reject any or all bids.

Detailed plans may be seen and index plans and specifications may be obtained upon deposit of ten dollars ($10.00) which amount will be refunded upon return of plans and specifications in good condition at the office of

STATE HIGHWAY DEPARTMENT,
Dover, Delaware.

Bids: June 26.

Water Mains, Valves and Hydrants

Gridley, Ill.

Sealed proposals will be received by the Board of Local Improvements of the Village of Gridley, Illinois, until 2 p.m., June 26, 1923, for furnishing and laying complete approximately 22,053 feet of 4 inch, 6 inch and 8 inch cast iron water mains, Class B. Also valves and hydrants.

Certified check for 10 per cent to accompany bid. Payment will be made in Special Assessment bonds bearing 6 per cent interest. Plans and specifications may be obtained from Mr. A. O. Rupp, Clerk, Gridley, or from Taylor & Woltmann, Unity Bldg., Bloomington, Illinois, Engineers.

OFFICIAL PROPOSALS

Bids: June 29.

Rebuilding Bridge

Salem, Mass.

Sealed proposals for rebuilding the Haverhill Lower Bridge over the Merrimack River in the City of Haverhill, Mass., will be received by the Haverhill Lower Bridge Rebuilding Commission at the County Commissioners' office in the Court House at Salem, Mass., until 11:00 o'clock a.m. of Friday, June 29, 1923, and then and there will be publicly opened and read.

The proposed bridge is to be 804 feet long and 66 feet wide, consisting of five reinforced concrete arches of 80 feet clear span, one arch of 55 feet clear span, and reinforced concrete approaches of beam and slab construction. A proposed steel bascule drawspan is not included in the proposals. The new bridge will occupy the site of the old bridge and extend downstream therefrom so that one-half of the new bridge is to be built clear of the old bridge which is then to be removed and the other half of the new bridge completed in its place.

Each proposal must be accompanied by a certified check for twenty thousand dollars ($20,000). A bond in the sum of fifty (50) per cent of the amount of the contract with an approved surety company as surety will be required for the faithful performance of the contract.

More detailed information is given in the plans, notice to contractors, specifications, and form of proposal, contract, and bond, copies of which may be inspected at the office of the Commission No. 14 Water Street, Haverhill, or may be obtained at the office of the County Engineer in the Court House at Salem upon the deposit of fifty (50) dollars, which will be refunded upon return of plans, specifications, etc., in good condition, on or before the day, herein set for the opening of proposals.

The right is reserved to reject any and all proposals.

ROBERT H. MITCHELL, Chairman.
CHARLES N. KELLY,
EDMUND C. WENTWORTH,
RAYMOND H. TREFRY,
FREDERICK BUTLER,
Haverhill Lower Bridge Rebuilding Commission.
ROBERT R. EVANS, Engineer.

Haverhill, Mass., June 8, 1923.

Bids: June 19.

Highway Work

Baltimore, Md.

Sealed proposals for building five sections of State Highway, as follows:

Frederick Co. Cont. F-60—One section of State highway from Myersville toward Ellerton, for a distance of 1.0 mile. (Macadam Resurfacing.)

Carroll Co. Cont. Cl. 40—One section of State highway from Gamber toward Finksburg for a distance of 1.0 mile. (Concrete.)

Anne Arundel Co. Cont. AA-34—One section of State highway along the Mayo Road for a distance of 2.0 miles. (Gravel.)

Charles Co. Cont. Ch-27—One section of State Highway between Marbury and Doncaster for a distance of 2.0 miles. (Gravel.)

Queen Annes Co. Cont. Q-26—One section of State Highway from Millington toward Sudlersville for a distance of 2.0 miles. (Concrete.)

will be received by the State Roads Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M. on the 19th day of June, 1923, at which time and place they will be publicly opened and read.

Bids must be made upon the blank proposal form which, with specifications and plans will be furnished by the commission upon application and cash payment of $1.00, as hereafter no charges will be permitted.

No bids will be received unless accompanied by a certified check for the sum of five hundred ($500) dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By Order of the State Roads Commission this 28th day of May, 1923.

JOHN N. MACKALL, Chairman.
L. H. STEUART, Secretary.

Compensation Insurance

Some contractors "give" this insurance to a friend, either personal or political. How many, we wonder, "engage" the services of a specialist to advise them right in the intricate problems that arise in this business.

ALFRED S. HAMILTON
110 William St., New York

OFFICIAL PROPOSALS

Bids: July 10.

Drainage Ditch and Improvement

DISTRICT NO. 4

Ottumwa, Ia.

In the Matter of the Cedar Creek Drainage District No. 4, of Wapello County, Iowa, and Drainage Ditch and improvement therein:

Notice is hereby given that in pursuance of an order of the Board of Supervisors of Wapello County, Iowa, made on May 17th, 1923, sealed bids will be received by the undersigned for said Board up to Two o'clock p.m., on July 10, 1923, at the Court House, Ottumwa, Ia., but not later, for the construction of said Drainage Ditch and improvement in said Drainage District No. 4, of Wapello County, Iowa, in accordance with the approved plans, profiles, specifications, and contract, in blank form for bids, and bond therefor, on file in my office; said work thereof being described as follows, and having the approximate estimated amount and quantities as specified, but which may be found to be either more or less on final measurement:

The beginning point of said Ditch and Improvement is at West ¼ Cor. N. W. ¼ Sec. 31-Competine Twp. 73-r 12 W. and ending in the S. E. ¼ Sec. 13 Pleasant Twp. 72-r. 12 on the Wapello Jefferson County Line, a distance of 7.23 miles divided into sections as follows:

Sec. E-5—42,636 cu.yds. Start work on or before May 1st, 1924. Complete by June 15, 1924.

Sec. F-6—42,129 cu.yds. Start work on or before Mch. 15, 1924. Completed by May 1, 1924.

Sec. G-7—43,643 cu.yds. Start work on or before Feb. 1, 1924. Completed by March 15, 1924.

Sec. H-8—37,654 cu.yds. Start work on or before Dec. 20, 1923. Completed by Feb. 1, 1924.

Sec. I-9—35,204 cu.yds. Start work on or before Nov. 15, 1923. Completed by Dec. 20, 1923.

Sec. J-10—24,258 cu.yds. Start work on or before Oct. 20, 1923. Completed by Nov. 15, 1923.

Sec. K-11—31,310 cu.yds. Start work on or before Sept. 15, 1923. Completed by Oct. 20, 1923.

The estimated quantity of material to be excavated in said entire ditch is 256,834 cu.yds. of excavation. This work consists in cutting a continuous channel as located, which channel is 12 feet in width at the bottom, and side slopes shall be one-half foot horizontal to one foot vertical; side slopes shall be left smooth and uniform, and bottom of channel shall be brought to proper grade elevation and left smooth and uniform ,and with an approximate depth of 10½ feet; right of way 100 feet in width.

Bids will be submitted for the entire work; and the price must be stated in both words and figures, and permission will not be granted to amend or withdraw any bid after filing with the County Auditor. Maps, plans profiles, specifications, and form for bids, contracts, etc., are on file in my office, and at the office of Brown & Cook, Engineers, Ottumwa, Iowa, and can be examined. The Board will award contract to the lowest responsible bidder therefor; but the right is hereby expressly reserved by said Board to reject any or all bids and to readvertise the letting of said work; and no bid will be considered unless on the approved form for bids furnished by the undersigned.

All bids must be signed with the recognized name of the Contractor or firm who expects to do the work if awarded the contract, and each bid must be accompanied by a certified check of some reputable bank, in the sum equal to ten per cent. of the amount of the bid, (but not to exceed $10,000.00), drawn in favor of the County Auditor of Wapello County, Iowa, as a guarantee of good faith in entering on said contract, and if awarded the contract for said work, the bidder will within ten days from the date of notice thereof, enter into said contract therefor and execute said Bond therefor, or deposit cash, as provided by law in the sum of twenty-five per cent of estimated cost of said work so let by such contract. The checks of unsuccessful bidders will be returned to them respectively as soon as award is made. All provisions of present Drainage Laws of Iowa are made a part of all said contracts.

All bids must be sealed and marked on the outside of envelope: Bid for Contract on Cedar Creek Drainage Ditch, No. 4, and addressed to Fred W. Prosser, County Auditor, Ottumwa, Wapello County, Iowa. The bids will be opened at Two o'clock p.m., on July 10, 1923, in the office of the Board of Supervisors, in Court House at Ottumwa, Iowa, and the contract, if awarded will be awarded by the said Board as soon as practicable thereafter on said date.

Witness my hand and seal this day of May, 1923.

FRED W. PROSSER,
County Auditor of Wapello Co., Ia.

Bids: June 27.

Bids: July 10.

Drainage Ditch and Impovement

DISTRICT NO. 6

Ottumwa, Ia.

In the Matter of the Cedar Creek Drainage District No. 6, of Wapello County, Iowa, and Drainage Ditch and improvement therein:

Notice is hereby given that in pursuance of an order of the Board of Supervisors of Wapello County, Iowa, made on May 17, 1923, sealed bids will be received by the undersigned for said Board up to Two o'clock p.m. on July 10, 1923, at the Court House, Ottumwa, Ia., but not later, for the construction of said Drainage Ditch and improvement in said Drainage District No. 6, of Wapello County, Ia., in accordance with the approved plans, profiles, specifications, and contract in blank form for bids, and bond therefor, on file in my office; said work thereof being described as follows, and having the approximate estimated amount and quantities as specified, but which may be found to be either more or less on final measurement:

The beginning point of said Ditch and Improvement is at E. of CM. & ST. P. R. RY. bridge No. 1-352 in N. W. ¼, S. W. ¼ Sec. 21-Highland Twp. 73-R 13 W. and ending at the E. ¼ Cor. S. E. ¼ Sec. 36-Highland Twp., a distance of 4.47 miles, divided into sections as follows:

Sec. A-1—34,966 cu.yds. Start work on or before Nov. 1, 1924. Completed by Dec. 1, 1924.

Sec. B-2—38,541 cu.yds. Start work on or before Sept. 1, 1924. Completed by Nov. 1, 1924.

Sec. C-3—30,904 cu.yds. Start work on or before Aug. 1, 1924. Completed by Sept. 1, 1924.

Sec. D-4—43,822 cu.yds. Start work on or before June 15, 1024. Completed by Aug. 1, 1924.

The estimated quantity of material to be excavated in said entire Ditch is 148,233 cu. yds. of excavation. This work consists in cutting a continuous channel as located, which channel is 10 feet in width at the bottom, and side slopes shall be one foot horizontal to one foot vertical; side slopes shall be left smooth and uniform, and bottom of channel shall be brought to proper grade elevation and left smooth and uniform, and with an approximate depth of 9½ feet; right of way 125 feet in width from place of beginning to CM. & ST. P. Bridge in Sec. 27-73-13 and 150 feet in width from there to the end.

Bids will be submitted for the entire work; and the price must be stated in both words and figures, and permission will not be granted to amend or withdraw any bid after filing with the County Auditor. Maps plans, profiles, specifications, and form for bids, contracts, etc., are on file in my office, and at the office of Brown & Cook, Engineers, Ottumwa, Iowa, and can be examined. The Board will award contract to the lowest responsible bidder therefor; but the right is hereby expressly reserved by said Board to reject any or all bids and to readvertise the letting of said work; and no bid will be considered unless on the approved form for bids furnished by the undersigned.

All bids must be signed with the recognized name of the Contractor or firm who expects to do the work if awarded the contract, and each bid must be accompanied by a certified check of some reputable bank, in the sum equal to ten per cent. of the amount of the bid, (but not to exceed $10,000.00), drawn in favor of the County Auditor of Wapello County, Iowa, as a guarantee of good faith in entering on said contract, and if awarded the contract for said work, the bidder will within ten days from the date of notice thereof, enter into said contract therefor and execute said Bond therefor, or deposit cash, as provided by law in the sum of twenty-five per cent of estimated cost of said work so let by such contract. The checks of unsuccessful bidders will be returned to them respectively as soon as award is made. All provisions of present Drainage Laws of Iowa are made a part of all said contracts.

All bids must be sealed and marked on the outside of envelope: Bid for Contract on Cedar Creek Drainage Ditch, No. 6, and addressed to Fred W. Prosser, County Auditor, Ottumwa, Wapello County, Iowa. The bids will be opened at Two o'clock p.m. on July 10, 1923, in the offic of the Board of Supervisors, in Court House at Ottumwa, Iowa, and the contract, n awarded by the said Board as soon as practicable thereafter on said date.

Witness my hand and seal this day of May, 1923.

FRED W. PROSSER,
County Auditor of Wapello Co., Ia.

Bids: July 3.

Proposals to Furnish and Install A Stone Crusher Plant and Incidental Equipment

Trenton, N. J.

The Board of Freeholders of Mercer County will receive separate bids on Tuesday, July 3, 1923, at 2:30 o'clock (daylight saving time) in the afternoon, at their regular place of meeting, Court House, Trenton, New Jersey, for:

1. Furnishing, delivering and erecting at Moore Station, New Jersey, 36-inch x 24-inch jaw stone crusher, with elevators, screens, counter shafts, chain and belt drives, crusher bins, gates, hoists, housing for crusher plant, 20-ton auto truck scale, well driller, narrow gauge cars, tracks, skips, traction crane with clam shell bucket, together with the relocation of existing crusher.

2. Furnishing and delivering f.o.b. Mercer County siding, Moore Station, N. J., all motors required to operate new crusher plant, placing same and installing all wiring and incidental equipment.

Prospective bidders are referred to plans and specifications covering the above work prepared by H. Elting Breed, Consulting Engineer, 507 Fifth Avenue, New York City, which plans and specifications are on file in his office and at the office of the County Engineer, Court House, Trenton, New Jersey. Copies of said plans and specifications may be obtained upon deposit of the sum of ten dollars, which will be refunded if the plans and specifications are returned in good condition within 48 hours after the bids are opened.

Each proposal must be accompanied by a certified check in the amount of 10 per cent of the bid, payable to Edgar G. Weart, County Treasurer, also by a proposition from a surety company fulfilling the requirements of Section 507, Chapter 185, P. L. 1918.

The right is reserved to reject any or all bids and to waive any immaterial defect or informality in any bid should it be in the interest of the county to do so.

ELMER E. MARGERUM,
Director of Department of Public Buildings.

County Road Work

Henderson, N. C.

Sealed bids for the construction of approximately three (3) miles of hard surfaced highway on the Dabney, Oxford and Cooper roads (districts Nos. 1, 2, and 3) in Vance County, North Carolina, will be received by the County Commissioners in their office at Henderson, North Carolina, at four o'clock p.m. on the 28th day of June, 1923, opened and read publicly.

No bid will be considered unless accompanied by certified check or a corporate surety bond, as specified in "Instructions to Bidders."

A Corporate Surety Bond will be required for the faithful performance of the contract, in a sum equal to one-half the total amount of bid, or other security satisfactory to the Commission.

Specifications, form of Contract, Proposal Blanks, plans and full information for bidders may be obtained at the office of Dr. A. C. Yow, Henderson, N. C., and M. E. Miller, Engineer, Salisbury, N. C.

The right is reserved to reject any or all proposals or to accept the proposal or proposals deemed best for the Paving Districts.

By order of the County Commissioners of Vance County, this the 12th day of June, 1923.

W. S. CORBITT, Secretary,
Vance County Paving District.

OFFICIAL PROPOSALS

Bids: July 6.

Acting Commissioner.
June 15, 1923.

Bids: June 27.

DEPARTMENT OF WHARVES, DOCKS AND FERRIES, MUNICIPAL PIER NO. 4, SOUTH WHARVES, FOOT OF CHESTNUT STREET

Pier

Philadelphia, Pa.

Sealed proposals endorsed "Bids for the completion, with appurtenance work for Porter Street Pier No. 84, South Wharves, Moyamensing Group, Delaware River" will be received until 12 o'clock noon, (Standard Time) Wednesday, June 27, 1923 in Room 211, Municipal Pier No. 4, South Wharves, foot of Chestnut Street, and then publicly opened.

Plans, specifications and blank forms upon which bids must be made, can be obtained in Room 204 Municipal Pier No. 4, South Wharves, upon a deposit of a certified check in the amount of $25, which check will be returned upon the receipt in this office of the plans and specifications in good condition and unmarked. The successful bidder will be furnished with all blueprints necessary, free of charge.

The bidder's attention is called to the fact that bids are solicited, and payment for the above mentioned work is to be made out of funds now available, and an appropriation of $600,000, to the Department out of the $3,610,000, loan of May 11, 1923, when the same becomes available, and that no contract will be made until that time.

Proof must be submitted the Department by the Contractor that he has accepted the provisions of the Workingmen's Compensation Act of June 18, 1917, relative to Workingmen's compensation, and insured his liability thereunder or secured exemption therefrom.

No bid will be considered unless accompanied by a certificate from the City Solicitor of the City of Philadelphia to the effect that the provisions of an ordinance approved May 25, 1860, requiring proposal bonds on all bids exceeding in amount $500, have been complied with.

The Director reserves to himself the right to reject any or all bids as he may deem best for the interest of the City of Philadelphia.

GEORGE F. SPROULE,
Director.

June 11, 1923.

OFFICIAL PROPOSALS

Bids: July 10.

Drainage Ditch and Improvement

DISTRICT NO. 6

Ottumwa, Ia.

In the Matter of the Cedar Creek Drainage District No. 6, of Wapello County, Iowa, and Drainage Ditch and improvement therein:

Notice is hereby given that in pursuance of an order of the Board of Supervisors of Wapello County, Iowa, made on May 17, 1923, sealed bids will be received by the undersigned for said Board up to Two o'clock p.m. on July 10, 1923, at the Court House, Ottumwa, Ia., but not later, for the construction of said Drainage Ditch and improvement in said Drainage District No. 6, of Wapello County, Ia., in accordance with the approved plans, profiles, specifications, and contract in blank form for bids, and bond therefor, on file in my office; said work thereof being described as follows, and having the approximate estimated amount and quantities as specified, but which may be found to be either more or less on final measurement:

The beginning point of said Ditch and Improvement is at E. of CM. & ST. P. R. RY. bridge No. 1-352 in N. W. ¼, S. W. ¼, Sec. 21-Highland Twp. 73-R 13 W. and ending at the E. ¼ Cor. S. E. ¼ Sec. 36-Highland Twp., a distance of 4.47 miles, divided into sections as follows:

Sec. A-1—34,966 cu.yds. Start work on or before Nov. 1, 1924. Completed by Dec. 1, 1924.

Sec. B-2—38,541 cu.yds. Start work on or before Sept. 1, 1924. Completed by Nov. 1, 1924.

Sec. C-3—30,904 cu.yds. Start work on or before Aug. 1, 1924. Completed by Sept. 1, 1924.

Sec. D-4—43,822 cu.yds. Start work on or before June 15, 1024. Completed by Aug. 1, 1924.

The estimated quantity of material to be excavated in said entire Ditch is 148,233 cu. yds. of excavation. This work consists in cutting a continuous channel as located, which channel is 10 feet in width at the bottom, and side slopes shall be one foot horizontal to one foot vertical; side slopes shall be left smooth and uniform, and bottom of channel shall be brought to proper grade elevation and left smooth and uniform, and with an approximate depth of 9½ feet; right of way 125 feet in width from place of beginning to CM. & ST. P. Bridge in Sec. 27-73-13 and 150 feet in width from there to the end.

Bids will be submitted for the entire work; and the price must be stated in both words and figures, and permission will not be granted to amend or withdraw any bid after filing with the County Auditor. Maps plans, profiles, specifications, and form for bids, contracts, etc., are on file in my office, and at the office of Brown & Cook, Engineers, Ottumwa, Iowa, and can be examined. The Board will award contract to the lowest responsible bidder therefor; but the right is hereby expressly reserved by said Board to reject any or all bids and to readvertise the letting of said work; and no bid will be considered unless on the approved form for bids furnished by the undersigned.

All bids must be signed with the recognized name of the Contractor or firm who expects to do the work if awarded the contract, and each bid must be accompanied by a certified check of some reputable bank, in the sum equal to ten per cent. of the amount of the bid, (but not to exceed $10,000.00), drawn in favor of the County Auditor of Wapello County, Iowa, as a guarantee of good faith in entering on said contract, and if awarded the contract for said work, the bidder will within ten days from the date of notice thereof, enter into said contract therefor and execute said Bond therefor, or deposit cash, as provided by law in the sum of twenty-five per cent of estimated cost of said work so let by such contract. The checks of unsuccessful bidders will be returned to them respectively as soon as award is made. All provisions of present Drainage Laws of Iowa are made a part of all said contracts.

All bids must be sealed and marked on the outside of envelope: Bid for Contract on Cedar Creek Drainage Ditch, No. 6, and addressed to Fred W. Prosser, County Auditor, Ottumwa, Wapello County, Iowa. The bids will be opened at Two o'clock p.m. on July 10, 1923, in the offic of the Board of Supervisors, in Court House at Ottumwa, Iowa, and the contract, it awarded by the said Board as soon as practicable thereafter on said date.

Witness my hand and seal this day of May, 1923. FRED W. PROSSER.
County Auditor of Wapello Co., Ia.

OFFICIAL PROPOSALS

Bids: June 25.

State Road Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the construction of the following:

Route No. 4, Section No. 21, Point Pleasant-Laurelton, in the County of Ocean. Estimated 12,846 cu.yds. of excavation, 33,937 sq.yds. of gravel surface, and 57,483 sq.yds. of single line eight inch (8") reinforced concrete pavement.

Route No. 5, Section No. 10, Chatham-Brantwood, in the Counties of Morris, Essex and Union. Estimated 7,212 cu.yds. of excavation, 461 sq.yds. of Sheet Asphalt pavement, 4,300 sq.yds. of Granite Block pavement, and 20,566 sq.yds. of double line eight inch (8") reinforced concrete pavement.

Bids will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, June 25th, 1923, at 11:00 a.m., Standard Time, and opened and read immediately thereafter.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of the State Highway Department, Trenton, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on deposit of Ten Dollars ($10.00) upon application to the State Highway Department, 9th floor Broad St. Bank Building, Trenton, New Jersey. Bids must be made on the standard proposal forms in the manner designated therein, and as required by the 1922 specifications, same to be enclosed in sealed special addressed envelopes bearing the name and address of bidder and the name and section of the route on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 nor more than $20,000.00 and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelopes will be furnished on application. Bids not enclosed in special envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Each bidder must also accompany his bid with a Statement of Equipment properly filled out.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: July 5.

Structural Steel Framing and Steel Rolling Doors

New Orleans, La.

Sealed proposals will be received by the Board of Commissioners of the Port of New Orleans at their office, Suite 200 New Court Building, until 3:00 p.m., July 5, 1923, and then publicly opened for furnishing and erecting at Poland Street Landing under two separate contracts:

A. Structural Steel Framing for Shed Approximately 216 tons. (Requisition E. D. 13554.)

B. Steel Rolling Doors, approximately 4,560 square feet. (Requisition E. D. 13555.)

A deposit of $600.00 in cash or certified check is required with proposal A and $300.00 with proposal B.

A bond to the amount of fifty per cent (50%) of the sum bid is required with each notarial contract.

Specifications and proposal forms are on file in the office of the Supervisor of Purchases at No. 1 Canal Street, New Orleans, Louisiana. Complete sets will be furnished to prospective bidders on deposit of $10 for each set, which will be refunded to depositors who submit proposals or return sets in good condition.

The right is reserved to reject any or all bids and to waive informalities.

J. H. WALSH, General Manager.
Requisitions E. D. 13554 and E. D. 13555.

State Highway Work

Providence, R. I.

Sealed proposals for the reconstruction under the provisions of the Federal Aid Road Act of a Section of State Highway in the Towns of Richmond and Hopkinton, between Wyoming and Hopkinton City on the New London Turnpike, will be received by the State Board of Public Roads at its office, State House, Providence, R. I., until 12 M. (Daylight Saving), 11 a.m. (Eastern Standard) on Friday, June 22, 1923, at which time they will be opened and read in public.

The principal estimated quantities are as follows:

Contract No. 2305—Federal Aid Project No. 18—5.51 miles Reinforced Cement Concrete Pavement.

Excavation	21,200 cu.yd.
Gravel Foundation	3,000 cu.yd.
Sub-drain	1,300 lin.ft.
Pipe Culverts	2,700 lin.ft.
Wooden Guard Rail	9,000 lin.ft.
Reinforced Cem. Conc. Pavement	11,340 cu.yd.
Cement for concrete pavement	20,640 bbl.
Galvanized steel fabric in pavement	295,000 lb.
Steel bars for reinforcement	33,000 lb.

Bids must be made upon blank forms to be furnished by the Board.

No bid will be accepted unless accompanied by a certified check for the sum of $200.00, payable to the State of Rhode Island.

The Board reserves the right to reject any and all bids, and to give preference to towns or cities, in accordance with Section V of Chapter 84 of the General Laws.

Plans may be examined and specifications and bidding blanks may be obtained at the office of the State Board of Public Roads, State House, Providence, R. I., on and after Monday, June 11, 1923, every week day (except holidays and Saturdays), between the hours of 9 a.m. and 5 p.m. Saturdays 9 a.m. to 12 m.

Bids: June 29.

Rebuilding Bridge

Salem, Mass.

Sealed proposals for rebuilding the Haverhill Lower Bridge over the Merrimack River in the City of Haverhill, Mass., will be received by the Haverhill Lower Bridge Rebuilding Commission at the County Commissioners' office in the Court House at Salem, Mass., until 11:00 o'clock a.m. of Friday, June 29, 1923, and then and there will be publicly opened and read.

The proposed bridge is to be 804 feet long and 66 feet wide, consisting of five reinforced concrete arches of 80 feet clear span, one arch of 55 feet clear span, and reinforced concrete approaches of beam and slab construction. A proposed steel bascule drawspan is not included in the proposals. The new bridge will occupy the site of the old bridge and extend downstream therefrom so that one-half of the new bridge is to be built clear of the old bridge which is then to be removed and the other half of the new bridge completed in its place.

Each proposal must be accompanied by a certified check for twenty thousand dollars ($20,000). A bond in the sum of fifty (50) per cent of the amount of the contract with an approved surety company as surety will be required for the faithful performance of the contract.

More detailed information is given in the plans, notice to contractors, specifications, and form of proposal, contract, and bond, copies of which may be inspected at the office of the Commission No. 14 Water Street, Haverhill, or may be obtained at the office of the County Engineer in the Court House at Salem upon the deposit of fifty (50) dollars, which will be refunded upon return of plans, specifications, etc., in good condition, on or before the day, herein set for the opening of proposals.

The right is reserved to reject any and all proposals.

CHARLES N. KELLY
EDMUND C. WENTWORTH
RAYMOND H. TREFRY
FREDERICK BUTLER
Haverhill Lower Bridge Rebuilding Commission.
ROBERT R. EVANS, Engineer.
Haverhill, Mass., June 8, 1923.

OFFICIAL PROPOSALS

Bids: July 2.

Sea Wall or Flood Protection

Vicksburg, Miss.

Sealed proposals for the construction of a concrete wall along the river front at Vicksburg, Mississippi, will be received at the City Hall until 4 p.m. July 2, 1923, at which time and place, they will be publicly opened and read.

Approximately 4,200 lineal feet of wall containing about 9,500 cu.yd. of concrete, 450 tons of reinforcing steel and 4,200 lineal feet interlocking sheet piling 10 to 20 feet long, will be contained in the work. Bidders must accompany their proposal with a certified check payable to "Board of Mayor and Aldermen," City of Vicksburg, for not less than 5 per cent of their bid price.

Care will be exercised in determining the special skill and the responsibility of the bidders, to which end each bidder will be expected to make satisfactory answers to a questionnaire, copy of which will be forwarded upon request. Plans and specifications may be obtained from Miller-Butterworth Company, Engineers, 624 Southern Trust Building, Little Rock, Arkansas, for the sum of $10. Upon surrender of the plans and specifications in good condition, $5 of this will be returned. The City reserves the right to reject any and all bids and to waive technicalities in awarding the contract.

J. J. HAYES, Mayor.

Bids: June 29.

Reinforced Concrete Bridge

Reading, Pa.

Sealed proposals are hereby invited for the building of a reinforced concrete bridge over the Schuylkill River, on Schuylkill Avenue, Reading, Pa.

The bridge is to consist of five spans 106 feet and 2 spans of 40 feet, with beam and slab construction in the approaches. Total length of the bridge to be 1,057 feet, 70 feet wide all over, with a 48 feet roadway and two 11 feet 6 inch wide walks.

The contractor is to build and maintain during the construction of the new bridge a temporary bridge at the site indicated on the plans.

A deposit of $200.00 will be required for each set of plans and specifications, which will be refunded upon the return of the same. Plans and specifications are in the hands of the County Commissioners, Court House, Reading, Pa.

A certified check of $20,000.00 must be enclosed with the proposal.

Bids will be received by the County Controller at the Court House, Reading, Pa., until 10 o'clock in the morning of June 29, 1923.

JOHN P. WANNER,
County Controller,
Court House,
Reading, Pa.

Bids: July 17.

Inclosed Channel

Dunkirk, N. Y.

Sealed proposals for the construction of an inclosed channel and accessories for the diversion of Hyde Creek, in the City of Dunkirk, N. Y., will be received until 8 p.m., eastern time, July 17, 1923, and then publicly opened. The right is reserved to reject any or all bids. Plans and specifications are on file and information may be had on application to the undersigned. Specifications will be forwarded to applicants. To insure return of plans a deposit of twenty dollars ($20) is required for plans mailed, which sum will be returned to applicant upon return of plans.

H. J. HENDERSON,
City Clerk.

Compensation Insurance

Some contractors "give" this insurance to a friend, either personal or political. How many, we wonder, "engage" the services of a specialist to advise them right in the intricate problems that arise in this business.

ALFRED S. HAMILTON

OFFICIAL PROPOSALS

Bids: June 26.

Hudson River Vehicular Tunnel

CONTRACT NO. 5

New York, N. Y.

Sealed bids will be received by New York State Bridge and Tunnel Commission and New Jersey Interstate Bridge and Tunnel Commission at the office of the Commissions, Room 618, Hall of Records, New York City, until 2:00 o'clock p.m. (Eastern Standard Time), Tuesday, June 26th, 1923, for the construction of a portion of two (2) tunnels as approaches to the river section of a vehicular tunnel under the Hudson River, said approach section being on the Island of Manhattan, known as Contract No. 5.

A statement of the quantities of the various items of work and further information are given in the invitation to bid forming part of the contract. At the above place and time the bids will be publicly opened and read. The award of the contract, if awarded, will be made by the Commissions as soon thereafter as practicable. The Commissions reserve the right to reject any and all bids.

Bonds in the sum of three hundred fifty thousand ($350,000) dollars each to the State of New York and to the State of New Jersey will be required for the faithful performance of the contract.

No bids will be received or considered unless accompanied by two certified checks upon a National or State Bank or Trust Company, satisfactory to the Commissions and located in New York City or the cities of Newark or Jersey City in the sum of seventy-five thousand ($75,000) dollars each, one payable to the order of the "Comptroller of the State of New York," and the other payable to the order of "The New Jersey Interstate Bridge and Tunnel Commission."

The time allowed for the completion of the work is twenty-four months after the date of the delivery of the contract.

Books containing forms of invitation to bid, proposal, contract, specifications and bond and contract drawings, etc., can be obtained at the office of the Commissions for the sum of $5.00 per set, which will be refunded upon their return in good condition within thirty (30) days from the date of receipt of bids.

New Jersey Interstate Bridge and Tunnel Commission.

THEODORE BOETTGER,
Chairman.

New York State Bridge and Tunnel Commission.

GEORGE R. DYER,
Chairman.

Bids: August 31.

OFFICIAL PROPOSALS

Bids: July 17.

Water Works, Sewers, Street Improvements

Deland, Fla.

Sealed proposals will be received by the Board of Bond Trustees of the City of Deland, Florida, at the City Hall, for furnishing material and constructing water works improvements, sanitary and storm sewer systems and street improvements in and for the City of Deland, Florida, until 4 p.m., July 17, 1923, at which time they will be opened and read publicly.

The work includes the furnishing of all labor, material machinery and equipment of every kind necessary to construct approximately 95,000 square yards of brick, concrete, or bituminous pavements with necessary curb, gutter and appurtenances, approximately 2½ miles of storm drains 12 to 24 inches with accessories. Approximately 2 miles sanitary sewers 6 to 18 inches with accessories, approximately 8 miles water mains 4 to 10 inches with specials, three pumps, two pump houses, one generator unit and accessories, all complete and in accordance with plans and specifications on file at the office of the Engineers and the City Clerk.

Each bid must be accompanied by a certified check on a bank satisfactory to the Bond Trustees or Bidders Bond acceptable to Bond Trustees for five (5) per cent of the amount of the bid, drawn to the order of the City of Deland, Florida.

A bond in the sum of twenty (25) per cent of the amount of the contract with satisfactory surety executed through Deland, Florida, agency will be required for the faithful performanc of the work.

All bids will be compared on the basis of the Engineers' estimates of amount of work to be done.

Copies of the specifications may be obtained from the Engineers upon receipt of deposit of five ($5.00) dollars which will be returned on bona fide bid. Plans may be seen at the office of the Engineer at Deland or Atlanta, Georgia, or at the City Hall. Copies of plans may be obtained on the payment of twenty-five ($25.00) dollars.

The right is reserved to reject any or all bids.

This 8th day of June, 1923.

CITY OF DELAND, FLORIDA
By E. R. CONRAD,
By G. A. DREKA,
By C. L. ALLEN,
Bond Trustees.

The Commission reserves the right to reject any and all bids.

BY ORDER of the State Roads Commission this 12th day of June, 1923.

JOHN N. MACKALL,
Chairman.

L. H. STEUART,
Secretary.

OFFICIAL PROPOSALS

Bids: July 10.

Drainage Ditch and Improvement

DISTRICT NO. 4

Ottumwa, Ia.

In the Matter of the Cedar Creek Drainage District No. 4, of Wapello County, Iowa, and Drainage Ditch and improvement therein:

Notice is hereby given that in pursuance of an order of the Board of Supervisors of Wapello County, Iowa, made on May 17th, 1923, sealed bids will be received by the undersigned for said Board up to Two o'clock p.m., on July 10, 1923, at the Court House, Ottumwa, Ia., but not later, for the construction of said Drainage Ditch and improvement in said Drainage District No. 4, of Wapello County, Iowa, in accordance with the approved plans, profiles, specifications, and contract, in blank form for bids, and bond therefor, on file in my office; said work thereof being described as follows, and having the approximate estimated amount and quantities as specified, but which may be found to be either more or less on final measurement:

The beginning point of said Ditch and Improvement is at West ¼ Cor. N. W. ¼ Sec. 31-Competine Twp. 73-r 12 W. and ending in the S. E. ¼ Sec. 13 Pleasant Twp. 72-r. 12 on the Wapello Jefferson County Line, a distance of 7.23 miles divided into sections as follows:

Sec. E-5—42,636 cu.yds. Start work on or before May 1st, 1924. Complete by June 15, 1924.

Sec. F-6—42,129 cu.yds. Start work on or before Mch. 15, 1924. Completed by May 1, 1924.

Sec. G-7—43,643 cu.yds. Start work on or before Feb. 1, 1924. Completed by March 15, 1924.

Sec. H-8—37,654 cu.yds. Start work on or before Dec. 20, 1923. Completed by Feb. 1, 1924.

Sec. I-9—35,204 cu.yds. Start work on or before Nov. 15, 1923. Completed by Dec. 20, 1923.

Sec. J-10—24,258 cu.yds. Start work on or before Oct. 20, 1923. Completed by Nov. 15, 1923.

Sec. K-11—31,310 cu.yds. Start work on or before Sept. 15, 1923. Completed by Oct. 20, 1923.

The estimated quantity of material to be excavated in said entire ditch is 256,834 cu.yds. of excavation. This work consists in cutting a continuous channel as located, which channel is 12 feet in width at the bottom, and side slopes shall be one-half foot horizontal to one foot vertical; side slopes shall be left smooth and uniform, and bottom of channel shall be brought to proper grade elevation and left smooth and uniform ,and with an approximate depth of 10½ feet; right of way 100 feet in width.

Bids will be submitted for the entire work; and the price must be stated in both words and figures, and permission will not be granted to amend or withdraw any bid after filing with the County Auditor. Maps, plans profiles, specifications, and form for bids, contracts, etc., are on file in my office, and at the office of Brown & Cook, Engineers, Ottumwa, Iowa, and can be examined. The Board will award contract to the lowest responsible bidder therefor; but the right is hereby expressly reserved by said Board to reject any or all bids and to readvertise the letting of said work; and no bid will be considered unless on the approved form for bids furnished by the undersigned.

All bids must be signed with the recognized name of the Contractor or firm who expects to do the work if awarded the contract, and each bid must be accompanied by a certified check of some reputable bank, in the sum equal to ten per cent, of the amount of the bid, (but not to exceed $10,000.00), drawn in favor of the County Auditor of Wapello County, Iowa, as a guarantee of good faith in entering on said contract, and if awarded the contract for said work, the bidder will within ten days from the date of notice thereof, enter into said contract therefor and execute said Bond therefor, or deposit cash, as provided by law in the sum of twenty-five per cent of estimated cost of said work so let by such contract. The checks of unsuccessful bidders will be returned to them respectively as soon as award is made. All provisions of present Drainage Laws of Iowa are made a part of all said contracts.

All bids must be sealed and marked on the outside of envelope: Bid for Contract on Cedar Creek Drainage Ditch, No. 4, and addressed to Fred W. Prosser, County Auditor, Ottumwa, Wapello County, Iowa. The bids will be opened at Two o'clock p.m., on July 10, 1923, in the office of the Board of Supervisors, in Court House at Ottumwa, Iowa, and the contract, if awarded will be awarded by the said Board as soon as practicable thereafter on said date.

Witness my hand and seal this day of May, 1923.

FRED W. PROSSER,
County Auditor of Wapello Co., Ia.

Bids: July 2.

Dam Construction

Beacon, N. Y.

Sealed proposals will be received by the City Council at its office No. 525 Main Street, Beacon, N. Y. at eight (8) o'clock p.m., Daylight Saving Time, July 2nd, 1923, for the construction of Dam at Melzingah Reservoir, Beacon, N. Y., which proposals will be opened by the Mayor or presiding officer on that day and time or on such subsequent day as the council may adjourn for that purpose.

No proposal shall be considered unless accompanied by the written consent of two sureties, conditioned that if the proposal be accepted, they will execute and deliver a bond with the bidder in a penalty to be fixed by the council conditioned for the construction of the work at the price and upon the terms proposed, according to the plans and specifications therefor, within such reasonable time as the council may limit, and subject to the supervision and approval of the Commissioner of Public Works as the specifications shall provide.

Prospective bidders are requested to visit the site of the proposed work in order to satisfy themselves as to the scope and hazards of the work.

Plans and specifications, form of proposal, bond and contract may be obtained at the office of the city, No. 525 Main Street, Beacon, New York, or at the office of George W. Krieger, Jr., Consulting Engineer, Poughkeepsie, N. Y., upon the deposit of $15.00, which amount will be refunded upon the return of the plans and specifications in good condition.

The proposal shall be accompanied by a certified check drawn upon an incorporated State or National Bank or Trust Company in good credit, within this State, payable to the order of the City of Beacon for five per cent of the amount of the bid. The successful bidder will be required to give a satisfactory bond for the faithful performance of the agreement in amount equal to fifty per cent of the value of the contract.

The City Council of the City of Beacon reserves the right to reject any or all bids.

By order of the City Council of the City of Beacon,

MARCUS G. MacLAUGHLIN,
Commissioner of Public Works.

Bids: July 2.

Road Work

White Plains, N. Y.

Sealed proposals will be received by the Board of Supervisors, Court House, White Plains, N. Y., until 10:30 a.m. (Daylight Saving Time), July 2nd, 1923, for constructing with reinforced concrete, Bedford Road and Webber Avenue, County Road No. 14 and 14A, in the Village of North Tarrytown, N. Y., a distance of approximately 1.49 miles.

Specifications, proposal sheets and all information relative to the above work may be secured at the office of the County Engineer, Court House, White Plains, N. Y., upon making a deposit of $10.00.

BOARD OF SUPERVISORS,
FRED L. MERRITT, Clerk.

Bids: July 5.

Bridge

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the construction of Bridge No. Mn-30, Water St., Englishtown, consisting of one 36′ skew span with I beams encased in concrete, a 30′ reinforced concrete roadway, two 6′ sidewalks and concrete abutments on a timber pile foundation, and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey, on July 5th, 1923, at 11:00 a.m., daylight saving time .

Drawings and specifications for the proposed work, prepared by George K. Allen, Jr., County Engineer, have been filed in the office of said Engineer at 60 Broad street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00), which amount will be refunded upon return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

Bids: July 18.

Delaware River Bridge

CONTRACT NO. 7
ANCHORAGE CABLE BENTS

Philadelphia, Pa.

Sealed proposals for the construction of the Anchorage Cable Bents of the bridge over the Delaware River connecting the City of Philadelphia, Pa., and the City of Camden, N. J., will be received by the Delaware River Bridge Joint Commission at Room 806 Widener Building, Philadelphia, Pa., until 1:30 o'clock p.m., Eastern Standard Time, July 18, 1923, when they will be publicly opened and read. The contract will be awarded, or all bids rejected, within fourteen days after bids are opened. The right is reserved to reject any or all bids.

The two anchorages on which the anchorage cable bents are to be erected are located in the area bounded by Delaware Avenue, Race, Front and Summer Streets in Philadelphia, and immediately north of Pearl Street and about 472 feet west of Delaware Avenue in Camden. The work will include the furnishing, fabricating, painting and erecting of the steel anchorage cable bents complete as shown in the contract drawings, ready to receive the cables. The work comprises approximately 1,900 tons o steel work, and must be completed within a period of nine months.

Bids must be made upon the blank proposal form, which, together with specifications, bond and contract form, and contract drawings, may be obtained at the office of the Joint Commission, upon deposit of $25.00, which deposit will be refunded upon the receipt of bid or upon the return in good condition of the copies so taken.

Each proposal must be accompanied by a certified check for Twenty-five Thousand Dollars, drawn upon a national or state bank or trust company having an office either in Philadelphia or Camden, and payable to the Delaware River Bridge Joint Commission, and surety's consent must be shown. The bidder or bidders to whom the contract is awarded will be required to give bond in the sum of fifty per cent of the amount of the contract.

DELAWARE RIVER BRIDGE JOINT COMMISSION,
GIFFORD PINCHOT, Chairman,
JOSEPH K. COSTELLO, Secretary.

Drainage Ditch and Improvement

DISTRICT NO. 6

Ottumwa, Ia.

In the Matter of the Cedar Creek Drainage District No. 6, of Wapello County, Iowa, and Drainage Ditch and Improvement therein:

Notice is hereby given that in pursuance of an order of the Board of Supervisors of Wapello County, Iowa, made on May 17, 1923, sealed bids will be received by the undersigned for said Board up to Two o'clock p.m. on July 10, 1923, at the Court House, Ottumwa, Ia., but not later, for the construction of said Drainage Ditch and improvement in said Drainage District No. 6, of Wapello County, Ia., in accordance with the approved plans, profiles, specifications, and contract in blank form for bids, and bond therefor, on file in my office; said work thereof being described as follows, and having the approximate estimated amount and quantities as specified, but which may be found to be either more or less on final measurement:

The beginning point of said Ditch and Improvement is at E. of CM. & ST. P. R. RY. bridge No. 1-352 in N. W. ¼, S. W. ¼, Sec. 21-Highland Twp. 73-R 13 W. and ending at the E. ¼ Cor. S. E. ¼ Sec. 36-Highland Twp., a distance of 4.47 miles, divided into sections as follows:

Sec. A-1—34,966 cu.yds. Start work on or before Nov. 1, 1924. Completed by Dec. 1, 1924.

Sec. B-2—38,541 cu.yds. Start work on or before Sept. 1, 1924. Completed by Nov. 1, 1924.

Sec. C-3—30,904 cu.yds. Start work on or before Aug. 1, 1924. Completed by Sept. 1, 1924.

Sec. D-4—43,822 cu.yds. Start work on or before June 15, 1024. Completed by Aug. 1, 1924.

The estimated quantity of material to be excavated in said entire Ditch is 148,233 cu. yds. of excavation. This work consists in cutting a continuous channel as located, which channel is 10 feet in width at the bottom, and side slopes shall be one foot horizontal to one foot vertical; side slopes shall be left smooth and uniform, and bottom of channel shall be brought to proper grade elevation and left smooth and uniform, and with an approximate depth of 9½ feet; right of way 125 feet in width from place of beginning to CM. & ST. P. Bridge in Sec. 27-73-13 and 150 feet in width from there to the end.

Bids will be submitted for the entire work; and the price must be stated in both words and figures, and permission will not be granted to amend or withdraw any bid after filing with the County Auditor. Maps plans, profiles, specifications, and form for bids, contracts, etc., are on file in my office, and at the office of Brown & Cook, Engineers, Ottumwa, Iowa, and can be examined. The Board will award contract to the lowest responsible bidder therefor; but the right is hereby expressly reserved by said Board to reject any or all bids and to readvertise the letting of said work; and no bid will be considered unless on the approved form for bids furnished by the undersigned.

All bids must be signed with the recognized name of the Contractor or firm who expects to do the work if awarded the contract, and each bid must be accompanied by a certified check of some reputable bank, in the sum equal to ten per cent. of the amount of the bid, (but not to exceed $10,000.00), drawn in favor of the County Auditor of Wapello County, Iowa, as a guarantee of good faith in entering on said contract, and if awarded the contract for said work, the bidder will within ten days from the date of notice thereof, enter into said contract therefor and execute said Bond therefor, or deposit cash, as provided by law in the sum of twenty-five per cent of estimated cost of said work so let by such contract. The checks of unsuccessful bidders will be returned to them respectively as soon as award is made. All provisions of present Drainage Laws of Iowa are made a part of all said contracts.

All bids must be sealed and marked on the outside of envelope: Bid for Contract on Cedar Creek Drainage Ditch, No. 6, and addressed to Fred W. Prosser, County Auditor, Ottumwa, Wapello County, Iowa. The bids will be opened at Two o'clock p.m. on July 10, 1923, in the offic of the Board of Supervisors, in Court House at Ottumwa, Iowa, and the contract, n awarded by the said Board as soon as practicable thereafter on said date.

Witness my hand and seal this day of May, 1923.

FRED W. PROSSER,
County Auditor of Wapello Co., Ia.

The checks of unsuccessful bidders will be returned to them respectively as soon as award is made. All provisions of present Drainage Laws of Iowa are made a part of all said contracts.

All bids must be sealed and marked on the outside of envelope: Bid for Contract on Cedar Creek Drainage Ditch, No. 4, and addressed to Fred W. Prosser, County Auditor, Ottumwa, Wapello County, Iowa. The bids will be opened at Two o'clock p.m., on July 10, 1923, in the office of the Board of Supervisors, in Court House at Ottumwa, Iowa, and the contract, if awarded will be awarded by the said Board as soon as practicable thereafter on said date.

Witness my hand and seal this day of May, 1923.

FRED W. PROSSER,
County Auditor of Wapello Co., Ia.

Bids: July 17.

Water Works, Sewers, Street Improvements

Deland, Fla.

Sealed proposals will be received by the Board of Bond Trustees of the City of Deland, Florida, at the City Hall, for furnishing material and constructing water works improvements, sanitary and storm sewer systems and street improvements in and for the City of Deland, Florida, until 4 p.m., July 17, 1923, at which time they will be opened and read publicly.

The work includes the furnishing of all labor, material machinery and equipment of every kind necessary to construct approximately 95,000 square yards of brick, concrete, or bituminous pavements with necessary curb, gutter and appurtenances, approximately 2½ miles of storm drains 12 to 24 inches with accessories. Approximately 12 miles sanitary sewers 6 to 18 inches with accessories, approximately 8 miles water mains 4 to 10 inches with specials, three pumps, two pump houses, one generator unit and accessories, all complete and in accordance with plans and specifications on file at the office of the Engineers and the City Clerk.

Each bid must be accompanied by a certified check on a bank satisfactory to the Bond Trustees or Bidders Bond acceptable to Bond Trustees for five (5) per cent of the amount of the bid, drawn to the order of the City of Deland, Florida.

A bond in the sum of twenty (25) per cent of the amount of the contract with satisfactory surety executed through Deland, Florida, agency will be required for the faithful performanc of the work.

All bids will be compared on the basis of the Engineers' estimates of amount of work to be done.

Copies of the specifications may be obtained from the Engineers upon receipt of deposit of five ($5.00) dollars which will be returned on bona fide bid. Plans may be seen at the office of the Engineer at Deland or Atlanta, Georgia, or at the City Hall. Copies of plans may be obtained on the payment of twenty-five ($25.00) dollars.

The right is reserved to reject any or all bids.

This 8th day of June, 1923.

CITY OF DELAND, FLORIDA
By E. R. CONRAD,
By G. A. DREKA,
By C. L. ALLEN,
Bond Trustees.
J. B. McCrary Engineering Corporation,
Engineers, Atlanta, Georgia.

Bids: July 5.

Grading, Paving and Curbing

Steelton, Pa.

Sealed proposals will be received by the Town Council of the Borough of Steelton, Dauphin County, Pa., until 4:00 p.m. Thursday, July 5, 1923, for the grading, paving and curbing of South Fourth Street, between the southern side of Highland Street and a point two hundred and thirty two and nine-tenths feet south of the southern side of Dupont Street.

Also that portion of Highland Street, beginning at Second Street on the west, and extending along said street in an easterly direction to Fourth Street.

A certified check for 5 per cent of the amount of the bid, payable to the Treasurer of the Borough of Steelton, must accompany each and every proposal. All proposals must be sealed and addressed to the Borough Secretary, 114 Walnut St., Steelton, Pa., and have the words "Street Improvements" marked on the outside of the envelope.

Plans and specifications may be seen, and bidding blanks and all necessary information be had at the office of the Borough Secretary, 114 Walnut St., Steelton, Pa. Council reserves the right to reject any and all bids.

H. R. RUPP,
Borough Secretary.

Bids: July 6.

Sewage Disposal Plant

Grove City, Pa.

Sealed proposals will be received by the Borough of Grove City, Mercer County, Pennsylvania at the Municipal Building until 7:00 p.m. on the 6th day of July 1923 for the construction work and other work incident to the builing of the Grove City Sewage Treatment Plant.

The work consists of the following main parts:

1. Distributing Manhole of Concrete.
2. Settling and Digestion Tanks.
3. Sludge Drying Beds, Glass covered.
4. 525 feet 24" Terra Cotto Pipe.
5. Necessary grading, excavation, etc.
6. Well House for water supply.
7. Other incidental work.

Plans and specifications can be obtained together with proposal sheet from Frank P. Graham, The Borough Engineer or at the office of Banks & Craig, Consulting Engineers, Telegraph Bld'g., Harrisburg, Pa.

A set of plans and specifications can be obtained by placing a deposit of $10.00 drawn to the Borough Engineer, $5.00 of which will be returned if the plans and specifications are returned within 15 days after the award of the contract.

Each bid must be accompanied by a certified check in the amount of $1000.00 payable to the order of the Borough of Grove City as a guarantee that the successful bidder will enter into contract with the Borough within fifteen days after the award of the contract. Checks will be returned to unsuccessful bidders.

The Borough reserves the right to reject any or all bids.

L. L. McKAY,
Secretary.

Bids: July 3.

Alternating Air Lock Siphons

Newton, N. J.

Notice is hereby given that sealed bids will be received by the Water and Sewer Commissioners of the Town of Newton, in the County of Sussex and State of New Jersey for the installation in the East Clinton Street sewage disposal plant, in said town, of a battery of, five (5) twelve inch (12") alternating air lock siphons to draw about two feet. Siphons to discharge into the same discharge lines, as are being used with the present apparatus, after said pipe lines have been relaid to centers as shown on the plans to be furnished by the manufacturer. Alternating siphons to be of the air lock type, with no moving parts. Air connections to be provided with three way valves for cutting out any desired number of beds, the remaining one or more siphons to operate. Siphons to handle intermittently and to discharge the contents of the dosing tank and lock against a twenty-four hour rate of 650,000 gallons.

Masonry work provided by the town, town to set apparatus and furnish and set tile wells.

Said bids will be opened and read in public at the Town Offices, over Howell's Hardware Store, Newton, N. J., July 3rd, 1923, at 6:30 p.m.

The commissioners reserve the right to reject any or all bids.

ETHEL B. HARRISON,
Clerk of Board of
Water Commissioners.

Dated June 16, 1923.

Bids: July 17.

Inclosed Channel

Dunkirk, N. Y.

Sealed proposals for the construction of an inclosed channel and accessories for the diversion of Hyde Creek, in the City of Dunkirk, N. Y., will be received until 8 p.m., eastern time, July 17, 1923, and then publicly opened. The right is reserved to reject any or all bids. Plans and specifications are on file and information may be had on application to the undersigned. Specifications will be forwarded to applicants. To insure return of plans a deposit of twenty dollars ($20) is required for plans mailed, which sum will be returned to applicant upon return of plans.

H. J. HENDERSON,
City Clerk.

OFFICIAL PROPOSALS

Bids: July 9.

Bridges

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the following:

Construction of a steel and concrete bridge of two spans, 42 ft. 4 in. C. to C. of bearings and 34 ft. 0 in. wide, including fill approaches Cedar Creek at M. P. 41.1 on State Highway Route No. 4, in the municipality of Berkley and Lacey Townships, and the County of Ocean.

Bids for the above will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, July 9th, 1923, at 11:45 a.m., Standard Time, and opened and read immediately thereafter.

Construction of a reinforced concrete slab bridge of one span, 22 ft. 10 in. between neat lines and 34 ft. 10 in. wide, over Primrose Brook, at M. P. 33.7 on State Highway Route No. 16 in the municipality of Harding Township, in the County of Morris.

Bids for the above will be received at the Assembly Chamber, State House, Trenton, New Jersey, on Monday, July 9th, 1923, at 12:00 noon, Standard Time, and opened and read immediately thereafter.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of Mr. John L. Vogel, Bridge Engineer, 772 Broad St., Newark, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on a deposit of Ten Dollars ($10.00) upon application to Mr. John L. Vogel, Bridge Engineer, 772 Broad St., Newark, New Jersey. Bids must be made on the standard proposal form in the manner designated therein and as required by the specifications for this work, same to be enclosed in sealed special addressed envelopes, bearing the name and address of the bidder and the work bid upon on outside, and must be accompanied by a certified check drawn to the order of the State Treasurer for not less than ten per cent (10%) of the amount of the bid, provided the said certified check shall not be less than $500.00 nor more than $20,000.00, and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelope will be furnished on application to Mr. John L. Vogel, Bridge Engineer, 772 Broad St., Newark, N. J. Bids not enclosed in special envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: July 16.

Paving

Plainfield, N. J.

OFFICIAL PROPOSALS

Bids: July 20.

Clearing Land of Unmerchantable Timber

Watertown, N. Y.

Sealed bids for clearing the lands to be flowed by the Enlargement of the Stillwater Reservoir on the Beaver River in the Town of Webb, Herkimer County, N. Y., will be received by the Board of the Black River Regulating District at the office of the Water Control Commission, Room 1000, 158 State Street, Albany, N. Y. until one o'clock p.m., Standard Time, on the 20th day of July, 1923; all bids will be publicly opened and read at the time and place aforesaid.

The work to be done consists of the clearing of the unmerchantable timber and timber growth from the land around and above the existing Stillwater Reservoir and within a contour line approximately 19 feet higher than the crest of the spillway of the existing Stillwater Dam. The area to be cleared will include about 3960 acres of land, which will be divided into two sections. Section No. 1 will include about 1400 acres and Section No. 2 about 2560 acres. Any bidder may bid upon the clearing of either one or both sections, and he may also make a separate contingent bid upon either one or both sections, which bid will be contingent upon the acceptance by the Water Control Commission of his bid for the timber upon the state land in such section or sections.

Maps of the reservoir, bidding and contract forms and specifications may be seen at the office of the Board, Watertown, N. Y., and also at the offices of the Water Control Commission and the Conservation Commission at Albany, N. Y. Copies of the maps, forms and specifications may be obtained from the Board on payment of two dollars ($2.00) which will be refunded on their return in good condition within seven days after bids are opened.

All bids must be accompanied by a certified check upon a National or State bank or trust company for five per centum (5%) of the amount of the bid and payable to the order of the Board of the Black River Regulating District.

The Board reserves the right to reject any or all bids and to again advertise for further bids.

BOARD OF THE BLACK RIVER REGULATING DISTRICT.
By E. S. Cullings,
Secretary.

Bids: July 2.

USED EQUIPMENT

AND NEW, OFFERED FOR RE-SALE

Space for these advertisements is sold by the advertising inch—30 inches to a page. The price per inch is based on total space used—multiply ad space by number of insertions.

RATE PER INCH:
1 to 3 inches.....$5.00 an inch
4 to 7 inches..... 4.80 an inch
8 to 14 inches..... 4.70 an inch

An inch is measured vertically on one column—three columns to a page. Any space may be used measured by the even inch in height by 1, 2, or 3 columns in width.

RATES FOR LARGER SPACES, OR SPACE ON A YEARLY BASIS, FURNISHED ON REQUEST

Construction WE BUY, SELL AND RENT *Equipment*

AIR COMPRESSORS

1—Ingersoll-Rand, 10x10, Belt drive.
1—Chicago, 70 ft., Gas. Power, mounted with Tank, mounted on Trucks.
1—Chicago, 150 ft., Gas. Power,
2—Westinghouse, Compound, 150 ft.

CRANES

1—P. & H. 205, semi-caterpillar.
1—Overland Traction Wheels, steam power.
1—20-ton Ohio, std. gauge.

HOISTS

1—American, 10 x 12, D.C., D.D., skel.
3—7 x 10, DC, DD, various makes.
1—6 x 8, DC, DD skel. Lambert.
1—Thomas DD with 50-hp., A.C. Motor.
1—Thomas DD with 75-hp., A.C. Motor.
1—Lambert, 8¼ x 10, DD, butt strapped boiler.
1—American, 8¼ x 10, DD, butt strapped boiler.
1—Thomas Double Drum with 100-hp., D.C. Motor.

LOCOMOTIVES

2—Std. Gauge Baldwin and American, 50 ton.
1—Standard Gauge Baldwin, 30 ton, rebuilt.
7—24-in. Gauge Plymouth & Whitcomb, gas.
3—36-in. Gauge Davenport, Porter & Vulcan.
3—6-ton, 24-in. Gauge Geared Whitcomb.
1—Std. Ga. 10 x 16 Lima.

DERRICKS

3—Steel Stiff-Leg, 60 to 100-ft. booms.
1—Wood Stiff-Leg Derrick, bucket operating.
6—Steel Guy, 100-ft. masts, 15 to 25 tons.
8—Steel Guy, 110-ft. masts, 25 to 40 tons.
2—Steel Stiff-Legs, 110-ft. booms, 20 tons.
1—All-Steel Derrick Car, capacity 25 tons.

ROAD EQUIPMENT

2—Lakewood Finishing Machines, 16 & 18 ft.
60—Batch Boxes, 29 ft.
5—Rollers, 8 to 10 ton, tandem and 3 wheel, steam and gasoline power.
6—Pavers, 12E to 21E.

CONCRETE MIXERS

1—21-S Marsh Capron Batch Hopper.
2—7-S Rex Low Charging Mixers.
1—21-S Rex, Steam Power.
1—7-S Boss, Gas. Power, Side Loader.

STEAM SHOVELS

1—Type B, Erie.
4—Traction and Caterpillar, ¾-yd. shovels, Marion, Osgood, Bucyrus and Thew.
2—Bucyrus 70C's; also 70-ton railroad type.
1—Bucyrus 35B on caterpillar.
1—Marion 35 traction wheels.
1—Standard Bucyrus 150-B.

CARS

75—36-in. gauge, 4-yd. Western Dump.
50—24-in. gauge, 1½ yd. steel "V"-shaped.
30—24-in. gauge, Western All-Steel Flat.
30—18-in. gauge, 1-yd. Western.
70—24-in. gauge, 1½-yd. Wood Bodies.

DRAG LINES

1—Monighan 1-T. Walker type.
1—Monighan 2½-T. Walker type.
1—Bucyrus 14-B, on caterpillar.

PILING HAMMERS

1—No. 3 McKiernan-Terry.
1—No. 9 McKiernan-Terry.
1—No. 3 Union. 1—No. 2 Vulcan.

BUCKETS

1—¾-yd. Kiesler Clam Shell Bucket.
1—1-yd. Hayward Clam Shell Bucket.
1—1-yd. Page Dragline Bucket.

MISCELLANEOUS

2—50-hp. Locomotive Type Boilers.
1—Erie 6-in. Centrifugal Pump with Engine.
1—Lakewood Steel Tower, 150 ft., with Bucket
1—Insley Steel Tower, 200 ft. with Bucket
1—4-in., belt driven Centrifugal Pump.
2—Steel Stone Skips.
4—Vertical Boilers, ranging from 25 to 40-hp.

The above are only a few of the items we have for sale. Write or wire for our latest stock list.

ECA REBUILT

"WE BUY— REBUILD— SELL OR RENT"

ELECTRIC HOISTS AND DERRICKS FORM HOG ISLAND

Available For Inspection and Shipment From Our Four Plants

Specifications of Electric Hoists

Large number of American late model hoists. These hoists have 2 drums with attached swinging gear, with 37-hp. Otis A.C., 440-v., 60-cy., 3-ph. electric motor—Complete with controllers and resistance grids—Can be changed to suit customer's current requirements if desired.

Can furnish counterweighted holding drums with these hoists when used for operating bucket.

Also several 55 and 75-hp., Single and Double Drum Hoists with A.C. Motors.

Specifications of Derricks

Large number of practically new American stiff-leg derricks.
Boom, 14x14x80 ft., trussed.
Mast, 16x16x40 ft.
Legs, 14x14x62 ft.
Bull wheel, 16 ft.
For Single Line Work or Arranged for Bucket Operation.
Will sell fittings only if desired.
Also have large stock of lighter stiff-leg derricks, several steel stiff-legs, 20, 30 and 50 ton.

Guy Derricks

A number of both wood and steel guy derricks, 5, 10 and 25-ton capacity.

ALL THE EQUIPMENT LISTED BELOW HAS BEEN REBUILT AND MAY BE INSPECTED IN ONE OF OUR OWN WAREHOUSES

AIR COMPRESSORS

1—Sullivan Class W.G.3, belt driven cylinder, 10x12.

2—10½-in. Type C Westinghouse Steam Compound Air Compressors. Capacity 150 cu. ft. at 100 lbs. Requires 25 hp. Boiler.

1—Bury Class L 8x8 Compressor complete with air receiver with 15 hp., A.C., 220 volt, 60 cycle motor.

1—Schramm No. 30 Gasoline, on trucks with air receiver, cap. 50 cu. ft. per minute.

CONCRETE MIXERS

30—Concrete Mixers, sizes 28S, cap. 1-yd., 21S, cap. ¾-yd.; 14S, cap. ½-yd., and 10S, cap. 1¾-yd. With steam or electric power; with side loaders or batch hoppers. Following makes: Marsh-Capron, Koehring, Milwaukee, Ransome, Smith, Smith-Chicago, Rex, Lakewood, Foote, Cube, or Oshkosh.

45—7S, cap. 1 bag, with low charging platforms, with gasoline engines.

CRANES

1—Byers Auto Crane on traction wheels, with 30-ft. boom, with ½ or ¾-yd. clam shell bucket.

1—15-ton, 8-wheel, O.&S., 40-ft. boom.

1—15-ton Browning locomotive crane on 4-wheel, standard gauge trucks, with 40-ft. boom and bucket operating.

CLAM SHELL BUCKETS

29—Clam Shell Buckets. Sizes ½, ¾, 1, 1½ or 2-yd. All makes.

CRUSHER

1—No. 4 Austin Gyratory crusher.
1—10x20 Climax Jaw Crusher on Trucks.

DIAPHRAGM PUMPS

90—Diaphragm Pumps on trucks, with 3-in., or 4-in. suction, with 3-hp., 2-hp., or 1½-hp. Gasoline engines. Following makes: Atlantic, Bull Dog, C.H.&E., Domestic, Gould, Humphrey, Keystone, Novo, Schramm and Sultan.

30—Hand Diaphragm Pumps, 3-in. and 4-in. suction.

A large assortment of steam pumps, Simplex and Duplex, also several Nys and Pulsometer Pumps, No. 5 and No. 6. Several hand driven force pumps, 2-in. and 1½-in. suction.

CENTRIFUGAL PUMPS

All sizes from 12-in. suction, 10-in. discharge, down to 2½-in. suction, 2-in. discharge. Belt driven and dir. conn. to steam engines, gas engines and electric motors.

STEAM HOISTS

20—Three-Drum Hoists, with or without boilers. Sizes, 10x12, 9x10, 8¼x10, and 7x10, with separate swingers for derrick work. All makes.

40—Two-Drum Hoists, with or without boilers. Sizes, 10x12, 9x10, 8¼x10, 7x10, 6¼x10, 6x8, and 5x8. Can be equipped with holding drum for bucket work. Several special Cableway Excavator or Drag Scraper Hoists. All makes.

12—Single Drum Hoists 9x10, 6¼x10, 8x8. Lidgerwood, American and Lambert.

6—Swinging Engines.

1—Double Drum Belt Hoist, cap. 6000 lb.

1—Belt Hoist, single drum, 2500 lb. line pull.

1—4¾x6 double cylinder, single drum, reversible with elevator sheave, complete with boiler.

1—8-hp. Byers S. D. Reversible, with boiler and elevator sheave.

ELECTRIC HOISTS

1—O & S. double drum, with 20-hp. Westinghouse, 220 v., 60 cy., 3 ph., with drum controller resistance grids, complete.

RAIL AND TRACK

4—Miles, 24-in. Gauge Portable Track, with steel ties, made up of 20-lb. rail with switches.

GUY DERRICKS

1—Wooden Guy Derrick, mast 60-ft., boom 56-ft., 16x16 timbers—single line.

1—All steel with 90-ft. mast, 80-ft. boom, with all guys, with bull wheel, 10-ton capacity, bucket operating.

ROAD ROLLERS

2—Erie Tandem, 1—8-ton, 1—3-ton.

2—Kelly - Springfield, 10-ton, 3-wheel; 1—gas, 1—steam.

1—Iroquis, 5-ton, steam Tandem.

3—10-ton, 3-wheel. 2—Buffalo-Pitts, steam. 1—Austin, gas.

STEAM SHOVELS

1—Bucyrus, 70-ton, on MCB std. gauge trucks, with 2½-yd. dipper.

4—Keystone Excavators. 3—No. 3, 1—No. 4.

1—Marion No. 28 Traction Wheel, ¾-yd. bucket.

1—Type A1 Thew on traction wheels with ⅞-yd. dipper.

2—Type O Thew on traction wheels with ⅝-yd. dipper.

STEAM HAMMERS

7—McKiernan & Terry. 6—No. 9B. 1—No. 6.

2—Vulcan, 1—No. 2 and 1—No. 1. Several drop hammers.

LOCOMOTIVES

1—Shay Geared, 36-gauge, 6x10, 13-ton.

2—24-in. gauge steam Saddle Tanks, 1—Davenport 7½-ton. 1—Kopple 6½-ton.

FOR SALE OR RENT

STEAM SHOVELS

1—14B Bucyrus Traction Shovel, Shop No. 3338 new in 1920. 2/3-yd. dipper.
1—Model 36 Marion, full revolving traction, Shop No. 3304, new 1½-yd. dipper.
4—70C Bucyrus. Shop No. 1167, 1426, 1499 and 1608; 2½-yd. dippers.
3—70-ton Bucyrus, Shop Nos. 860, 977, and 1233. 2½-yd. dippers.
1—70-ton Bucyrus. Shop No. 920, equipped with new 70C boom. 2½-yd. dipper.
3—Model 60 Marion, Shop Nos. 1463, 1711 and 2367, 2½-yd. dippers.

STEAM SHOVEL PARTS

3—Booms for 70-ton Bucyrus, length 29 ft.
1—Boom for 70C Bucyrus shovel, composite, length 40 ft.
3—Dippers, Bucyrus, 2½-yd. capacity.
1—Bucyrus Dipper, 3 cu. yd. capacity.
Jack Arms, Dipper Arms and Boom Engines for 70-ton Bucyrus Shovels.
1—Boom for Model 60 Marion Shovel.
2—Dipper Arms for Model 60 Marion.
1—Dipper, 2½ yd., for Model 60 Marion.

DRAGLINE EXCAVATORS

1—Class 14 Bucyrus Dragline; 60-ft. boom, 2-yd. Page Bucket, skids and rollers, or truck wheels.
1—Class 24 Bucyrus Dragline, Shop No. 772; skids and rollers, 100-ft. boom, 3½-yd. Page bucket.
1—Class 24 Bucyrus Dragline, built 1919, 115-ft. boom, 3½-yd. Page bucket, steam operated.

LOCOMOTIVES

1—17 x 24 Davenport, 6-wheeled switcher, new in 1912, weight 47 tons, steam pressure 180 lb
1—18 x 24 American, 6-wheeled switcher, Brooks No. 2318. Wt. 55 tons on drivers.
1—16 x 22 C. M. & St. P. Ry., Class J-2, 4-wheeled switcher. Weight 32 tons.

LOCOMOTIVES (Continued)

1—standard gauge, 11 x 16 American 4-wheeled saddle tank Locomotive, shop No. 47421, built 1912. Weight 21 tons, steam brakes, automatic couplers.
3—36-in. gauge, 11 x 16 Vulcan dinkies, shop Nos. 1700 to 2200 series. Steel cabs and butt joint boilers. Weight 20 tons.
1—36-in. gauge, 11 x 16 Davenport dinkey. Shop No. 710. Wt. 20 tons.
1—36-in. gauge, 10 x 16 Porter Dinkey. Shop No. 3912. Wt. 18 tons.
1—36-in. gauge, 10 x 16 Vulcan Dinkey. Shop No. 868. Wt. 18 tons.
1—36-in. gauge Baldwin Dinkey, Shop No. 34550; wt. 18 tons.
1—36-in. gauge American Dinkey, Shop No. 46733; wt. 18 tons.

CRANES

1—Type B Erie Traction Crane; 33-ft. boom and ¾-yd. clam shell bucket. Shop No. 838. New in 1920.
1—10-ton Industrial Crane (Shop No. 1989), 4 wheeled, 40-ft. boom.
1—20-ton McMyler, Serial No. 388, built 1912. 8 wheeled; 45-ft. boom, bucket operating drums.
1—25-ton Industrial Crane, 8 wheeled, full M.C.B., bucket handling drums; (Shop No. 3261), 55-ft. boom and 20-ft. ext.
1—30-ton Ohio Crane, new in 1918; 8-wheeled, full M.C.B.; bucket handling; 50-ft. boom; Ohio, Penn., N. Y., Mich. and Mass. Std. boiler.
1—30-ton Ohio Locomotive Crane, 8-wheeled, full M.C.B., bucket handling, 50-ft. boom, with 20-ft. extension. Shop No. 3416. Built 1920. A.S.M.E. boiler.
1—Pintle Type Crane, built by Variety Iron & Steel Works. New in 1919; 48-ft. boom, 15-ton cap. at 18-ft. radius; 7-ft. 10½-in. gauge, 12-ft. wheelbase, self-propelling. Base of boom 17 ft. above track. Bucket-operating drums. Wt. 50 tons. Price, 25% of new.

DUMP CARS

3—16-yd. Western Air Dump Cars.
20—12-yd. Western Air Dump Cars, 19-ft. beds, full M.C.B. steel underframes, box girder doors.
4—12-yd. Western Dump Cars, air brakes and hand dump, 19-ft. beds, steel underframes, box girder doors, full M.C.B., 60,000 lb. capacity trucks.
5—12-yd. Oliver Dump Cars, steel underframes; full M.C.B.
13—8-yd. Western, 36-in. gauge, double truck side Dump Cars; steel draw sills, wood beds.
9—4-yd. Continental, 36-in. Gauge Side Dump Cars, wood beds, steel draw sills.
70—4-yd. Western, 36-in. Gauge, Wood Sill Dump Cars, truss rod doors.
34—4-yd. Continental, 36-in. gauge, wood draw sills, 4 pedestals, truss rod doors.
8—3½-yd. Peteler 36-in. gauge side dump cars, wood sills and wood beds.

SPREADER AND DERRICK CARS

1—Standard Gauge Western Spreader Car.
1—36-in. gauge Western Spreader Car.
1—36-in. gauge Oliver Spreader Car.
1—Std. Gauge Derrick Car.

HOISTING ENGINES

1—7 x 10, D.C., D.D. Lambert Hoisting Engine, with boiler.
1—7 x 10, D.C., D.D. Clyde Hoist with A.S.M.E. boiler.

MISCELLANEOUS

2—80-hp. horiz. Boilers, complete with fittings.
2—1½ yd. Page Dragline Buckets.
6—1½-yd. Western Dump Wagons.
11—Mead-Morrison 1⅝-yd. Clam Shell
1—Industrial Steam Pile Driver Hammer, Serial No. 324.
1—Pair Steel Pile Driver Guides, 42 ft. long, for above hammer.
1—Stable Tent, 30 ft. x 50 ft.

CLAPP, RILEY & HALL EQUIPMENT CO., 14 So. Canal St., Chicago
(Successors to Clapp, Norstrom & Riley Equipment Co.)

FOR SALE

7—**Dump Scows,** 280 to 700 cu. yd. capacity.

1—5 to 7 cu. yd. Clam Shell **Dredge.**

1—5-yd. Clam Shell **Dredge.**

1—2½-yd. **Dipper Dredge.**

3—Flat Deck **Scows,** 87 to 110 ft. x 30 to 32 ft.

1—Coal Scow with Derrick and Hoisting Engine, 300 tons.

Prices on application to

WILLIAM S. NOLAN, ***Shipbroker,***
31 State St., Boston, Mass.

LOCOMOTIVE CRANE

1—10-ton Industrial, 4-wheel standard gage, 40-ft. boom, ¾-yd. clam shell bucket.
1—12-ton, 8-wheel O. & S., M.C.B., 40-ft. boom, equipped with ¾-yd. clam shell bucket.
1—O. & S. Gasoline traction, 35-ft. boom, ¾-yd. bucket.
1—Erie "B" traction, 36-ft. boom.

SHOVELS

1—Model 61 Marion, 2½-yd. dipper, railroad trucks.
1—70-ton Bucyrus, 2½-yd. dipper, railroad trucks.
1—Type "A" Erie traction, ½-yd. dipper.
1—Model 36 Marion, 32-ft. boom, 22-ft dipper stick, 1-yd. dipper, caterpillar traction.
1—Model 28 Marion combination crane and steam shovel, traction wheels.
1—Late Type "O" Thew, 1921, boom, ¾-yd. dipper. Traction wheels, high lift shipper shaft.
1—Model 18 Osgood, caterpillar traction, high lift, 20-ft. boom, ¾-yd. dipper.
1—Erie "B", caterpillar, high lift, with boom hoist, 20-ft. boom, 18-ft. dipper handle, ¾-yd. dipper. Used 6 months on light work.
1—Browning, Type No. 8, 38-ft. boom, 22-ft. dipper handle, 1-yd. dipper, mounted on 4 wheels, standard gage, with stability wheels on same shaft. Used 2 months.

DRAGLINE

1—Erie caterpillar traction, 40-ft. boom 1-yd. Page bucket.
1—Austin combination steam shovel and dragline, Model 5, caterpillar traction.
1—Marion Model 251, 115-ft. boom, 3½-yd. bucket.
1—Monighan, 120-ft. boom, 3½-yd. bucket.
1—Monighan T1 (Walker) Gasoline, 50-ft. boom, 1-yd. Page bucket.

HOISTING ENGINES

1—Byers Traveling Derrick, all-steel construction, 14-ft. gage, 3-drum engine independent swinger, 50-ft. boom.
1—10x13, D.C., 3-drum Mundy Hoisting Engine with Boiler.

LOCOMOTIVES

1—Vulcan, 38 ton, saddle tank, std. gage.
1—Vulcan, 21 ton, saddle tank, std. gage.
1—Vulcan, 11 ton, saddle tank, 36-in. gage.

HOISTS DERRICKS

WE EXPECT TO BE SOLD OUT AND DO NOT GUARANTEE DELIVERY AFTER JULY 1, 1923

ELECTRIC HOIST AND DERRICK $1800

PRICES F. O. B. CARS, PRIMOS, PA.

PARTS

We have a quantity of parts and fittings that came into our possession with the Hoists and Derricks that we purchased at Hog Island that we are offering for sale as Hoist extras or a set of Derrick fittings.

TIMBERS

Several 14 x 14 and 16 x 16, 40 ft., 50 ft. and 55 ft. new fur pine at 10c. per BM foot.

You Save at Least $2000

These Hoists and Derricks are standard late models, manufactured by The American Hoist & Derrick Co., St. Paul, Minn. They are almost new, and every one is GUARANTEED to be in first-class running order.

The Hoists have two drums and swingers, and are complete with starting and control equipment. Having banked lever control, and rated 6,000 pounds single line on each hoisting drum. Slewing rope 36 ft. per minute, and hoisting rope speed 160 ft. per minute. The MOTORS are OTIS 37 hp. A.C., 60-cycle, 3-phase, 440-volt, intermittent duty, slip-ring induction type and, if desired, may be changed to suit the individual current requirements of purchasers at cost.

These Hoists and Derricks may be inspected at any time. This Equipment is being sold in sets and in units of a Hoist or Derrick if desired. Immediate shipment can be made anywhere, but QUICK ACTION IS IMPERATIVE.

Wire, Phone or Write for Detailed Information, Folder, etc.

THE ELECTRIC HOIST & DERRICK CO.
PRIMOS, PENNSYLVANIA
Primos, Pa., is 8 miles west of Philadelphia on P., B. & W. R. R.

DIMENSIONS OF DERRICKS

Mast—16 in. square, 40 ft. high.

Boom—Made of (2) 14 in. sq. timber 48 ft. long spliced to lengths of 80 ft. with (2) ⅞ in. and (2) 1⅛ in. truss rods.

Stiff Legs—14 in. sq., 60 ft. long or 16 in. sq., 46, 50 or 55 ft. long, will furnish either length desired, capacity 5 to 10 tons. Bull wheel 16 ft. dia. Principal sheaves 16 in. dia. and 14 in. single blocks.

The Cable which was formerly used will be given with each purchase of a Hoist with Derrick.

How One Man Landed a Job

THERE are more ways than one to use "Engineering News-Record." Here is the story of how the paper helped a construction foreman locate a job in California:

"ONE DAY, while I was working for the —— Construction Co. in Massachusetts as a concrete labor foreman, I felt like going away some place. I told the superintendent that I wanted to go away but he did not want to believe that. However, next morning, instead of going to work, I took the train for Boston.

"After two days in Boston I would have had some work but thinking that I had worked for the —— Construction Co. for about 15 years, beginning as a water boy and becoming a boss, and not wanting to go back, being ashamed to as I left there without reason, I thought I would go to Los Angeles for the winter. I telephoned the Boston office to tell them that I was leaving for Los Angeles and they asked me if I was going into motion pictures and I answered that I was going to California for a vacation, so I took the train for Los Angeles.

"WHEN I arrived at Chicago I opened my suit case and found *Engineering News-Record* and saw that they were doing more concrete work in San Francisco than in Los Angeles, so I took the train for San Francisco, and as soon as I arrived there and stepped out of the ferry building, I saw that they were building a 16-story office building. I went to see the superintendent. I told him I always had worked as boss and that I was looking for work and he told me that I could go to work at once as a stripping foreman.

"With best regards to *Engineering News-Record* that I have a very nice job, I beg to remain,

"Yours truly,
"—— ——."

"A form for every pile—A pile for every purpose"

Viewing the Nation's Wealth

Uncle Sam on an inspection tour of American properties stops to examine a *Strauss bascule highway bridge* over a Western river.

The Dutch Boy Painter:
"A 226-foot gap is spanned by those two slender arms of steel. Every square inch of that metal must be protected with plenty of red-lead paint. Otherwise, rust will get in its work of destruction. Red-lead is the surest, safest protection against corrosion."

Closed to shipping— but wide open to corrosion

UP and down these balanced levers smoothly swing. They are strong. The engineer has provided for every stress and strain.

But if this bascule construction is to *remain* strong, each square inch of steel must be protected against rust. Each square inch of steel must be kept covered with good paint.

For many years red-lead has been recognized as metal's most effective defense against corrosion. Extensive tests have been made under all possible conditions. But all research only emphasizes the rust-resisting qualities of red-lead.

Because it is pure red-lead, Dutch Boy Red-Lead supplies complete protection to all classes of metal construction and equipment. It is specified by name because of its *known* standard of quality.

Dutch Boy Red-Lead gives a tough, elastic covering that expands and contracts without cracking. It sticks tight to clean metal and does not flake off or scale. It has unusual spreading power. A given quantity will cover more surface than the same amount of most other paints.

You can get Dutch Boy Red-Lead in paste form and as a liquid ready for the brush. For shop painting and priming coats the straight, untinted red-lead should be used. The *liquid* comes also in browns, greens and black for finishing coats. The untinted *paste* can be tinted to any dark color.

Specify Dutch Boy Red-Lead by name. *There is no "or equivalent"!*

Write for Painting Helps No. 5.

Dutch Boy Red-Lead

Detail representing the construction of fireproof flooring first used in this bank building erected in 1855. Iron joists, constructed from two curved sheets and two flat strips, riveted top and bottom, rested on iron girders. Above the joists corrugated iron sheets supported a concrete filling, over which was laid the wood flooring.

Three-Quarters of a Century!

THREE-QUARTERS of a century ago a broad-visioned architect specified riveted iron joists for the floors of this historic bank building. His specification originated the first light weight type of fireproof construction.

Previous to this time heavy structural steel forms had been deemed essential for permanent floors. The record of seventy-five years of service, however, has far more than justified this architect in his radical departure from former standards.

When this bank building was finally torn down to make way for a large and modern edifice, its floors were still found to be in perfect condition. The ravages of time and wear had in no way impaired or damaged them.

Science, too, within recent years has fully demonstrated the correctness of the theory upon which these floors were built—that fire-safety, durability and permanence are not dependent upon the weight and mass of the materials employed. And today thousands of buildings bear testimony to the growing popularity of this steel joist fireproof construction.

With the introduction of Truscon and National Steel Joists, the Truscon Steel Company has played a conspicuous part in the development of fireproof, permanent, yet light weight and economical flooring for all light occupancy buildings. Such flooring constitutes a saving, not alone in first cost, but in upkeep costs. It is crack-proof, vermin-proof and in every way suited to meet the ideals of present-day building.

If you are planning a home, office building, hotel apartment, store, school, etc., learn more of the safety, economy and durability of steel joist floor construction. Write today for detailed information and descriptive booklet.

TRUSCON AND NATIONAL STEEL JOISTS

TRUSCON STEEL COMPANY
YOUNGSTOWN, OHIO, U. S. A.
Warehouses and offices from Pacific to Atlantic.
For addresses see 'phone books of principal cities.
Canada: Walkerville, Ont. Export Div.: New York.
National Steel Joist Co., Massillon, Ohio

The great advance made in modern fireproofing is illustrated by this Truscon Steel Joist Floor Construction. Simple to install. Merely place the joists and apply the metal lath above for concrete and below for plastered ceilings. No fitting, no forms, no false work—no special equipment. Used everywhere for apartments, schools, stores, hotels, first floors of homes, etc.

At left—a CP-5 Rock Drill in operation. *Above—illustration showing the CP-5 Rock Drill.*

CP-5 Rock Drill—
a strictly one-man drifter

THE CP-5 Rock Drill is a strictly one-man machine. It weighs from 35 to 60 pounds less than other heavy mounted-type drifters. It sets low in its cradle. It has no bothersome knobs. It insures quicker set-ups with less labor. It permits changing drill steel without affecting alignment. It works *with* the operator. For example, the hose stays close to the drill out of his way.

The CP-5 is proving indispensable for heavy drifting, cross-cutting and tunneling, because it combines the *speed* and *power* of heavier drifters, plus *light weight*, *ease of operation*, *durability* and *upkeep economy*.

In formations varying in hardness from slate to jasper, the CP-5 equalled the performance of 160-170-pound drifters. This performance record was made possible by certain outstanding features fully outlined in Special Publication 697. Request *your* copy today.

Use the Shovel that WORKS EVERY GOOD DAY

"From actual experience, our own and others, we know the ERIE to be the most reliable shovel built, and lowest for upkeep cost— there is no comparison at all. The ERIE can excavate more yards per hour or per day than any other shovel we have had."— *Chas. Rossow Constr. Co. Buffalo, N. Y.* (Own 3 ERIES.)

BY GERHARDT F. MEYNE,
Vice-Pres. Assoc. Bldg. Contractors of Illinois.
(From Engineering and Contracting.)

Lost time is the bottomless pit into which more money than can be estimated has been dumped by contractors. A day free from delays will produce twice as much as an average day.

These contractors, and hundreds like them,

know better than to throw their money into the "lost-time" pit:

"I would advise any contractor who is in the market to buy an ERIE— because it stands up. If we were to get another shovel it would be nothing but an ERIE.

"We have had our ERIE for nine months and have spent about ten dollars for repairs; most of our work is heavy grading and large cellars."— *Daniel Haupert, Haupert & Lombardi Brooklyn, N. Y.*

"The ERIE cannot be compared to any other machine that I have seen or used. Before purchasing my ERIE I owned another shovel which I was obliged to sell because of its extremely high upkeep cost.

"Grading roads and digging sewers with my ERIE for a year and a half, my repair cost has been only $9.00."— *C. A. Johnson, Virginia, Minn.*

"I prefer the ERIE to any other shovel on the market today, and have had experience with 7 different ERIES in the past five years.

"Have found the ERIE the most reliable shovel, and its upkeep cost is the least. My ERIE has been grading roads, excavating for foundations and loading gravel from creek bed, often working under 3 feet of water."— *K. M. Clement, Boone, N. C.*

"We have worked our ERIE Shovel night and day for 4 months without losing more than six hours, and it is in as good shape as when we bought it— and we have had no expense worth mentioning. In our estimation the ERIE is the best shovel that is built."— *Swaney & Gilmore, Uniontown, Pa.*

YOUR UP-TO-DATE CONTRACTOR keeps cost records that really tell him something! He knows just how much it costs him per hour when a machine breaks down and stops his work— how much it costs in lost labor, unproductive overhead, *and loss of profits.*

That's why you see the big majority of successful contractors using ERIES. They know the dollars-and-cents value of equipment that is RELIABLE.

Up-to-date contractor wants service like this:

"One of our ERIES has been grading continuously for seven months without losing as much as two hours' total time. The ERIE is the best shovel we have ever used; it is the most reliable and has the lowest upkeep cost."— *Robert G. Lassiter & Company, Norfolk, Va.* (*Owners of 6 ERIES.*)

One letter like this means nothing: *five or six* letters like this do not mean very much. But when you read and hear HUNDREDS of such statements by contractors — all telling of this same kind of service from ERIE Shovels and Cranes— then it is wise to profit by their expERIEnce!

Actual service records prove that ERIES have only 1-3 as much repair expense, AND MAKE A CORRESPONDING SAVING IN WORKING TIME.

We will be glad to show you hundreds of letters like those at the left— written by successful contractors who have had years of experience with different shovels and cranes. Also, we can send you many carefully checked records of upkeep cost.

Keep your money out of the "lost-time" pit. Consider the facts, and you will be sure to "buy right." Drop us a line for the "Upkeep Cost Record Book."

ERIE

Performance sells this Paver
for instance–

March 1922 a Southern road contractor bought a Ransome 10-E Paver. Its performance made such an impression on the contractors in his locality that inside of five months *seven* had followed his example and become Ransome owners.

And the same thing is happening this year in other parts of the country. The Ransome Paver out on the job is selling the Ransome Paver back in the plant at Dunellen. The price is right—the upkeep low, and the paver *delivers the goods.*

You'll want to get posted on this Ransome 10-E Improved Paver. We will be glad to send complete information.

Choosing a Conveyor System

Brownhoist Builds

Apron Conveyors, Bucket Elevators, Chain Conveyors, Belt Conveyors, Locomotive Cranes, Buckets and other handling equipment.

Literature on Request.

Of the utmost importance in choosing a conveyor system is the ability of the equipment to perform its work, efficiently and continuously, year after year, with low maintainence and operating cost. Shut downs for repairs must be few and far between and power consumption must be low.

The Brownhoist pivoted bucket carrier fulfills every requirement for this type of equipment unusually well. In the handling of coal, ashes, cement clinker, stone and other materials, it soon demonstrates its efficiency in increased production and lowered operating costs.

The material is carried in buckets supported by rollers, thus reducing frictional wear and power consumpton to a minimum. The same carrier can be used to transport material both horizontally and vertically. This eliminates the necessity of transfers and reduces the amount of equipment necessary.

This carrier can be depended upon to give years of service and Brownhoist engineers will gladly assist you in the selection of the most suitable layout for your plant.

The Brown Hoisting Machinery Co., *Cleveland, Ohio*

Branch Offices: New York, Chicago, Pittsburgh, San Francisco, New Orleans

BROWNHOIST

MATERIAL HANDLING EQUIPMENT

Like Looking at the Sun

If you were to look into one of the great rotary kilns in a cement mill, you would see only a glare of light so intense that it would be like looking at the noon-day sun. For a few moments after, you would be unable to see anything.

But borrow the workman's colored goggles to protect your eyes, and peer through the peep-hole again. Then you will see a tornado of coal—of gas or spraying oil—bursting into a sheet of sun-white flame. Into the other end of the kiln flow the finely ground limestone and clay—the materials for cement.

In their three-hour journey through this inferno, the materials undergo many changes. Moisture and gases are driven off as the rotation of the kiln tumbles the materials about, subjecting them to gradually increasing heat until the sun-white flame half melts the powder and it rolls into glass-hard clinker. This clinker, an entirely new chemical compound, when pulverized becomes portland cement.

Scientific control marks every stage of the burning process. Producing the required 2,500 to 3,000 degrees Fahrenheit of heat consumes great quantities of fuel—30 pounds of coal, or its equivalent, for each 94-pound sack of cement.

For the whole cement-making process, the consumption of coal is approximately 50 pounds a sack—more than half a ton of coal to a ton of cement.

THE MIXER YOU HAVE WAITED FOR

AUSTIN
MOVES THE EARTH—MIXES THE CONCRETE

THE AUSTIN DRUM MIXER

The Austin Drum Mixer with Side Loader

There is a difference in these Austin Drums, though they may resemble other drum type mixers. This difference is in the mixing action and the unusual enduring qualities. In place of the usual "V" spreaders and short blades we use long blades. In charging the mixer these blades carry the material away from the charging side almost instantaneously. This provides fast charging and prevents clogging. While mixing, the blades aid in carrying the material up and dropping onto the discharge spout. The inverted spout throws the material back to the charging side of the mixer. This induces a mixing action, supplemented by a remixing action that shortens the time required to secure a thoroughly mixed batch.

The result is more batches per hour, more jobs per season and greater profit at the completion of the job. *Catalog DM-3 sent on request.*

A Haiss Truck Loader

Is a Flexible Piece of Equipment

For Loading Trucks at Siding

Digging and Loading in Sand or Gravel Bank.

Loading at Quarry Stockpile.

Loading in Material Yards.

Loading to truck, car or truck-tractor at roadside storage.

Making final subgrade cut.

Removing old surfacing.

When you buy a Haiss Truck Loader you are not tying up money in a one-purpose machine. You can apply its economies on any one of a number of jobs.

The big job is stockpile loading—1½ cu. yd. per minute and no truck time lost. Speedy work but only ¼ the cost of hand shoveling.

Remember it is not merely a bucket loader—it digs, not as a steam shovel or for steam shovel work, but entirely practical in sand or light earth, or where old macadam surface has been scarified and scraped into windrows.

If You Buy a Loader You'll Insist on a Haiss Machine because:

It is self-feeding—cleans up its own path through the positive action of the Haiss feeding propellers. The most effective digging and self-feeding device yet developed.

It is self-crowding—It has a slow speed gear that propels it against the pile while the buckets are digging—every bucket digs a full load.

Mechanically superior — Waukesha motor, enclosed transmission, simple design and greater structural strength.

There's a New Bulletin No. 123 that you'll want to look over. Ask for copy.

The Pup Complete with Maintainer and Scarifier

The Austin Pup

Weight: 3, 3½ or 4 tons

THE AUSTIN PUP is the undoubted sensation of the road building and maintenance fields. Exhibited for the first time at the Chicago Good Roads Show in January, where it attracted far more than its proportionate share of attention, it has already become one of the most popular tools with contractors and public officials of all classes from State to Township and City to Village. The reason for such universal popularity is not hard to discover; the Pup adapts itself perfectly to a surprisingly wide range of work and clearly surpasses older methods in every instance, as is shown by the following excerpts from a few of the letters we have received from enthusiastic users.

C. M. Upham, State Highway Engineer of North Carolina, writes that "The Austin Pup Roller that we are utilizing in our experimental work is giving exceptionally good results. We are also using the Pup Roller in rolling surface stone on bituminous macadam maintenance. We find that this machine is very handy in working out many of these details."

From Ritchie & Ramsey, Topeka, Kansas, Contractors, we learn that "The Pup has more than lived up to our fondest expectations. Frank Bills, who has always been our roller man, and who has operated about every piece of machinery that a street or road contractor could possibly use, states that the Pup, from a standpoint of economy in operation, simplicity of design and diversity of uses to which it can be put, exceeds every piece of contractor's machinery he has ever seen."

Rolling Subgrade

PRICE AND SERVICE are two of the Pup's most attractive features. By utilizing the Fordson tractor to furnish the motive power, we have taken advantage of Ford's costs which are below anything known in the world because he builds his goods by the hundreds of thousands; and the first cost of the Pup is, therefore, considerably below what it would be if we were to build it complete. An arrangement has also been made whereby the Ford Motor Company, of Detroit, pays the local Ford dealer, in the territory where the Pup is delivered, a commission on the Fordson part of the outfit, so the Pup owner receives dealer service and prompt deliveries of Fordson parts from the Ford dealer in addition to the service maintained by our numerous warehouses and service stations.

Planing a Rough Mountain Road

Roller and Road Maintainer

Furnished With or Without Maintainer and Scarifier Attachments

WEST VIRGINIA adds this testimony: "The pictures are of the Pup working on one of the hardest propositions I think I ever saw in West Virginia. The ruts on the road were anywhere from one foot to eighteen inches in depth, but the little Pup waded right in and sure did plane the road down. One of the tax-payers passing by while the machine was working remarked that it was worth more than any other road machine he ever saw on any work; that all the work that they had done with the road grader this year was wasted money. Made four trips over a little more than a mile of road and reclaimed it from practically an impassable piece of road to one over which autos could drive with comfort, with about six hours work."

F. E. Ross, City Engineer of Jefferson, Mo., says that "The Pup has been in use almost every working day since we received it and is giving the best of satisfaction.

"It has abundance of power. We have used it on grades as high as 12 per cent and have never had to use low gear. We took the roller to the city park to roll the golf links. On the way to the park it had to climb a 20 per cent grade on a gravel road. As the grade was so steep that the roller would spin its wheels, we put a few lugs on each wheel, put the machine in high gear and went over the top.

"Before buying the roller we had all patches tamped. The tamping was the most expensive part of the repair work, wore the men out and took about three-fourths of their time. Since we received the roller, the same crew is doing about four times as much work as before, is doing 100 per cent better work, and at a saving sufficient to more than pay for the roller this season."

A special circular tells the whole story of the Pup Roller and Road Maintainer, and its many uses. Write for a copy today.

On Patchwork

AT LAST!

THE IDEAL PORTABLE GRAVEL CRUSHING AND SCREENING PLANT

GRAVEL is brought from the pit in wagons, drags or fresnos, and dumped through a trap directly upon the conveyor, which in turn deposits the material upon a grizzly screen. The undersized material drops through the bars of the grizzly upon a chute leading directly to the elevator, while the oversize rolls down the bars into the crusher.

Nos. 2, 3 and 4 Austin Gyratory Crushers can be mounted on trucks and furnished with rigid or folding elevators of the required lengths, and gravel conveyors ranging in length from 30 feet to 50 feet. Optional equipment includes a revolving screen mounted on a portable bin.

While moving from place to place, the elevator folds down over the crusher; the conveyor is disconnected from the crusher, and its lower end attached to a truck or wagon.

(A special bulletin describing these portable plants in detail is just off the press. We would like to send you a copy. Ask for Portable Gyratory Crusher Bulletin "H")

THE MILBURN LIGHT

On the job in Philadelphia!

The ruins of the Broad Street Station trainshed had not quit smoking before numbers of Milburn Lights were on the job with the clean-up gang! Fifty Milburn lights were ordered at 2 p. m. (afternoon of the fire) and were on the job *that night*. Note the *batteries* of Milburns in the photo above. New platform construction work was begun at once—and the Milburn Lights helped to speed up the work. Here is another and striking instance of the dependability, quick-set up and efficiency of Milburn Lights—they are the lights to call upon in everyday work or in the big emergency. Operate on any kind of Carbide.

Send for Circular 21, or order a light on trial.
Warehoused everywhere

No. 8, over 8,000 candlepower. Burns 12 hours on 8 lb. of carbide. Costs 3c per hour

P. S.—The "Milburn Combination CUT-WELD Torch" is also being used on the job of dismantling the twisted steel frame-work.

Conveyors like this, built with rugged Rex Chain, are aiding in the production of Buick, Dodge Brothers, Ford, Nash, Paige, Studebaker and many other motor cars

Doing more work with less effort

Though facing a *decreasing* supply of labor the industries of this country now are being called on to satisfy an *increasing* demand for their products. Forced to make more units with fewer human hands, thousands of plants are meeting the issue through a broader use of labor-conserving methods and equipment. Conveyors built with Rex Chain are playing an important part in this new order of the day. Saving time and effort in the moving of materials from operation to operation, they are releasing labor for those tasks which must be done by hand, and are insuring larger outputs at lower cost. Probably there are places in your plant where Rex Chain, in conveyors or drives, can effect vital economies. Our engineers can show you how.

This powerful and long-lasting Rex Chabelco Steel Chain is delivering equal satisfaction in conveying materials and in driving rolls, drums, oil-well drills, screens, construction machinery and other equipment

KOEHRING

Easy Flowing Concrete

EASY flowing, easy spouting concrete begins with the mixing action. The plasticity that means easy flowing without excess of water depends on the thorough coating of every fragment of stone and grain of sand with cement. Then cement acts as a lubricant—the concrete is plastic, easy flowing, easy to work—a real factor in lower costs.

The Koehring re-mixing action prevents segregation of aggregate according to size — sends every grain of sand and cement, every fragment of stone through the mixing process for re-mixing. The result is perfect uniformity of concrete from the first to last shovelful of every batch, and a plastic, free flowing concrete that spouts and "works" to great advantage.

This, together with the Koehring *"Heavy Duty"* construction which means long, trouble-free service life, gives the Koehring owner an extra profit margin on every season's work.

Koehring Capacities

Heavy Duty Construction Mixers; 10, 14, 21 and 28 cu. ft. mixed concrete.

Pavers: 7, 10, 14, 21, 34 cu. ft. mixed concrete.

Dandie Light Mixer: 4 and 7 cu. ft. mixed concrete. May be equipped with power skip or low charging platform. Water measuring tank and light duty hoist.

Insley Concrete Placing Equipment

"We are confident that the Insley design of Boom and Counterweight Chutes, and Sliding Frame, is the best that can be had," is the opinion of John J. Turner and Sons of Amsterdam, N. Y. "Stoppages for shifting chutes are entirely done away with."

There are large numbers of contractors who have had similar experiences with INSLEY CONCRETE PLACING EQUIPMENT, whether it be on a 13,000 cu. yd. job as is shown by this illustration, using a multiple tower plant, or a small job of a few hundred yards requiring a MAST HOIST PLANT. Let us show you how the special features of Insley design save you money.

INSLEY MANUFACTURING CO.
Engineers and Manufacturers
INDIANAPOLIS

Three 160-ft. Insley Steel Tower Plants used by John J. Turner and Sons on a ten story warehouse for Stephen Sanford and Sons, Inc., at Amsterdam, N. Y. 12 men and a hoisting engineer were required to mix and place the concrete, most of which was done in winter.

PAINTS AND VARNISHES

More Profit *with* DU-LITE

The White That's Always White

No need to tell you that the acceptance of any construction job depends to a large extent on the finished appearance. It is particularly important that the interior be finished to give maximum light reflection — thus insuring to your client more profits through increased production.

Realizing this, du Pont Chemical Engineers, in their problem of providing paints for the construction industry, have developed an interior white paint that

Sets a New Standard in Quality

With this Improved Du-Lite you can fully satisfy your client from the standpoint of light-reflection, and its use will mean more profits to you through its greater covering power, and easier working properties.

Engineers, contractors and plant superintendents may obtain free a copy of "Principles and Practices of Upkeep Painting"—a practical handbook covering every painting problem—on receipt of signed request on their business stationery. To others the price is $2.00 per copy. Write Dept. B.

Everett Station, No. 49, Boston, Mass.

The above insert shows the back of a wall built of stucco or plaster applied over NATIONAL STUCCO-PLASTER REINFORCEMENT and the enlarged picture a cross-section of one wall. Note the absence of "keys" and the way in which the welded reinforcement is thoroughly embedded in the plaster and stucco; thus assuring a reinforced job.

The above insert shows a wall built of wood lath base for the interior plaster or grooved wood sheathing for the exterior. The enlarged cross-section shows a wall of this material. Note the key which holds the plaster in place — extremely fragile and easy to break off, owing to the expansion and contraction of the wood bases.

Handled by all dealers —write for literature and samples

Which would you rather have—exterior walls reinforced with NATIONAL STUCCO-PLASTER REINFORCEMENT (galvanized) at the same or less cost with the assurance of permanency . . . . interior walls, partitions and ceilings, reinforced with NATIONAL STUCCO-PLASTER REINFORCEMENT (galvanized) at a slight increase over the cost of wood lath, thereby insuring the plaster against cracks and lath marks, and making it possible to put decorations on the walls and ceilings without fear of discoloration. . . . . or—those types of lath which have been commonly used and resulted in the cracking and falling off of the stucco and plaster, due to expansion and contraction and breaking off of the "keys."

Again we ask "WHICH?"

When you build, insist on having NATIONAL STUCCO-PLASTER REINFORCEMENT

Suited to the Job

from Every Standpoint

SEVEN YEARS trenching in hard blue shale and rock! Some test for any shovel. Yet The Haddad-Mall Company have recently made it "another Thew" because they know they can depend on it.

This job is representative of what they expect from their shovels. Two and one-half miles of trench averaging 23 feet deep; 50 to 75 feet completed each day. "Completed" means digging, laying two sewer lines and filling.

Shovels that will do this are worth getting acquainted with. Write for Bulletin 113 and find out some more facts about the Type A-1 Thew.

THE THEW SHOVEL CO., LORAIN, O.

The A-1 Thew

"Our first Thew shovel, a Type A-1, was purchased in 1915. We have used it solely for trench excavation, mostly hard blue shale and rock. This machine has gone through some real hard work and has stood up splendidly. We are pleased with both machines and feel that they have given us full satisfaction. Your service has been first class.

Top—Bottom template for foundation cylinder in place; piling after driving, showing center pile for locating driving mast
Bottom—Driven cylinder with top wooden form and concrete ring brace in position, also sand ejector in operation; filling cylinder with concrete

Installing the

Plan of foundations of Plant of Philadelphia Electric Company, showing extent of recent addition

for Delaware Station Philadelphia Electric

The Delaware Station Power House of the Philadelphia Electric Company is located on low-lying, wet land, previously used as a shipyard.

The first installation consisted of twenty-eight piers, each approximately 14 feet in diameter, and constructed within permanent cylindrical open caissons. Each caisson was composed of 42 pieces of Lackawanna 12¾in. x ⅜in. straight-web section in 32-foot lengths.

The steel sheet piling was assembled by means of cable way around two templates, one at ground level, the second at a height above ground of two-thirds the length of the steel, thus insuring accurate size of cylinder and plumbness of steel. After setting and closing the cylinder, the piling sections were driven short distances in succession down to bed rock, that is the piling was entirely driven before excavation was started.

In this way the piling of the cylinders was driven quickly and without interruption. Likewise the excavation of the material proceeded rapidly and without interruption, and the whole foundation job was accomplished with very satisfactory economy.

BETHLEHEM

Five cylinders being driven at once. Note the plumbness of the Lackawanna Steel Sheet Piling
John T. Windram, Architect; Stone and Webster, Builders, The Philadelphia Electric Co., Engineers

foundation piers

Power House of the Company—

When an addition to the Delaware Station was started in 1922, the general method that had proved so successful for the first foundations was adopted for the additional foundations. Open caissons, excavated in the dry and braced with circular steel rings, were used, with Lackawanna Piling in 40 and 45-foot lengths.

Economy and efficiency is obtained in foundation, pier, bulkhead and similar work by the use of Lackawanna Piling. Our piling engineer's experience covers hundreds of jobs, and they are ready to help on your piling problems.

"Jackhamer" drills used in Tennessee quarry furnishing stone for highway construction. These machines are drilling 10 ft. holes in hard limestone.

The Universal One-Man Rock Drill

"JACKHAMER"

A "Jackhamer" is the rock drill for all-around work. No contractor's equipment is complete without, at least, one of these machines.

One man can operate and work the "Jackhamer." He can run the drill wherever he can get a foot hold, and drill holes at any angle. The "Jackhamer" rotates its drill steel and cleans the hole of the cuttings.

For road construction—grading, quarrying ditching, trench digging—or for building excavation, tunnelling, block hole work, etc., use the "Jackhamer."

And, for furnishing air to your "Jackhamer" Drills use an I-R Portable Compressor—a compact, complete, easily moved air compressor plant on wheels, built primarily for the contractor.

Bulletin 4046 contains a detail description of the construction of the "Jackhamer" and of the work which it can do. Send for a copy now.

G-E Motors drive air compressors used in excavating for the Equitable Society Building, New York City.

G-E Motor drives hoist used in erecting the Home Insurance Building, New York City.

G-E Motor drives elevator used in constructing the Title Guarantee & Trust Co. Building at Jamaica, Long Island.

The Power of Progress

Modern business efficiency demands skyscrapers—modern construction efficiency utilizes G-E Motors to the utmost.

From the start of the first pneumatic drill eating into the living rock at the beginning of the excavating until the completion of the finished building, G-E Motors aid the builder.

They drive the compressors which furnish air for drills and riveters.

They operate pumps for draining excavations—derricks used at every stage of the job, from clearing the excavated material from where the foundation rests, to lifting the final structural girder on which some proud worker plants the flag—hoists for furnishing lumber, brick, concrete, tile and plaster—mixers, conveyors, and elevators.

And when the job is done, they are easily moved on to the next job.

Ask G-E engineers to help you select electrical equipment for your construction plant. You can reach them at G-E Sales Offices in all large cities.

8 Dorrco Screen Units for Los Angeles

to treat 80,000,000 gallons of municipal sewage per day.

The awarding of this contract is another indorsement of the Dorrco Screen which is steadily proving its superiority because of:

Lowest first cost per million gallons handled regardless of volume.

A minimum of moving parts.

Simple construction of screen and concrete work.

Self-cleansing —— no brushes, scrapers, nor water jets.

Minimum attention required.

Well drained screenings delivered ready for final disposal.

Dorrco Screening Plants are now in operation or under construction for the treatment of municipal sewage at:

New Britain, Conn.
Bethlehem, Pa.
Miami, Fla.
St. Petersburg, Fla.
Lodi, Cal.

RESEARCH TESTS DESIGN EQUIPMENT

Broome Caterpillar Sluice Gates

are seated by the action of gravity and the water pressure behind them, *the seat being inclined to the movement of the gate.* Adjustment screws at the lower end of the gate eliminate all sliding friction.

They have given years of efficient service. They are in operation in the United States and Canada, and many additional installations are being made throughout the country.

They are adaptable for penstocks, locks, flash-boards, flood control or any situation where sliding gates are used.

Pressure face of Broome Gate

CHAMPION Gate Hoists — hand and power operated — are the most up-to-date lifting units on the market.

VALVES

GOLDEN-ANDERSON
Pat. Automatic Double Cushioned Triple Acting Non-Return Valves

1. Prevent shut-downs due to reversal of steam flow.
2. Instantly close and isolate a boiler when a tube bursts.
3. Cut off steam flow from every boiler instantly when a steam pipe ruptures.
4. Automatically cut a boiler into line.
5. Prevent backflow into cold boiler
6. The only valves that can be tested in service.

Angle Globe or Elbow Pattern

GOLDEN-ANDERSON
Pat. Automatic Cushioned Water Float Valves

1. Automatically Maintain Uniform Water Levels in Tanks, Standpipes, etc.

2. Instantly Adjusted to Operate Quickly or Slowly.
3. Floats Swivel to any Angle—Most Satisfactory Float Valves Known.
4. No Metal-to-Metal Seats — No Water, Hammer or Shock.
5. Cushioned by Water and Air.

Sizes ½ to 30 in.

"No Metal-to-Metal Seats"

GOLDEN-ANDERSON
Pat. Cushioned Water Relief Valves

1. Automatically relieve excess pressure.
2. Prevent stress, strain and bursting of mains.
3. Correct mechanical construction.
4. Perfect air and water, cushioning.
5. No metal-to-metal seats. No hammering or shocks.
6. Angle and globe pattern. Sizes 3 to 30 in

Pumps Motor-driven? Use Golden-Anderson

Patented Automatic Cushioned "Stop-Starter Electric" Controlling Altitude Valves

These valves will "cut in" or "cut out" one or more driven pumps. Actuated by the fall or rise of water level in stand-pipes, tanks or reservoirs. Control pumps automatically from distant points if desired. By maintaining a constant water level, they stop water waste due to overflow, and also all unnecessary pumping. For high or low pressure. Air and water cushioned. No floats or fixtures. No water hammer or shock. No metal to metal seats. Solenoid furnished for alternating or direct current. Especially adapted for railroads, water works and industrial plants.

"No Floats or Fixtures"
"No Water Hammer or Shock"

Solenoid funished A. C. or D. C.

Sizes to 30 in.

Golden-Anderson Valve Specialty Co., 1202 Fulton Bldg., Pittsburgh, Pa.

Absolute Guarantee

GOLDEN-ANDERSON
Pat. Cushioned Electric Water Service Valves

1. Give instant control of water distribution from pumping station in case of fire.
2. Open or close by electricity from distant points —a.c. or d.c. circuits. Also close by hand.
3. No waste of electricity. Current is on only few seconds.
4. Cushioned in opening and closing.
5. No water hammer, shock, sticking, surging or chattering

"Hosts of References"

GOLDEN-ANDERSON
Pat. Automatic Cushioned Water Pressure Regulating Valves

1. Maintain a constant reduced pressure regardless of fluctuations on high pressure side.
2. Perfectly Cushioned by water and air. No metal-to-metal seats.
3. The best valve made for maintaining a constant low pressure where consumption is continuous.
4. Operates quickly or slowly as required—No attention necessary.
5. Positively no hammering or sticking. Sizes to 24 in.

GOLDEN-ANDERSON
Pat. Automatic Double Cushioned Check Valves

1. Especially adapted for Water Service.
2. For High or Low Pressure.
3. Thoroughly Cushioned. No chattering, Hammering, or Sticking.
4. Globe or Angle Patterns up to 30 in.
5. Especially adapted for hydraulic elevator service.

Save 14c Per Ton Loading With the Jeffrey Portable Belt Conveyer

One man and a Jeffrey "Portable" can load a 5-ton truck in 10 minutes. Doing this work by hand takes 3 men 40 minutes. Figuring then the cost of labor at 40c. per hour, the conveyor will load at a cost of 2c. per ton against 16c. per ton by hand, or an average saving of 14c. on each ton loaded.

A Few of the Important Features:

Easily operated Worm and Wheel Raising and Lowering Device automatically locks conveyer in any position.

Troughed Belt carries gritty material without injury to belt.

Strong sharp nose can be readily thrust into pile.

Steel Guard Plates protect lower strand of belt.

Chain Guard protects high-speed chain.

A light, rugged and inexpensive conveyer which will load, reclaim or store coal, coke, sand, gravel, crushed stone and smaller materials — unload cars — handle bricks, tile, small boxes and bags.

Gas Welded Pipe Joints

The use of gas welded joints in pipe lines has been adopted by many of the largest oil and natural gas companies.

Hundreds of miles of welded pipe lines are used daily with complete satisfaction.

Linde Service Engineers working with Linde users have played an important part in establishing standard practices for welding joints on all kinds of piping. The result of this practical experience in the development of gas welded pipe joints is placed within convenient reach of every Linde user through Linde Service.

Because of the unusual interest over the entire country for information about gas welded pipe joints the Linde Company has prepared a booklet which should be of interest to every large user of piping.

A copy of "How Welded Joints Solved Pipe Line Troubles," may be secured upon request from our nearest District Sales Office.

Linde Service is the logical development of Linde's Desire to give its patrons every facility and service in the use of Linde Products

INTERRUPTION REPAIRS FIRE

This is the Triumvirate that you always find seated around the Electric Elevator.

1. INTERRUPTION

The Superintendent of the Bureau of Engraving and Printing at Washington sent for us and said:

"WE WANT YOU TO PUT YOUR STEAM-HYDRAULIC IN PLACE OF THE ELECTRIC.

THE BUSINESS OF THE GOVERNMENT IS TOO IMPORTANT FOR THIS CONTINUAL INTERRUPTION"

How about your business? Well we guess so!

2. REPAIRS

There are no repairs to speak of with a Ridgway Elevator. Nothing to it to break and wear out and get out of order.

In 1914 the Remington Arms & Ammunition Co. put in 12 Ridgway Elevators. They were driven as hard as they could go day and night all through the Great War.

IN 9 YEARS THE REMINGTON ARMS CO. HAVE NOT HAD TO ORDER A SINGLE REPAIR FOR ANY RIDGWAY ELEVATOR

It is the same story with all Ridgway Elevators.

How about those elevators you have? Well we guess so.

3. FIRE

The electric elevator machinery is almost always in a dark place.

Electricity is the greatest Fire Fiend now devastating. Your paper daily has accounts of FIRES FROM THE ELEVATOR.

The Ridgway Elevator is operated by a small steam pipe, always harmless.

These are three of the many reasons why the Biggest and Best Concerns

SIX-YEAIR NDEX

of *Engineering News-Record*

To make the contents of past volumes available quickly *Engineering News-Record* has compiled a complete, classified index of articles published during the period 1917-1922, inclusive, beginning with the first issue of the journal formed by the consolidation of *Engineering News* and *Engineering Record* on April 5, 1917.

The index is now ready for distribution. It has been prepared solely as a service to readers. The edition is limited but while the supply lasts will be sold for $3.

Orders for the index should be send in immediately, addressed to "Index Editor, Engineering News-Record, 10th Avenue at 36th St., New York, N. Y."

Hydraulic Hoists and Steel Bodies

Wood-Detroit equipment in use exceeds all other makes combined. Installed on any chassis. See page advertisement in June 21st issue.

Wood Hydraulic Hoist & Body Co.

7924 Riopelle Street Detroit, Mich.

Recommended by All Leading Manufacturers

Cutaway View of Vertical Hoist showing screw jack principle of operation and automatic lubricating device.

OUR Mechanical Dump Truck Hoists, in vertical and horizontal types, have been quickly accepted as a means toward faster, better truck dumping. All leading truck manufacturers use and recommend Van Dorn Hoists and Bodies.

Truck users, distributors, and equipment dealers alike should have full information as to the mechanical principle and many important advantages of Van Dorn Mechanical Hoists.

Our new catalog covers this fully. It also illustrates and describes Van Dorn Dump Bodies for all purposes. Write for your copy—gladly sent free on request.

Dealers, write for information regarding our agency proposition

Double Your Fordson's Draw Bar Pull with

RIGID RAIL TRACKS

Rigid Rail Tracks Demonstrate Pulling Power

Equip your Fordson with Rigid Rail Tracks and you immediately double its draw bar pull and eliminate slippage. Removes the wet weather barrier—so muddy roads and rainy weather don't hold-up the job. Will turn in short space. Changeable steel track links interlock forming equivalent of solid steel rail. More work—less cost.

Compare the Cross-Section!

COMPARE the cross-section! Note that the Metaform road rail has more metal—greater weight per foot. But still more important, note how its design, with continuous web, lapped, welded and riveted, multiplies ordinary road rail strength. Note the extra sturdiness of stake boxes and joints.

Metaforms will far outlast any other road rail.

METAL FORMS CORPORATION

1893 TULSA·OKLA 1923

When a City "Arrives" It Wants "Lock Joint"

WHEN Tulsa, Oklahoma, consisted of a handful of buildings and a couple of handfuls of venturesome pioneers, in 1893, its water supply problems were not at all complicated. Tulsa did not change appreciably up to 1900. It looked very much as in the picture above. But then, with the finding of oil, Tulsa began to grow like a magic city until today its skyline looks as it does in the picture below. With that growth have come great and imperative water-supply needs and naturally, just as with dozens of other big cities, it has required the best in pressure-pipe lines. We are now installing at Tulsa

52½ miles of 54-in. and 60-in.

THE CANTON CULVERT & SILO CO.
MANUFACTURERS
CANTON OHIO U.S.A.

The A-B-C of
Culvert Engineering

Corrugated Culverts give to stress in any direction.

Corrugated Culverts endure pounding and reversals of stress better than any other type.

ARMCO Culverts have been proved uncrushable under a fill equal to diameter.

A Few culverts can have an adequate foundation. They are usually located in depressions filled high with silt. In most instances, it is totally impractical to dig deep enough to give any structure a bed-rock base in such a location.

B When foundations are at all adequate, they are usually the most expensive part of the installations—an expense far in excess of that required.

C There is but one type of Culvert that will endure without resting upon a solid base. The well made Corrugated Culvert resists the forces of shifting, heaving earth, settling, freezing and the weight and pound of traffic.

Stress may disarticulate a weak or jointed culvert.

ARMCO Culverts do not absorb water. They do not "weather" like porous materials.

Settling and earth creepage leave the Corrugated Structure efficient and unharmed.

and—

The A-B-C of
Corrugated Culverts

A The material of Corrugated Culverts must resist rust.

B Rust resistance requires high purity of the iron used, for two reasons—iron of high purity *resists rust of itself,* and it takes and holds more firmly a protecting coat of galvanizing.

C ARMCO Culverts are made of ARMCO Ingot Iron, the purest commercial iron produced, and of the highest UNIFORM purity. The ARMCO Culvert you buy tomorrow is made of exactly the same material that is found in ARMCO Veterans under the highways and railways of the world—the culverts that have made ARMCO the world's standard for durability and economy.

ARMCO CULVERT & FLUME MFRS. ASSN.
215 NORTH MICHIGAN AVE. CHICAGO

ARMCO CULVERTS

This Little Dot

If this rectangle were a sheet of ARMCO INGOT Iron, the little dot would represent all the impurities. If the dot were the least bit larger, due to the addition of any other material, the result would not be ARMCO Ingot Iron. ARMCO has less than 1 part impurities to every 625 parts of pure ferrite—less than 1 *ounce* of impurities to every 39 *pounds* of pure iron.

ARMCO
Ingot Iron

Wood Preservation Is Insurance

SERVICE

Sometimes one treatment is sufficient to protect timber against decay for a stated time. **Protexol**

For structural timber in trestles, bridges, tipples, etc., it must be expected that the timber will season check and so expose areas of untreated wood. **Protexol Protects**

Hence maintenance treatments in many cases consisting of spray treatments with highly concentrated preservatives are increasing in favor.

There is a right as well as a wrong way and there are some preservatives less volatile and less inflammable than others. **Protexol Protects All**

Bulletin 41 on Maintenance Treatments is based on 36 years of successful service on wood preserving problems. Your copy is waiting.

Vulcan Kilns are built with due regard to distribution of weight and to take care of overload. The roller bearings and driving gear are constructed to protect them from the unfavorable conditions under which they operate. The tire construction is original with Vulcan and has given excellent results.

This explains in part the wide popularity of Vulcan Kilns in every Kiln using industry.

Get in touch with Vulcan Engineers so that they can advise you on the type best suited to your conditions.

VULCAN OF WILKES-BARRE KILNS

UNIVERSAL SAFETY TREAD

STEEL OR BRASS FILLED WITH LEAD

A non-slip, non-removable lead surface presented at all stages of wear. Effective as a truly "safety" tread throughout entire depth. Remember, the lead at all times forms the principal wearing and tread surface. The steel (or brass) frame simply holds the lead and retards rapid wear. Can be used wherever a real safety tread is desired. Made in sections up to 12 inches wide in one piece.

"MITCO" INTERLOCKED
For Permanence

Mr. Coal Operator:

Don't put wooden Floors, Galleries and Stairs into your new Breaker. You have spent real money to make it fireproof, but the structural steel frame will be only a mass of twisted junk if fire breaks out and feeds on such wood construction.

All Floors, Galleries and Stairs should be opened up by the liberal use of non-clogging, non-slipping, ventilated steel flooring and stair treads, with rectangular openings that will not catch and hold dust and small sizes of coal, for, if this refuse becomes moist, sulphuric acid will form in intimate contact with the metal, with destructive results.

"MITCO" INTERLOCKED Gratings and Treads are ideal for such installations. The fine new Breaker of the Lehigh Coal & Navigation Co. at Lansford, Pa., is provided throughout with **"MITCO" INTERLOCKED,** which gives "the finishing touch" to this modern example of what a Coal Breaker should be. Cut shows one of the galleries.

University of Montana Library Building, Missoula, Mont. Architects, McIver & Cohagen, Billings, Mont. Contractors Nelson & Pederson, Butte, Mont. Berloy ¾-in. Ribplex being used as forms and reinforcement for concrete roof slab.

¾-in. Ribplex sheets have a covering width of 24 in. The ribs nest together at sides and ends to make a firm splice. Standard lengths of sheets are 7, 8, 9, 10, 11 and 12 ft. Made in both Open Hearth Steel and Toncan Metal in 24, 26 and 28 gauges. All Berger branches carry stocks.

Practical Economical Concrete Roofs

The use of concrete slab for flat or pitched roofs offers no serious problems when ¾-in. Ribplex is used as form work and reinforcement.

The stiff ribs and mesh offer an element of added strength to the roof and with the exception of temporary supports under long spans no form work or centering is necessary.

In many cases the construction is back plastered beneath to form a very satisfactory ceiling.

¾ in. Ribplex is also used to excellent advantage in the construction of floors, walls, solid partitions and similar work. Ask our nearest office for Ribplex Bulletin F-24, which gives complete information with load tables and construction details.

BERLOY
RIBPLEX REINFORCEMENT

IF ALL metal protective paints carried the same price per gallon, which would you select? Naturally the one with the best service records back of it. The initial price would not be the deciding factor, and in no case should it be.

When you pay a fair price for a product, whose service records make its quality unquestioned, then you are assured of service.

SUPERIOR GRAPHITE PAINT —the leader in the metal protective field—is not made to fit a price, but it does render service. Back of this statement stands its demonstrated value.

SUPERIOR GRAPHITE PAINT is specified and used more and more every year, because discriminating engineers—and building owners as well insist on service, and are willing to pay a fair price for it.

Summed up in one thought—the use of SUPERIOR GRAPHITE PAINT eliminates the hazard of experiment.

$100.00 REWARD

ONE HUNDRED DOLLARS will be paid to the first Maintenance Engineer in America who can disprove any claim made for NOLENE—the wonder Industrial Paint.

THE STORY OF NOLENE reads like fiction. From an humble beginning on Jim Nolan's Ohio farm, NOLENE is destined to universal adaption wherever protection from heat, acid, water or the elements is desired.

TO ACQUAINT all Maintenance Engineers with NOLENE, we have prepared a booklet, "The Story of NOLENE" which will be sent free of charge to any address. Just use the coupon.

Here's What is Claimed for NOLENE

Nolene will withstand a temperature of 900° F.

Nolene will withstand 10% sulphuric acid for five days or longer.

Nolene will withstand 50% acetic acid for five days or longer.

Nolene is the best protection for composition roofs.

Nolene is a waterproof paint.

Nolene will outlast other industrial paints.

Nolene is the best protection for all metal buildings, regardless of cost.

Nolene will prove its merits in direct comparison with any industrial paint in the world.

Nolene can be readily applied on either hot or cold surfaces.

Nolene is sold on an absolute money back guarantee if it fails in any respect to meet all claims.

WRITE OR WIRE the Nolene Company, Youngstown, Ohio, for estimates on large painting jobs. Compare the price with any other paint, regardless of quality, and note the tremendous saving. Although NOLENE is an exceptional industrial paint and will meet the most exacting tests, the cost of manufacture is kept at a minimum and NOLENE is sold direct to the user at an unusually low price.

THE FIREPROOF VENTILATING FLOORING

Each member of a panel of Irving Subway has the support of every other member — the trussed arrangement does it. Each steel strip —receiving a blow or pressure edge on — is prevented from bending side-wise or buckling by the adjacent strips solidly riveted to it. Thus any load—however concentrated—is distributed over the whole panel. And a load which would flex any individual member is carried with ease and safety. Irving Subway, weight for weight and span for span, is the strongest grating or open flooring made. Let us send Catalog 3A5.

R.I.W.

REMEMBER IT'S WATERPROOF

REG. U.S. PAT. OFF.

Equitable Bldg., New York
Graham, Burnham & Co., Architects

These Floors Do Not Crumble

The floors in the Equitable Building have retained their hard smooth surface, despite the heavy wear they are subjected to. They have been protected with

R.I.W. REGISTERED

CEMENT FILLER and CEMENT FLOOR ENAMEL

"R.I.W." Cement Filler hardens the floors into a homogenous surface that prevents dusting and disintegration. It is used as a priming coat on dry porous floors. "R.I.W." Pigmented Cement Filler is applied as a priming coat on dry, well-finished or dense concrete floors.

"R.I.W." Cement Floor Enamel is applied directly over the priming coat of "R.I.W." Cement Filler or "R.I.W." Pigmented Cement Filler to make the finished floor lustrous and glossy and resist wear and abrasion.

The Government Bureau of Standards has tested "R.I.W." Concrete Floor coatings and we will gladly send you a copy of this report.

We invite the opportunity to demonstrate Toch's Floor Protection Methods under actual service conditions. Specify "R.I.W." Products and be sure.

Write Dept. R. for details.

Here's the way you've always felt a Compressor should be mounted!

The TRAYLOR PORTABLE GASOLINE COMPRESSOR

If you've ever had a compressor wracked to pieces by the bumps—thumps—jumps of transportation, you'll welcome this "rubber heel" mounting with the sturdy wheels, axles and springs to back it up! This is the last word in compressor efficiency now—this is the perfected Traylor, with the slow speed, horizontal straight-line drive, worm gears and pump for delivering water under pressure. Runs equally well on gas or current. *Write for Bulletins.*

"Sullivanize" Your Drill Steel

Sullivan Drill Steel Furnace and Drill Sharpener, showing compact installation.

DON'T handicap your rock drills or delay your runners by using steel that is improperly heat-treated, badly formed or poorly sharpened.

Train your blacksmith to put as much footage as possible into each steel he sends on the job.

Sullivan Furnaces and Sharpeners Provide Drill Steel Quality Insurance

The Sullivan oil or gas Furnace heats the steel gradually, evenly, while electrical devices prevent overheating or burning, and indicate, also if the steel is **not** hot enough for working or tempering.

The hammer-forging action of the Sullivan Sharpener refines the grain of the metal, and with each repeated sharpening renders it tougher, less liable to wear or breakage.

Sullivan-sharpened bits are made to exact shape and gauge by tool steel dies and dollies. They "follow" accurately in the drill hole.

With the Sullivan gauging device, genuine double taper bits are quickly and correctly formed, providing increased drilling speed.

Sullivan Furnaces and Sharpeners insure that each steel is of uniform hardness, of exact shape, that the steel quality you paid for is preserved and that you will obtain the maximum feet of hole from each steel.

Sharpeners, Bulletin 472-E

Furnaces, Bulletin 474-A

Compressed Air at Minimum Cost!

THE price you pay for compressed air depends on the cost of air compressor maintenance and operation.

It is traditional of Westinghouse-National Compressors that they remain in perfect running condition for years without requiring expensive repairs or replacements.

As to cost of operation—figuring power as the chief item—our distinctive Automatic Control effects a saving that is quickly reflected in production costs.

ABOVE
Exterior view 3VS Compressor, furnished in low pressure sizes of 250 to 520 cu. ft. displacement; high pressure sizes, 150 to 335 cu. ft.

It's a Comfortable Sort of Feeling

Makes you feel kinda good to know that the company you've bought a machine from is going to take care of you. Here's a contractor way out in Los Angeles—Harper D. Churchill. He wrote us:

"I chose a Buckeye after carefully checking their performance and specifications. At this instance, I wish to go on record that the Buckeye organization is the squarest and easiest to do business with that I know of. Your wants are taken care of promptly and efficiently. They make you feel as though they are interested in your welfare. This alone would make us give them all our business."

That's putting it pretty "strong." But you'll find most Buckeye owners *strong for Buckeyes* and the *service* that goes with 'em. Put a Buckeye on your next job—you'll find we're right when we say "you'll always be glad you bought a Buckeye."

Going Down!

Cost of back-filling *going down* when a Buckeye Back-Filler hustles the dirt back where it came from. Here's a one-man machine that *one man can run*. Turns in its own length. Boom has 160 degree swinging range. Full length multiplane traction and *plenty* of *power*. Complete details in the Back-Filler Booklet. Shall we shoot you a copy—today?

When the digging looks "*Too tough for a clamshell*"— use the WILLIAMS *Hercules*

Take the advice of concerns like the Kirkpatrick Sand & Cement Company, who have tried out different makes of buckets in the hardest digging. They will tell you that the WILLIAMS "Hercules" has dug successfully in material that was too hard for an orangepeel.

The "Hercules" digs hardpan, tough clay, cemented gravel and imbedded boulders.

If you have hard excavating to do, you don't have to experiment. The experience of many contractors has demonstrated the ability of the "Hercules" to dig hard materials—and the *reliability* of this powerful bucket is covered by the regular WILLIAMS guarantee: *All parts guaranteed against breakage.* What other bucket but a WILLIAMS can you get for the hardest kinds of excavation, with a guarantee like this behind it?

If you are going to have some hard clamshell excavation, just describe the work and we will tell you what you can expect to do with a WILLIAMS "Hercules". Write us.

"In the past 15 years, we have tried many different makes of clamshell and orangepeel buckets, but we have found that the WILLIAMS clamshell is the best digging bucket we have ever used." *A. Mohan, Kirkpatrick Sand & Cement Co., Birmingham, Ala.*

The WILLIAMS Closing Arm, with sheaves in tandem, gives the "Hercules" unrivalled power for biting into hard materials.

Our 60-page catalog describes the WILLIAMS "Hercules," and other WILLIAMS 1-line, 2-line, 3-line and 4-line clamshells. It contains interesting photos, blueprints and descriptions of the 12 standard types of clamshells in the complete WILLIAMS line—for any class of work, any kind of crane or derrick. Write for Catalog N.

OWEN

RAILROAD CONTRACTORS

prefer the Owen Bucket because of its adaptability to the work at hand. They have found the "Owen" equally efficient when loading or unloading sand and crushed stone as when digging for abutment footings. They buy *one* bucket now for both classes of work where *two* types were used heretofore because the "Owen" adjustable features of weight, digging power and closing speed enables it to meet every material-handling requirement in the wide range of work encountered in railroad construction. This feature is illustrated and briefly described under Reason No. 4 in Pamphlet No. 11. This is one of 8 reasons based upon 8 new and exclusive features of bucket construction, outlined below, contained in this pamphlet covering our Type "J"—The Railroad Contractor's Bucket. Act now. Get Pamphlet No. 11 for your file today.

THE OWEN BUCKET COMPANY
533 Kirby Bldg., Cleveland, O.

THERE ARE 8 REASONS

why Owen type J Buckets Cost Less to Operate, are more durable and insure a bigger day's work.

1. 60% of entire weight is in the center, and at the lowest point of the bucket when open.
2. Undiminished closing power of five to one.
3. Lever type arm brackets increase digging power.
4. Closing speed, digging power and weight adjustable.
5. Fair leads to closing cable insure maximum life.
6. Cutting edges or teeth hit the material first.
7. V-shape arm construction preserves rigidity.
8. Hinge assembly guaranteed unbreakable.

Color and Turbidity of Water Determined with Accuracy

Water is often "colored" by vegetable matter or "turbid" from mud and silt carried in suspension. When water is used for a municipal supply, color and turbidity are always objectionable; when furnished to industries either quality is usually harmful to the products.

The U. S. Geological Survey Design Color and Turbidity Determining Instruments based on the Platinum-Cobalt methods of color measurement devised by Allen Hazen, C. E., make possible at small cost the scientific determination of color and turbidity of water.

We are prepared to furnish complete sets of these instruments packed in neat, pocket-size cases ready for immediate use in the field.

TRADE JENKINS MARK

Jenkins Bros

Automatic Equalizing Stop and Check Valves

(Also known as "Non-Return" Valves)

Sectional view, Fig. 293. Extra Heavy Iron Body Automatic Equalizing Stop and Check Valve, Angle Pattern.

This valve automatically shuts off the flow of steam from header to boiler in case a tube should burst or other internal rupture occur, thereby suddenly reducing the pressure in that boiler. They prevent one boiler from working at a lower pressure than another.

Their installation makes it impossible to accidentally turn steam into a boiler which is being cleaned, because the valve can be opened only by the pressure in the boiler to which it is attached.

Made in extra Heavy Globe and Angle Patterns — Iron Body for working steam pressures up to 250 pounds; Cast Steel up to 350 pounds.

CHLORINATION BREVITIES

340,000,000 Gallons of Water are Sterilized Each Day at the Dunwoodie Installation of W & T Apparatus for New York City's Water Supply

BEFORE chlorination the typhoid fever death rate in the cities of the United States was over 25 per 100,000.

Now with chlorination it is less than 5.

The only safe water supply is one that is sterilized.

Number Two of a series of four advertisements explaining the adaptability of Simplex Pitot Tube Meter as an accurate hydraulic measuring device.

THE SIMPLEX PITOT TUBE METER

Cut shows standard Simplex Meter Register connected to a Simplex Pitot tube which is inserted in the pipe line.

is adapted for use in water mains of any size, and for the measurement of water at any pressure and at any velocity down to ½ foot per second. It is widely employed for metering flow in:

Discharge mains from pumping station and filtration plants:

Pipe lines from storage dams and reservoirs:

Distribution mains within city limits:

Water supply lines in industrial establishments for recording the total water supplied to the entire plant, to sections of the plant, or the water supplied for special purposes, as for condensing.

Interesting data on "Pitot tubes and their practical application" sent upon request—

"Simplex Installations Give Satisfaction."

. . . So They Asked FEATHER

(Reg. U. S. Pat. Off.)

Valve Owners

The Brooks Callaway Co., of Atlanta, Georgia, wanted an air compressor. They telegraphed several firms who had used Worthington FEATHER Valve Compressors and asked these users what they thought of their machines.

Here are the Replies:

We have two Laidlaw Feather Valve Compressors which are giving perfect satisfaction.

Concerning your wire of the twentieth, we have two Laidlaw Feather Valve Air Compressors manufactured by Worthington Company in service for two years which have given entire satisfaction.

We have 3,000 feet Laidlaw Feather Valve Compressors; three purchased 1915, three purchased 1920. Service exceptionally favorable. Maintenance very low. Efficiency very good.

We are using Feather Valve Compressors for air and amonia and giving repeat orders. We know of nothing better for a valve. The details of the rest of the machine should vary according to your particular service and price you wish to pay.

We have one 800 cubic foot steam-driven Feather Valve Compressor and one 3,000 cubic foot motor-driven compressor, operating at 120 pounds period with our conditions. Both machines operate very satisfactory.

Your telegram June 20th. We have found Laidlaw Feather Valve Compressor quite satisfactory and can recommend it.

Our operating experience with Laidlaw Air Compressors satisfactory.

Eleven Laidlaw Feather Valve Compressors has been generally satisfactory on this work for three years.

Our experience with Laidlaw Compressors and Worthington Pump and Machinery Company have been most satisfactory. Have nothing unfavorable to report.

Examine this new estimator's guide for 10 days FREE

This is a new book—a companion volume to Gillette's HANDBOOK OF COST DATA and Gillette and Dana's MECHANICAL AND ELECTRICAL COST DATA. There is no duplication of material in the works.

Published November, 1922

Gillette's

Handbook of Construction Cost

By H. P. Gillette

1734 pages, 4½ x 7, flexible, illustrated

$6.00 net, postpaid

(A McGRAW-HILL BOOK)

This new Gillette book tells you how to make an estimate on a construction job, and then gives you accurate, detailed costs of actual jobs. These costs are so analyzed and itemized that you can easily make your own rate substitutions to allow for variations of time and locality.

There are twenty-three chapters of detailed costs of actual jobs covering every phase of construction work from hauling and excavating to painting bridges.

In addition to this priceless cost information there are two chapters that

(1) show the value of using accurate cost data.
(2) explain how to make a rapid and preliminary estimate of cost;
(3) give a typical complete cost estimate as an example;
(4) discuss factors a contractor should consider in making estimates;
(5) give Mr. Gillette's formula for commodity price levels and also his formula for wage levels.

Just fill in and mail the coupon

Good Piping is Essential

NAVCO SQUARE LAP

One of the greatest causes of failure in piping outside of poor general design is in the joints.

For this reason we developed the **NAVCO SQUARE LAP JOINT** which is used in all our piping installations. From the drawing you can see that the square joint gives a gasket area of 100%, the gasket is self-centering, and line friction losses at the joint eliminated. The lap is machined on both sides, making a permanent joint and eliminating unequal strains. All pipe is annealed to relieve internal strains.

All in all—NAVCO Joints become the strongest part of the pipe line—no steam losses here.

If you would run your Power Plant on an economical basis it will pay you well to look to your piping. Not only is the actual loss of steam a considerable item, but the time lost in shut-downs for repairs runs into many hundreds of dollars in a year's time.

This amount is the difference between good piping and poor piping — well designed and installed equipment against faulty designed and installed equipment.

Would it not be well to know that your piping is going to be efficient and do the service for which it was intended before you install it?

Call on our engineers. Out of many years of experience their advice will be found of value. They will work with your consulting engineer or design and erect the job themselves.

Send for our Catalog "Dimensions for Piping Equipment." It contains much information that will be useful to anyone dealing with Power Piping.

Heat Won't Hurt It!

During these hot July days you need an instrument that heat; dust, wind and rain won't put out of business. The *weatherproofed* Beckmann is just such an instrument.

Ask for Catalog GR-81

The L. Beckmann Co.
700 Jackson St., Toledo, Ohio

ALLEN RIVETERS

"Whatever the Riveting, there's an ALLEN for the job."

Let us quote on your present needs

JOHN F. ALLEN CO. 372 GERARD AVENUE NEW YORK

Right hand motion required to draw two 8" lines at right angles using T Square, Triangles etc. (Reduced size.)

Right hand motion required to draw two 8" lines at right angles using Universal Drafting Machine. (Reduced size.)

Annoying Interruptions Driven *from* Drawing Boards

CONSIDER the right hand motions and interruptions to draw two 3-inch lines at right angles by using the old-fashioned method.

First, the T-square is put in position on the board, a line drawn, square removed, scale picked up, line measured, scale laid aside, triangle set in position, vertical line drawn, triangle set aside, scale again picked up, vertical line measured, scale put down.

If either line is more than three inches in length, the eraser is brought into play and part of the above operations repeated.

Contrast this round-about, monotonous method of drawing these two lines with the way it is done by a Universal Drafting Machine. The machine is placed in position and all the right hand does is draw the lines to required lengths as indicated on scale. All accomplished with two operations of the right hand.

You can have a Universal Drafting Machine sent to you for free trial. Write for our new 1923 plan.

UNIVERSAL DRAFTING MACHINES

UNIVERSAL DRAFTING MACHINE CO., CLEVELAND, O.

WHEN you put your faith in a Curley Transit you are following in the footstep of a great army of the best American Engineers to whom, since 1845, a Gurley has been the faithful and unfailing tool and companion in every land on the face of the globe.

You ought to have a Gurley Catalog. Have you?

W. & L. E. GURLEY **Troy, N. Y.**

GURLEY

Transparency Strength and Drawing Surface

These are three essential qualities which you will find combined to the greatest possible extent in

"IONIC"

Tracing Paper

It's ivory tinted, with slightly grained surface suitable for either ink or pencil. Very tough and transparent, it can often be substituted for tracing cloth.

— Makes good blue prints —

Furnished in two thicknesses, thin or medium, in rolls and sheets.

THIS COUPON

attached to your letterhead will bring full size samples.

GOOD FOR FULL SIZE SAMPLE of IONIC Tracing Paper

KEUFFEL & ESSER CO.

NEW YORK, 127 Fulton Street. General Office and Factories, HOBOKEN, N. J.

CHICAGO 215-217 S. Dearborn St. ST. LOUIS 817 Locust St. SAN FRANCISCO 30-34 Second St. MONTREAL 2 Notre Dame E.

Drawing Materials, Mathematical and Surveying Instruments, Measuring Tapes

Every Blue Print an "Original"

in the sense that every smallest mark stands out as clearly, or even clearer, than it did on the original tracing,—characteristic of blue prints produced by the Wickes Continuous Electric Blue Printer.

Prints are made by direct exposure to a mercury vapor lamp, without intervening glasses, lenses or reflectors to absorb the light. Perfect contact between tracing and print assured by self-adjusting belt. Fully automatic in operation and prints any length 2 to 48 inches wide.

A good blue print is the beginning of a good job

Get the details of the Wickes System.

1856 **WICKES BROTHERS** 1923

Carey Elastite

TRADE MARK REG. U.S. Pat. Office

EXPANSION JOINT PROVED AND ACCEPTED

Carey Elastite Expansion Joint, cushions the slab against the shock of traffic.

The traffic impact shatters the unprotected joint.

A concrete road or city street expanded to the extreme in severe summer temperatures is under great stress at the joints. Every shock of traffic shatters and breaks down the edges of the concrete slabs—unless the joints are Carey Elastite Expansion Joint.

Carey Elastite Expansion Joint helps rigid pavements bear heavy traffic

THE pulverizing impact of tons of traffic dosen't injure the road with Carey Elastite Expansion Joints. Carey Elastite Expansion Joint resiliently cushions the concrete slab against shocks, strains and stresses, besides relieving stresses of expansion due to high temperature, preventing cracking of surfaces, and keeping joints water-tight and frost-tight in cold weather, thus protecting the sub-grade.

Carey Elastite Expansion Joint is a body of tempered asphalt sandwiched between two layers of felt. This construction prevents Carey Elastite Expansion Joint slabs from melting or sticking together in hot weather and from chipping or breaking in cold temperatures, as ordinary asphalt slabs will. Send for sample and list of cities where Carey Elastite Expansion Joint stocks are maintained for immediate shipments.

THE PHILIP CAREY COMPANY
18 Wayne Avenue, Lockland, Cincinnati, Ohio

To do your work *best* at *least* expense

THE du Pont Company manufactures a complete line of explosives to meet every one of the varying requirements of blasting work. Du Pont business is built on the principle of furnishing the explosive to each customer that will do his particular work best at least expense. For example—

DUMORITE

Dumorite will save you money if your work is adapted for it. It runs 135 to 140 sticks to the case as against 100 for "40%" and shoots stick for stick with it under ordinary conditions. Dumorite is non-freezing and non-headache, and is being used successfully in most kinds of blasting operations.

DU PONT GELATIN DYNAMITE

Plastic and absolutely waterproof, du Pont Gelatin is unequalled for close shooting underground, for hard and tight places and intensive work. Recent improvements have reduced the fumes materially, increasing production time and lowering output costs. Now practically non-freezing.

RED CROSS AMMONIA DYNAMITE

Its splendid all-around qualities have made Red Cross the most popular of all high explosives. Used successfully in practically every type of operation. Now manufactured on a new "low freezing" formula—which should be called "non-freezing" as our laboratories have not been able to freeze Red Cross yet at any atmosphere.

Nitroglycerin, ammonia, gelatin and other types of explosives designed to meet every blasting requirement at least expense.

"They go beyond anything yet published in this line"

One enthusiastic engineer who sent for these two great volumes for ten days' free examination, wrote us, when he sent his remittance for the books, as follows:—

"I find these books are all you claim for them and more too. They go beyond anything yet published in this line."

What we claim for Hool and Johnson's

HANDBOOK of BUILDING CONSTRUCTION

1.—The two volumes describe thoroughly modern building design and construction down to the smallest detail.

2.—They offer architects, construction engineers, contractors and builders a body of information on practical construction that has never before been even approximated.

3.—Principles, methods, costs, tables and reference data are all spread out before you in these two handy books for quick reference and constant use.

4.—The records, the experience, the methods of hundreds of big engineering companies and leading construction engineers have been incorporated in this handbook.

5.—It is a digest of the best approved practice of modern building construction.

Pay for these books as you use them

$4.00 in 10 days and $3.00 monthly for two months

Examine it for 10 days FREE
No money down
Small monthly payments

Fill in and mail the attached coupon and we will forward the two volumes of this handbook for ten days' free examination.

Look the Books over thoroughly. Test them out in your work. At the end of ten days you may return the books or send us your first remittance of $4.00. The balance of $6.00 you send us in two monthly installments of $3.00.

Here is one of the most important engineering books published in recent years—let us urge you to take advantage of this opportunity to examine it for ten days free.

No agents—no follow-up—no red tape. You alone decide the value of the work to you. Send the coupon now and we will see that the books are in your hands promptly.

Two Volumes (not sold separately) The work of 46 specialists 1474 pages, 6 x 9 flexible, fully illustrated, $10.00 per set

FREE EXAMINATION COUPON

McGraw-Hill Book Co., Inc.
370 Seventh Avenue, New York

Send me on 10 days' approval, Hool and Johnson's **Handbook of Building Construction** (Two Volumes $10.00). I agree to return the books postpaid in 10 days or to remit $4.00 in 10 days and $3.00 monthly thereafter for two months.

FAIRCHILD Aerial Maps Save Surveying Costs

"WE estimate that about half the cost of surveying has been saved by aerial maps," writes the Superintendent of the Pennsylvania Water & Power Company, referring to their proposed 150-mile Power transmission line route.

"NO preliminary surveys were run in the field. The alignment was practically fixed in the office on the map . . . We believe the saving of the preliminary survey would not be possible were it not for the accurate alignment of the photographs" . . .

Exactly what these advantages are, we are prepared to lay before Engineers and Municipal Officials, in detail, as regards line projection, property outlines, accuracy in deeds, rapid re-location of lines, securing good-will, etc.

A fleet of Tarvia Motor Trucks at the Chicago Plant.

"What Do You Mean by Tarvia Service?"

HUNDREDS of men interested in the building and maintenance of good roads have asked us this question. Here is the answer.

First of all, Tarvia Service means that we put at your disposal the skill of highly trained road engineers—men with years of experience in all types of road construction. Without obligation, these men will assist you in solving your road problems—construction, maintenance or repair.

The next phase of Tarvia Service—and a most important one—is the prompt dependable delivery which the strategic location of our branches assures. Moreover Tarvia is shipped in the form most practical to your requirements—by our own fleet of tank cars, in barrels or by motor trucks.

Where it is delivered by motor trucks, we follow a truck-dispatching schedule as punctual and dependable as that of the great transcontinental trains. These trucks are manned by trained experienced crews who lend their skilled cooperation in the application of the Tarvia.

In brief, Tarvia Service is a real aid to the road officials of any state, city, town or community where prompt, efficient road construction is the need. A line to our nearest branch office will start the wheels moving.
